Dear Mr. Christensen:

Roger L. and Marcia L. Crane have acquired the ownership rights of Ardel W. and Judy M. Wickel in all the above referenced adjudication claims. Attached to this letter is IDWR from **Notice of Change of Water Right Ownership** with a copy of the Wickel Warranty Deed conveying to Crane the real property to which the water rights are appurtenant and the aerial photo required in paragraph 2c of the IDWR form.

Please modify the department records to reflect this change of water rights ownership.

Sincerely,

Jack H. Robison

RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by February 3, 1992, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

RE: Water Rights in Reporting Area 7, Basin 43
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in Basin 43 for the Raft River drainage basin. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note that you have 120 days in which to review your water rights or those of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in American Falls, Burley, and Malad City, and at all the Idaho Department of Water Resources offices (see addresses in enclosures).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

A handwritten signature in black ink, appearing to read 'Karl J. Dreher', written over a horizontal line.

Karl J. Dreher
Director

Enclosures

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA.

The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50. The Docket Sheet is also available on the SRBA Web Site at www.srba.state.id.us.

ADDITIONAL INFORMATION

If you have questions about the SRBA, public information brochures are available at any IDWR office. You may also want to consider contacting an attorney to assist you if you have questions regarding water rights claimed under federal law.

**NOTICE OF FILING
FEDERAL RESERVED RIGHTS CLAIMS
IN BASIN 43**

INTRODUCTION

The United States of America (USA) has filed with the Snake River Basin Adjudication (SRBA) District Court claim 43-11113 to a federal reserved right in Basin 43.

Complete copies of the claim to a federal reserved right in Basin 43 are available at the SRBA courthouse in Twin Falls and the locations listed at the end of this notice. You may review the claim to a federal reserved right at those locations. Copies of the claim can be made, but you may be charged for copying and mailing.

INSTRUCTIONS FOR TAKING A CLAIM TO COURT

What do I do if I disagree with a federal reserved water right claim?

If you disagree with any element of the claim to a federal reserved water right in Basin 43 and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form available from any IDWR office or from the SRBA Court. You may also download a copy of the objection form from the SRBA Web Site at www.srba.state.id.us.

Your **objection** to the federal reserved water right in Basin 43 must be **received** by the SRBA Court on or before **February 8, 2002**.

What do I do if I want to participate in the court case on a claim to a federal reserved right?

If you want to be involved in the court case on the claim to a federal reserved right, you must file either an objection or a response by the dates provided in this notice. You may also download a copy of the response form from the SRBA Web Site at www.srba.state.id.us.

Your **responses** must be **received** by the SRBA Court on or before **April 12, 2002**.

What happens if there are no objections to the federal reserved water right claim?

An evidentiary hearing on the uncontested federal reserved water right in Basin 43 will be held. Partial decrees will be issued following this hearing.

How will I know about the proceedings on claims to federal reserved water rights to which objections were filed?

A notice will be mailed to you for court dates on those claims where you filed an objection or a response. You will not receive notice of court dates on any other claims to federal reserved rights for which you did not file an objection or response.

Additional information regarding federal reserved water right claims can be found on the SRBA Web Site at www.srba.state.id.us.

BASIN 43 GENERAL PROVISIONS

The Director of the Idaho Department of Water Resources recommends to the Snake River Basin Adjudication District Court that the following general provisions be included in the decree determining rights to water from Basin 43.

1. The following water rights from the following sources of water in Basin 43 shall be administered separately from all other water rights in Basin 43 in accordance with the prior appropriation doctrine as established by Idaho law:

See Attachment A

2. The following water rights from the following sources of water in Basin 43 shall be administered separately from all other water rights in the Snake River Basin in accordance with the prior appropriation doctrine as established by Idaho law:

Water Right No.

Source

None

None

3. Except as otherwise specified above, all other water rights within Basin 43 will be administered as connected sources of water in the Snake River Basin in accordance with the prior appropriation doctrine as established by Idaho law.

PERIOD OF USE: The period of time during the year when you can use the water for your right.

PLACE OF USE: The legal location where you use your water right; generally described as 1/4 1/4 sections down to a 40-acre tract. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

BASIS OF CLAIM: The method that was used to establish your claim. Examples include prior decree, posted notice, beneficial use (historical) method, license, permit.

DUAL BASED CLAIMS: In some cases, the federal government has claimed one right under two theories: a state basis and a federal law basis. Both theories will be reported on one form for that single water right. In most cases, the priority dates are different and will be listed separately. The federal law basis is separately indicated in a box such as this:

```
*****
*                                     *
*                                     *
*                                     *
*****
```

IDWR does not investigate or make recommendations regarding federal law based claims.

What happens if there are no objections to a water right?

After the deadline for filing objections, IDWR will file a list of all water right recommendations with no objections. The SRBA Court will hear the uncontested recommendations on **June 18, 2002**, at **1:30 P.M.** at the **SRBA Courthouse**. Partial decrees will be issued following this hearing.

How will I know about the proceedings on water right recommendations to which objections were filed?

A notice will be mailed to you for court dates on your water right or for those where you filed an objection or a response. You will not receive notice of court dates on any other water right recommendations.

Additional information regarding water right claims can be found on the SRBA Web Site at www.srba.state.id.us.

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA.

The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50. The Docket Sheet is also available on the SRBA Web Site at www.srba.state.id.us.

CHANGES OF ADDRESS OR OWNERSHIP DURING THE SRBA COURT CASE

You must contact your regional IDWR office with your address change or if the ownership of your water right changes. Failure to notify IDWR may result in the loss of your water rights.

ADDITIONAL INFORMATION

If you have questions about the SRBA, public information brochures are available at any IDWR office. Maps and aerial photography of this reporting area, as well as assistance in using the maps and the photography, are available at the IDWR Southern Region office in Twin Falls. You are also welcome to call IDWR at any of its offices or the SRBA Court. You may also want to consider contacting an attorney to assist you.

DEFINITIONS OF THE ELEMENTS OF YOUR WATER RIGHT

RIGHT NUMBER: Your water right is identified by a number assigned by IDWR. The first two digits identify IDWR's administrative basin number; for example, 43.

NAME AND ADDRESS: Your name and address should appear here. IDWR will use the most recent name and address in their records for the water right.

SOURCE: The name and/or type of the source where you divert your water. For example: "groundwater," "unnamed spring," "Common Creek."

QUANTITY: The amount of water recommended in either cubic feet per second (cfs) and/or the volume of water in acre feet per year (AFY).

PRIORITY DATE: The date used to determine the priority of your right in relation to other rights using water from the same source.

POINT OF DIVERSION: The legal location where you divert water from its source; generally described as 1/4 1/4 sections down to a 40-acre tract, or smaller. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

PURPOSE OF USE: The general category of the type of use you can make of your water. Typical purposes of use include irrigation, domestic, and stock watering.

water right number. A short statement of the reason for IDWR's recommendation for disallowance is provided.

Also included in the complete Director's Report are descriptions of the United States' claims under federal law that have also been claimed under a state law basis. These are called "dual based" claims. The Director does not investigate the federal portion of these claims and makes no recommendation whether they should be granted or not.

If you want to review someone else's water right you need to look at the complete Director's Report, which is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

What if a water right is not in this report? What if a water right claim is filed late? How do I get notice of IDWR's recommendation for a late claim?

A water right for Basin 43 may not be included in this Director's Report if it was not filed in time for IDWR to investigate and report. These water rights will be reported at a later time in IDWR's *Director's Report for Late Claims*. This report may include recommendations for Basin 43 as well as other basins. This report is issued once per year, usually in February. It is the responsibility of all parties to check with the SRBA court or IDWR to see when this report is filed. It is also the responsibility of all parties to check this report carefully for water rights that they want to object to. No special notice will be sent to you.

INSTRUCTIONS FOR TAKING A WATER RIGHT CLAIM TO COURT

What do I do if I disagree with a recommendation?

If you disagree with any element of the recommendation for your water right or anyone else's water right and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form available from any IDWR office or from the SRBA Court. You may also download a copy of the objection form from the SRBA Web Site at www.srba.state.id.us.

Your **objection** must be received by the SRBA Court on or before **February 8, 2002**.

What do I do if someone else objects to my water right recommendation?

If someone files an objection to your water right, or anyone else's water right, you may file a response to that objection. Responses to objections must be made on the standard response form available from any IDWR office or from the SRBA Court. You may also download a copy of the response form from the SRBA Web Site at www.srba.state.id.us.

Your **response** must be received by the SRBA Court on or before **April 12, 2002**.

What do I do if I want to participate in the court case on someone else's water right?

If you want to be involved in the court case on any water right in the Director's Report, you must file either an objection or a response by the dates listed above.

NOTICE OF FILING OF DIRECTOR'S REPORT FOR IDWR REPORTING AREA 7, BASIN 43 FOR IRRIGATION AND OTHER WATER RIGHTS

The Director of the Idaho Department of Water Resources (IDWR) has filed with the Snake River Basin Adjudication (SRBA) District Court the Director's Report for irrigation and other water rights in IDWR Reporting Area 7, Basin 43. A map of the area covered by this Director's Report is attached to this Notice. This Director's Report contains the Director's recommendation to the SRBA court as to how each of your claimed water rights should be decreed in the SRBA.

This Director's Report includes claims for irrigation and other uses, including some small domestic and stock water uses. The Director's Report for most small domestic and stockwater rights for IDWR Basin 43 was sent to the SRBA court and individual water users on March 2, 1998. Some small domestic and stockwater claims were withheld from the earlier report. If a claim for small domestic and stockwater was withheld from the 1998 report, it is reported in this Director's Report.

Included with this Notice is the Director's recommendation for your water rights claimed in the SRBA not previously recommended in the small domestic and stockwater report. IDWR is providing individual reports like this one to all claimants of irrigation and other water rights in your area. A complete copy of the Director's Report, listing all of these irrigation and other rights claimed under state law and "dual based" claims by the federal government, is available at the SRBA courthouse in Twin Falls and the locations listed on the third and fourth pages of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

INSTRUCTIONS FOR REVIEWING YOUR OWN WATER RIGHT

The description of your right which is enclosed is only the Director's recommendation to the SRBA Court on your water right. The Court will decide how it will decree your water right. You are free to agree or disagree with the Director's recommendation. If you agree with the Director's recommendation you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendation, you need to file an objection as described below.

INSTRUCTIONS FOR REVIEWING THE WATER RIGHTS OF OTHERS

The complete Director's Report contains recommendations to the SRBA Court on your water right and all other irrigation and other rights in your area. The Court will decide how it will decree all water rights. The Director's recommendations in the full report are listed in two sections of the report:

- 1) **List of Recommended Water Rights** -- Water right recommendations are listed numerically by water right number.
- 2) **List of Claims Recommended to Be Disallowed** -- Water rights recommended to be disallowed are listed numerically by

water right number. A short statement of the reason for IDWR's recommendation for disallowance is provided.

Also included in the complete Director's Report are descriptions of the United States' claims under federal law that have also been claimed under a state law basis. These are called "dual based" claims. The Director does not investigate the federal portion of these claims and makes no recommendation whether they should be granted or not.

If you want to review someone else's water right you need to look at the complete Director's Report, which is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

What if a water right is not in this report? What if a water right claim is filed late? How do I get notice of IDWR's recommendation for a late claim?

A water right for Basin 43 may not be included in this Director's Report if it was not filed in time for IDWR to investigate and report. These water rights will be reported at a later time in IDWR's *Director's Report for Late Claims*. This report may include recommendations for Basin 43 as well as other basins. This report is issued once per year, usually in February. It is the responsibility of all parties to check with the SRBA court or IDWR to see when this report is filed. It is also the responsibility of all parties to check this report carefully for water rights that they want to object to. No special notice will be sent to you.

INSTRUCTIONS FOR TAKING A WATER RIGHT CLAIM TO COURT

What do I do if I disagree with a recommendation?

If you disagree with any element of the recommendation for your water right or anyone else's water right and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form available from any IDWR office or from the SRBA Court. You may also download a copy of the objection form from the SRBA Web Site at www.srba.state.id.us.

Your objection must be received by the SRBA Court on or before February 8, 2002.

What do I do if someone else objects to my water right recommendation?

If someone files an objection to your water right, or anyone else's water right, you may file a response to that objection. Responses to objections must be made on the standard response form available from any IDWR office or from the SRBA Court. You may also download a copy of the response form from the SRBA Web Site at www.srba.state.id.us.

Your response must be received by the SRBA Court on or before April 12, 2002.

What do I do if I want to participate in the court case on someone else's water right?

If you want to be involved in the court case on any water right in the Director's Report, you must file either an objection or a response by the dates listed above.

Re: Recommendation

After reviewing these claims, I have determined through GIS of the 1987 aerial photos that there is a total of 698 irrigated acres in the place of use. Of these, 488 acres are licensed, 73 are beneficial use under 43-04207, and the remaining 137 are expansion acres under 43-04229.

43-02328 and 43-02427 were licensed on all but 12 overlapping acres, and the two rights together were limited to 222 acres. (There was an extra 0.82 cfs available for the well in the NWNE of Section 22 and licensed under 43-02427.)

43-02369 and 43-02544 were originally licensed on all but 26 overlapping acres for a total of 266 acres. (There was an extra 0.64 cfs available for the well in the SESW of Section 14 and licensed under 43-02369).

43-04229 is a beneficial use claim for 80 acres. I found a total of 73 acres irrigated in the '62 and '68 aerial photos which I will recommend along with the 1.46 cfs available from the two wells mentioned above. The priority date will be advanced to the beginning of the '62 irrigation season.

43-04207 was claimed with a 1951 priority date but the '62 and '68 photos showed no irrigation in the area. This claim is an expansion claim per 1416.b with a 6/30/1985 priority date and no additional diversion rate or volume. (131 acres appear irrigated in the SE $\frac{1}{4}$ of Section 14 according to the 1987 photo, but with shuffling acres around through the accomplished transfer process, this right will be recommended for 137 acres, picking up a few acres in other areas until the entire 698 are accounted for).

The total acres should be 698; 488 licensed, 73 beneficial use, and 137 expansion. The total diversion rate should be 11.22 cfs, and a total volume of 2244 AFA. I recommend that the transfers be processed using these totals.

A43-02328 7/22/48 2.2 cfs 220 Ac.
 (Field exam done 8/12/55)

A43-02427 6/23/55 2.24 cfs 222 Ac.
 (Field exam done 12/13/57)

The above two rights were originally licensed on all but 12 overlapping acres for a total of 4.44 cfs on 222 Ac. (1" per Ac.)

* well in NWNE of Section 22 ⁰²⁴²⁷ was originally measured at 153" (3.06 cfs) and licensed at 2.24 cfs, leaving 0.82 cfs available system capacity

A43-02369 9/24/51 3.2 cfs 240 Ac.
 (Field exam done 8/12/58)

A43-02544 4/17/62 2.12 cfs 229 Ac.
 (Field exam done 8/8/67)

The above two rights were originally licensed on all but 26 overlapping acres (12 in the NESW of Sec. 14 and 14 in the NESE of Sec. 15), bringing the lands up to an 1" per acre, for a total of 5.32 cfs on 266 acres.

* well in SESW of Section 14 ⁰²³⁶⁹ was originally measured at 3.84 cfs and licensed at 3.2 cfs, leaving 0.64 cfs available system capacity

A43-04229

3/4/54

1.6 cfs

80 Ac.

These acres are in the SWSE & SESE of Sec. 22. According to the '62 & '68 aerial photos, 38 acres in the SWSE and 35 acres in the SESE appear to be irrigated, for a total of 73 acres which can be recognized under this right. The 0.82 cfs and 0.64 cfs available system capacities from the two licensed wells allow 1.46 cfs (or 1" per acre) to be recommended on the 73 acres. The priority date should be changed to the beginning of the '62 irrigation system (3/15/62) for lack of better information at this time. (Licensing plans on the wells were done in '55 and '57).

The acres covered by this claim are in the SE 1/4 of Section 14 and do not appear irrigated in either the '62 or '68 aerial photos, leaving this claim to be an "expansion claim" per 1416.b. 137 acres appear to be irrigated in '87 so this claim's priority date should be changed to 6/30/85 with no additional diversion rate or volume.

RE: Information about historical water diversion flow rate

Dear Wateruser:

This past December IDWR sent a letter to you requesting your assistance in providing information about flow rates from certain diversions (copy attached). These letters are being sent to claimants with identified rights that have not previously been confirmed (measured) either through the licensing process or by decree. IDWR desires to make the most accurate recommendation to the SRBA Court and this requires your participation and cooperation, pursuant Idaho Code §42-1410.

One advantage of providing good, verifiable information to us is that the flow rate that we recommend will be the full measure of your water right as developed. Another benefit is that disputes over the recommendation are minimized. Lastly, documentation for flow rate will likely be dated and may support evidence of priority determination.

In the absence of good information about historical diversion flow rates IDWR may conclude any of three less desirable alternatives:

- 1) Recommend disallowal of right.
- 2) Recommend a flow rate limited to a licensed rate, if a licensed diversion is part of the system, but with additional diversion volume if the use and diversion capacity is documented to have occurred before 1963.
- 3) Recommend the right as an expansion in a critical ground water area, §42-1416B I.C., which limits the flow rate AND volume to the licensed quantity. This provision also sets the priority at 6/30/1985, regardless of development date between 1963 and 1985.

Thank you for your attention to this matter and we look forward to your quick response and documentation relating to this request. Water Resource Agents from the department may be contacting you in the near future should field work be required to finalize recommendations. Inquiries related to this diversion rate information request should be made to Scott King or Cindy Bird at (208) 327-7900. Inquiries about other aspects of your claim should be made to the Southern Region Office (208) 736-3033.

Sincerely,

Mr. Crane -

CLAIM TO A WATER RIGHT

Department of Water Resources
Southern District Office

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that John Alma Sanders
(Name of Claimant)
107 Hoover Drive, Santa Clara, Calif. 95051 Telephone No. (408) 241-6351
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- September 24, 1951, amended April 17, 1962

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
ground water tributary to ---
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs, gpd, AFA)		(Domestic, Irrigation, Stock, Etc.)		(Both dates Inclusive) (Mo., Day)	
Quantity	<u>1.50 cfs</u>	Use	<u>Irrigation</u>	Period of Use From	<u>March 15</u> To <u>Nov. 15</u>

Quantity	_____	Use	_____	Period of Use From	_____ To _____
(4)	<u>3.00 cfs</u> (cfs, gpd, AFA)	TOTAL QUANTITY USED.			

- (5) A) Point of diversion: (Location of point where water is diverted from its source)
NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14 Twp. 11S Rge. 26E B.M., County of Cassia
 Additional points of diversion: SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 14 Twp. 11S R 26 EBM Cassia Co.

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. One 150 hp. pump with pipelines and one 100 hp. pump with 125 hp.
booster pump and pipelines. Pipelines tied together and at-
tached to pivot.

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.
* As per 10-15-83 Telephone Conversation with Claimant.

[illegible]

- (8) Remarks (1) 100 hp pump is a code F U.S. Electric Motors, Inc. pump with Serial No. 1179970. The 125 hp. booster pump is a GE DK pump No. 203059.
(2) 150 hp. GE pump is a type K code G with Serial No. DLJ416172-60.

Note: Water has been, and is being, put to beneficial use in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 14; SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 14; NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 14; and NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 14 for at least the past nine or ten years to the best of my knowledge.

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.
