STATE OF IDAHO

) ss.

CORY KING, being first duly sworn upon oath, deposes and states as follows:

1. My name is Cory King. I am of sound mind and majority age, and the below facts are based on my personal knowledge.
2. I am familiar with the land that is claimed as the place of use for the above captioned water right claims. I have been working on the farm that includes this land since 1986.
3. I am familiar with the historic irrigation practices on the land claimed as the place of use under the above captioned water right claims. We utilize the same basic water diversion and delivery systems now as were being used when I arrived on the farm back in 1986.
4. On Willow Creek, we capture the flow of the creek in a pond above the farm that supplies a pipeline that feeds into our interconnected irrigation system that uses primarily center pivot irrigation systems.
5. When Willow Creek is flowing high during the runoff, and we are using the maximum amount of the water as possible to avoid flooding, we can run 9 center pivot sprinklers using Willow Creek water. All of our pivots are set to deliver 850 gallons per minute.
