NOTICE OF CLAIM

TO A

WATER RIGHT

ACQUIRED UNDER STATE LAW

Please type or print clearly

Clark W. Ward or, 208 824-5560
Sara Jane Ward or, 208 824-5560
1. Name of Claimant (s) Vaudis J. Ward, a widow Phone (208) 824-5559

Mailing Address HC 61, Box 1560, Elba, Idaho Zip 83326

2. Date of Priority (Only one (1) per claim) December 29, 1977

3. Source of water supply (a) groundwater
which is tributary to (b)

4. a. Location of existing point of diversion is: Township 15S Range 25E Section 18,
1/4 of NW 1/4 of SE 1/4, Govt. Lot, B.M., County of Cassia

Additional points of diversion if any:

b. If instream flow, beginning point of claimed instream flow is:

Township Range Section, 1/4 of 1/4 of 1/4,

Govt. Lot B.M., County of

ending point is: Township Range Section, 1/4 of 1/4 of

1/4, Govt. Lot B.M., County of

5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc), including the dates of any changes or enlargements in use, the dimensions of the diversion works as constructed and as enlarged and the depth of each well. Well is 350' deep with 16" pipe, cased the full depth, 75 h.p. motor and pump, switch panel, mainline, handlines and sprinklers.

MICROFILMED

MAR 04 1993

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Irrigation purposes from 3-15 to 11-15 amount 0.930 or _____

For Stockwatering purposes from 1-1 to 12-31 amount 0.070 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 1.0 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is 451.90 acre feet per annum. for this and other claims for this land.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) 200 head of cattle

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
15S	25E	18					S		S	S	S	S			S	S	S	S	143
15S	25E	7							S	S	S	S	S	S	S	S	S	S	
15S	25E	17									S	S	S	S					

Total number of acres irrigated 143

11. In which county (ies) are lands listed above as place of use located? Cassia

12. Do you own the property listed above as place of use? Yes x No _____
If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above.
43-04110; 43-00401; The Big Spring; Savage Keg & Cliff; 43-02044 or None ()

14. Remarks:
All of the surface rights included within the rights described in paragraph 13 above are constantly subject to shortage. Therefore, whatever water is available from those surface rights, if short, is supplemented by the wells, and used interchangeably on the lands claimed in paragraph 13 above.

RE: PROOF OF PRIORITY FIL

2215.

Dear Mr Ward

It may be that a system analysis of your water use would be the best way to determine the status of your claims and we are not planning that phase of claims review at this time. It is anticipated that the latter part of the summer will be when we review systems in your area. At that time we will need a more accurate land list of the irrigated acres as it relates to each source. The acres covered by Grape Creek should be independently identified as should the acres covered by groundwater. This will be necessary to see how many acres are covered by decreed rights and how many acres should be covered by the licensed or beneficial use rights.

There is still some question as to the status of 43-02215. Further research is needed and the department's legal staff is tied up in a court action which will delay the analysis until at least next week. It appears the status of A43-02044 may face the same legal analysis as 43-02215. When they have been analyzed, I will let you know the status of those rights. As the status of A43-10290 is related to the outcome for the above rights, doing nothing at this time would probably be your best option.

A43-10291 still needs evidence of use and priority date to be submitted, as we discussed. Whenever you collect the information please send it in and we will place it with the original claim.

If you have any questions please call me and I'll try to explain what is going on.

Sincerely

Kelly K. Christensen
Sr. Water Resource Agent

FROM: Trish

RE: A43-07112 / Ward

After I corrected Ray Rigby's address and phone number on the above claim, it failed to update to the host master because the water use code shows irrigation only while the POU codes show irrigation and stockwater. I checked the original claim on microfiche (I thought the fiche would be quicker than trying to locate the claim in your office).

The original claim showed both irrigation (.93 cfs) and stockwater (.07 cfs) with a total diversion rate of 1.0 cfs. I changed both the "A" and "R" records to match the way it was originally claimed. I would appreciate it if you double check what I did to make sure it was done correctly. Thank you!

RE: ADDRESS & OWNERSHIP CHANGES FOR SOUTHERN REGION

Dear Ms. Fawcett:

Enclosed is a list of southern region records that our office changed. After the records were changed I realized I should have sent them to your office to do the changes.

I apologize for the inconvenience.

The first item (for Basin 43) is a change of address for attorney Ray Rigby that was sent to us from Boise.

The second item (for Basin 72) is a change of ownership from San Felipe Ranch to Mountain Springs Ranch LLC that was sent to us from San Felipe Ranch.

If you have questions, do not hesitate to contact me.

Sincerely,

Jennifer Hoagland
Technical Records Specialist

Re: Snake River Basin Adjudication (SRBA)
Change of Address

Department of Water Resources

Dear Mr. Rigby:

IDWR has been notified by the U.S. Post Office the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water rights and those of your clients can be sent only to the address on your water rights or as otherwise changed by you.

I have enclosed a Selection File Contents sheet which lists not only water rights under your name as Claimant, but also those of your clients.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary before returning this letter. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the properties connected with the water rights referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the claim record.

Sincerely,

Sally Sherman
Technical Records Specialist

RE: Snake River Basin Adjudication (SRBA)

Dear Clark,

I have come across several unresolved issues as I prepare to make my recommendations for your various claims at Almo. It has been just about a year since I visited your place, and I suspect that we have been equally busy in the interim. Here is a summary of what I need to complete your water right recommendations.

First, there is no proof of priority in the files showing when you first put the water of Big Springs (claim 43-10290) or Keg Creek (43-10291) to use for irrigation. Although I documented that there was evidence of use from these sources in 1999, there must be proof that the surface water was used prior to 1971 in order for me to recommend your water right. New appropriations of surface water after 1971 required a permit and license, therefore, if I don't have any evidence of use prior to that date, I have to disallow the two claims.

I have also done some research regarding your 1890 claim to water based upon decreed right 43-419 in the Jobe Adams Decree. This is the decree that identified the source as Raft River, but you are actually diverting Edwards and Little Cove Creeks, as well as runoff from Doug Ward's field. Because there is no historical delivery to your property from Edwards or Almo in accordance with the Jobe Adams Decree, it would seem that your water right is not based upon the decree, but upon the beneficial use of the water. Once again, this requires that you provide some documentation of when you began using the water from the creeks to irrigate your land. It would be after the date of the Jobe Adams Decree, which was signed in October 1928. I have looked at the aerial photos we have in the office which are dated 1976. They don't clearly indicate that irrigation was occurring then. If you can find some photos that show irrigation on the property prior to 1971 it would be helpful, also statements from neighbors or others who have personal knowledge of irrigation on the property but no financial interest in it. ASCS may be able to help you with photos, as they did fly that area and have archives in Salt Lake City.

Our engineers in Boise did some investigating, and information found in our files supports your claim for a diversion of 1.2 cfs from the well located in at the north end of your place, in Section 7 (43-4110). There is a discrepancy in the number of acres irrigated from the well, however. In 1981, the claim filed

by Vaudis Ward only listed 80 acres in the NWSW and SWSW Section 7 that had been irrigated beginning in 1959. In 1989 you included another 40 acres in the NWNW Section 18 on the SRBA claim. Since you increased the number of acres irrigated from the well after the mandatory permit statute for groundwater came into effect in 1961, the additional 40 acres represents an enlargement of the original claim. The legislature passed a law that all enlargement claims receive a priority date of June 30, 1985, therefore, this 40 acres can't just be included in the claim you filed in 1989, but must be a separate claim.

I also did some more research into the old licenses on Grape Creek that you filed SRBA claims on. I now think that the license issued to Ivan Leo Durfee in 1920 for 30 acres and .6 cfs from Grape Creek (43-2215) is still valid. It was licensed shortly before the Jobe Adams lawsuit was filed and so it is possible that this use of Grape Creek was left out. But I believe the 1909 license (43-2044) in the name of Bronson, was given up. First of all, it appears from the Application for Permit by Leo Durfee in 1917 that he intended to develop lands that should have already been irrigated if the 1909 licensed right was in use. Second, and more importantly, the 1909 license would have been a long established right and thus included in the Jobe Adams Decree.

If you have questions about the different claims and what information I need, feel free to call me here at the office. If we need to have a meeting I can make an appointment that will be convenient for you, and this would probably be the best way for you to file the enlargement claim. Mr. Rigby is still listed in our files as your attorney. If he still represents you, I encourage you to seek his advice about the above issues. If you wish me to forward a copy of this letter to him, I certainly will. I look forward to hearing from you.

Sincerely,

A handwritten signature in dark ink, appearing to read 'V. Hancock', with a stylized, flowing script.

Vikie Hancock
Sr. Water Resource Agent

Field Exam Notes

Field Exam Date: 10/12/1999

Claim Nos: A43-00407, -04110, -07112, -10290, -10291, -02215, -02044

Agent: Vikie Hancock

Claimant Clark Ward accompanied me on this field exam. The above claims are appurtenant to sections 7 and 18, T15S, R25E. Claimant also has claim A43-00419 which represents a separate system that is located in section 30 T15S, R25E.

Claim **A43-00407** is a claim based on a decree for 3.2 cfs from Grape Creek. It is agreed, by the three users of Grape Creek, that there are four total water shares on the creek. One is owned by Ron Ward, two are owned by Jay L. Black, and one is owned by the claimant, who is downstream of the other two users.

Claimant has three diversions from Grape Creek. Two are direct diversions from the stream channel and are used to flood irrigate lands in the SW $\frac{1}{4}$ of section 7 and the E $\frac{1}{2}$ NW $\frac{1}{4}$ section 18. Of these two, the top diversion is in the NE SE SW section 6. It is diverted to the west into a cement ditch that traverses the west side of Jay Black's field in the SESW Sec 6, and then parallels the highway until it reaches the NW corner of the claimant's place of use. It then flows into a pond, and claimant irrigates all directions from the pond into the NWSW section 7. When there is a lot of water early in the season, flooding can extend into the SWSW section 7. The second stream channel diversion is in the NE SE NW section 7. This diversion is in Ron Ward's field, and conveys water by ditch to flood the E $\frac{1}{2}$ of the SW $\frac{1}{4}$ and is mixed with water from the spring (and occasionally Keg Creek) to flood irrigate the E $\frac{1}{2}$ of the NW $\frac{1}{4}$ section 18 early in spring when there is sufficient water.

There is also a diversion from Grape creek into a pond and pipeline in Section 31 that is shared with the other two users of Grape Creek. Two pipes convey water from the pond. A 12 inch pipe supplies water to Ron Ward and Jay Black. An 8 inch pipe supplies this claimant. The pipeline enters the claimant's property at the NE corner of the NWSW section 7. The water is immediately put into the mainline sprinkler system. At this point, water from the well represented as BU claim A43-04110 is also put into the mainline sprinkler and mixes with Grape Creek water. Water from well licensed as 43-07112 is added into the mainline at the SE corner of the SWNW section 18. Sprinkler irrigation is used on the SWSW section 7; the NWNW, S $\frac{1}{2}$ NW $\frac{1}{4}$, and N $\frac{1}{2}$ SW $\frac{1}{4}$ section 18. There are times when surface water is used exclusively in the sprinkler system and times when surface and GW are mixed in the system. Some areas that are flooded early in the year are also sprinkled later in the year, if necessary. Claimant stated that only surface water is used to flood irrigate.

Both wells were GPS'd, tagged and information recorded from the pump and motor. Both pumps had been turned off on September 1st. Claim **A43-04110**, is based on a statutory claim filed in 1981 for a well drilled in 1959, in the NW SW section 7, and an approved transfer of POD to a new well drilled in the NE SW section 7 in 1989. According to IDWR records, this well was deepened in 1994 and tested at 60 gpm. The claimant said that he had had a pump test done by Layne Pump and would look for those records. The original Stat claim was for 1.2 cfs for irrigation on 80 acres. The AJ claim was for 1.27 cfs on 120 acres with stockwater. As stated above, the water from this well is put into the mainline sprinkler system and mixes with Grape Creek water and GW from the well in section 18.

Claim **A43-07112** is based on a license for .93 cfs of GW for irrigation on 143 acres in section 18. The AJ claim adds .07 cfs for stockwater, but all other elements are claimed as licensed. As noted before, water from this well is injected into the mainline sprinkler system and is interconnected with water from the well in section 7 and with Grape Creek water.

Claim number **A43-10290** is for the waters of a spring located in the SWSESW section 7. The spring was observed but not measured as the discharge rate was diminished from the peak of the irrigation season. The capacity of the natural channel flowing from the spring appeared to be greater than 1.07 cfs. The natural channel is diverted to the west and east to flood irrigate land in the SESW section 7 and NENW section 18, and mixes with water from Grape Creek and Keg Creek when available to irrigate into the SENW section 18. According to claimant's notes on the GIS printout during the field exam, no water from the spring is used in the NESW as claimed in 1989. Waters from the spring are not incorporated into the sprinkler system. I explained to Mr. Ward that we were in need of some proof of priority for the beneficial use of the spring. He indicated that he may be able to have his uncle sign an affidavit as he has memories of water usage on the farm.

Claim **A43-10291** was originally filed for irrigation and stockwater from Savage, Keg and Cliff creeks and an unnamed stream. In talking to Mr. Ward, he clarified his usage, which agreed with some undated notes found in the file: Claimant has no diversion from Savage creek, but wants to protect his utilization of the waters of this creek after it runs into Grape Creek. I discussed the fact that Jay Black uses the waters of Savage Creek to irrigate with, but has not filed a claim on it. Mr. Ward was aware of Mr. Black's usage. I told him that it may be beneficial for the three users to meet with me and come to an agreement on how we can preserve the status quo on Savage Creek. Claimant has no diversion from Cliff Creek and states that it reaches his property very few years. He mostly uses it for stockwater, and the same goes for the "Unnamed stream". I told him that for \$25 he could file a claim for stockwater on these two streams, but that an irrigation claim did not seem appropriate.

Claimant does irrigate from Keg Creek in the years that it has sufficient flow. The diversion was GPS'd in the NWSWSE section 7. Water is conveyed by ditch and flooded out onto an area in the W $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ that is brush covered, but

used for cattle pasture. It is collected into a ditch that run along the east property line and mixes with Grape Creek water to irrigate in the SESW Section 7, and irrigates about 30 acres. The pasture in SWSE looks consistent with intermittent irrigation from an ephemeral stream. Claimant stated that he has not bothered to clear the bush because it provides winter cover for his cows and also the deer and birds that frequent the area. There was no water in Keg Creek at the time of the field exam. I discussed the lack of evidence of priority with the claimant and he said he would try to find something.

Claims **A43-02215** and **A43-02044** are based on licensed rights from Grape Creek that pre-date the Jobe Adams decree. These licenses were appurtenant to property that claimant now owns along Grape Creek, but neither the license holders nor the place of use were enjoined in the 1928 decree. I talked to the claimant about the language in the Jobe Adams decree that was interpreted by our attorney, Nick Spencer, to mean that the decree intended to identify all usages on Grape Creek that were occurring at the time the decree was issued in 1928. Documents in the file indicate that claimant's grandfather, Orville Ward, purchased the property at a sheriff's sale in 1937. I told the claimant that my suspicions were that, in 1928, the homesteaders had left, the land was not being irrigated and therefore no claims were filed in the Jobe Adams lawsuit which covered the licensed rights, therefore they were invalid. Claimant said that one of the license holders, Leo Durfee, was a relative of his grandfather's, and that he believed the grandfather purchased the property after Durfee had given up. I told him that at this point I was inclined to disallow the claims based on these licenses and consider them superceded by the decree. We agreed that the water from Grape Creek had been used as decreed in the Jobe Adams for years, and was the status quo. Mr. Ward attempted to read the license and engineer report copies that I had in the files, but they were very poor quality. Since the claimant is represented by Mr. Rigby, I suggested that he talk to him about this issue, and told him that I would get more readable copies of the licenses and reports so that he could go over them. I also left him a copy of the Grape Creek page of the Jobe Adams decree. The places of use identified in these licenses for Grape Creek are now included in the acres licensed under 43-07112 for GW.

See field exam notes on GIS print out in file, GPS log sheet #3 and photographs.

See claim file A43-00419 for field exam notes pertaining to that claim.

WATER RIGHT LICENSE

License of Water Right No. 43-7112 Priority December 29, 1977 Amount 0.93 cfs

THIS IS TO CERTIFY, that Vaudis Ward

of Eiba, Idaho, has complied with the terms and conditions of Permit

No. 43-7112 issued pursuant to Application for Permit dated December 29, 1977,

and has submitted proof to the Department of Water Resources on August 28, 1981,

that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 0.93 cfs of water from a groundwater source,

tributary to _____, and that the permit holder has applied to a beneficial use and

established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>November 15</u>	at <u>0.93</u> cfs and	<u>451.9</u> acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.93 cfs of water be diverted at any one time, and

that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose

aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed

451.9 acre feet per year, said waters to be diverted within the NW 1/4 SE 1/4 Section 18,

Twp 15S, Rge 25E in the County of Cassia

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 6TH day of NOVEMBER, 19 86.
