RESPONSE DATE: MAY 26, 1995

RE: Notices of claim to a water right nos: A51-02008, A51-02035, A51-10228

Dear Mr. Urquidi:

As I indicated in my telephone message today, I am writing to you to update you on the status of the above-referenced claims, and to explain IDWR requirements at this time.

Claim no. A51-02008 is for irrigation water from Crab Creek. You indicated during our field exam on 12/09/1993 that you no longer use this point of diversion as the ditches run across BLM land and access became a problem. I interpret this to mean that the water right is no longer used, since you claimed the right exactly as licensed. However, if you have moved the point of diversion of this water right, IDWR is required to obtain from you the date of change, and some evidence to support that date. Please see the enclosed information sheet. **THIS INFORMATION MUST BE SUBMITTED BY THE RESPONSE DATE NOTED ABOVE. IF NO RESPONSE IS RECEIVED, YOUR WATER RIGHT WILL NOT BE RECOMMENDED TO THE COURT FOR DECREE.**

Claim No. A51-02035 indicates an additional point of diversion than what was licensed. This additional claimed point of diversion is in T12S, R05E, s. 19, NWNW. IDWR is required to obtain from you the date this point of diversion was added, and some evidence to support that date. Please see the enclosed information sheet. **THIS INFORMATION MUST BE SUBMITTED BY THE RESPONSE DATE NOTED ABOVE. IF NO RESPONSE IS RECEIVED, YOUR WATER RIGHT MAY NOT BE RECOMMENDED TO THE COURT FOR DECREE.**

Claim no. A51-10228 is based on beneficial use of the water. IDWR is required to obtain evidence of the claimed priority date. This evidence has been previously requested in IDWR correspondence dated January 28, 1993 and October 12, 1993. **THIS INFORMATION MUST BE SUBMITTED BY THE RESPONSE DATE NOTED ABOVE. IF NO RESPONSE IS RECEIVED, YOUR WATER RIGHT WILL NOT BE RECOMMENDED TO THE COURT FOR DECREE.**

At this time it is also requested that you provide some evidence supporting irrigation of the lands claimed for the years 1975 through the present. This documentation may be in the form of a notarized statement of the person(s) who has personal knowledge of the irrigation of these lands. This documentation was requested in IDWR correspondence of December 10, 1993, and is required because the field exams did not find strong evidence of the diversion of water for irrigation. **PLEASE SUBMIT SOME EVIDENCE OF CONTINUOUS IRRIGATION (AT LEAST ONCE IN ANY FIVE YEAR PERIOD) BY THE RESPONSE DATE NOTED ABOVE. IF NO RESPONSE IS RECEIVED, YOUR WATER RIGHTS MAY NOT BE RECOMMENDED TO THE COURT FOR DECREE.**

If you have any questions or need additional information please do not hesitate to contact this office. I will be out of the office from May 2 through May 10; other than those dates I am almost always in the office on Tuesdays.

Sincerely,

Maria Minicucci

RESPONSE DATE: DECEMBER 24, 1993

Dear Mr. Urquidi:

As we discussed during my field visit at Grasmere yesterday, I am sending copies of previous correspondence from IDWR to you. As these letters indicate, it is most important that we receive evidence of the priority dates claimed. I cannot recommend these claims to the Court without evidence of priority. Please attend to these matters as soon as possible, as investigation of these claims will not continue until the necessary documentation of the claimed priority dates is received.

We also discussed your claims for groundwater from artesian wells located in Twp. 7S, Rge. 06E, Sec. 21. In order to investigate the earlier priority date which was claimed on these wells, documentation of the number of acres irrigated in 1914 by the original well is necessary. This documentation may be in the form of a notarized affidavit signed by a person who has personal knowledge of the number and location of the acres irrigated by the original well in 1914, or crop reports from those irrigated acres which indicated the location and number of acres.

Other documentation will assist me in reviewing claims on your property on Little Jack's Creek, and the Grasmere place (Crab Creek and Nanny Creek). Please send some evidence of the continual use of water for irrigation on these lands. Again, this documentation may be in the form of a signed notarized statement from a person with personal knowledge of the irrigation practices on those lands.

As I mentioned yesterday, and in my previous letter, the required documentation must be submitted in a timely manner. Please submit these documents by the response date shown at the top of this letter.

Please contact me if you have any questions or need additional information. My telephone number is listed at the top of this letter.

Conversation w/ Mr. Urquidi during field exam:

POD for License ~~AS1~~ 51-02008 is no longer used. Only irrigated acres are from POD(A) in NWNE and NENE s.24 Ditch ~~from~~ from (A) RUN = to creek to ditch system. POD ~~is~~ (B) runs along N edge of property, irrigating acres covered by license 51-02035. If recommended, date of change of the POD of 51-02035 is necessary.

Claimant states that when water is available, ditches spill over to creek. Creek is deeply cut in its present channel. Ditches on both sides of Creek

Many sagebrush - 3' high - over entire claimed POB. Claimant states the water runs quickly from ditches to creek bed.

I told the claimant that he should obtain a statement from his leasee (~~the~~ Howards) regarding the irrigation practices that have occurred since 1988 (when base began).

It appears that this draw was once a wet meadow with the stream exhibiting braiding and meandering. At present, stream is deeply cut (8 feet in places) and land is probably much drier than in

I had a field exam on Louse Creek today. I was accompanied by Mr. Albert ^{Berwaga} ~~Tominaga~~ (?) of Simplot Livestock Co. (Claims A51-02007A & A51-02007B).

Since Crab Creek is one drainage north of Louse Creek, I asked Mr. ^{Berwaga} ~~Tominaga~~ if he knew how to get there. He did, and he also said that it was his knowledge that Crab Creek had not been irrigated for some years. I showed him the place on the NAPP photo, and he went on to say that it was his personal knowledge that those acres had not been irrigated in 25 (+/-) years.

The claim must be evaluated as a beneficial use claim with an advanced priority. Since the claim is not going to be recommended to the Court for decree no number change (to a beneficial use number) will be done. No evidence of any diversion or beneficial use of this water right was found. See photos w file and correspondence requesting evidence supporting irrigation in

I left a message on Mr. Verguini's answering machine & his fiancée's answering machine for him to call this office ASAP to schedule field exams.

11/22/1993 9:48 a.m.

Don Shupe spoke with Don Shaff this morning regarding the unavailability of Mr. Uguidi. Don said to contact Mr. Uguidi regarding the time I would be going to do the field exam on his claims (leaving a message on his machine if necessary); if Mr. Uguidi is unable to assist me I should go on my own and attempt to find the point of diversions and ditches.

Contacted Mr. Ugudi & agreed to meet @ Grasmere Station tomorrow @ 9:30 a.m. At that time we will arrange a time to examine Little Jack Creek claims.

RE: SRBA CLAIM NOS. A51-04102 A51-10140 A51-10228 A51-10250

Dear Mr. Urquidi:

We are currently in the process of preparing the above-referenced Notice of Claims for court decree in the Snake River Basin Adjudication. On January 28, 1993, we sent a letter to you requesting evidence of priority for these claims. This evidence was to be submitted by March 15, 1993. As of today, we have not received any information regarding the priority dates claimed.

Evidence of the priority date claimed must be submitted to the Department before we can make a recommendation to the Court. Enclosed is an additional copy of the pamphlet which describes the documents that may be submitted in support of the priority dates that you have claimed.

If we do not receive the requested information by October 22, 1993, these claims will be recommended to be disallowed due to lack of evidence supporting any priority date. Please submit this supporting documentation by October 22, 1993.

We have tried to contact you by telephone in recent weeks, and have left messages on your answering machine. There are some field exams which must be conducted on your SRBA claims, including the above-referenced claims. Although it is not mandatory for you to be present during these field exams, the assistance of a person knowledgeable about your specific water uses help the Department make an accurate recommendation to the court.

Please contact me by October 18, 1993, to schedule these field exams.

I will look forward to hearing from you soon. I will be happy to answer any questions you have regarding your SRBA claims and/or the Department's requirements.

Sincerely,

Maria Minicucci
