NOTE TO FILE

From: Vikie Hancock

12/17/99

Regarding: Claim number A43-02532C

This claim represents the combination to two licenses: A43-02532E and A43-02532D. I believe the combining of these two licenses will make it difficult to accurately describe the water right, as license 43-02532D is appurtenant to 287 acres, but as a result of transfer number 2156, 43-02532E is appurtenant to only 167 acres.

This claim is further complicated by the fact that the original, hand written, signed claim was for a total of 290 acres, but the oldest (unsigned) Claim Form printed lists a total of 210 acres with no explanation of how or why the numbers were reduced. Diversion rates on the original, hand written, signed claim were confusing as the rates for each claimed use do not seem to relate to the total claimed diversion rate.

I have, therefore, decided that it would be least confusing to the claimant and to future water right inquiries to recommend each part of this claim under its original water right number.

Case No. 39576	)	
	)	SPECIAL MASTER REPORT

Findings of Fact

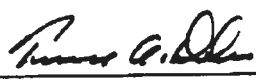

J.E. Tracy, Inc., P.O. Box 138, Almo, Idaho 83312, filed a *Notice of Claim to a Water Right* on June 6, 1989, claiming 4.32 cfs from groundwater for year-'round stockwater use and to irrigate 290 acres in Cassia County from March 15 to November 15 with a priority date of June 15, 1961, based on a license. The Director of the Idaho Department of Water Resources filed his *Director's Reports for Irrigation and Other, Reporting Area 7, IDWR Basin 43, Part I* on September 28, 2001. The Director recommended the claim for .04 cfs for year-'round stockwater use and to irrigate 287 acres from April 1 to October 31.

Brent Jones filed an *Objection* on February 7, 2002, objecting to point of diversion. On August 20, 2002, the Special Master entered an *Order Granting Motion to File Amended Notice of Claim*. On August 30, 2002, IDWR filed its *Amended Director's Report, Subcase No. 43-2532D* recommending the claim for .08 cfs for year-'round stockwater use and for irrigation of 287 acres from April 1 to October 31. No one objected to the *Amended Director's Report*.

Conclusions of Law

J.E. Tracy, Inc., is entitled to a partial decree adjudicating a water right under claim 43-02532D as recommended by IDWR and as described in the attached *Special Master Recommendation for Partial Decree for Water Right 43-02532D*.

INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even-number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase." You must use a **separate form for each** late or amended Notice of Claim.

This form has been adopted by the court in **SRBA Administrative Order 1, Rules of Procedure** (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

By filing a *Motion to File a Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

I have attached:

- ☐ A fully completed Notice of Claim (available from IDWR).
- ☐ A claim filing fee for a domestic and stock watering use. IDWR may charge this fee pursuant to I.C. § 42-1414. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ _____.
- ☐ A claim filing fee and a late claim fee for those claims other than a domestic or stock watering use for which a notice of claim was not filed. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ _____.

Follow these instructions regarding the hearing on this motion.

1. Contact the Clerk of the SRBA Court (208-736-3011) to request a hearing date and time.
2. Fill in the following information:

This motion will be heard on _____
(Insert Date and Time)

at the SRBA courthouse, 253 Third Avenue North, Twin Falls, Idaho.

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A *Motion to File an Amended Notice of Claim* may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires.

- ☐ I must amend my Notice of Claim to the use of water in the SRBA because:

A Portion of the License was not claimed.

☐ I have read **SRBA Administrative Order 1, Rules of Procedure** (amended Sept. 30, 1996).

MOTION TO FILE A LATE NOTICE OF CLAIM

A Motion to File a Late Notice of Claim will require a hearing before the Presiding Judge.

☐ I did not file a Notice of claim to the use of water in the SRBA because:

☐ I filed a Notice of Claim and elected to defer judicial proceedings on my domestic or stock watering use. I desire to reinstate my Notice of Claim for domestic or stock watering use.

☐ I am providing legal and factual documentation for my claimed use of water. You must describe these documents and attach a readable copy. (You do not need to fill this out if you are reinstating a Notice of Claim for domestic or stock watering use, but you **must** attach a copy of your Notice of Claim.)

- ☐ I am providing legal and factual documentation to support my amended Notice of Claim. You must describe these documents and attach a readable copy.

WELL CONSTRUCTION STANDARDS

IDAPA 37.03.09

e. Unconsolidated formations without significant clay beds. When a water well is drilled and acquires water from an aquifer which is overlain with unconsolidated formations, such as sand and gravel without significant beds of clay, an unperforated well casing shall extend to at least five (5) feet below the water table. If the water table is within eighteen (18) feet of land surface, unperforated well casing shall extend to at least eighteen (18) feet. (7-1-93)

f. Clay beds in unconsolidated formations. When a well is drilled to develop water from an aquifer that is overlain by unconsolidated deposits such as sand and gravel, and there are significant interbeds of clay above the water table, the well casing may be terminated in a clay bed which will prevent the downward or upward movement of water. Unperforated casing shall extend to and be driven into the clay stratum overlying the water-bearing zone. A minimum of eighteen (18) feet of casing shall be installed below land surface. A single casing may extend from land surface to the water-bearing zone, or a smaller diameter casing, perforated liner, or well screen may be installed below the seal depth. (7-1-93)

04. Artesian Water. When artesian water is encountered in the well, unperforated well casing shall extend into the confining stratum overlying the artesian zone. The casing shall be sealed into the confining stratum to prevent surface and subsurface leakage from the artesian zone. If the well flows at land surface, it shall be equipped with a control valve so that the flow can be completely stopped. If leaks occur around the well casing or adjacent to the well, the well shall be completed with seals, packers, casing or grout that will eliminate the leakage. The well driller shall not move his well drilling rig from the site until this has been accomplished. Some mixing of water may be required to develop an adequate water well; however, the mixing shall be restricted to water zones of similar pressure, temperature and quality. The Director may grant a waiver for good cause. The driller shall take precautions to case and seal out zones which may lead to waste or contamination. (7-1-93)

05. Artificial Gravel Pack Wells. If a well is to be artificially gravel packed, the casing shall be sealed using one of the two following methods: (7-1-93)

a. Access pipes used to inject gravel must be installed in the annular space prior to sealing the space with cement grout or puddling clay. Care should be taken to insure

Re: Findings, decision and order
of local ground water board
for Cassia County, Idaho,
dated December 5th, 1962.

Gentlemen:

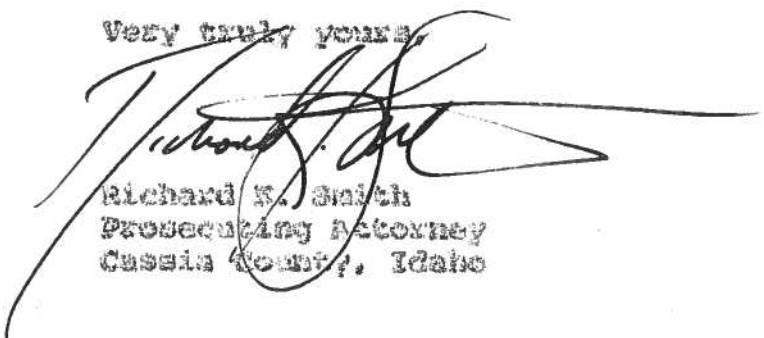

I have been informed by Glen Jones and Edwin Durfee of Almo, Idaho, that you are presently in violation of an order of the Department of Reclamation of the State of Idaho. The order in question was dated the 5th day of December, 1962, and among other things ordered the capping or application of control devices upon an irrigation well contained by you and referred to therein.

Our office is informed no capping or control devices have been placed upon your well, which would be a clear violation of Clause VIII of the Board's order. Certainly, sufficient time since the entry of the order has been allowed for compliance with the same.

The claimants, Edwin R. Durfee and Glenn Jones have requested preparation and filing of a criminal complaint against you for your failure to comply, accordingly, I would appreciate your furnishing our office with proof of compliance within ten (10) days from the date of this letter and failing the same, we will have no alternative to prosecution in the matter.

Please advise.

Very truly yours,

NOTE TO FILE

From: Vikie Hancock

8/7/02

Regarding: Claim numbers: 43-2532A, 43-2532D, 43-2532E

In response to objections to the above SRBA recommendations, and a possible resolution, I did some additional investigating into the historical record of these rights.

June 15 1961 application for permit was filed by Tracy, Ward and King for 7 cfs from a well in the SESE Section 22.

When the well was drilled it was artesian and flowed at a rate of 18 inches. A pump was put on the well to increase diversion capacity and in 1962 a protest was filed by Glen Jones and Edwin Durfee who claimed the diversion from the well affected their domestic well and springs.

Tracy, Ward and King were ordered to mitigate any continued injury to the senior water right holders and to cap or valve the flowing well.

Assignments of permit were signed in 1967 that specified that Tracy got the bulk of the water applied for in permit 43-2532 but that 1/3 of the produced flow of the well in SESE Section 22 was reserved by Ward, 1/3 by Tracy and 1/3 by King. Ward referred to his 1/3 production as 18".

In 1967 Tracy amended his portion of the permit to add an additional point of diversion in the NWNE Section 27 for irrigation on all his lands. The stated purpose was to increase diversion capacity to fill the permit.

In 1968 a field exam was conducted that found 6 inches (0.12 cfs) of water available at the flowing well in the SESE Section 22. The examiner allowed .04 cfs for irrigation and stockwater to each of Ward, King and Tracy for 43-2532A, 43-2532B and 43-2532D respectively. He measured 5.46 cfs at the well in the NWNE Section 27. Tracy received 5.4 cfs for irrigation on 43-2532C.

On January 6th 1969 Tracy amended his portion of the permit to list only the well in the NWNE Section 27 as the point of diversion. This does not seem to be reflected in licensed right 43-2532C, issued on January 30th 1969, which lists both wells as points of diversion. This could be an error on the part of IDWR.

In 1977, an approved transfer split right 43-2532C and moved 2.0 cfs from the Tracy property to the property of Arlo Lloyd in Elba, leaving Tracy the use of 3.4 cfs for use on 167 acres under his part of "C", now represented by 43-2532E, and the use of .04 cfs from the well in the SESE Section 22 represented by "D".

According to both Tracy and Ward, they receive their respective well water for stock and irrigation through Almo Creek after the well discharges into the stream channel in the SESE Section 22. Currently there does not appear to be an approved controlling or measuring device on the well. Mr Tracy stated on August 7, 2002 that the well water is not piped to his property.

Adjudication claims were filed on 43-2532A by Doug Ward and on 43-2532D and E by Bill Tracy. 43-2532B was not claimed. According to Cassia County Taxlot information, the majority of the property appurtenant to this portion of the license now belongs to Bill Tracy.

Phone conversation with Tammy Jones & Bill Tracy RE:

Jones objection to Tracy Rights 43-2532D

and 43-2532E

and Jones objection to Doug Ward's right 43-2532

Objection is to volume & diversion from hot well in SESE Sec 22 & lack of controlling devices.

Bill Jones said he thought that only 18" was diverted from the well in SESE Sec 22 & the rest from the well in Section 27 by the school. He said that about the time the license was split 3 ways he changed his point of diversion to the other well.

He acknowledged that the 18" was put into Almo Creek & they got it when it was their turn on Almo Creek. Doug Ward did the same thing. We discussed that the 2" Doug Ward had probably never got to him, anyway.

Tammy said there was still an issue of capping the well. We decided to meet her

at the office at a time that Tammy &
Brent Jones, Bill Tracy & Doug Ward could
all meet.

Ted Tracy

I met with Ted Tracy, the son of J. E. Tracy, regarding this claim and the NOE that his father sent in. I explained that the claim is based upon the license and that it was limited by the license. I gave Ted a copy of the license to show his father if his father did not have a copy available to him.

Bill Tracy

Bill Tracy called because he didn't think that his two wells were listed as PODs on the above two claims. I went over the claims with him and showed that they were both listed. I explained that the rights were based upon what was left of his portion of the licensed rights after the transfer to Arlo Lloyd. He asked about the Circle Creek claim and I explained that his son Ted Tracy had taken me out there and we outlined the irrigated acres, which calculated to 75.

He inquired about the LDS church right to hot water. I went over the license that they have for heating with him, including the specific season of use. I told him that they had other claims from cold groundwater for irrigation of the church grounds and of the park.

He indicated that his claims were probably OK since I explained them. I went over what the process would be from here on out, and told him if he or Ted thought of anything else to give me a call.
