

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A43-07072
Date Received: 4/24/1989
Receipt No: 5006939
Received By: ADL

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: SUBLETT IRRIGATION CO. 208-645-2305
Address: % DEE RASMUSSEN
H.C. 61 BOX 1128
MALTA, ID 83342

2. Date of Priority: APR 04, 1977

3. Source: SUBLETT CREEK & TRIBUTARIES Trib. to: SINKS

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
13S	29E	3		NW	NE		CASSIA
		9	NW	NE	SW		CASSIA

5. Description of diverting works:
HEADGATES, RESERVOIR & DITCHES.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	03/15	11/15	15.250		
IRRIGATION STORAGE	01/01	12/31			2300.00
IRRIGATION FROM STORAGE	03/15	11/15			2300.00

7. Total Quantity Appropriated is:
15.250 C.F.S. (and/or) 2300.00 A.F.A.

8. Total consumptive use is 7410.0 Acre Feet Per Annum.

9. Non-irrigation uses:
NONE

FILE 43-7072

RE: ACRES IRRIGATED

DATE 3-30-93

NAME OF PARTY

ORSON & ROLAND ZOLLINGER

They came into the office to get a copy of the Application for permit and it was provided to them.

Their concern is in the number of acres being licensed and recommended in the SRBA claim.

They are going to contact the Sublett Irrigation Div. to clarify the Company's position of what is irrigated.

State of Idaho
Department of Water Resources
Water Right License

WATER RIGHT NO. 43-07072

SRBA added
CONDITIONS OF APPROVAL

1. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
2. Right 43-02484 is also diverted through the points of diversion described above. *(43-2584)*
3. Right 43-02036 is also diverted through the point of diversion located in NWNESW, Sec. 9, Twp. 13S, Rge. 29E. *(SRBA CLAIM # 43-10800)*
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.

WRONG #
This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 6TH day of APRIL, 2001.

Subject: RE: SUBLETT IRRIGATION COMPANY

Hi Kay,

Here is the latest update to the Sublett Irrigation Co. shape files. The first is the ACTUAL irrigated POU as found with GIS and a meeting with the Board of Directors.

sublett.dbf

sublett.shp

sublett.shx

Actual Irrigated acres:

Next is the shape I sent to you earlier... it has been revised as of today (3-2-01). This is the BORDER shape for the Permissible Place of Use (PPU). It does include lands that are not or have not been irrigated.

sublett-border.dbf

sublett-border.sbn

sublett-border.sbx

sublett-border.shp

sublett-border.shx

PPU Border shape:

I hope this explains things better for you. I am still trying to cook up the final recommendations for their claims. This is a pressing priority for our region so I will be working to get results ASAP.

I am not sure what your msg. below was trying to tell me... I did understand the part about the pivot and the Border was changed to address that. Looking forward to hearing (or seeing) your final License for 43-7072.

steve

PS: Mark, this is for your record update.

Hi, Steve... I started looking at the shape file for Sublett Irrigation and found we have discrepancy between place of use Mel identified and the shape file you sent up to me. There is no irrigation in the SWSE, Sec. 10, and N1/2SW, SWSW, Sec. 11, T13S, R28E. Also, you have a pivot in Sec. 17 - Mel only found irrigation in the NW1/4 of Sec. 17, T13S, R29E. Should I use your shape and have ArcView do the acres as your shape determines? Let me know.
Thanks. Kay

TO: Sublett Files, Doug Jones

SUBJECT: Meeting with members

On 1/27/99 I met with Dee Rasmussen, Roland Zollinger & Lyle Adams and we discussed several issues. They were most concerned about being forced into a "measuring district" &/or the requirement to measure and report this year pursuant to "management rules" They gave me a copy of a letter dated 11/9/98 sent to the director regarding this matter and indicated they had not received a response. They indicated that they were also getting pressure from Jay Harper/ 43B Water District to join with them. They were exploring if they were already in the district, ect.

We reviewed the code regarding "Measuring Districts" and "Water Districts" and I told them that my understanding was that since Sublett Creek is not decreed and it sinks and they have not historically be regulated by the 43B watermaster that they were not part of that district. I told them that probably before they would become part of either type of district there would most likely be some type of hearing. Also to be in a WD it appeared to me their rights would need to be decreed. We called Tim Luke and he indicated that he would make sure the Sublett Irrig Co would be put on the mailing list for updates on the "Management Rules". He updated us on the status of the rules and essentially they are still being revised. Tim indicated that most likely the trib basins to ESPA would not be measuring or reporting this year.

During our meeting I provided them a copy of revised 42-219 if the code regarding describing place of use for company. I told them with the revision I understand someone from SRBA will be contacting them to describe their service area. I have created a shape file on arcview in "basins/43/allen work area/sublett" describing the 2470 acres under license as a starting point.

One other question they had was that some of them have received decrees for domestic wells but many of them still have not. I looked on the database and found some "R" records still appear to be un-decreed. I told them I could not explain it since I though AJ had finished D&S for their basin. This needs to be checked out.

Mr. Karl J. Dreher
Idaho Department of Water Resources
1301 N. Orchard St.
Boise ID 83706

Dear Mr. Dreher;

As water users who are concerned about protecting our rights along with the rights of others, we would like to make the following suggestions: We would like to ask the department to exempt Sublett Irrigation Company from inclusion of any water measurement districts.

The reason for this request is that we already have our own watermaster and have measured our water usage for more than 50 years. We would be glad to furnish a copy of our water ledgers from prior year and future years at the department's request. We see no benefit to the Irrigation Company or the Water Resource Department by our inclusion in any water measurement district. It seems that this would cause an unnecessary expense to our stockholders.

We look foreword to hearing a reply from the department.

Thank You.

Sincerely

Dee Rasmussen, President

TO: Application for Permit 43-07072 in name of Sublett
Irrigation Company

SUBJECT: Field Exam Completion and Recommendation

The field review for licensing of this permit was coordinated with allocation (Mel Schulte) and adjudication (Jeanie Robertson). Note that an SRBA claim has been filed on this permit. A review of the other water rights and adjudication records associated with the Sublett Irrigation Company is as follows:

WR

43-02036 License
Priority: 5/2/1930
Amt: 17.2 cfs for Irrig.
Use: Irrigation of 860 acres

43-02584 License
Priority: 2/15/1939
Amt: 2300 AF Storage
2300 AF Irrig from Storage
Use: P/U within lands of Sublett
Irrigation Co. No acres
listed.

SRBA

A43-10800 Beneficial Use
Priority: 4/1/1914
Amt: 17.2 cfs for Irrig.
2300 AF Storage
2300 AF Irrig from Storage
Use: Irrigation of 1017 acres
***Replaces Lic 43-02036

A43-02584 License
Priority: 2/15/1939
Amt: 2300 AF Storage
2300 AF Irrig from Storage
Use: Irrigation of 1492 acres

A43-11148 Beneficial Use
Priority: 5/31/1941
Amt: 11.47 cfs for Irrig.
200 AF Storage
200 AF Irrig from Storage
Use: Irrigation of 1492 acres

There is merit found for the SRBA claims filed by the Sublett Irrigation Company and likely will be recommended very similar to the way they were claimed. In the review it has been found that the present system provides irrigation water to a total of 2426 acres as listed by Mel in his land list and evidenced by the aerial maps. We measured the reasonable capacity of the natural flow that is normally diverted for irrigation and found that the capacity of the system is 43.92 cfs (See 6/20/95 memo). The documented total storage capacity of Sublett reservoir is 2742 AF (See Sublett Dam Summary Table from Dam Safety). All rights including this proposed license when combined should be limited to no more than:

43.92 cfs for natural flow irrigation
2742 AF storage capacity for Sublett Reservoir
2426 acres irrigated.

RECORDED
MAR 04 2003

The applicant has filed an amendment but it has never been processed. This should be modified or used as the licensing amendment.

We discussed the matter of amending the various SRBA claims to place the claimed acres into a PPU of 2426 acres for all claims. They considered this but at this time wish to preserve the various classes of priority on the lands as they were developed.

April 19, 1996

Dee Rassmussen, President
Sublett Irrigation Co
HC 61 Box 1128
Malta, ID 83342

Dear Dee:

As we discussed in my office last Wednesday, 4/17/96, the idea that shareholders can move water around or change the place of use without first filing a transfer with the department is not correct. The Sublett Irrigation Company presently has water rights with an identified place of use and the water must be used on the lands identified under these rights. Please reference §42-219 (Issuance of license), §42-220 (Effect of License) and §42-108 and §42-222 (Transfer statutes).

As we discussed there is basis in law to allow certain entities such as large irrigation companies or districts which supply water to more than 25,000 acres or which are Carey Act developments to move water around internally without filing a transfer with the department. Please reference §42-219 and §42-2501 which discusses this matter. It does not appear that the Sublett Irrigation Company qualifies unless the company's rights are transferred into a permissible place of use.

Please find enclosed copies of the statutes referenced above. If you have further questions let me know.

Sincerely,

Allen Merritt, PE
Southern Region Manager

A43-02584, A43-07072, A43-10800

SUBJECT: QUESTIONS ON AMENDING OLD OR FILING NEW CLAIM AND PPP???
phone call (.) walk-in (x)

The Board Members had an appointment with Allen Merritt and myself to discuss questions they had on their claims to help them decide whether to amend an existing claim or file a new one.

A43-02036 was originally filed based on the License with the priority date of May 21, 1909 for 17.2 cfs on 1,017 ares. They later amended this claim to add storage of 2300 afa and change the basis to beneficial use with a priority date of Apr. 1, 1914, based on information they found in the micro-fiche files of the original field exam. It was then renumbered to A43-10800.

A43-02584 is based on a License for storage rights of 2300 afa and increased the acres to 1492.

A43-07072 is based on a permit which the Department is getting close to Licensing. It is for 15.25 cfs for irrigation and 2300 afa for storage on 2470 acres. *(2426 Ac. recommended by Mel)*

Allen and Corey did a discharge measurement from Sublett Dam on June 20, 1995 and calculated the discharge to be 43.92 cfs. 32.45 cfs have been claimed, leaving approximately 11.47 cfs unclaimed. They also state that the dam is capable of storing 2500 afa instead of 2300 afa. The question is how to deal with the extra cfs and afa and what priority date to claim?

They are also considering a PPU for the new permit, which could give them flexibility to move the water around during times of

SEARCHED

MAR 8 2003

shortage, but they are not sure how the earlier right holders in the company may feel about that.

They decided to take the information back to the other members and make a decision later. In the meantime, they will attempt to locate information which will support a priority date and storage capabilities. They again looked at our micro-fiche files and found some information which may support the storage amount of 2500 afa at the original field exam...

Subj: DISCHARGE MEASUREMENT FROM SUBLETT DAM

THIS DAY COREY AND I INSPECTED SUBLETT DAM. AT THE TIME OF THE INSPECTION THE RESERVOIR LEVEL WAS JUST A FEW INCHES FROM THE CREST OF THE SPILLWAY. DURING THE INSPECTION THE OWNERS OPENED THE GATE TO DEMONSTRATE THE MAXIMUM RESONABLE DIVERSION THRU THE DAM. WE MEASURED THE FLOW AT THE PARSHALL FLUME APPROX. 3/8 MILE BELOW THE DAM.

THE PARSHALL FLUME IS FABRICATED FROM SHEET METAL WITH STANDARD DIMENSIONS. THE THROAT DESIGN WAS 3.00 FEET BUT THE TOP MEASURED 2.98 FEET. AT THE INITIAL FLOW WITH THE GATE FULLY OPEN AT THE DAM THE FLOWS OVERTOPPED THE FLUME WITH SOME FLOW GOING AROUND THE FLUME. THE FLUME'S UPSTREAM GAGE AT THE TOP OF THE FLUME READS 2.50 FEET. THEY THEN REDUCED THE FLOW WHERE THE FLUME CONTAINED THE ENTIRE FLOW OF THE CREEK AND THE GAGE WAS AT 2.30 FEET. BY USING THE EQUATION (17) FOUND ON PAGE 66 OF THE BUREAU OF RECLAMATION WATER MEASUREMENT MANUAL IT IS CALCULATE THE DISCHARGE TO BE 43.92 CFS.

"transfer".

NARRATIVE, REMARKS, COMMENTS
SUBLETT IRRIGATION CO.
PERMIT 43-07072

The diversion system consists of Sublett Creek , Sublett Reservoir, Sublett Creek below the reservoir, two diversion structures in the creek, two main delivery ditches and a series of small ditches, ponds and pumps located on the property of the Sublett Irrigation Co shareholders.

Sublett Creek flows into Sublett Reservoir and is licensed for 2300 acre feet. A headgate releases water back into Sublett Creek to be used downstream for irrigation. About one/fourth mile below the dam an in stream 3' Parshall flume is used as a measuring device. The flume's gage registered 2.16' at the time of the exam which convert's to a 40.08 cfs flow. About one mile below the flume an in stream structure diverts all of the creek water to two ditches that parallel the Sublett Creek valley, one on the North side and the other on the South. The two gages at the ditches registered 1.16' and 1.0'.

From the two main ditches a series of small ditches and or ponds with pumps are used by the irrigation company shareholders to apply the water by gravity or sprinklers to the places of use. The live flow and storage water used within the diversion system is used within the land owned by the shareholders of the irrigation company. If water is not beneficially applied it is stored for later use.

The annual volume recommended for this permit of 6473.2 AFA when combined with an assumed annual volume for right 43-02036 of 3440 AFA and the AFA for the storage right 43-02584 exceeds 4 AFA. This right should be conditioned accordingly.

The final land list developed for this report was in cooperation with the principals of Sublett Irrigation Co. and the adjudication staff. Corresponding adjudication claims will be amended to utilize a PPU for the same land list used in this report.

ARMCO DRAINAGE & METAL PRODUCTS, INC.

Rocky Mountain Division

Denver, Colorado • Salt Lake City, Utah • Boise, Caldwell, Jerome

Twin Falls, Idaho • El Paso, Texas • Nyssa, Ontario, Oregon

Albuquerque, New Mexico

COASTED

MAR 01 1993

3. **Delivery System Diagram:** Include all major components and distances between components. Indicate weir size/ditch size/pipe i.d. as applicable.

See Attached ASCS and Ortho Photo Road Maps.

Scale: 1" = _____

____ Copy of USGS Quadrangle Attached Showing location(s) of point(s) of diversion and place(s) of use (required).

____ Aerial Photo Attached (required for irrigation of 10+ acres)

____ Photo of Diversion and System Attached

4.

Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size

*Code to correspond with No. on map and aerial photo

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
In place staff gauge in 3' Parshall Flume						

2. Measurements:

Staff gauge in 3' Parshall Flume measured 2.16' - Staff gauge at South ditch diversion measured 1.16' and staff gauge at North ditch diversion - 1.8'

SCANNED

MAR 26 2003

E. NARRATIVE/REMARKS/COMMENTS

The Irrigation Storage and Irrigation from Storage components are licensed under 43-02584. Only the additional live flow diversion is justified under this permit.

See Attached For additional.

Have conditions of permit approval been met? ☒ yes ☐ no

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

*2.16' on 3' Parshall Dume = 40.08 gfs.***G. VOLUME CALCULATIONS**

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2426 \times 4 = 9704 \text{ afa}$$
$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 15.25 \times 214 \times 1.9835 = 6,473.2$$
$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 6,473.2$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
<i>Irrigation</i>	<i>4-1</i>	<i>10-31</i>	<i>15.25 cfs.</i>	<i>6,473.2 afa</i>
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
Totals:			<i>15.25 cfs</i>	<i>6,473.2 afa</i>

2. Recommended Amendments

____ Change P.D. as reflected above ____ Add P.D. as reflected above ____ None
* ☒ Change P.U. as reflected above ____ Add P.U. as reflected above ____ Other

* Amendment on file to reflect the P/U described in this report.
