Re: Snake River Basin Adjudication (SRBA)
Notice of Error Reply – Subcase No. 73-205, 73-206, 73-2130, 73-2041

Dear Mr. Wallis,

Thank you for your response to our preliminary recommendation of the water right claim(s) captioned above. This letter is an attempt to answer your questions and address your concerns about the recommendation(s).

73-205, 73-206 Many of the historic decrees in your area were issued without reference to actual irrigated acreage. We only know a general description of land owned by the water user at the time of the decree of 73-205 and 73-206. These rights were decreed in *Hammond v. Miller* with the following land description: “ appurtenant to the s½ of the ne¼ and the n½ of the se¼ of sec 18, tp 14 n r 23 East of the Boise Meridian, in Idaho.” We believe the maximum number of irrigated acres is limited to 160 by the old decree. From the old decree we also know 73-205 and 73-206 were used on the same ground.

A water right recommendation in the SRBA must include a list of actual irrigated acres. We use aerial photography to establish the acres irrigated at the commencement of this adjudication: November 19, 1987. In your case, we used 1988 photography to establish your place of use. Only the acres irrigated in 1988 are recommended in the SRBA. A copy of the photography is attached, with your property boundary outlined in black. It does not appear that all of the 360 acres you own was irrigated at that time.

We have also attached a copy of 2006 NAIP photography. Although the irrigation practice has changed, it still does not appear that irrigation occurs on the west side of your property. With this evidence, we are unable to change our recommendation to 360 acres, as requested.

73-2041 This old license was issued in 1915 for most of the same land listed in the later license: 73-2130. Given this ambiguity and your belief that this water has in fact been used, we have adjusted our recommendation to allow this right.

73-2130 This old license was issued for 80 acres of irrigation, although 120 acres was claimed. A maximum of 80 acres can be recommended for this right.

We have adjusted our recommendation to indicate the use of all your water rights on the acres irrigated in 1988. We are limiting 73-205 and 73-206 to a total of 160 acres. 73-2041 is limited to the 90 acres originally licensed. 73-2130 is limited to the 80 acres originally licensed.

Please call me at (208) 287-4914 if you have additional questions or concerns. You may also reach me using email: roxanne.brown@idwr.idaho.gov.

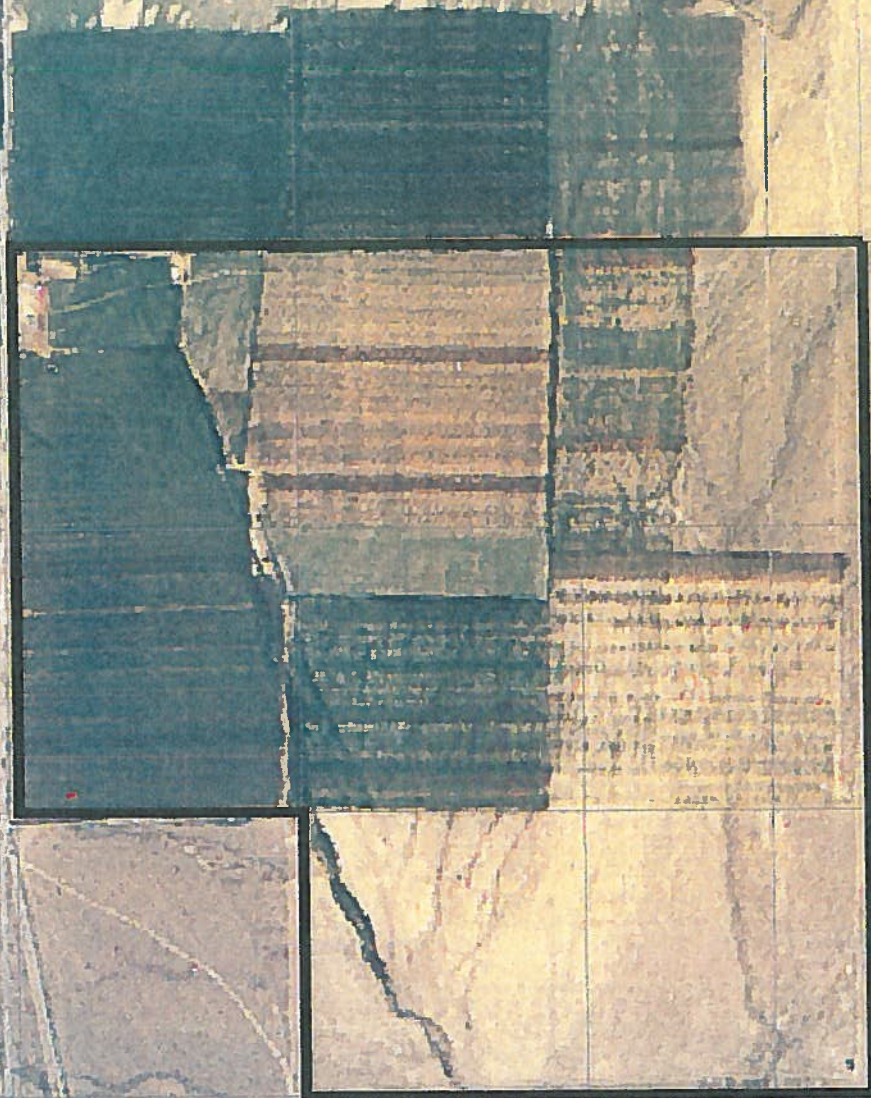

Sincerely,

A handwritten signature in cursive script that reads "Roxanne".
