SYSTEM ANALYSIS

The point of diversion and place of use is the same as the original license. When accounting for the roads and home on the property the actual irrigated acres was less than the 40 acres on the license. The total recommended acres under this claim are 38, which was determined from the 1987-88 NAPP photography and a field visit.

In 1991, the 15-hp pump was replaced with a 30-hp pump. The model and serial numbers are listed in the field memo dated March 2, 2001 in the claim file. Bert Goodman also claimed statutory claim 43-4046 but it was for a place of use south of the 40-acres claimed in 43-2566. During the field visit it was determined that claim 43-4046 was never put to beneficial use. Therefore, it's not being recommended. No other irrigation water is claimed on this place of use.

HISTORICAL DATA

Basis of claim is license. The original licensing field examination was done June 24th, 1964. The diversion rate was measured with a Sparling meter at 1.10 cfs. The point of diversion was shown in the SWSENW of section 1, T13S, R26E in Cassia County.

The historical system was a 15 hp GE motor, model number TWJ622287, Peereless Pump #197125, 4" discharge with 4" gate valve at flange increase to 6" x 8' steel pipe to concrete block spill and distribution box to open ditch north.

The place of use is 40 acres in the SENW of section 1, township 13 south, range 26 east of the Boise Meridian.

No changes have occurred from the original license.

FROM: Cindy E. Bird *CB*

REF: Conflicting place of use with claim A43-2566
Evidence of priority for claim A43-4046.

PURPOSE: Determine the place of use and evidence of priority.

On February 21, 2001 I visited with Bert and Betty Goodman at their home on claims A43-4046 and A43-2566. I explained that I had two concerns with their claims. First, the claimed place of use was different on the two claims. And second, claim A43-4046 needs evidence of priority.

The claimed place of use on A43-4046 is the 40 acres south (NESW) of claim A43-2566 (SESW) in section 1 all within township 13 south, range 26 east of the Boise Meridian. Bert explained that he's never owned or irrigated the land in NESW of section 1. And he further explained that he has never irrigated with Cassia Creek water. His

Figure 1. 7-27-1968 Photography

intentions were to get the water out of the Harper ditch but that never happened because his neighbors to the south wouldn't cooperate. No diversion works or conveyance system was ever built. As a result, I explained to Bert and Betty Goodman that this claim would not be recommended.

The claimed place of use under claim A43-2566 is outlined in yellow on the 1968 and 1987 NAPP photography in figures 1 and 2. The 1962 photography confirmed no irrigation of the claimed lands. Which fits with the June 4, 1963 priority date. Mr. Goodman purchased the property in 1963.

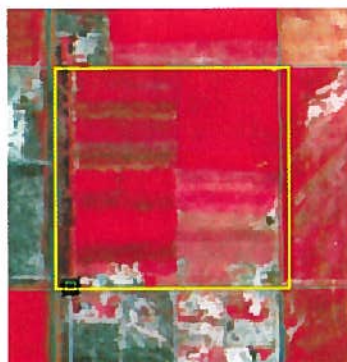

Figure 2. 1987-88 NAPP Photograph.

The ground water point of diversion was located with the Garmin 3⁺ GPS and identified on the figures with the green square. Photo 1 shows the point of diversion for claim A43-2566. The point of diversion is located on the west side of the Goodman home.

On June 14th 1993 Bert replaced the 15hp-irrigation pump with a 30hp #197125 Peerless pump. 5 stage 10KCA bowls assembly for a design capacity of 350 gpm at 280 feet of head.

Photo 2. Looking northeasterly at the Goodman place of use.

Photo 3. Looking northerly at the Goodman place of use.

From Mr. Goodman's records he described his system. The system was not in operation during my visit. The ground was still very wet on the day of my visit.

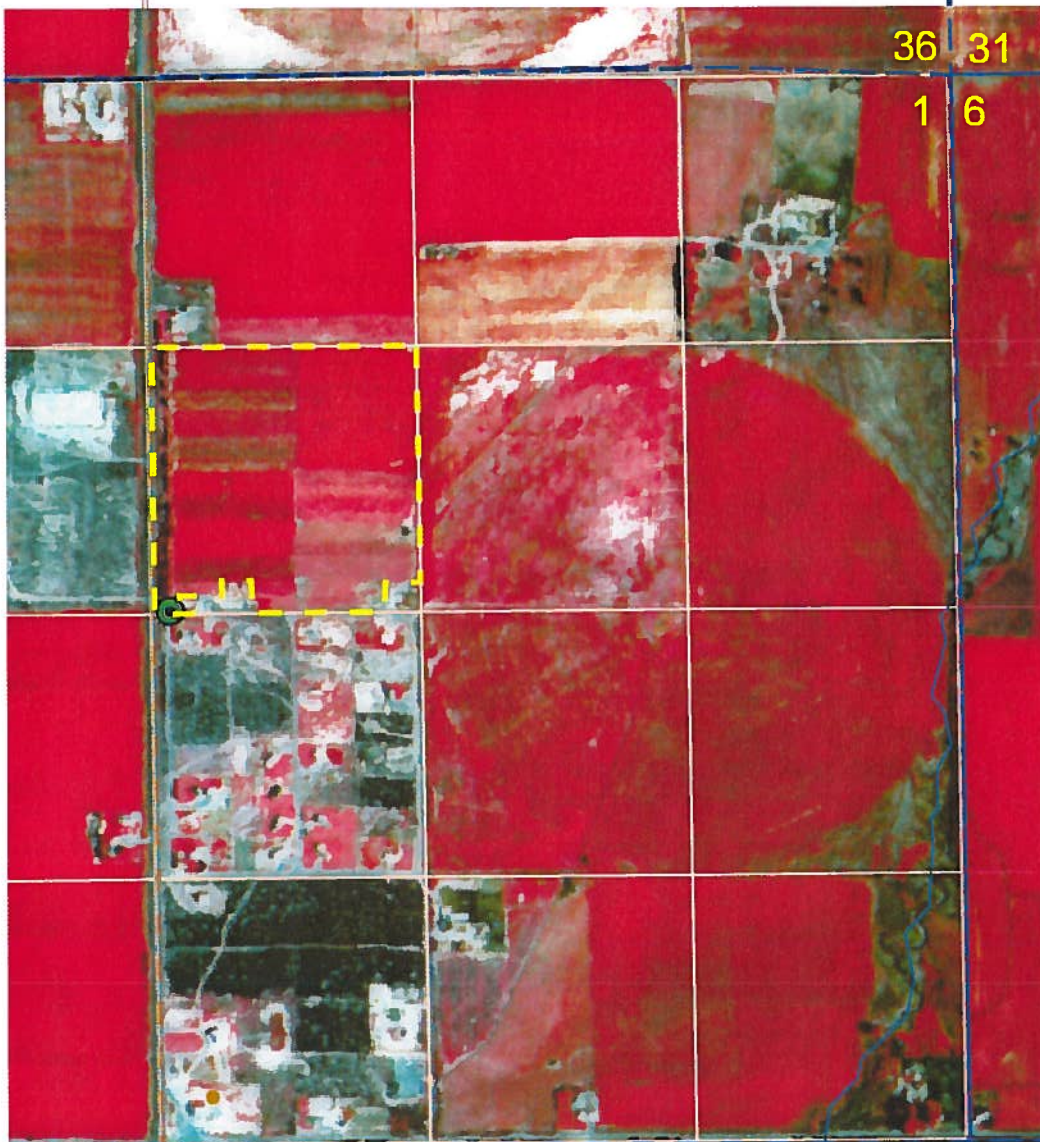

He operates his pump at 70 psi at the head and gets 65 psi in the sprinklers at the north edge of his property. The water level in February 2000 was 40 feet. During the summer months his depth to water is between 90 and 100 feet. The well was drilled to 176 feet and the pump is setting at 145 feet.

The place of use is located north of Malta adjacent to Hwy 81 at the 1-mile post. The Goodman home is in southwestern corner of section 1 and the irrigated place of use is to the north.

Hi Jeanie,

I don't have his claims. Perhaps they are in the box that Doug took back from the state office. The only claimants I have are the Harpers, Elisons and Darrington. So, I don't know where the files wound up.

Subject: Bert Goodman Claims - A43-02566, A43-04046

Carter,

I talked to a Bert Goodman at the meeting in Malta on Tuesday night. He wondered if his claims were in order and may call for an appointment to talk to someone. We determined that his claims were sent to you by Kelly. Looks like there may well be some problems.

A43-02566 claims 40 acres in the SENW of Section 1, T13S, R26E.
A43-04046 claims 40 acres in the NESW of Section 1, T13S, R26E.

He said he owns **40** acres so one of these is probably wrong...

He also said he thought he had a D&S right. I found nothing under his name but depending on which 1/4 1/4 is correct, there are some D&S that may need to be changed to his name OR perhaps he never filed on that.

Anyway, his number is 645-2458, if you'd like to give him a call...

Thanks, Jeanie
