RE: Subcase No. 75-7052

Dear Judge Wildman:

On April 25, 2012, this Court issued the *Order Closing Claims Taking in Basins 21, 22, 29, 32, 33, 65, 67, 69, 71, 72, 73, 74, 75, 77, 78 and 79 and Disallowal of Unclaimed Water Rights* ("Order"). The above-referenced water right was included in that Order, as part of the unclaimed water rights provided to the Court by the Idaho Department of Water Resources ("Department"). Water right no. 75-7052 was therefore decreed disallowed. Recently, the Department discovered that 75-7052 is a license in which proof was filed late, and after the date of commencement of the adjudication, November 19, 1987. Because this right was not required to be filed in the adjudication, it was erroneous for the Department to include this water right in its unclaimed water right listing.

From the Department's prospective, it seems appropriate for the Court to amend its Order, removing this water right.

I am sending a copy of this correspondence to the claimant of this water right, so that it is aware of this issue.

Sincerely,
