**E. REASONS SUPPORTING OBJECTION(S):**

The Idaho Department of Lands (IDL) uses water on the State land described in the Notice of Claim for a variety of purposes related to forest management, such as dust abatement on roads, fire training activities, and weed control. IDL claimed the uses "industrial storage" and "industrial from storage" to cover its water uses related to forest management. The recommendation described industrial use as dust abatement. However, dust abatement is only one of several water uses related to forest management. The recommendation should provide that industrial use is for forest management purposes. Please see the Notice of Claim for additional information to support this objection.
