Subject: Claim No. 63-3614 - Anderson Ranch Reservoir

Ron,

For this moment in time, would you please change the subordination remark on BOR's filing listed above by deleting the portion that references the preliminary report. This will leave the subordination remark only.

Thanks,

Jan

To: Spencer, Nick
Subject: review of license files 63-2063 and 63-3614 for subordination language

per your request to review the license files for agreements or license language re subordination of the above rights - sorry it took so long but the 3614 file was a big one.

63-2063

There is no subordination language in the license itself. The license was issued in 1908 for mining and milling purposes. An 8/00 FERC draft Environmental Assessment (EA) states that Atlanta Power file an application with FERC to license the existing hydropower plant. On page 15, the EA refers to an agreement between the IDFG and the applicant wherein the applicant agreed to subordinate a portion of their water right to ensure that flows remain available to IDFG for operation of the fishway. The agreement states that flows through the fishway can vary between a minimum of 3 cfs and a max of 12 cfs.

This agreement is not in the license file nor is there an FPC license.

63-3614

This is a US BOR water right for power and irr from storage [Anderson Ranch Reservoir], and storage for irr and power. This is a huge file and I reviewed most of the documents in it with the exception of the old project maps and the old contracts with various irr companies. I cannot find any subordination language anywhere.

To: Ron Howerton

From: Jan Shurte

Subject: Claim No. 63-3614

Anderson Ranch Reservoir Notice of Error Changes
Per meeting with BOR on May 20th – Dave Tuthill & Jan Shurte

Item No. 2

A – Ok to change zipcode.

B – Change to “Total reservoir capacity is 493,161 acre feet when filled to elevation 4196.0 and measured at the upstream face of the dam. (this results in an actual reduction of what we had first – in the acre feet and elevation feet)

C - Leave as is – BOR does have a problem with the irrigation season being earlier than 4-1 since historically that is when they have called the watermaster on to deliver water. However, Dave maintained that there are some waterusers who use direct diversions out of the Boise that are not controlled by BOR earlier than 4-1. So, BOR will discuss and we may see an objection. Still we are to leave the season of use as is and leave the shoulder remark on.

D – Change remark to “The place of use is within the Boise Federal Reclamation Project within Ada, Canyon, Elmore Counties, Idaho, and Malheur County, Oregon (Big Bend Irrigation District).”

E1 – Leave as is for now. Dave T. will talk with Clive Strong. Problem is that the only time power is generated is when irrigation water is released. No power generated outside irrigation releases. So, he will discuss with Clive.

E2 – Add general remark to “Arrowrock, Anderson, Lucky Peak, Lake Lowell and Hubbard reservoirs are operated as one system in accordance with Federal Reclamation Act of August 24, 1954, ch. 909, 58 Stat. 794.”

These are the results of the meeting we had. We still need answers on C and E1 – I will email Dave Tuthill and cc to you.

Notice of Error Mtg – 4-29-02

63-3614 – Anderson Ranch

A, B, C – ok to change

D – Jan & Dave will discuss with BOR in meeting on 5-20-02 - ? on how water gets to Payette & Gem County (BCID?) and Big Bend – New York Canal – Lake Lowell?

E – Same as above – subordination clause – difficult not to include.

Remark – concerning all reservoirs operating as one can be in explanatory remarks.

63-3618 – Lucky Peak

A – ok

B – Dave will talk with allocations about adding to license.

C – Dave will talk with allocations concerning amendment approved 1990 to change to streamflow maintenance – is it because database has no streamflow maintenance use code? Try to talk with them about making a use code. This one will be ok.

D - Same as 63-3614.

2nd half of D – Covered in licensing remarks concerning location of streamflow maintenance.

E – Ok as an explanatory remark.

F – Not ok to add – Purpose of Use – Recreation storage is not meant for irrigation of state parks in and around Lucky Peak.

63-303 – Arrowrock Reservoir - 271,600 af - 1911

A – ok

B – Need to discuss with Lee Sisco in May 8th meeting. Is 8,000 cfs necessary on claim for delivery of the right.

C – Will talk with BOR in meeting on 5-20.

D – Explanatory Remark – ok

E – Need to discuss the 8,000 cfs delivery with Lee and then look at this remark from the Bryan decree – distribution remark.

63-3613 – Arrowrock Reservoir – 15,000 af – 1938

A & B – Ok

C – Will discuss at 5-20 meeting with BOR

D – Ok to change season of use shorter – 3-15 to 11-15

E - Ok as explanatory remark

63-5262 – 286,600 af – 1911 – Disallowed and recommended as 63-303

If 63-303 is determined to be recommended back to the 8,000 cfs, then this right can be recommended to cover the af amount for storage.

If it is recommended then:

A & B – Ok

C – Will talk about at 5-20 BOR meeting

D - Ok for explanatory remark.

NOTICE OF ERROR
REPLY

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: April 5 2002

Water right number: 63-3614

UNITED STATES OF AMERICA ACTING THROUGH
REGIONAL DIRECTOR PN REGION CODE PN-3100
BUREAU OF RECLAMATION
1150 N CURTIS RD SUITE 100
BOISE ID 83706-1234
Telephone Number: (208) 378-5306

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

A) Name and Address, B) Quantity, C) Purpose and Period of Use, D) Place of Use, and E) Other Provisions Necessary for Definition or Administration of this Water Right

2. Describe the changes you wish to make in the proposed recommendation:

A) Zip Code should be 83706-1234.

B) Quantity remark should be changed to "Total reservoir capacity is 493,161 acre feet when filled to elevation 4196.0 and measured at the upstream face of the dam. The Bureau of Reclamation may temporarily store water in the surcharge capacity which is above elevation 4196.0 during flood events or emergency operations."

C) The remark regarding irrigation season should be deleted.

D) Place of Use remark should be changed to "The place of use is within the Boise Federal Reclamation Project within Ada, Canyon, Payette, Gem Counties, Idaho, and Malheur County, Oregon (Big Bend Irrigation District)."

E) Remark regarding hydropower is not necessary and should be deleted. Hydropower at this facility is incidental to irrigation storage releases which are not subordinated to other water rights. Language of the actual license " 493,161 af for irrigation and such power as can be generated by use of water released for irrigation use." *PER BIA (ADD) ✓ LAKE LOWELLY HUBBARD RES.*

Remark should be added "Arrowrock, Anderson, and Lucky Peak reservoirs are operated as one system in accordance with Federal Reclamation Act of August 24, 1954, ch. 909, 68 Stat. 794."

3. Give a brief explanation as to why you disagree with these portions:

A) Zip code is wrong.

B) This quantity remark is necessary to administer all beneficial and operational uses of the reservoir including flood control.

C) This remark is confusing and does not apply to irrigation storage releases.

D) Federal project water from this reservoir is used on lands within the Arrowrock and Payette Divisions of the Boise Federal Reclamation Project, pursuant to Federal Reclamation Act of August 24, 1954, ch. 909, 68 Stat. 794.

E) Arrowrock, Anderson, and Lucky Peak reservoirs are operated as one system as authorized by federal law, as recognized by contracts with spaceholders in the reservoirs, and as administered by the Idaho State Watermaster for Water District 63.

I AGREE with this proposed recommendation: no changes need to be made.

Mr. David Tuthill, Chief
Adjudication Bureau
Idaho Department of Water Resources
1301 N. Orchard
Boise ID 83706

Dear Mr. Tuthill:

Subject: Snake River Basin Adjudication Basin 63 - Bank Storage Claim Nos. A63-05264
Lake Lowell, A63-05263 Lucky Peak Reservoir, A63-05261 Anderson Ranch Reservoir,
and Arrowrock Reservoir Storage Claim No. A63-05262

The subject claims were filed to memorialize historic operations and physical conditions existing at Lake Lowell, Lucky Peak Reservoir, Anderson Ranch Reservoir, and Arrowrock Reservoir. These bank storage claims and bank storage component included in the Arrowrock Reservoir storage claim are based on the fact that as the reservoir fills, water is stored in or saturates the banks surrounding the reservoir. Although this water is necessary to fill the reservoir, it does not actually go into the reservoir except for some percentage that drains back when the reservoir is drawn down. As a result, the amount of water actually necessary to fill the reservoir is greater than the capacity of the reservoir. We filed for bank storage claims based upon water right License No. R-269 that awarded the same for Reclamation's storage water at American Falls Reservoir.

However, as we discussed at our meeting, if we can accomplish the same result through a remark that allows us to calculate the fill at the face of the dam as has been the historic operating practice, we are willing to withdraw our bank storage claims. Therefore, to administer Bureau of Reclamation reservoirs in accordance with such historic practice, a remark would be necessary in the SRBA decree to reflect what the practice has been. The following language, in our opinion, captures and preserves the operational flux described above:

TOTAL RESERVOIR CAPACITY IS 493,200 ACRE-FEET WHEN FILLED TO
ELEVATION 4206' AND MEASURED AT THE UPSTREAM FACE OF THE DAM.

We request that you consider this language for inclusion as a remark on the Bureau of Reclamation SRBA claims for storage rights in reservoirs in Basin 63. If you concur with this

Subject: Subordination clause

Hi Dave,

Per your phone message it appears we are to add the subordination condition on both the ~~Arrowrock~~ 3614 and Atlanta 2063. However, we need to add another line basically stating that "The subordination condition is included in this preliminary report only for discussion purposes". Or something like that?

Final one "The subordination condition is included in this preliminary report for discussion purposes. Concerns about inclusion should be discussed with IDWR staff."

Jan

Mr. John M. Owen
Chairman
Pioneer Irrigation District
PO Box 426
Caldwell ID 83606-0426

Subject: Adjustment of Anderson Ranch Reservoir Storage Capacity

Dear Mr. Owen:

A 2000 Sedimentation Survey has determined that the total capacity of Anderson Ranch Reservoir for irrigation purposes has decreased from 418,000 acre-feet to 408,268 acre-feet of storage space.

Pioneer Irrigation District (District) has storage rights to 6.12 percent of the stored water actually available from Anderson Ranch Reservoir for irrigation purposes in accordance with Article 12 of Contract No. Ilr-1479, dated November 10, 1943, between the United States and the District. Applying this percentage to 408,268 acre-feet results in a volume of 24,986 acre-feet. The amount of storage space that is available to the District will now be treated as the equivalent of 24,986 acre-feet, a reduction of 596 acre-feet from the amount previously recognized.

The 2000 Sedimentation Survey determined that in the 51 years the reservoir has been in operation, about 2.3 percent of the storage space available for irrigation purposes has filled with sediment.

If you have any questions regarding the adjustment in your contract amount, please contact Jerry Gregg, Area Manager of our Snake River Area Office, at (208) 334-1460.

Sincerely,

J. William McDonald

Subject: Adjustment of Anderson Ranch Reservoir Storage Capacity

Dear Mr. Silverstein:

A 2000 Sedimentation Survey has determined that the total capacity of Anderson Ranch Reservoir for irrigation purposes has decreased from 418,000 acre-feet to 408,268 acre-feet of storage space.

Capitol View Irrigation District (District) has storage rights to 0.11 percent of the stored water actually available from Anderson Ranch Reservoir for irrigation purposes in accordance with Article 7 of Contract No. 14-06-100-525, dated July 7, 1954, between the United States and the District. Applying this percentage to 408,268 acre-feet results in a volume of 449 acre-feet. The amount of storage space that is available to the District will now be treated as the equivalent of 449 acre-feet, a reduction of 11 acre-feet from the amount previously recognized.

The 2000 Sedimentation Survey determined that in the 51 years the reservoir has been in operation, about 2.3 percent of the storage space available for irrigation purposes has filled with sediment.

If you have any questions regarding the adjustment in your contract amount, please contact Jerry Gregg, Area Manager of our Snake River Area Office, at (208) 334-1460.

Sincerely,

J. William McDonald
Regional Director

Subject: Adjustment of Anderson Ranch Reservoir Storage Capacity

Dear Mr. Kuenzli:

A 2000 Sedimentation Survey has determined that the total capacity of Anderson Ranch Reservoir for irrigation purposes has decreased from 418,000 acre-feet to 408,268 acre-feet of storage space.

Pioneer Ditch Company, Ltd. (Company) has storage rights to 0.52 percent of the stored water actually available from Anderson Ranch Reservoir for irrigation purposes in accordance with Article 7 of Contract No. 14-06-100-2284, dated December 27, 1961, between the United States and the Company. Applying this percentage to 408,268 acre-feet results in a volume of 2,123 acre-feet. The amount of storage space that is available to the Company will now be treated as the equivalent of 2,123 acre-feet, a reduction of 51 acre-feet from the amount previously recognized.

The 2000 Sedimentation Survey determined that in the 51 years the reservoir has been in operation, about 2.3 percent of the storage space available for irrigation purposes has filled with sediment.

If you have any questions regarding the adjustment in your contract amount, please contact Jerry Gregg, Area Manager of our Snake River Area Office, at (208) 334-1460.

Subject: Adjustment of Anderson Ranch Reservoir Storage Capacity

Dear Mr. Purdy:

A 2000 Sedimentation Survey has determined that the total capacity of Anderson Ranch Reservoir for irrigation purposes has decreased from 418,000 acre-feet to 408,268 acre-feet of storage space.

New Dry Creek Ditch Company, Ltd. (Company) has storage rights to 0.31 percent of the stored water actually available from Anderson Ranch Reservoir for irrigation purposes in accordance with Article 11 of Contract No. Ilr-1480, dated October 5, 1944, between the United States and the Company. Applying this percentage to 408,268 acre-feet results in a volume of 1,266 acre-feet. The amount of storage space that is available to the Company will now be treated as the equivalent of 1,266 acre-feet, a reduction of 30 acre-feet from the amount previously recognized.

The 2000 Sedimentation Survey determined that in the 51 years the reservoir has been in operation, about 2.3 percent of the storage space available for irrigation purposes has filled with sediment.

Subject: Adjustment of Anderson Ranch Reservoir Storage Capacity

Dear Mr. Loucks:

A 2000 Sedimentation Survey has determined that the total capacity of Anderson Ranch Reservoir for irrigation purposes has decreased from 418,000 acre-feet to 408,268 acre-feet of storage space.

Ballentyne Ditch Company (Company) has storage rights to 0.09 percent of the stored water actually available from Anderson Ranch Reservoir for irrigation purposes in accordance with Article 11 of Contract No. Ilr-1512, dated January 20, 1948, between the United States and the Company. Applying this percentage to 408,268 acre-feet results in a volume of 367 acre-feet. The amount of storage space that is available to the Company will now be treated as the equivalent of 367 acre-feet, a reduction of 9 acre-feet from the amount previously recognized.

The 2000 Sedimentation Survey determined that in the 51 years the reservoir has been in operation, about 2.3 percent of the storage space available for irrigation purposes has filled with sediment.

Remarks: 19941011 SLESTER
TRANSFER NO. 4457

Bureau of Reclamation proposes to change the use of 400 acre feet of water supplied from Anderson Ranch Reservoir to land adjacent to Lake Lowell for a wildlife mitigation project. The transfer suggests adding uses to existing licensed uses under the concept of allowable expansion of storage water uses. This will codify actual uses of contracted and uncontracted reservoir water but will not imply an increase in the amount of water available or used.

Municipal from Storage	01/01	12/31	4,800.00
Wildlife Storage	01/01	12/31	400.00
Wildlife from Storage	01/01	12/31	400.00

Total Quantity Appropriated is 523,161.00 A.F.A.

Total Consumptive Use is 423,200.0 Acre Feet Per Annum.

Remarks:

Place of use for the irrigation from storage water is irrigated lands within the Boise Federal Reclamation Project in Ada and Canyon Counties, Idaho, and Malheur County, Oregon. This transfer is intended to delineate a specific location for the use of the 400 acre feet wildlife from storage water and 400 acre feet of irrigation from storage water. The 400 acre feet is the same water. The transfer requests a right for wildlife be allocated on 90 acres and an irrigation right on a portion (50.95 acres) of the 90 acres. The irrigation right and acreage subject to this transfer will not expand in the future, but the wildlife right may expand in the near future. The irrigation acreage will decline on an equal basis, up to the 90 acres, as the wildlife acreage expands. See application for specific place of use.

Wildlife

Wildlife	<u>400</u> acre feet
----------	----------------------

Total Wildlife 400 acre feet

This is a multi-year storage project.

Proposed conditions of water use:

Irrigation of crops for wildlife use on approximately 51 acres. Wildlife and wildlife storage uses for a habitat pond.

General Information:

Purpose of Transfer

☐ Change point(s) of diversion ☒ Add diversion point(s) ☐ Add & Change point(s) of diversion
☐ Change place of use ☐ Change nature of use ☐ Add point diversion & Change place of use
☐ Change period of use ☒ Other Add Place & Nature of Use ☐ Change point diversion & place use

Describe the reason for the proposed changes:

Water has been provided to about 51 acres from Anderson Ranch Reservoir for years. As requested by the parties a Memorandum of Agreement has been signed by Boise Kuna Irrigation District to deliver the water from Reclamation's Anderson Ranch Reservoir to property owned by the United States and managed by the United States Fish and Wildlife Service below the upper embankment at Lake Lowell.

If the place of use of the water right(s) is changed, complete the following:

1. Provide evidence of water right ownership:

Water Right Number 63-03614

Mitigation
water ~ 400 AF
from non-contract
pool.

2. Is the land from which you propose to transfer the water right subject to any liens, deeds of trust mortgages, or contracts? No If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

3. Identify all other water rights used on the lands affected by this transfer application (original and new lands).

None.

Water License No. R-698

493,161 ac.ft. for irrigation
and such power as can be gen-
erated by use of water released
Amount for irrigation use.

Water District No. _____

Priority December 9, 1940

THIS IS TO CERTIFY that UNITED STATES OF AMERICA (Bureau of Reclamation)
of Boise, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated December 9, 1940; that Permit No. R-698
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
493,161 ^{acre} ~~second~~ feet, was issued thereunder on August 30, 1952, showing that said works
were completed on the 6th day of February, 1951; and that on the 21st
day of February, 1956, The U. S. Bureau of Reclamation

of Boise, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of South Fork
Boise River, a tributary of Snake River, for the purpose of Irrigation and Power,
under Use Permit No. R-698 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page 5886, on the 17th day of December, 1956;
The right hereby confirmed dates from December 9, 1940;
The Point of Diversion is located

in the Lot ~~4~~ 4, Sec. 1, Tp. 1 S., R. 8 E., B. M. County Elmore

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 493,161 ^{acre} ~~cubic feet~~ ~~per second~~

Water Right Report 63-3614

Comments:

1. SCURTIS 12/6/1994 TRANSFER NO. 3310

Comment: Trans. #3310 was filed to change a portion of the nature of use under this right.

2. JPEPPERS 8/18/2000 CHANGED QUANTITY TO REFLECT TRANSFER

Comment: THE PREVIOUS DATA ENTRY SHOWED 487961 AF FOR POWER, THIS WAS CORRECTED TO SHOW 493161 AF FOR POWER SINCE THE TRANSFER ONLY AFFECTED THE IRRIGATION PORTION OF THE RIGHT.

P.3

Transfer No. 3911

Water Right No. 63-3614

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT

To Change the Point of Diversion and/or the Place of Use **APPROVED**

United States of America acting through Regional Director
Name of applicant Pacific Northwest Region, Bureau of Reclamation Phone 334-1163
Post Office address Box 643-550 West Fort St., Boise, Idaho 83724

A. DESCRIPTION OF RIGHT AS RECORDED

1. Right evidenced by:

- a. Decree No. _____ Decreed to _____ (Name)
in case of _____ vs _____
dated in _____ in _____ county of _____
b. License No. R-698 issued by the Idaho Department of Water Resources
c. Claim No. _____ on file with the Idaho Department of Water Resources

2. If applicant is not the original holder of this right, explain how it was acquired and attach a copy of the deed or other evidence of ownership of the land to which the right is appurtenant _____

3. Source of water Boise River, South Fork tributary to Boise River, Snake River

4. Date of priority 12-9-60

5. Water is used for the following purposes:
amount 493.161 for Storage for Irrigation purposes from Jan 1 to Dec 31
amount 493.161 for Storage for Power purposes from Jan 1 to Dec 31
amount 493.161 for Irrigation purposes from March 15 to Nov. 15
493.161 From Storage 1/1 (month/day) Both dates inclusive 12/31

6. Total amount of water under right a. _____ cubic feet per second
b. 493.161 acre feet per annum

7. Location of original point of diversion is U.S. lot 4 of Section 1
Township 1 South Range 8 E B.M. in Elmore County
Additional points of diversion, if any Secondary diversions from the Boise River are at various points downstream from Lucky Peak Reservoir.

8. Lands irrigated or place of use:

Irrigation of cultivated lands of the Boise Federal Reclamation Project in Ada and Canyon counties as more particularly described in Certificate of completion of work issued in connection with Permit No. R-698, including all lands for contracts under Federal Reclamation laws for space in Anderson Ranch Reservoir.

Townships 1,2,3,4,5, N., Range 1 E., B.M.	Townships 2,3,4,5, N., Range 4W., S.V.
" 2,3,4, N. " 2 " "	" 3,4,5, S N., " 5 " "
" 2 & 3 N. " 3 " "	" 4,5,6, N. " 6 " "
" 1 C. " 1 W. " "	" 21 & 22 S. " 45 E " "
" 1,2,3,4,5, N. " 1 " "	" 21 S. " 47 " "
" 1 S. " 2 " "	
" 1,2,3,4 N. " 2 " "	
" 2,3,4,5, N. " 3 " "	

Total number of acres to be irrigated 2,770,000

9. Describe any other water rights used for the same purpose as described above Permits, and beneficial use claims held for the Boise Federal Reclamation Project.
10. To your knowledge, has any portion of this water right undergone a period of five or more consecutive years?

04:52PM DIV OF

Describe the lands -- place of use to which the right will be 1 -- stored

P.5

[illegible]

No change. The place of proposed Municipal Industrial use is included in the area listed in item B.

[illegible]

Total number of acres to be irrigated 277,000

4. Describe any other water rights used for the same purpose as described above. Water Rights of the Boise Water Corporation, city of Boise, and various other water users.
5. Draw a map indicating the new point(s) of diversion and/or the new lands to be irrigated. Show clearly the land involved by section, township and range number. See Sheet 1

No Change

[illegible]

• P. 4

1. Amount of water, a. _____ cubic feet per second
b. _____ acre feet per annum

3. Place of use:

[illegible]

Total number of acres to be irrigated

1. General Information

2. Amount of water to be diverted _____ c.f.s. &/or 5220 acre feet

b. Description of diverting works Storage water to be released from Anderson Ranch Reservoir through the outlet works and power penstocks.

4. Describe the reasons for the proposed changes 5200 acre-feet of water to be changed
from joint irrigation and power to joint municipal-industrial and power use.

2 Change in point of diversion

Point of diversion No change N Section Township

Range _____ B.M. _____ County _____

Additional points Secondary diversions from the Boise River channel may be from additional locations downstream from the Boise River Diversion Dam.

2 Change in place of use

a. Are there liens, mortgages, or contracts on the lands from which you propose to transfer the water right which limit your authority to make the proposed change? Yes _____ No X If yes, provide a statement agreeing to the proposed change from the holder of the lien, mortgage or contract _____

8 Describe the effect on the land now irrigated if the place of use is changed pursuant to this transfer.
 Here - no standing the uses listed in license in 838. 5000 acres feet of storage has been reserved exclusively for power head from the inception of the project. There will be no change in the quantity available for irrigation.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.

Subscribed and sworn to before me this 27th day of November 1985 by Richard L. Taylor, Jr.
