WARRANTY DEED

FOR VALUE received, Jim Simpson and John Duvall, both married men dealing with their sole and separate property, "Grantors", do hereby grant, bargain, sell, and convey unto Weiser Golf Association, Inc., a non-profit corporation, "Grantee", whose current address is Post Office Box 802, Weiser, Idaho, 83672, the following described real property, to wit:

SEE ATTACHED EXHIBIT "A"

RESERVING UNTO GRANTOR, a 60 foot wide ingress-egress easement easterly along Institute Canal Company Canal except along the South 401.11 feet where said easement will be 34 feet wide. Such easement shall be appurtenant to the dominant estate, which is the following described real property, to wit:

SEE ATTACHED EXHIBIT "B"

Grantor acknowledges that, any improvements to such easement shall be at the expense of the dominant estate, and in the event the easement is to be improved, the owner of the dominant estate shall pay any costs associated with moving the existing irrigation pond, weir, or piping. Prior to making any permanent improvements to the easement, the owner of the dominant estate shall give at least 30 days notice to the servient estate, and the owner of the servient estate shall have the right to move the location of such easement to an area that will minimize the impact on the servient estate, but that will not increase the burden on the dominant estate.

Together with all, water rights, ditches and ditch rights appurtenant thereto and in anywise belonging.

Subject to all valid outstanding reservations, easements, rights-of-way, restrictions, dedications, mineral leases, mineral reservations and mineral conveyances of record.

TO HAVE AND TO HOLD the said premises, with their appurtenances unto the said grantees, heirs and assigns forever. And the said grantors do hereby covenant to and with the said grantees that they are the owners in fee simple of said premises; that they are free from all encumbrances, excepting reservations, easements, encumbrances, restrictions and rights of way appearing of record and/or existing and that they will warrant and defend the same from all lawful claims whatsoever.

IRRIGATION AFA FACTOR = $1903.5 \text{ AFA} / 423 \text{ ACRES} = (4.5 \text{ factor}) = \text{per acre}$

McGinnis = SPLIT A = (FACTOR) x 318.5 acres = 5.188 CFS & (4.5) (318.5) = 1433.25 AFA

Porter = SPLIT B = (FACTOR) x 64.8 acres = 1.055 CFS & (4.5) (64.8) = 291.60 AFA

Guthrie = SPLIT C = (FACTOR) x 39.7 acres = 0.647 CFS & (4.5) (39.7) = 178.65 AFA

TOTALS:

MCGINNIS = 5.188 CFS + PORTER = 1.055 CFS + GUTHRIE = 0.647 CFS = 6.89 CFS

MCGINNIS = 1433.25 AFA + PORTER = 291.60 AFA + GUTHRIE = 178.65 AFA = 1903.5 AFA

MCGINNIS = 318.5 ACRES + PORTER = 64.8 ACRES + GUTHRIE = 39.7 ACRES = 423 ACRES

Re: Original Notice of Claim to a Water Right No. 03-7001C

Renumbered Notice of Claim to a Water Right No. 03-10194

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you again for your patience and cooperation, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

RE: Notice of Change of Water Right Ownership Claim No. 03-7001A

Dear Property Owner(s):

This office has reviewed the Notice of Change of Water Right Ownership you have submitted (copy enclosed), however, we are unable to complete this ownership change at this time. In order to complete this change of ownership, we need the chain of title, showing the property going from Mc Ginnis Trust to Duvall; and from Duvall to Five J's.

Please submit this additional information which should include the description of the property by $\frac{1}{4}$, Section, Township and Range, and we may be able to complete the ownership change.

Thank you for your patience and cooperation, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning this letter.

Re: Original Notice of Claim to a Water Right No. 03-7001A

Renumbered to Notice of Claim to a Water Right No. 03-7001C

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Adjudication Section

Dear Ms. McGinnis:

We have processed a Change of Ownership to William J. and/or Mary Guthrie, for a portion of your original claim to a water right as referenced above. After you came into our office on August 14, 1996 and I reviewed the earnest money agreements you submitted later that day, I forwarded all the information over to our legal staff at the state office to determine the correct action for this water right. Enclosed is a copy of the memorandum that was a result of our legal staff's determination for your information.

The change of ownership resulted in a split of your claim. When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by adding alpha-suffixes to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

I searched our data base for any water rights that were on your property as you requested when you were in the office. I found only one other water right, in your name, that was appurtenant to the land identified on Claim A03-07001. Enclosed is an "Adjudication Claim Place of Use Review Report" which identifies all water rights and adjudication claims on file for the lands under Claim A03-07001. Also enclosed, for your information, is a profile report of Claim A67-02296 (the second right I found in your name) which is for water from a well.

MEMORANDUM

I. Issue Presented

- 1. Whether a reservation of water rights in an earnest money agreement is effective after the grantor delivers a deed that fails to state the reservation?**

II. Short Answer

- 1. Generally, no. With some exceptions, a reservation of water rights in an earnest money agreement is not effective after the grantor delivers a deed that fails to state the reservation term.**

III. Facts

The grantor McGinnis delivered to the grantee Guthrie two warranty deeds, dated July 28, 1994 and December 16, 1994. Prior to the conveyance, McGinnis obtained a water license appurtenant to the conveyed land.

The July 28 deed is silent as to the transfer of water, water rights, ditches and ditch rights appurtenant to the property. The June 24, 1994 Real Estate Purchase and Sale Agreement specifically excludes "hand lines," but there is no mention of hand lines in the deed.

The December 16 deed expressly transfers "all water, water rights, ditches and ditch rights appurtenant thereto and in anywise belonging." The December 8, 1994 Real Estate Purchase and Sale Agreement prior to the conveyance specifically excludes "delivery of irrigation water to property."

MICROFILMED
OCT 24 1996

Guthrie contacted IDWR to complete a transfer of the appurtenant water rights. McGinnis claims all water rights were reserved and that there has been no conveyance of the water rights.

IV. Discussion of Issue

It is a long standing principle of law that a deed conveying land "and its appurtenances" will convey all things appurtenant to the land and will convey appurtenant water rights unless the rights are specifically reserved. Koon v. Empey, 40 Idaho 6, 11, 231 P. 1097 (1924). It is an equally well established principle that prior agreements merge into the final and formal document - here, the contract to convey merged into the subsequent deed. Jolley v. Idaho Securities, Inc., 90 Idaho 373, 382, 414 P.2d 879 (1966). "When a deed is delivered and accepted as performance of the contract to convey, the contract is merged in the deed. Though the terms of the deed may vary from those contained in the contract, the deed alone must be looked to to determine the rights of the parties ... The rule is followed in practically all the cases." Id. In the absence of fraud or mistake, there is a conclusive presumption that terms in a contract to convey merge with the deed when the terms relate to the very subject matter of the conveyance (title, possession, emblements and appurtenances), the terms in fact are carried over into the deed or when the terms in the deed conflict with those in the contract. Jolley, 90 Idaho at 838. Only when the terms in the contract relate to collateral matters (where delivery and acceptance of the deed is not performance of the agreement, such as also agreeing to transfer a car), then there is no presumption that the party in accepting the deed intends to give up the covenants of which the deed is not a performance or satisfaction. Id. The Idaho Supreme Court recently passed upon and

affirmed the general law of merger in West v. Bowen, 127 Idaho 128, 130, 898 P.2d 59 (1995).

More plainly stated, absent a showing of fraud or mistake, if the language of a deed is plain and unambiguous, the intention of the parties to the conveyance must be determined from the deed itself, and other evidence of the transaction cannot be considered. McCoy v. McCoy, 125 Idaho 199, 204, 868 P.2d 527 (1994).¹ This is the doctrine of parole evidence.

In this case, both deeds are silent on their face regarding reservation of appurtenant water rights. The July 29, 1994 deed makes no reservation, but contains a standard appurtenances clause in the grant of the land - "To have and to hold the said premises, with their appurtenances unto said Grantees, their heirs and assigns forever." Reading the deed on its face, clearly, the deed transfers the land and its appurtenances and no reservation of water rights exists. The Purchase and Sale Agreement excluded only the hand lines from the sale, and considering the doctrine of merger discussed above, this term may have merged into the deed. Because this issue regarding the hand lines is not relevant to the issue of water rights, it will not be resolved here.

The December 16, 1994 deed contains an identical appurtenance clause. Additionally, it conveys the land "together with all water, water rights, ditches and ditch rights appurtenant thereto and in anywise belonging." This appears to be an express grant of water rights, which contradicts the exclusion in the Purchase and Sale Agreement. Under both the doctrines of merger of parole evidence, the December 16,

¹ The Idaho Supreme Court arguably modified this rule in Treasure Valley Bank v. Butcher, 117 Idaho 974, 793 P.2d 206 (1990), however, the McCoy opinion later applied the rule without comment or exception.

1994 deed conveys the water right.

The McGinnis' may contend that one additional clause in the December 16, 1994 deed completes the reservation of water rights. It states: "Subject to all valid outstanding reservations, easements, rights of way, restrictions, dedications, mineral leases, mineral reservations and mineral conveyances of record." Inconsistencies in a deed may throw such a "shadow of ambiguity" over the instrument as to warrant the introduction of parol evidence (that other than words on the deed itself) as an aid to discovering the intention of the parties. Gardner v. Fliegel, 92 Idaho 767, 771, 450 P.2d 990 (1969). However, even if the court admitted such outside evidence, courts construe documents against their authors and a party may not use such evidence to affect, add to or make over the written instrument, but only to clarify the parties' intentions. Stone v. Bradshaw, 64 Idaho 152, 159, 128 P.2d 844 (1942). So, even if a court found the reservation clause to be an ambiguity because it is vague and arguably contradicts the grant of water rights, subsequent evidence cannot "make over" the express terms in the deed. The deed clearly states the conveyance of the rights to "all water, water rights, ditches and ditch rights appurtenant thereto and in anywise belonging." These words appear sufficiently clear to convey the water despite the vague reference to "valid outstanding reservations" etc. Because no legal ambiguity exists, the deed appears to be a valid conveyance of the land with the appurtenant water rights.

V. Conclusion

When a grantor delivers an unambiguous deed containing an "appurtenances" clause and there is no reservation of water rights, contrary to the stated terms in the Purchase and Sale agreement, there is a presumption that the deed states the final

agreement of the parties and the water rights appurtenant to the conveyed property pass with the land. If the grantor establishes fraud or mistake in delivering the deed, the grantor may be able to assert terms in Purchase and Sale Agreement that are absent from the final deed. The facts presented do not indicate any fraud or mistake. If the deed is ambiguous, the grantor may also attempt to establish with evidence other than the deed that the agreement of the parties intended to withhold conveyance of water rights. Under the rules of construction and interpretation, the deeds in the instant situation clearly appear to convey either the appurtenances (including water rights) or expressly the water rights. Based upon the above facts, it appears the proper treatment in this case would be to treat the deeds as conveying the water rights. Without additional facts, any more definite conclusion cannot be reached.

MEMORANDUM

I have completed an initial review of the issue and completed a draft memorandum. The issue is phrased: "Whether a reservation of water rights in an earnest money agreement is effective after the grantor delivers a deed that fails to state the reservation?" I have addressed issues relative to both the July 28, 1994 deed and the December 16, 1994 deed. Before I forward the memorandum I am having Lynne review it and comment. If corrections are necessary I will complete those and forward the final draft. Accordingly, this is not my final opinion on the subject, but you are probably correct that the water rights did "go" with the property. Please withhold reliance on this opinion until I forward the final memorandum.

Thank you for your welcome to the Western Region SRBA world. I will be speaking with you soon.

RE: OWNERSHIP OF WATER RIGHT A03-07001 *> File attached.*

Welcome to the wonderful world of Western Region SRBA! We are glad to have you...

I have an ownership change that is questionable and talked with Jan in regard to it and we decided this needed a legal opinion. This is the story as I see it...

2/15/1995 Received an ownership change from McGinnis to Guthrie attached to warranty deed dated 4/15/1994.

12/18/1995 I corresponded with Guthries and told them there was no water rights on the lands they purchased and returned the change in ownership to them.

3/4/1996 I received two more warranty deeds from Guthries on other parcels that they had purchased from McGinnis. One dated July 29, 1994 and the second dated December 16, 1994.

3/14/1996 I corresponded with Guthries sending them a "prepared" ownership change for the properties purchased from McGinnis. I prepared the form based upon the warranty deeds received from Guthries and the portion of the water right based upon the license issued after the claim was submitted.

3/19/1996 I received the signed ownership change form in the mail from the Guthries.

3/26/1996 I corresponded with Darlene McGinnis and requested she amend Claim A03-07001 to match license issued so I could complete ownership change without questions on the place of use discrepancies between claim and license.

8/14/1996 Darlene McGinnis came in to the office and amended Claim A03-07001 to correspond with license but was adamant that she had withheld all water rights in the sale of property to Guthries. I told her I had not seen anything in the deeds which indicated that and she said it was stated clearly in the earnest money agreement between Guthries and herself. She faxed copies of the earnest money agreements to me that afternoon.

I guess my question is: Does the earnest money agreement legally withhold the water right from the new owner of the property? I was under the impression that water rights had to be specifically withheld in the deed in order not to "go" with the property. Please let me know so I can get this mess out of my office. Thanks in advance!! Kay

P.S. Please barcode this to your office.

RE: OWNERSHIP OF WATER

Darlene McGinnis came into the office today in regard to my letter of March 26, 1996. She stated that the Guthrie's do not get any of the water licensed under Rt. 03-07001. She will fax me a copy of the earnest money agreement that states this fact.

She is anticipating selling this water right to Weiser Irrigation District and injecting it into the Galloway Canal as it runs through her property for their use. She has an attorney working out the details on this sale.

Dear Ms. McGinnis:

We have received a Notice of Change of Water Right Ownership for a portion of the lands claimed under No. A03-07001. In a review of this ownership change, I found that the lands licensed under this right are different than what was claimed. Enclosed, for your information, is a copy of License 03-07001 along with a copy of Claim No. A03-07001. In order to process the ownership change and not cause any confusion regarding the portion of the water right the new owners are to receive, we need to amend this claim. I have, therefore, prepared an amended claim for your signature, which will correctly identify the lands irrigated and subsequently licensed under this right.

I also noticed, while reviewing the change in ownership form, that this claim had been changed to the name of "Northwest Farm Credit Services". I took the liberty of contacting them to find out if they still had interest in this water right. They told me they had no security interest in the property any longer. Therefore, I prepared the amended claim for your signature, as trustee for McGinnis Family Trust. If this is not correct, please advise me so we can correctly record your water right.

Please note that your signature on this form must be notarized. If you need a notary, we have some available in our office, each day of the week, that could notarize your signature. Your quick response to this matter would be greatly appreciated since we have received an ownership change that needs to be processed. If you have any questions regarding this matter, please do not hesitate to contact me.

Dear Mr. and Mrs. Guthrie:

Enclosed is a Notice of Change of Water Right Ownership form which identifies which lands under License 03-07001 that should be in your names. Please sign this form, where indicated, and return it to our office for processing. I have also included a copy of License 03-07001 for your information. The claim submitted on this right does not reflect what we found during the field examination conducted in September of 1985 so we will be taking action to "fix" the claim and complete this ownership change.

If you have any questions concerning this matter, please feel free to contact me.

Dear Mr. Saxton:

The flow on Douglas McGinnis's property has been measured, using the existing overflow structure at institute canal. The flow over rectangular suppressed weir was computed from the simplified form of Rehbocks formula, where $Q = \frac{2}{3} m L \sqrt{g} h^{3/2}$, where $m = 0.605 + \frac{0.00328}{h} = 0.08 \frac{h}{p}$ and $p =$

height of weir crest above bottom of channel of approach = 2.0'. $L = 4.0$ L.F. and $h = 0.67'$.
 $Q = 7.482$ cubic feet per second flow.

Very truly yours,

Wayne Cheney

RE: Notice of Change of Water Right Ownership

William J. and Mary Guthrie
30 Oltman Rd.

Dear Mr. and Mrs. Guthrie:

I have completed a review of the "Notice of Change of Water Right Ownership" form that you submitted for property you purchased from Darlene McGinnis. I platted out your metes and bounds description on our computer and found that your property is around 13 acres. Enclosed is a copy of an ortho-photo quad which shows where I located your property. If this location is not correct, please let me know.

I found that the water right license that is appurtenant to the McGinnis property does not cover the irrigation of the lands you purchased. Enclosed is a copy of an ASCS photograph that was used for licensing the Snake River water on the McGinnis property. I have outlined the SW $\frac{1}{4}$ of Section 20, Twp. 11N, Rge. 5W which is where I located your property. I also marked on there where the lands that were licensed as receiving water from the Snake River are located. Please note that your property was not included as receiving water. I am, therefore, returning the change in ownership form to you. If you have other information that shows you own land that was irrigated under the McGinnis license, please let me know.

If you have any questions concerning this matter, please feel free to contact me.
