RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date**, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

Prepared by Kelly K Christensen

**SYSTEM REVIEW FOR
43-323A AND 43-4105B**

This claim is for 10 acres within the decreed place of use for **43-323**. T-2541 was filed in 1981 to change the point of diversion and the place of use for a portion of 43-4105. This is the same 10 acres under this claim. The decreed right was split into 3 pieces and was claimed proportionally. It was not over claimed. The claimed point of diversion location did not match the recommended point of diversion. The recommended P/D is the same one as recommended under the other parts of the decreed right.

43-4105B was created through transfer 2541 on the 10 acres described above. The claimant supplied information on the well capacity which Scott King used to estimate the diversion rate. His estimate indicated that the diversion rate was somewhere between 0.13 cfs and 0.24 cfs. The major factor is the depth to water. As the claimed rate and legal limit for the 10 acres is 0.20 cfs, I am recommending that rate.

The claimed priority date was 1925 but the evidence of priority submitted with 43-4105C indicates that the well was constructed in 1927. I am recommending the 1927 priority date.

The claimed and recommended place of use is 10 acres. This includes any buildings, roads and other non-irrigated ground as it did not appear that there was a significant acreage that was not irrigated.

Second Notice

DIRK KEMPTHORNE
GOVERNOR

KARL J. DREHER
DIRECTOR

MONTOYA, AMPELIO & ALBERTA
PO BOX 87
MALTA ID 83342

RE: Information about historical water diversion flow rate

Dear Wateruser:

This past December IDWR sent a letter to you requesting your assistance in providing information about flow rates from certain diversions (copy attached). These letters are being sent to claimants with identified rights that have not previously been confirmed (measured) either through the licensing process or by decree. IDWR desires to make the most accurate recommendation to the SRBA Court and this requires your participation and cooperation, pursuant Idaho Code §42-1410.

One advantage of providing good, verifiable information to us is that the flow rate that we recommend will be the full measure of your water right as developed. Another benefit is that disputes over the recommendation are minimized. Lastly, documentation for flow rate will likely be dated and may support evidence of priority determination.

In the absence of good information about historical diversion flow rates IDWR may conclude any of three less desirable alternatives:

- 1) Recommend disallowal of right.
- 2) Recommend a flow rate limited to a licensed rate, if a licensed diversion is part of the system, but with additional diversion volume if the use and diversion capacity is documented to have occurred before 1963.
- 3) Recommend the right as an expansion in a critical ground water area, §42-1416B I.C., which limits the flow rate AND volume to the licensed quantity. This provision also sets the priority at 6/30/1985, regardless of development date between 1963 and 1985.

Thank you for your attention to this matter and we look forward to your quick response and documentation relating to this request. Water Resource Agents from the department may be contacting you in the near future should field work be required to finalize recommendations. Inquiries related to this diversion rate information request should be made to Scott King or Cindy Bird at (208) 327-7900. Inquiries about other aspects of your claim should be made to the Southern Region Office (208) 736-3033.

Sincerely,

Scott King

Sprinkler Flow	94 gpm	Q=	0.007 cfs Flow per nozzle
Percent Leaks	12 %	=	2.950 gpm Flow per nozzle
Total Flow	107 gpm		= 0.24 cfs
Pivot / System rating		gpm	=

Comments / Data Supplied:

10/4/2000 snk.

The above computations show that 2 lines, as described by Montoya, operating at a fairly low pressure (40 psi), would require about 0.24 cfs. A 5-hp pump could deliver this flow, but only with shallow pumping levels. The well, when constructed, was tested at 50 gpm with a pumping level of 80 feet. It is highly unlikely that the system can deliver the 0.24 flow required for operating both lines.

Groundwater has been injected with California Creek water for use on the land.

APPLICATION FOR TRANSFER OF WATER RIGHT **APPROVED**

To Change the Point of Diversion and or the Place of Use

Name of applicant Nick Rodocker Phone 845-2566

Office address Malta, Idaho

DESCRIPTION OF RIGHT AS RECORDED

- Right evidenced by:
 - Decree to _____
 in case of _____ vs _____
 dated _____ in _____ county of _____
 (Name of court)
 - License No. _____ issued by the Idaho Department of Water Resources
 - Claim No. 43-4105 on file with the Idaho Department of Water Resources
- If applicant is not the original holder of this right, explain how it was acquired and attach a copy of the deed or other evidence of ownership of the land to which the right is appurtenant
Thru purchase, see attached copy of Warranty Deed.

- Source of water Groundwater tributary to _____
- Date of priority April 1, 1925
- Water is used for the following purposes:
 amount 1.60 for irrigation purposes from Mar. 15 to Nov. 15
 amount _____ for _____ purposes from _____ to _____
 amount _____ for _____ purposes from _____ to _____
 (month/day - both dates inclusive)

- Total amount of water under right: a. 1.60 cubic feet per second
 & or
 b. _____ acre feet per annum
- Location of original point of diversion is S1 _____ % of NW _____ % of Section _____
Township 13S Range 26E B.M. in Cassia County
 Additional points of diversion, if any _____

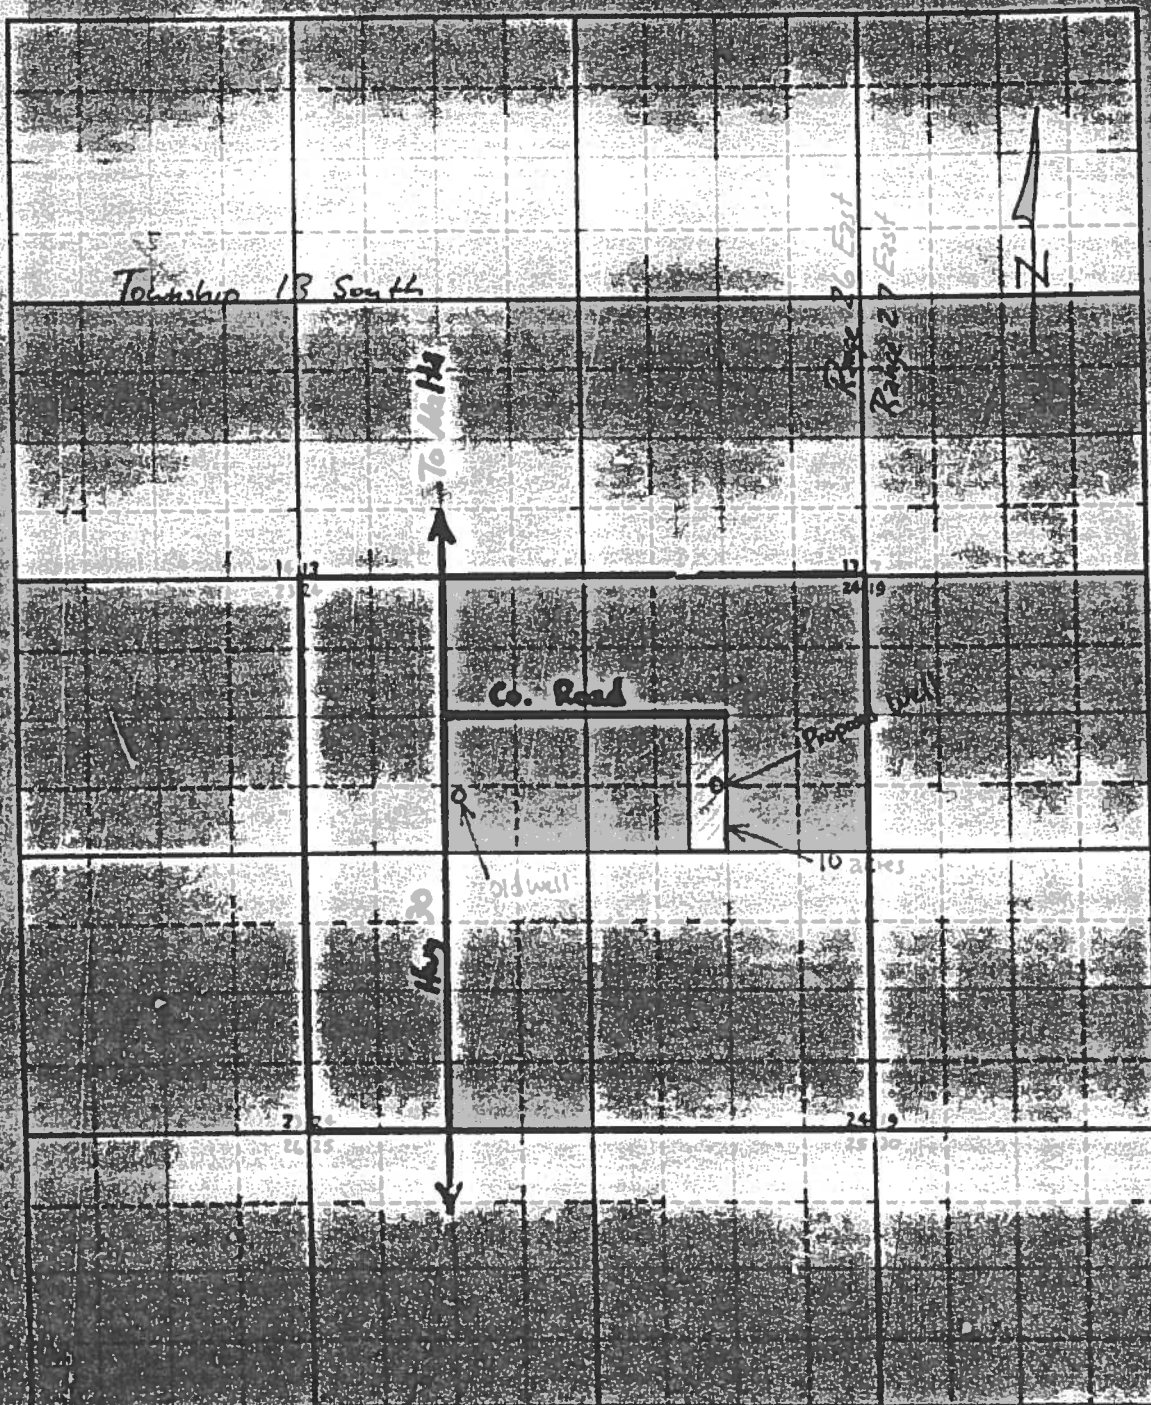

8. Lands irrigated or place of use:

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SE 1/4				SW 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
13S	26E	24			40				40										80

- Describe any other water rights used for the same purpose as those listed above:

Decreed rights from Cassia Creek with priority of 1912

3. Draw a map indicating the new point(s) of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township and range number.

SCALE: 2 inches equal 1 mile. Draw plan in ink.

4. Remarks

I hereby assert that no one will be injured by such change and the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.
