RE: 95-12280

We reviewed your Claim to a Water Right. Your claim indicates the domestic use is from a ground water source and a surface water source (Stinson Creek). Only one source is allowed per claim. In order to record both uses an additional claim needs to be filed. The water right for the groundwater is valid. The use of water from Stinson Creek, with the priority date of March 15, 2005, is not valid. When a new diversion of surface water is started after May 20, 1971, an appropriation permit has to be obtained to develop a right.

If you have any questions, please contact us.
