OBJECTIONS:

1. BLM is not, and has never been the owner of this right. They are claimant.
2. The tributary has springs, plus snow melt as source. If claimant say POD is spring then this is an error.
4. None of these claims were used for stockwater prior to 1886 proof of beneficial use as exhibited in UTAH CONSTRUCTION VS ABBOTT, ET, AL,. BLM did not exist before 1936. Incidental stockwatering does not require a filing. IDAHO CODE 42-115. BLM may not file upon waters already appropriated. IDAHO CODE 42-501.
5. There is no diversion from this point. A spring does not exist here.
7. IDAHO CODE provides that livestock incidental watering from flowing stream does not require a filing.
8. BLM does not allow livestock use in this area prior to May 16, and not after Oct. 1.
9. Livestock do not go to the same place to drink.
11. BLM record ID does not always place water in same grazing allotment. Further research by BLM will reveal the POD, POU, and source to not always be consistant within the grazing allotment.
12. This water right should not be recommended.
14. The BLM has placed the present value, and future value of private property in jeopardy. I object to BLM claiming any senior rights to water that has already been appropriated and put to beneficial use.

I REQUEST THE RIGHT TO SUBMIT ADDITIONAL DOCUMENTS AND FOR INFORMATION PERTAINING TO THIS OBJECTION AT A FUTURE DATE.
