You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States (BLM) has filed duplicate claims asserting water rights under both state and federal law. I do not believe these "dual" rights exist and all elements checked on p. 3 were improperly claimed
See page seven.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The US Dept. of Interior has not established federal reserve water rights and the right claimed should be disallowed

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

☒ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary. _____

REASONS SUPPORTING EACH BOX CHECKED (p. 4)

- 1) I, Reed Z Asay, object to the United States of America, acting through the BLM, filing a water right on my decreed water because the United States of America guarantees me, as part of the public, the right to own decreed water for private land which I cultivate and irrigate.
- 2) I object to the source of water because it has already been claimed, used and approved.
- 3 a and c) I object to the quantity for livestock and wildlife.
- 4) I object to the priority date of 1884.
- 5) I object to the point of diversion, because that is my point of diversion and I already have it diverted into a pipe line with BLM right of way. I use part of it in my house as culinary water and part as irrigation water.
- 6) I object to the beginning and ending of instream flow.
- 7) I object to limiting the purpose to wildlife and stock water. Livestock already have water available in the many springs and ditches.
- 8) We would object to the BLM using this water for the period 1-1 12-31.
- 9 a and b) I object to the place of use. We admit an error in filing the legal description, but we have not cultivated nor irrigated BLM ground. Correction will be made. Limiting water to stockwater in that quarter section would be a waste-- especially of my \$20,000 pipe-line. See map.
- 10) I object to the volume of consumptive use which limits water to what cattle and wildlife on BLM use.
- 11) I object to the remarks listed with the water right.
- 12 a) I object to this water right being recommended at all.
