REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 4, 9, 12, and 12.a, and all allegations of the objection regarding these items, IDWR responds as follows.

The director's report recommends rights to water from various sources to the objector, as shown in the director's report.

IDWR conducts a limited investigation of small domestic and stockwater claims (as defined by Idaho Code section 42-111). IDWR generally does not field examine small D&S claims; IDWR's recommendations of small stockwater claims to the U.S. Forest Service established by beneficial use in Basin 34 were based on maps and other documentation provided by USFS.

IDWR generally does not require proof of priority date for

small D&S claims based on beneficial use. The priority date recommended is later than the priority date claimed, based on a statutory claim previously filed by the United States with IDWR pursuant to Idaho Code section 42-242 et seq.

The burden rests with the United States to prove the right, and on the objector to prove the objection, in accordance with these parties' respective burdens of proof.
