FROM: Allen Merritt

DATE: October 10, 1996

TO: Application for Permit 43-07072 in name of Sublett
Irrigation Company

SUBJECT: Field Exam Completion and Recommendation

The field review for licensing of this permit was coordinated with allocation (Mel Schulte) and adjudication (Jeanie Robertson). Note that an SRBA claim has been filed on this permit. A review of the other water rights and adjudication records associated with the Sublett Irrigation Company is as follows:

WR SRBA

Permit - 7072 (1977)

15.25 cfs 2300 AFA

There is merit found for the SRBA claims filed by the Sublett Irrigation Company and likely will be recommended very similar to the way they were claimed. In the review it has been found that the present system provides irrigation water to a total of 2426 acres as listed by Mel in his land list and evidenced by the aerial maps. We measured the reasonable capacity of the natural flow that is normally diverted for irrigation and found that the capacity of the system is 43.92 cfs (See 6/20/95 memo). The documented total storage capacity of Sublett reservoir is 2742 AF (See Sublett Dam Summary Table from Dam Safety). All rights including this proposed license when combined should be limited to no more than:

43.92 cfs for natural flow irrigation
2742 AF storage capacity for Sublett Reservoir
2426 acres irrigated.

RE:

CORRECT POU

I met with Lyle Adams, Roland Zollinger, John Zollinger & Dee Rasmussen to review the POU and Boundary map for the irrigation co. They have discussed portions of this with Mark Larson (IDWR) and then were directed to our Region. They wanted the POU to match the listing in the Amendment to Permit 43-7072. I believe the amendment can effectively amend the SRBA claim based upon it; such as is done with the transfers filed with IDWR.

We made the corrections to a map copy I had from the SRBA file. I told them I thought the Permit exam by Mel Shulte would be sufficient to rely upon for the SRBA exam. Likewise for the flow measurements made by Mel S.

I will contact Mark Larson and coordinate a boundary map for the system.

See attached Map.
