RE: During review of the data base for Basin 43
discovered that the "WR" record on the
AJ Database did not represent the "A" and
"B" splits on the WR database.

this appears to have possibly resulted in
Mr. Preston Allen claiming the wrong priority
date for his water right.

See attached copies of 43-02574B & 43-02576B

A letter should be sent to Mr. Allen giving
him the opportunity to amend his claim.

Currently, the claims filed by Mr. Allen claim
the priority assigned to the "A" portion of
these two licenses. And he is claiming the
"B" portions -

RE: Notices of Error

Dear Tony,

I think we pretty much discussed your questions and concerns regarding the Notices of Error on your Preliminary Director's Report Recommendations for all the **Preston Allen water rights** when you were in the office the other day.

I did promise to look over the acre question (2165 or 2147) one last time and get back to you. I went through Transfer #2651 again and all I can say is that it looks like there was a clerical error in the ~~addition~~ when the transfer was prepared. Mr. Chapman took all the rights at their face value and combined them into a **permissible place of use**. The individual rights add up to 2147 acres and 37.99 cfs, not 2165 acres and 38.86 cfs as he came up with. A transfer cannot enlarge rights and that is what would be happening if we allowed the 2165 acres and 38.86 cfs. The best I can do is to allow you 2147 acres within a 2165 acre permissible place of use.

Please let me know if that is what you desire before we send out the Director's Report in a month or so. Give me a call if you'd like a copy of the transfer to review or if you'd like to set up another appointment.

Sincerely,

A handwritten signature in cursive script that reads 'Jeanie'.

You were right. It was just a data entry error. The transfer itself did nothing about the priority dates & the application "as proposed" portion that was approved also identified the original priority dates. I have corrected the WR database to reflect the original priority dates. Good Luck with the rest of the basin!
Pam.

Subject: Water Rights 43-02574B AND 43-02576B

Hi Pam,

Both of these rights were involved in Transfer #2651. I'm wondering why the priority dates for both were changed from 1963 and 1964 respectively, to 9/24/1948? The other parts of both rights still have the original priority dates? It could be a data entry error as 43-02321 (also involved in the transfer) happens to have the priority date of 9/24/1948...

These are part of my Basin 43 review which we are feverishly working on for our next Director's Report. I sure would appreciate it if you could get back to me as soon as possible on this!

Thanks, Jeanie Robertson
