REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 1, 2, 3, 3.a, 3.b, 3.c, 4, 5, 6, 7, 8, 9, 9.a, 10, 11, 12, 12.a, 13, and 14, and all allegations of the objection regarding these items, IDWR responds as follows.

The director's report recommends certain water rights to the objector, as shown in the director's report.

This right was claimed and recommended based solely upon appropriation under state law, and not based on reservation under federal law.

(Over)

IDWR conducts a limited investigation of small domestic and stockwater claims (as defined by Idaho Code section 42-111). IDWR generally does not field examine small D&S claims; IDWR's recommendations of small stockwater claims to the U.S. Forest Service established by beneficial use in Basin 34 were based on maps and other documentation provided by USFS.

IDWR generally does not require proof of priority date for small D&S claims based on beneficial use. However, rights to the use of surface water from the Big Lost River and tributaries were adjudicated in Utah Construction Co. v. Abbott, Equity No. 222 (D.E.Id. 1923); the source of water for this right is tributary to the Big Lost River; and the United States was a party to that case. The United States is therefore precluded by the doctrine of res judicata from asserting a beneficial use priority the same as or earlier than the date of the decree, March 15, 1923.

The burden rests with the United States to prove the right, and on the objector to prove the objection, in accordance with these parties' respective burdens of proof.
