Case No. 39576	)

_____	)	AND RECOMMENDATION

FINDINGS OF FACT

The Director of the Idaho Department of Water Resources filed his *Director's Report, Irrigation & Other Uses, IDWR Lower Basin 01 (Part 1)*, on May 15, 2006. The Director recommended claims 01-9, 01-17 and 01-2050 to the Milner Irrigation District, 5294 East, 3610 North, Murtaugh, Idaho, 83344, for 121 cfs, 135 cfs and 37 cfs from the Snake River to irrigate 13,335 acres within the Milner Irrigation District from March 15 to November 15 with priority dates of April 1, 1939, November 14, 1916, and July 11, 1968, based on a decree or beneficial use.

Between October 3 and 6, 2006, *Objections* were filed by the Milner Irrigation District, Idaho Ground Water Appropriators, Inc., Producers Irrigation Company, Independent Water Users of Mud Lake, Mud Lake Water Users, Inc., Jefferson Irrigation District, Montevue Canal Company, Fremont-Madison Irrigation District, Blackfoot Canal Company and United Canal Company objecting to source and "other provisions." The City of Pocatello was granted leave to participate on March 26, 2008.

On December 11, 2009, the Special Master entered an *Order on Motions for Summary Judgment* in the multiple subcases, including the above three subcases, holding in relevant parts: the source of all rights listed in the *Supplemental Eagle Decree* is the Snake River not limited by classification as flood of high flow; the priority dates decreed in the *Eagle Decree* are valid; flood water rights are not subordinated to junior hydraulically connected water rights; and the season of use for flood water rights should be IDWR's standard season of use. On June 21, 2011, SRBA Presiding Judge Eric J. Wildman entered a *Memorandum Decision and Order on*

Permissive Review affirming the Special Master's "except for the *Special Master's* determination to deny the *GWD's Priority Date Motion* with respect to water right claim 01-14."

IDWR filed a *Supplemental Director's Report Regarding Subcase Nos. 01-09, 01-17 & 01-2050* on February 29, 2012. The *Report* concluded:

Consistent with the Idaho Supreme Court's decision in *Bradshaw*, the Department's recommendations for 01-17, 01-2050, and 01-09 in no way limit Milner from applying water to any lands within the district, be they original or annexed lands. The Department's recommendations do, however, recognize the priority dates and number of acres that were irrigated when water was put to beneficial use under each of the rights.

Report, at 12.

IDWR filed an *Amended Director's Report, Subcase No. 01-9* on March 30, 2012, recommending the claim for 113 cfs with a priority date of July 12, 1967. On April 30, 2012, Milner Irrigation District filed an *Objection* to quantity and priority date. On May 25, 2012, the Special Master entered an ***Order Denying Motion to Strike and Motion in Limine*** denying Milner Irrigation District's *Motions*.

On July 19, 2012, the parties filed a *Stipulation to Resolve Objections* in all three of the above subcases plus *Standard Forms 5* agreeing to disallow 01-9 and split the right into 01-9A and 01-9B. The parties also filed *SF-5s* in subcases 01-17 and 01-2050 the same date.

CONCLUSIONS OF LAW

1. Milner Irrigation District is **not** entitled to a partial decree adjudicating a water right for claim 01-9 because of the split; and
2. Milner Irrigation District is entitled to partial decrees adjudicating water rights as described in the *SF-5s* and the attached ***Special Master Recommendations for Partial Decrees for Water Rights 01-9A, 01-9B, 01-17 and 01-2050.***

RECOMMENDATION

THEREFORE, IT IS RECOMMENDED that claim 01-9 be **disallowed**.

DATED July 30, 2012.
