RE: Snake River Basin Adjudication (SRBA)
Claim Number: A43-04130B
Change of Ownership Notification

Dear Mr. and Mrs. Willett:

I received the Notice of Change of Ownership from the Title Company and have updated our records to reflect that you are now the owners of a portion of claim A43-04130. Please carefully review the enclosed copy of your "B" portion, keeping in mind that my eventual recommendation may be slightly different.

As I understand it, the point of diversion for the original statutory claim changed from the NWNW of Section 8 to a well in the NESE of Section 5, and this will be reflected in my SRBA recommendation. Since you will probably be changing the point of diversion for your portion of the claim, please be sure to apply for a transfer of point of diversion in the near future. This can be done with one of our Allocation Bureau agents here at the office.

If I can answer any questions about this claim, don't hesitate to call.

Sincerely,

Vikie Hancock
Sr. Water Resource Agent

Regarding: Claim number 43-4130B
0.5 cfs, 38 Acres NESW Sec 32, T14S, R27E
Transfer #5816

Claim 43-4130B represents a split of beneficial use claim 43-4130 in which ARIMO Corporation retained 382 acres and 1.4 cfs of the original SRBA claim. Original statutory claim was filed in 1983 by Dick Goldstein.

There is no surface water appurtenant to the tracts represented by this claim. 1962 aerial photos are not conclusive, however 1968 aerial photos clearly show 38 acres irrigated within this place of use. 1987 NAPP aerial photos also verify 38 acres irrigated.

The original statutory claim listed two points of diversion, a well in the NWNW Section 8 and a well in the SESE Section 6, both T15S R27E. This well in the SESE Section 6 has a Raft River Electric service number of 29035. Electrical logs included in claim file 43-4003B show that this well was put into service in 1956 by Vincent Tobin. There is no information on the well in Section 8 and RRRE maps do not show a current service account in that location. ARIMO Corporation changed the point of diversion for claim 43-4130 without an administrative transfer to a well in NWSE Section 5, that has RRRE service number 29053.

The 1956 drilling log and subsequent 1968 affidavit from the driller of well number 29035 give the well a historical diversion capacity of 300 inches. The warranty deed from ARIMO to Jodie Willett specifies that 25 inches of water are conveyed for use on the 40 acres purchased.

I find that SRBA claim 43-4130 portions A and B are valid with some modifications and my recommendation for claim 43-4130B will be for 0.5 cfs for use on 38 acres in the NESW Section 32, T14S, R27E, priority date 4-1-1956
