REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 3 and 3.a, and all allegations of the objection regarding these items, IDWR responds as follows.

This objection seeks to add an amount of water for wildlife purposes to an instream stockwater appropriation. Physical diversion is required for an appropriation unless an exception is established by statute. Idaho Code sections 42-113 and 42-114 establish an exception to the diversion requirement for watering of domestic livestock, but no exception is provided for appropriations by the United States for wildlife purposes. IDWR denies the objection and any allegations of the objection not expressly admitted herein.

In addition, IDWR notes that there is an error in the priority date of this water right. Rights to the use of surface water from the Big Lost River and tributaries were adjudicated in Utah Construction Co. v. Abbott, Equity No. 222 (D.E.Id 1923);

the source of water for this right was one of the sources adjudicated in that case; and the United States was party to that case. The United States is therefore precluded by the doctrine of res judicata from asserting a beneficial use priority date as of or prior to March 15, 1923.
