RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date"**.

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

I, Tom Teeter, was born in 1914 at Yost, Utah. In 1916 we moved to Burley, Idaho. In 1920 we moved back to Yost, Utah. I attended school at Yost from age 6.

My father, Roy A. Teeter, always had cattle. When I was very young we would trail cattle to and from Kelton, Utah to the railroad. I can remember we always stopped to water our cattle at Standrod from the Holt spring and also the run off from the spring by the house.

As long as I can remember there has always been a house by the spring, and someone always lived there. I have always known that house was built by the spring for the convenience of the water.

I have also known the water was used for irrigating hay and grain. People who lived on that ranch at Standrod always had cattle and other animals so used the water for their stock.

Both the spring in question and the Holt Creek Spring's point of diversion is NE 1/4 of NE 1/4 Sec. 27 T. 16 S. R. 26 E. Place of use NW 1/4 of NW 1/4 of Sec. 26 and the NE 1/4 of NE 1/4 of Sec. 27 all in T. 16 S. R. 26 E.

I remember this said flow of water from as early as 1920. In the later years I also leased this particular ground for grazing.

To whom this may concern I Glenn L. Jones of the Standrod and Malta area of Cassia county Idaho. Have witnessed the flow of water in the Holt Creek Channel from a spring in the state of Utah near the Idaho state line, owned by my father Val Jones who lived in Standrod Idaho.

This water has been used on a property now owned by Dean and Judy Fredrickson about one mile to the north for irrigation and stock-water when the flow was of sufficient amount to reach the property as here described. Point of diversion is NE $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 27 T.16 S. R.26 E. Place of use NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Sec. 26 and the NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 27 all in T.16 S. R.26 E.

I remember this said flow of water from as early as 1936 and have witnessed the same many years since then.

Glenn L. Jones

RE: Snake River Basin Adjudication (SRBA)
A43-02237, A43-04083, A43-04084, A43-07121

Dear Lane,

Here are the amended claims for you to sign, as we discussed during my second field exam on June 17th.

I amended the location of the *place of use* for the licensed based claim A43-02237 from Cemetery Spring to include 6.5 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26. The total acres and diversion rate remain the same.

I amended the *total diversion rate* of claim A43-04083, from Holt Creek, to 1.57 cfs, which includes 1.54 cfs for irrigation, and 0.03 cfs for stockwater. At this time, I have left the claimed number of acres in the place of use the same.

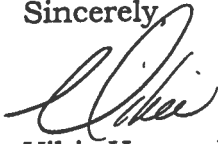

I amended the *total diversion rate* of claim A43-04084, from Barnes Spring, to 0.76 cfs, which includes 0.73 for irrigation and 0.03 for stockwater. (Please note, it appears that the original claim was data entered incorrectly and listed 0.3 cfs for stockwater, so I took this opportunity to correct the error). At this time, I have left the claimed number of acres in the place of use for this claim the same.

I located the claim for stockwater that you asked about last week. It is claim number A43-07121. It was originally filed for irrigation and stockwater, and based on a permit of the same number. This permit, filed by Fredricksons, was approved for the development of stockwater and the irrigation of 40 acres. It appears that the irrigation project was never completed, and consequently, the right was licensed for 0.01 cfs for stockwater only. My recommendation for this claim in the SRBA will be the same as it was licensed.

Please check these amended claims carefully. I also updated your address on all of them. If they are correct, sign, notarize and return them to me at your earliest convenience. I have also enclosed a draft of how your different claims come together and overlap on the total 65 irrigated acres. If you disagree with what I have, let me know. Now that I have the raw data for your claim, I will probably not get to all the final paper work

until later this fall. If you have any questions, or any information that you think will help me with the recommendation of your claims, let me know.
My regards to Crowbar.

Sincerely,

I returned to Gochnour's property and indeed did find that both Barnes Spring and Holt Creek had significantly more flow than during my field exam of May 27, 1999. Claimant was diverting Holt Creek to both the west and east at the diversion point, instead of just to the east as found on May 27th. Barnes spring was being diverted around the rise to the northeast and also to the northwest to the bottom northwest edge of the irrigated ground, and out into laterals.

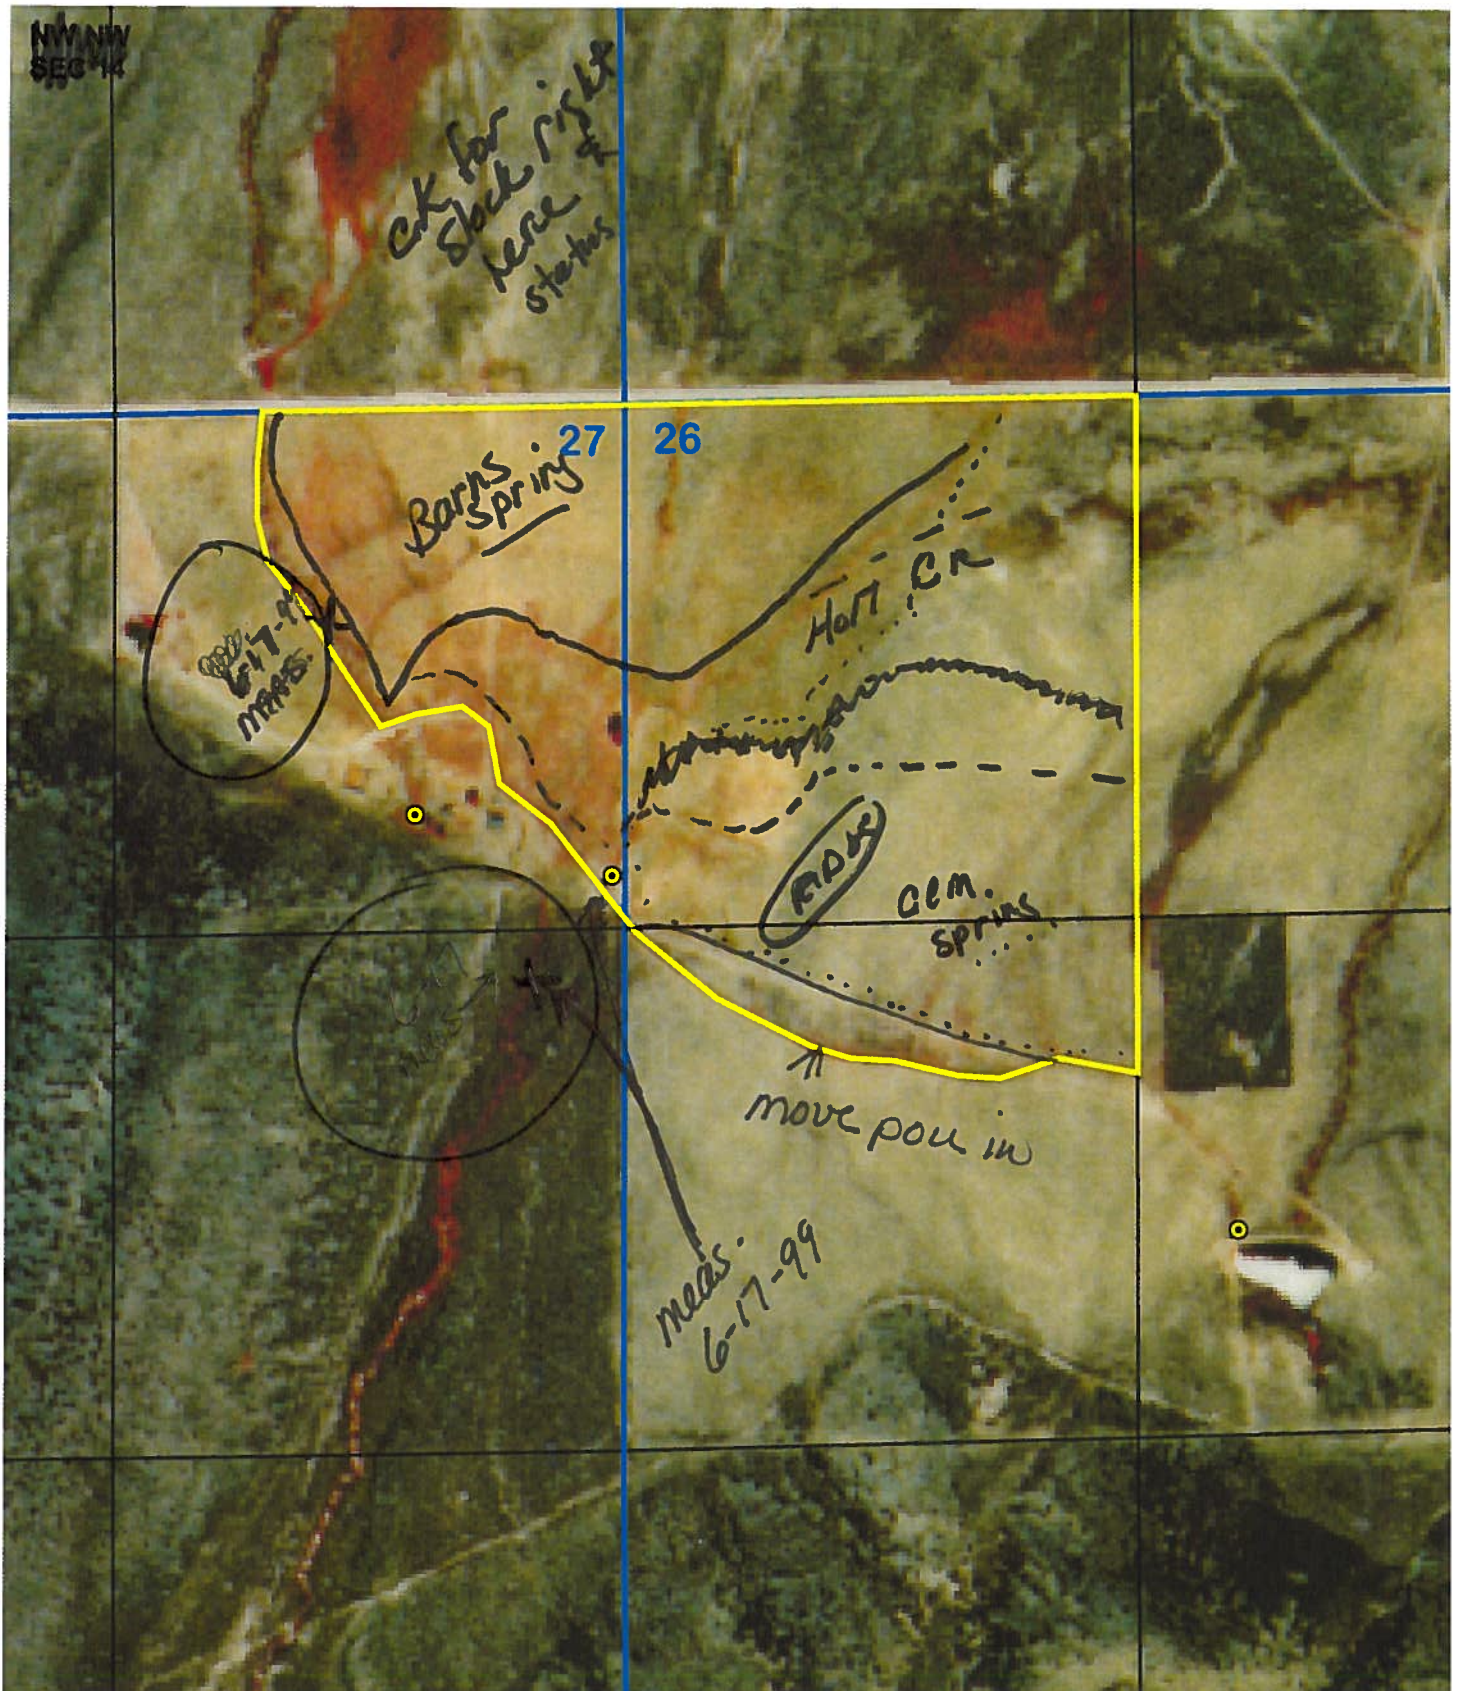

After both sources were re-measured, claimant decided to increase the diversion rate on both claims. He is aware that, unless justified by excess flow analysis, he will be limited to 1 inch per irrigated acre on the combined claims from Holt Creek, Barnes Spring and Cemetery Spring, as they overlap. We went over what part of the place of use he could irrigate with each source. I also mentioned to him that I had found no domestic claim on Barnes Spring, which is his source of water for the house. I left the form he needed, as he indicated he would want to file a domestic claim on the spring.

Notes: Mr. Gochnour present.

Barnes Spring is in gully just west of old homestead. Water for home is also diverted here. Spring box is underground beneath hay bales. Water is piped a short distance and then split to go west down orig channel ~~and~~ or to north & east around hill to irrigate off of it. Search found no domestic claim on the water from the spring. There is currently no irrigation west of the spring channel to the house, but Flood (irrigation) extends from point of split north to road.

Holt Creek diversion is into ditches which go NW & NE. One goes along old channel which has been improved. ~~and~~ Pasture Floods from here to road also.

Cemetery Spring is located due south of pond. Claimant says water flows through pond & is not impounded. No gates were on the outflow culvert from pond. Water from spring is conveyed to

He also noted that the irrigated acres should extend into the SW 1/4, however the Transfer done by the previous owner moved the entire right to the NW 1/4.

It did appear close to me that there had been significant effort expended to get water to all of his ground that is in pasture. Mr. Bochnow asked if he could ever change his system and put gravity fed sprinklers on the ground north of Stravel Rd which he feels could be more efficiently irrigated. I explained that an allocations agent could work with him in transferring the water and that there were several options - from drying up his current irrigated acres to mitigation, etc.

WE DISCUSSED THE INFO ON THE RAFT RIVER CGWA AND I TOLD HIM IT SHOULDN'T BE THE LIMITING FACTOR HERE... MORE IMPORTANT WOULD BE THE CURRENT MORATORIUM ON NEW PERMITS. HOWEVER IF HE CAN SHOW LACK OF INJURY TO OTHERS AND THE AQUIFER AS A WHOLE HE MIGHT BE ABLE TO GET THE NECESSARY APPROVAL.

I TOLD HIM I KNOW TOO LITTLE ABOUT THE NATURE OF THE STREAM AND FARM AREA TO SAY IF THE DEPT. COULD ISSUE A PERMIT, BUT THEY PROBABLY WOULD DO A PRE-PERMIT EXAM TO INVESTIGATE THE MATTER.

HE WOULD LIKE TO FILE TWO RIGHTS; 1. FOR NON-CONSUMPTIVE USE IN A POND, 2. FOR IRRIGATION W/ ABOUT 1.0 CFS. I AGREED WITH HIM THAT CHANCES LOOK PRETTY GOOD FOR GETTING THE FIRST. THE SECOND OPTION MAY HAVE MORE DIFFICULTY. I SUGGESTED HE TAKE PHOTOS WHEN HE VISITS THE SITE NEXT TO HELP SUPPORT HIS APPLICATION TO SHOW THE LIMITED EFFECTS THE FURTHER USE OF THE STREAM WOULD HAVE ON THE BASIN AREA.

HE CALLED IN TO ASK ABOUT THE "BUD HOLLAND PLACE". HE LIVES IN BOISE AND PLANS TO RETIRE SOON, LOOKING AT THIS PROPERTY FOR PURCHASE. HE WAS GIVEN THE PROOF REPORT FOR RIGHT 43-07121 BUT THIS IS FOR HIS NEIGHBOR, GOCHNOUR.

I GOT THE LEGALS FROM HIM AND SEARCHED THE NAME QUERIES FOR HOLLAND AND JONES. SEARCHED THE POU QUERIES FOR THE LANDS IN T16S, R26E, S26, S1/2 AND S27, SE, S1/2NE, NWNE. HE DID NOT KNOW THE NAME OF THE CREEK HE WOULD LIKE TO USE SO I CHECKED OUT CLEAR CREEK RIGHTS BUT FOUND NOTHING OF USE.

PLAN TO CONSULT WITH FRANK HITCHCOCK, IDWR AGENT FOR THE AREA, AND ID THE STREAM AND POSSIBLE WATER RIGHTS AND CALLBACK TO MR. JONES.

I RETURNED FROM LUNCH AND FOUND A NOTE MR. JONES HAD CALLED. BEFORE I RETURN HIS CALL I WANTED TO GATHER MY INFO.

FOUND THE NAME OF THE STREAM TO BE "HOLT CREEK" AND A SEARCH ON THIS NAME FOUND THE RIGHT A43-04083 AS OWNED BY GOCHNOUR. ALSO CONFIRMED THE AREA IS WITHIN THE RAFT RIVER CGMW.

I OFFERED TWO POSSIBLE OPTIONS FOR A WATER RIGHT AT THIS PARCEL; 1) FILE A NEW PERMIT APPL., OR 2) BUY AND TRANSFER IN ANOTHER RIGHT. IN EITHER CASE, BOTH WILL BE SUBJECT TO PROTESTS FROM OTHER PARTIES AND PROCESSING BY IDWR. I TOLD HIM I DON'T BELIEVE THE SECOND OPTION IS VERY PROBABLE DUE TO SCARCE WATER IN THE RAFT RIVER BASIN.

I NEED TO LOCATE A COPY OF THE RAFT RIVER ORDER FOR THE CGWA AND READ THE DETAILS TO ANSWER MORE ON THE POSSIBLE DEVELOPMENT OF NEW RIGHTS. WILL CALL WHEN I HAVE MORE INFO.

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.
