THE STORAGE PORTION OF THIS RIGHT WAS LICENSED UNDER 55-02163 FOR
1600 AF. THE LICENSE READ THAT 55-02163 SHOULD BE CONSIDERED AS

WE ARE RECOMMENDING THE 1600 AF, HOWEVER, SINCE VERY FEW ACRES

THIS IS CONSIDERED AN ACCOMPLISHED TRANSFER.

D55-2169, D55-2181, D55-7002, D55-7009

Dear Mr. Jackson:

Enclosed are certificates of approval for storage of water behind Big Blue Creek, Little Blue Creek, Squaw Creek, and Shoofly Dams. The Department has issued these certificates in accordance with Title 42, Chapter 17, of the Idaho Code.

Recent inspections of these dams revealed that some of the maintenance work requested in our June 20, 1980, letter to you has been completed. More work is needed, however, especially at the Alder and Paine Dams which have become heavily overgrown with brush and willows.

Because of the remote locations of the dams and because of their low hazard potential, we will reissue some of the storage certificates. Maintenance programs must be continued at the dams and a major portion of the following specific work completed:

- 1) All large growth (trees, willows, brush, etc.) shall be killed and then removed to ground level from the embankments of all of the dams.
- 2) Burrowing animals must be eliminated from the fills by poisoning and/or trapping them. All large burrows must be completely filled in and compacted with good earth material.

Other work or maintenance which must be performed at specific dams is, as follows:

ALDER DAM (D51-2002)

- 1) Alder Dam must be made high priority for maintenance because of its deteriorated condition. A storage certificate will not be reissued at the dam until the embankment has been cleared of all large growth.

MICROFILMED

- 1) The seepage areas along the toe of the dam near the downstream end of the outlet pipe shall be cleared of all large growth and the seepage monitored regularly.
- 2) Any sudden increase in seepage flow must be immediately reported to this Department.
- 3) Some erosion due to wave action was evident along the upstream face of the dam. It did not appear to be serious at this time; however, it should be watched closely and material and/or rock riprap added to these areas where wave erosion persists.
- 4) The wooden gate control structure for the spillway gates appeared to be deteriorating slightly. The structure should be watched closely and maintenance performed on it as necessary.

BIG BLUE CREEK DAM (D55-2016)

- 1) The outlet gate control stem must be repaired in the near future. As discussed with you previously, the stem shall be encased and buried for protection from damage by ice.
- 2) The outlet pipe entrance structure appears to be on the verge of collapsing and this must be investigated and repaired as required.

FROMM DAM (D55-2163)

This dam was remeasured and found to be too small for our jurisdiction; however, routine maintenance should be performed to keep it in satisfactory condition for storing water.

PAINE CREEK DAM (D55-2169)

The outlet gate controls shall be repaired so that the outlet gate can be easily operated. All large growth (willows and brush) must be removed from the embankment dam to eliminate rodent cover and allow a thorough inspection. Reissuance of a storage certificate is pending completion of the maintenance and repair work.

SQUAW CREEK DAM (D55-2181)

The only maintenance required is continued control of all large growth on the embankment.

Mr. Pete Jackson

Page 3

SHOOFLY DAM (D55-7002)

- 1) The staff gage shall be installed once the reservoir is drawn down.
- 2) Large brush shall be removed from the dam as necessary.

BYBEE DAM (D55-2035 AND D55-7009)

A certificate for storage behind the Bybee Dam will not be reissued at this time since construction of the new dam is planned for this summer and fall. Please keep me informed and let me know when construction begins, so inspections can be scheduled.

Following the expiration of the certificates, the dams will be reexamined. A major portion of the work outlined above must be completed at that time or the Department may restrict use of the facilities.

Please let me know if you have any questions.

Also, please notify me as soon as work is initiated at Alder and Paine Dams so that I may reinspect and certificates may be reissued prior to the next irrigation season.

Very truly yours,

A. Michael Stubblefield
