This claim can be recommended based on Right # 51-02002.

A-51-02002 on the field exam conducted in 1920 it shows the reservoir was in & situated at 1440 ft. The landowner the addition of storage to license rights that reflected in the old log on the water right is documented on the original licensing indicated in the water right. At the time this license was issued, the amount for the storage reservoir was not included as a part of the license. Procedures have changed & now they are always included. Since the reservoir has been through the licensing & also mentioned & documented on the exam, this

She might be being recommended with the priority date of the license. The license was not suspended by the Bureau for several years prior to the time it was issued after the 1920 commencement of that decree. Maybe, that is not suspended.

RE: Snake River Basin Adjudication
Owyhee County - A51-10293

Affidavit to the file:

At the time of the purchase of Riddle Ranches in 1953 it was my understanding that Alder Reservoir was a part of the Duck Valley Irrigation system and had been from the beginning. Without the reservoir the irrigation system would not work. We are filing for Beneficial Use for it because a storage permit was not required in the past and application was never made.

I do solemnly swear or affirm that I am President
of RIDDLE RANCHES, INC., that I have signed the foregoing Affidavit in the space below as President of Riddle Ranches, Inc. and that the statements contained in the foregoing Affidavit are true and correct.

Ans. From the beginning all of the water of Squaw Creek is picked up and conducted onto the land by canal and laterals. Squaw Creek water is sporadic, and hence is difficult to estimate in any unit of measurement.

Dear Pete:

Enclosed is an Affidavit that should work okay with Department of Water. I did talk with Jan some time ago and took her the water filings I found in Owyhee County. She said she would change the claim rights to the correct dates herself. I do believe she is quite trustworthy. Ed Riddle indicated he would give you an Affidavit if you require it. Let me know.

I did not get this Affidavit done sooner since we have had a death in the family and may have another; if you should call and I'm not here, chances are we have gone back to Iowa.

If the Affidavit meets with your approval, have it notarized and mail it to the attention of Jan Shurte, Dept of Water.

This should take care of the remainder of the problems. If you have any questions, please let me know.

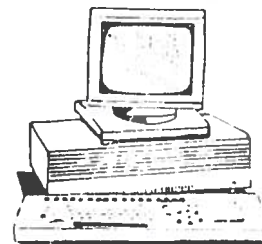

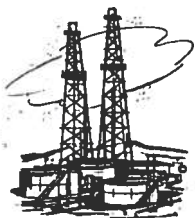

I would appreciate it if you could take care of the enclosed statement soon. Thank you.

Very truly yours,

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.

Case No. 39576

) Subcase See Attached Exhibit List

) ORDER RE: SCHEDULING

At a regularly scheduled Initial Hearing held in Murphy, Idaho on November 19, 1998, the parties and their counsel together with staff from the Idaho Department of Water Resources (IDWR) met and agreed to attempt to resolve the objections in these cases informally. Toward that end, the parties have scheduled a settlement conference with IDWR for January 20-21, 1999, at the IDWR offices in Boise. Because some of these affected rights are related to water rights in Basin 51, and because the director's report was filed with the Court on November 24, 1998, it will assist the parties to have filed in advance of the settlement conference any objections to the claims by Riddle Ranches in Basin 51, as well as any amended objections to the above referenced claims. It has also been brought to the Court's attention that the Shoshone-Paiute Tribes of the Duck Valley Indian Reservation are considering intervening in these subcases.

Therefore, IT IS ORDERED that, no later than January 14, 1999, the following shall be filed:

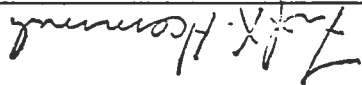

1. Any and all amended objections to the above referenced claims in Basin 55;
2. Any and all objections, whether by the claimant, or any objector, to claims filed in Basin 51 by or on behalf of Riddle Ranches or any of its affiliates, subsidiaries, or principals; and
3. Any and all motions to intervene in the above referenced subcases.

IT IS FURTHER ORDERED that the parties, either jointly or separately, shall submit a written report to the Court no later than February 1, 1999, reporting on the status of settlement

negotiations and proposing a pre-trial order establishing deadlines for any further proceedings including discovery cut-off, deadline for dispositive motions, pre-trial conference(s) and a trial

date.
