RAFT RIVER RANCHES/OTT/MOSS

Dear Mr. and Mrs. Moss:

Pursuant to notification that you presently own the property in which the above referenced Adjudication Claims are appurtenant, the Department has changed the records of the current owner as you requested. Please find enclosed copies of the computer records of the claims noting the changes in claimant. As I mentioned when you were in the office last week, these claims do not match the water rights from which they were derived and will be corrected during the adjudication process.

Please review the records and if you have any corrections or questions, please feel free to call this office.

Sincerely,

Jeanie Robertson

RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

Change of Address

pp, I am still checking on these

Dear Water Right Holders:

Rights Not sure if all correct

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your water right or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by February 20, 2001. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

Sally Sherman

Dan Moss

A total of 915 acres were claimed and ⁹⁴⁹948 acres appeared to be irrigated per GIS and the 1987 aerial photography. This leaves a difference of 33 acres. There are two claims based on licenses and four based on statutory claims. I have reviewed them according to priority date as follows:

There is good documentation on microfiche for the development of these rights for priority date and pumping capacities. I reduced the diversion rates to give them a proportionate share of the water for the acres irrigated and recommend a permissible place of use of 948 acres. This allows a total of 2.3 cfs on 165 acres, or 0.014 cfs/ac.

A43-04014C	7/1/52	1.7 cfs	165 ac
R43-04014C	7/1/52	0.98 cfs	165/948 ac ppu

A43-04014E	6/1/54	2.3 cfs	165 ac
R43-04014E	6/1/54	1.32 cfs	165/948 ac ppu

There are also two claims based on licenses for 750 acres. I have reduced the diversion rates based on their proportionate share of the licenses. This allows a total of 13.39 cfs on 750 acres, or 0.017 cfs/ac.

A43-02574C	7/19/63	25.3 cfs	750 ac
R43-02574C	7/19/63	8.03 cfs	750/948 ac ppu

A43-02576C	3/24/64	16.86 cfs	750 ac
R43-02576C	3/24/64	5.36 cfs	750/948 ac ppu

13.36 cfs
= 0.017 cfs/ac

There is another statutory claim, A43-04013A, for .58 cfs which was claimed on the 750 licensed acres. It was actually developed on sections 3, 10, & 15, which are owned by Preston Allen. He claimed 8.55 cfs on this right, leaving 1.45 cfs and 75 acres from the original statutory filing. I am recommending the .58 cfs as an accomplished transfer toward the 33 acre difference between the claims and GIS findings. This eliminates the need for an expansion claim and allows volume to be calculated for the entire 948 place of use. This will amount to 0.017 cfs/ac for the 33 acres. (The priority date was changed to 6/15/63 to match the original statutory filing.)

A43-04013A	3/13/63	0.58 cfs	750 ac
R43-04013A	6/15/63	0.58 cfs	33/949 ac ppu

There was one more claim based on statutory claim 43-04012. Evidence on the fiche suggests that this right went with Preston Allen when the property was split. I have recommended all of 43-04012 to Preston Allen and will disallow this claim to it. The total recommended diversion rate of 16.27 cfs on 948 acres is 0.017 cfs/ac.

Claimed = 915 Ac.
GIS = 949 Ac.
Lic = 750 Ac.
B.U. = 165 Ac.
B.U. = 34 Ac.

RAFT RIVER RANCHES, INC.

Department of Water

WATER RIGHTS ANALYSIS

The following water rights (Licenses and Claims) are pertinent to the Raft River Ranches property.

License G-31818, 24.0 second feet, 3360 acres

License G-31956, 36.0 second feet, 3360 acres

Claim 43-4012, 7.0 second feet, 485 acres

Claim 43-4013, 10.0 second feet, 518 acres

Claim 43-4014, 4.0 second feet, 287 acres

Claim 43-4015, 0.6 second feet, 313 acres

Based on the property sold to Allen Ranches, Inc. as evidenced by Exhibit A, it is recommended that as a practical and equitable apportionment of the combined licensed rights that wells No. 7, 10, and 12 totaling a measured flow of 15.5 cubic feet per second for the irrigation of 910 acres be designated to the Allen property. In addition wells Nos. 1 and 2 as provided in claim 43-4013 likewise be allocated to the Allen purchase as well as wells Nos. 3 and 3A as evidenced by Claim 43-4012 and wells No. O-1 and O-2 as evidenced by Claim 43-4015 be allocated to the Allen property. This would result in a total claimed water right of 33.1 cubic feet/second for 2226 acres or an average of 67.2 acres per cfs.

It is further recommended that 44.5 cfs of the combined 60 cfs right under licenses G-31818 and G-31956 be retained on Raft River Ranches. These quantities would involve the retention of well No. 3, 5, 6, 4, 8, 9, and 11 for a total of 44.5 cfs to serve 2450 acres. It is further recommended that 4.0 cfs for well E-4 as evidenced by claim 43-4014 likewise be retained for Raft River Ranches. This division of water rights would be consistent with the real property involved and the title changes brought about by the sale. Inasmuch as there is no change in the place and nature of use it is not mandatory that any segregations or transfer of water rights be filed with the Department of Natural Resources for the State of Idaho. The sales contracts and the legal descriptions govern, and in this case are consistent with the above recommendations. In the interest of

MEMORANDUM

To: FILES

From: Helen Harrington-Thornton

Date: January 22, 1993

Subject: Claims Originally Filed in Fosha vs. Dunn Adjudication
=====

This claim was originally filed in the Fosha vs. Dunn Adjudication which has subsequently been consolidated with the SRBA. Claimants in Fosha vs. Dunn were not required to file a new claim in the SRBA. In some cases, however, claimants may have filed an amended claim in the SRBA.

The original claims consist of both an original white copy with the original signature and a yellow carbon. Both of these forms must be retained in the IDWR files. The original form included a green carbon which is the claimant's copy. As stated above, there may also be an amended claim.

See below

The review of this claim initially occurred in 1985/1986 by IDWR Adjudication staff. The review process included field examination by IDWR Southern Region Staff (Loren Holmes and Allen Merritt) in 1985 and additional review by IDWR State Office staff (Don Shaff, John Noyes and Forrest Luthy). The claim review documents include:

- // ~~Final~~ recommendation - shown on zeroxed copy of claim, with recommendation shown in RED
- // ~~Adjudication~~ Claim Analysis Sheet (consider this a replacement for the currently used Claims Verification Report (CVR))
- // ~~Map~~
- // Correspondence, Memos to File, etc.
- // Zerox of original receipts (this is because the original receipt was hand written, prior to the computer receipting). However, in most instances, a voided receipt has been created in the computer in order to update the record to the Host Master.

I have reviewed the claim at this time in order to evaluate the completeness of the original review and have it meet current standards. I have created an R record and verified the recommendation when possible. Generally, the review is based on information available at the time of the original review in 1985/86. Unless there is a discrepancy, additional information of more recent origin has not been added to the review process.

2/8/93 - This claim was filed in the Fosha vs. Dunn Adj, however, no review was conducted because POA was not in adjudication boundaries. Needs complete review.

MEMORANDUM

TO: File

FROM: David R. Tuthill

DRT

RE: Claims 43-4012 & 43-4013

DATE: June 28, 1976

Both of the claims in question have rights with priorities after March 25, 1963. This raises a question as to their possible validity as beneficial use rights.

A close inspection of Sec. 42-229 (Methods of Appropriation), Idaho Code, reveals that "All proceedings commenced prior to the effective date of this act for the acquisition of rights to the use of ground water under the provisions of Sections 42-201 - 42-225, Idaho Code, may be completed under the provisions of said sections and rights to the use of ground water may thereby be required." Therefore, the validity of the claims in question is not definitely negated by their proposed dates of priority. SP, AC

Of course, as with any Claim to a Water Right, the validity of the claim must be determined by an adjudication procedure.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Harold Calder
post office address 2290 South Orchard Drive, Bountiful, Utah 84010
#1 SE SE
2. The point of diversion is in #2 SW $\frac{1}{4}$ of SW $\frac{1}{4}$ Section 16 Township 11 South
Range 27 East B.M. located on subterranean
(name of source)
tributary to _____ in Cassia County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed:
June 15, 1963 amount: 10.0 c.f.s. or 2072 acre feet
_____ amount: _____ c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
Total claimed 10.0 c.f.s. or 2072 acre feet.
 - b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:
use irrigation period of use from April 1 to November 1 (both dates inclusive)
use stockwatering period of use from January 1 to December 31 (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).
4. Description of diverting works:
 - a. Surface water diversion dam and/or headgate: material is composed of _____
_____ ; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

 - b. Underground water diverting works: is well flowing or pumped pumped ; depth of well is #1 720 feet; diameter of well is #1 20 inches; type of pump is Layne deep well turbines
#2 700 feet; capacity of pump is #1 6 cfs #2 6 cfs ; name and address of well driller is C. D. Bishop Drilling Company, 732 West 20th Street, Burley, Idaho

Claim No. _____

REMARKS (continued)

Well No. 1 consists of a 20 inch diameter well 720 feet deep cased with 20 inch O.D. pipe from 0 to 388 feet and 18 inch O.D. pipe from 340 feet to 687 feet as shown by the attached well log marked Exhibit "1-A". Construction of Well No. 1 commenced on March 13, 1963 (prior to the effective date of the 1963 Act) and was completed on April 29, 1963 as shown by said attached well log of C. D. Bishop Drilling Company signed by C. D. Bishop, License No. 107. The well was equipped during the month of May, 1963. The pump consists of a Layne-Bowler deep well turbine pump, Serial No. 44080P, with three-stage type T.L.C. 14 inch bowls. The pump is driven by a natural gas caterpillar engine, Model No. G-333, Serial No. 58B2807, rated at 130 H.P. and 2000 R.P.M. The water is discharged from the well through 22 feet of 10 inch O.D. pipe directly into a concrete box 6 feet x 6 feet x 2 feet deep having two 3 feet openings equipped with flashboards on the east and west sides thereof and wing walls 27 inches long. From there the water flows directly into two separate earthen ditches and is conveyed thereby and distributed therefrom for the uses set forth herein. Well No. 1 produces 300 miner's inches (6 cfs) at 2000 R.P.M. and 250 miner's inches at 1650 R.P.M., the latter being the normal operating speed. Well No. 1 was test pumped by Layne Pumps, Inc. with the installed equipment on April 21, 1964 with a maximum discharge of 300 miner's inches (6 cfs), as shown by the attached sheet marked Exhibit "1-B".

SESE, 16

Well No. 2 consists of a 20 inch diameter well 700 feet deep cased with 18 inch O.D. pipe from 0 to 345 feet and 16 inch O.D. pipe from 340 feet to 586 feet as shown by the attached well log marked Exhibit "2-A". Construction of Well No. 2 commenced on March 16, 1963 (prior to the effective date of the 1963 Act) and was completed on April 30, 1963 as shown by said attached well log of C. D. Bishop Drilling Company signed by C. D. Bishop, License No. 107. The well was equipped during the month of May, 1963. The pump consists of a Layne-Bowler deep well turbine pump, Serial No. 44081P, with four-stage type T.H.C. 12 inch bowls. The pump is driven by a natural gas caterpillar engine, Model No. G-333, Serial No. 58B2820, rated at 130 H.P. and 2000 R.P.M. The water is discharged from the well through 20 feet of 10 inch O.D. pipe directly into a concrete box approximately 7 feet x 7 feet x 2 feet deep, having two 26 inch openings equipped with flashboards on the north and south sides thereof, respectively, and wing walls 3 feet long. From there the water flows directly into two separate earthen ditches and is conveyed thereby and distributed therefrom for the uses set forth herein. Well No. 2 produces 300 miner's inches (6 cfs) at 2000 R.P.M. and 250 miner's inches at 1650 R.P.M., the latter being the normal operating speed. Well No. 2 was test pumped by Layne Pumps, Inc. with the installed equipment for 30 hours beginning on May 12, 1964 with a maximum discharge of 300 miner's inches (6 cfs) as shown by the attached sheet marked Exhibit "2-B".

SWSW, 16

Both wells were placed into production on approximately June 1, 1963 and the waters diverted thereby, having a combined minimum discharge of 500 miner's inches (10 cfs), were used to

MICROFILMED
MAR 19 1993

irrigate the total of 518 acres of land described herein with at least one full irrigation by June 15, 1963, being the date of priority claimed herein. During the year 1963 potatoes were planted during the month of May on 320 of the 518 acres and the balance of 198 acres had been planted to crested wheat and native grasses. A good full crop of potatoes was harvested on the 320 acres and a good stand of native and improved pasture grasses was raised on the balance of 198 acres. During the year 1964 the 320 acres were planted to barley and harvested, and native and improved pasture grasses were again raised on the remaining 198 acres. The crop pattern has varied in the past, and likewise will vary in the future.

Of the total 518 acres, 215 acres receive their sole supply from Wells Nos. 1 and 2 and 303 acres are supplemented with waters from Warm Creek and Simplot Draw as shown on the accompanying map marked Exhibit "3" and being more particularly described as follows:

Township 11 South, Range 27 East, B. M.

	Total Irrigated	Sole Supply	Supp. From Warm Creek	Supp. From Simplot Draw
Section 9				
SW $\frac{1}{4}$ SW $\frac{1}{4}$	4		4	
SE $\frac{1}{4}$ SW $\frac{1}{4}$	26		26	
NE $\frac{1}{4}$ SE $\frac{1}{4}$	11		11	11
NW $\frac{1}{4}$ SE $\frac{1}{4}$	10		10	
SW $\frac{1}{4}$ SE $\frac{1}{4}$	6		6	
Section 16				
NE $\frac{1}{4}$ NW $\frac{1}{4}$	40		40	
NW $\frac{1}{4}$ NW $\frac{1}{4}$	27		27	
SW $\frac{1}{4}$ NW $\frac{1}{4}$	40		40	
SE $\frac{1}{4}$ NW $\frac{1}{4}$	40		40	
NE $\frac{1}{4}$ SW $\frac{1}{4}$	40		40	
NW $\frac{1}{4}$ SW $\frac{1}{4}$	40	20	20	
SW $\frac{1}{4}$ SW $\frac{1}{4}$	39	39		
SE $\frac{1}{4}$ SW $\frac{1}{4}$	39		39	
NE $\frac{1}{4}$ SE $\frac{1}{4}$	39	39		
NW $\frac{1}{4}$ SE $\frac{1}{4}$	39	39		
SW $\frac{1}{4}$ SE $\frac{1}{4}$	39	39		
SE $\frac{1}{4}$ SE $\frac{1}{4}$	39	39		
Totals	518	215	303	11

The total annual quantity of water claimed herein from all of the above sources combined is 2,072 acre feet based upon a duty of 4 acre feet per acre for the 518 acres. However, claimant does claim the right to irrigate the total 518 acres from Wells Nos. 1 and 2 at the combined diversion rate of 500 inches (10 cfs) as the primary source of supply since the waters from Warm Creek and Simplot Draw are supplemental sources of supply.

The water rights claimed herein are based upon the

TESTING RESULTS ON #2 IRRIGATION WELL:

Static Water Level - 37'

Set Pump @240', Plus Bowls and Suction

Started Pumping 5-12-64 - some sand, not an excessive amount, but considerable discoloration.

After 24 hours pumping, increased speed to obtain 215" from 125".

Pumped 215" steady for 7 hours, water level raised to 113' in well.

Speed increased to 300" - water dirty, some sand - Backed off to 200" and almost completely cleared.

Speed gradually increased again to 300", and water was relatively discolored with minimum amount of sand. Pumped from 113'.

By backing off speed, well would clear almost completely at 200".

Total Pumping Time - 30 Hours

Mr. Calder was present during latter part of testing.

COUNTY OF DAVIS)

HAROLD CALDER, being first duly sworn on his oath,
deposes and says:

Affiant is the claimant who executed and caused to be
filed with the Department of Reclamation, State of Idaho, on
November 25, 1968 that certain claim dated November 19, 1968
entitled "Claim To A Water Right" (Claim No. 43-4013), consisting
of fifteen pages including attachments and exhibits;

Affiant has read said claim, including said attachments
and exhibits thereto, knows the contents thereof, and that the
same are true and correct as he verily believes;

Affiant authorizes and requests said Department to attach
this Affidavit to said Claim No. 43-4013, and claimant hereby
incorporates herein by reference all of the statements and
information contained in said claim, including all attachments
and exhibits thereto, as if set forth herein verbatim.

Harold Calder
