MEMO TO FILE

January 27 1995
Transfer No. 4521 - Spratling Farms
Employee: Jeanie Robertson
Water Right Agent, Adjudication

I have visited this property several times and confirmed the areas irrigated with ASCS maps and verified the location of the wells. There are two wells located in the NWSE Section 7, one is not in use at this time. The pump has been pulled from this well but they did indicate that they may put it back into use. I support the acres found to be irrigated on the maps and intend to recommend them that way.

TO: File

SUBJECT: Spratling Farms Transfer App.

FROM: Jim Stanton

DATE: 12-14-94

I am reviewing this transfer prior to advertising. As filed, the transfer showed a well in the NE/SW S. 7, but there is no log or other records of this well. Mr. Spratling was in today with proof of ownership, so I asked him about this. He indicated that the well location was incorrect, and that it is actually east of the well now in use near the center of the section. The mis-located well is not in use now, but will probably be rehabilitated so that it can be put back into service.

The SRBA staff is presently doing verification work on this property. So far, they have looked at the wells and marked the existing P/U on aerial photos. The well locations have been verified. No flow determinations have been made. Pivot corners are in CRP protection now, so would probably be recommended by SRBA. If this transfer is approved, most of the corners would no longer be irrigated. With SRBA work in progress, probably to be completed next summer, I do not plan to visit the property. As long as future irrigation on this farm does not exceed the 1092 acres as proposed, the transfer should not result in expansion of water usage. Water rights are ultimately subject to SRBA findings, of course.
