Subject: Water Right Applications – Shirley Adams Sharp

Dear Steve:

On behalf of Shirley Adams Sharp, I am pleased to submit the following three applications for transfer and one application for permit. The applications propose irrigation, recreation, and aesthetic uses at the High Plains Subdivision. A copy of the preliminary subdivision plat is enclosed.

The water right proposed for transfer is a 19-acre portion (0.307 cfs, 85.5 afa) of water right 63-31494. A copy of the water right purchase and sale agreement is enclosed. The transfers will split the 19 acres of water right 63-31494 into three separate rights. Each of these water rights will be served by a separate system.

The applications are described below.

1. Application No. 1 is a transfer of 13 acres of water right 63-31494. The transfer proposes irrigation (0.145 cfs, 40.5 afa) of 9 acres of common area in Lot 5, Block 1. The transfer will change the nature of use of the remaining 4-acre portion of the irrigation water right to recreation and aesthetic use (0.065 cfs, 18.0 afa). These uses will consist of water-level maintenance in a pond with a surface area of approximately 3.3-acres. The proposed recreation pond will be located in Lot 1, Block 1. Water will be diverted from a community well.
2. Application No. 2 is a transfer proposing 3 acres of irrigation (0.048 cfs, 13.5 afa) at Lot 14, Block 1 of High Plains Estates. The water will be diverted from a private well located in Lot 14.
3. Application No. 3 is a transfer application proposing 3 acres of irrigation (0.049 cfs, 13.5 afa) at Lot 15, Block 1 of High Plains Estates. The water will be diverted from a private well located in Lot 15.
4. Application No. 4 is an application for permit proposing a nominal 3.3-acre pond with storage volume of 22 af. The pond will be filled with water diverted from the community well. Initial pond filling can be accomplished through a one-time rental of 22 af of a Basin 63 groundwater right from the State Water Bank. The pond water level will be maintained

April 17, 2003

using water diverted for recreation/aesthetic uses as described in Application No. 1, above.

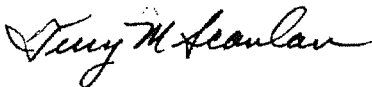

The 4 acres of irrigation water right transferred for recreation and aesthetic uses (Application No. 1) will fully mitigate evaporation losses from the proposed pond. Annual evaporation losses are estimated at approximately 44 inches (see annual free water surface evaporation map, attached). The 44 inches of evaporation from the proposed 3.3 acre pond surface results in an annual evaporation loss of 12.1 acre feet. Consumptive irrigation requirement (CIR) for the alfalfa hay crop historically irrigated by water right 63-31494 is 36.9 inches (Allen & Brockway, 1983, based on Caldwell station). The 36.9 inches of CIR over 4 acres provides 12.9 acre feet of consumption to offset evaporation losses. Subtracting 12.1 acre feet of annual evaporation from the 18.0 acre foot annual diversion volume leaves 5.9 acre feet of diversion volume for seepage losses. The 5.9 acre feet volume will result in a maximum allowable seepage loss of approximately 0.06 inches per day. A pond liner will be required to limit seepage loss to this amount.

Mrs. Sharp currently has a pending application for permit (63-31563) proposing irrigation of 50 acres within the same property. We request that this application for permit be maintained in the Basin 63 Administrative Hold file. If the Administrative Hold is lifted, the pending application for permit would give Mrs. Sharp the opportunity to irrigate additional lands within the subdivision area.

A check for \$550 in filing fees is enclosed. This check is based on three \$100 fees for the applications for transfer and a single \$250 fee for the application for permit.

Please contact me with any questions.

Sincerely,

Terry M. Scanlan, P.E., P.G.

accurate.

- b. Issuance of the Transfer Approval authorizing diversion and use of ground water at a rate of not less than 0.307 cfs and a total annual volume of not less than 85.5 acre-feet, and subject only to such conditions as Buyer, in Buyer's sole discretion deems will not interfere with or impair Buyer's intended use of the Water Right ("Transfer Approval").
 - c. Demonstration by Seller of Seller's clear and marketable title to the Water Right, free of any claims, including rights of redemption.
 - d. Seller's delivery into escrow of the documents described in Paragraph 5 hereto.
 - e. Seller's approval of any condition of the Transfer Approval which does, or could, impact Seller's remaining water rights and farming operations.
7. Buyer's Termination. If the foregoing conditions precedent are neither satisfied or waived by Buyer, or in the event of any default by Seller, or the, breach by Seller of any representation or warranty of Seller herein, and provided Buyer is not otherwise in default hereunder, Buyer may terminate the escrow and this Agreement by giving written notice of termination to Seller with a copy thereof to the Escrow Agent. Provided further, that if the foregoing conditions precedent have not been met by December 1, 2003, Buyer may terminate this Agreement by providing Seller notice thereof, with a copy thereof to the Escrow Agent. If Buyer gives Seller notice of termination, the Escrow Agent shall return any funds, including the Earnest Money, together with any documents delivered into escrow by Buyer, to Buyer, and shall return any documents delivered into escrow by Seller to Seller.
8. Buyer's Waiver of Transfer Approval. Seller and Buyer expressly agree that Buyer shall have the right to waive the conditions precedent set forth in 6 above and close the Water Right purchase, to the extent that the Department's

Transfer Approval reduces the rate or annual volume authorized to be diverted at Buyer's point of diversion and place of use, and Buyer, in Buyer's sole discretion, deems the diversion rate and/or volume actually authorized by the Transfer Approval to be sufficient for Buyer's intended use. If Buyer so waives any condition precedent, Buyer shall remain obligated to pay the Purchase Price for the Water Right. In the event Buyer completes the closing of this transaction, all conditions precedent shall be deemed waived.

9. Closing. Closing shall occur within fifteen (15) days of the date of Buyer's written notice to Seller and the Escrow Agent that the Department has granted the Transfer Approval. Upon receipt by the Escrow Agent of Buyer's notice of the Transfer Approval, and of all funds and documents required by this Agreement to be delivered into escrow, the Escrow Agent shall:

- a. Deliver the Purchase Price, less Seller's share of the escrow fees and costs to Seller;
- b. Record the Water Right General Warranty Deed and Assignment and any Release of Lien or other such recordable instrument in the real property records of Gem County, Idaho; and Deliver the recorded instruments and the Notice of Change of Ownership to Buyer.

10. Representations and Warranties.

Subject: Sale of Portions of Water Right 63-31494

Dear Dan:

Enclosed at your request is a map showing water right 63-31494 acres to be removed from irrigation following sale of water rights by Carlos and Laura Posts. The Posts are currently in the process of selling portions of water right 63-31494 totaling 79 acres as described below.

1. Ada County Highway District (ACHD) is purchasing 10 acres from the SWSE Section 36, T6N, R3W. ACHD has submitted an application for permit that proposes retirement of these 10 acres as mitigation for groundwater use at a gravel pit operation located in Section 29, T2N, R2E.
2. Paul and Susan Beckman are purchasing 5 acres from the NWSE, 10 acres from the SWSE, and 35 acres from the SESE of Section 36, T6N, R3W. The Beckmans have submitted an application to transfer the 50 acres of water right to their lands located in Section 25, T5N, R1W.
3. Shirley Adams Sharp is purchasing 4 acres from the NWSE and 15 acres from the SWSE of Section 35, T6N, R3W. Mrs. Sharp proposes transferring this water right to her lands located in Section 21, T5N, R1W. The 19 acres of water right will be split into three separate water rights of 3 acres, 3 acres, and 13 acres. We plan to submit three applications for transfer in April 2003.

1. Seller owns a water right to divert ground water within the Boise River Basin, which water right is represented by license number 63-9179A issued by the Idaho Department of Water Resources ("Department"). License No. 63-9179A authorizes diversion of ground water for irrigation use at a rate of 0.0162 cubic feet per second ("cfs") per irrigated acre and a total annual diversion volume of four and one half (4.5) acre-feet per acre per year.
2. Seller desires to sell that portion of Seller's water right (hereinafter the "Water Right") appurtenant to and beneficially used on the following lands owned by Seller: Thirty-four (34) acres situated in the NW1/4SE1/4 and approximately six (6) acres situated in the NE1/4NE1/4 and the NW1/4NE1/4 of Section 36, T6N R3W, Boise Meridian, Gem County, Idaho (the "Thirty-Four Acre Tract" and Six Acre Tract" respectively).
3. A portion of the Water Right appurtenant to the Six Acre Tract is held in the name of Garrett Post, and Seller intends to obtain all necessary approvals, conveyances and/or releases from Garrett Post to allow the sale and Transfer (as defined below) thereof as described herein.
4. Buyer desires to purchase the Water Right and to change the point of diversion and place of use thereof to Buyer's property and use ("Transfer").
5. Seller and Buyer acknowledge that the Transfer will require formal application to, and approval by, the Department.

AGREEMENT

NOW THEREFORE, in consideration of the foregoing recitals, and the covenants and conditions set forth below, Seller agrees to sell and Buyer agrees to purchase the Water Right.

1. Purchase Price. The purchase price for the Water Right is EIGHTY THOUSAND DOLLARS (\$80,000.00), payable as follows:
 - a. Earnest Money Deposit. Upon execution of this Agreement by Seller and Buyer, Buyer shall deposit with the Escrow Agent (defined below) the sum of Four Thousand Dollars (\$4,000.00) as earnest money ("Earnest Money"). The Earnest Money shall be applied towards the purchase price at Closing, and shall be non-refundable in the event the purchase and sale does not close, unless the reason that the purchase and sale does not close is due to the non-occurrence of a condition precedent which has not been waived by Buyer, in which case the Earnest Money, together with accrued interest thereon, shall be refunded to Buyer by the Escrow Agent.

- b. Balance of Purchase Price. Seventy-six Thousand Dollars (\$76,000.00), less any adjustment as provided in paragraph 1(c) below being the balance of the Purchase Price, shall be due and payable to Seller at Closing.
- c. Adjustment to Purchase Price. Seller and Buyer acknowledge that the Purchase Price is based upon two thousand dollars (\$2,000.00) per each irrigated acre to which the Water Right is appurtenant. If the Department, in its review of the Transfer, determines to authorize the Transfer, but determines to allow a total annual diversion of less than 180 acre-feet of ground water at Buyer's point of diversion and place of use because the Department recognizes beneficial use of the Water Right on less than, or other than, the forty acres described in Recital 2 above, and Seller thereafter is unable to substitute additional or alternate acres to make up the difference, and Buyer has waived conditions precedent herein and is otherwise prepared to close, then the Purchase Price shall be reduced by \$2,000.00 for each acre less than forty acres that the Department so recognizes as supporting the beneficial use of the Water Right.
2. Escrow Agent. The Escrow Agent shall be Weiser Valley Title, Inc., P.O. Box 591, 124-128 East Main Street, Weiser, Idaho 83672.
3. Escrow Fees and Costs. Seller and Buyer shall each be responsible for one-half of the Escrow Agent's fees and costs.
4. Pre-Closing Obligations. Seller and Buyer agree to cooperate in obtaining Department approval of the Transfer. Seller agrees to provide Buyer with any information concerning Seller's ownership and the historical beneficial use of the Water Right that Buyer may reasonably request to perform Buyer's due diligence and to respond to any Department requests for information or documentation supporting the Transfer application. Buyer will prepare, file, and prosecute the Transfer Application with the Department and use its reasonable best efforts to obtain the Transfer Approval contemplated by the parties. Promptly after the execution of this Agreement, Buyer shall file with the Department an application to transfer the Water Right.
5. Delivery into Escrow. Prior to Closing Seller and Buyer shall deliver the following to the Escrow Agent:
- a. Seller.
- i. Executed and acknowledged Water Right General Warranty Deed and Assignment conveying the Water Right to Buyer free and clear of all claims, liens and encumbrances;
 - ii. Executed and acknowledged conveyances and/or releases of that portion of the Water Right appurtenant to the Six Acre Tract, and other documentation in recordable form sufficient to confirm the release of the Water Right from any claim, lien or encumbrance affecting the Water Right;
 - iii. Executed and acknowledged Notice of Change of Ownership confirming Buyer's ownership of the Water Right and the assignment of any associated Snake River Basin Adjudication Claim ("SRBA Claim"); and
 - iv. Such other documents as Buyer may reasonably request to confirm Buyer's ownership of the Water Right and SRBA Claim as of Closing.
- b. Buyer.

- i. Written notice of the Department's Transfer Approval; and
 - ii. The balance of the Purchase Price subject to any adjustments thereto pursuant to paragraph 1(c) above.
6. Conditions Precedent. The Closing, and Buyer's obligation to purchase the Water Right are subject to the following conditions precedent:
 - a. Seller is not in default and each of Seller's representations and warranties remain true and accurate.
 - b. Issuance of the Transfer Approval authorizing diversion and use of ground water at a rate of not less than 0.648 cfs and a total annual volume of not less than 180 acre-feet, and subject only to such conditions as Buyer, in Buyer's sole discretion deems will not interfere with or impair Buyer's intended use of the Water Right ("Transfer Approval).
 - c. Demonstration by Seller of Seller's clear and marketable title to the Water Right, free of any claims, including rights of redemption.
 - d. Seller's delivery into escrow of the documents described in Paragraph 5 hereto.
7. Buyer's Termination. If the foregoing conditions precedent are neither satisfied or waived by Buyer, or in the event of any default by Seller, or the breach by Seller of any representation or warranty of Seller herein, and provided Buyer is not otherwise in default hereunder, Buyer may terminate the escrow and this Agreement by giving written notice of termination to Seller with a copy thereof to the Escrow Agent. Provided further, that if the foregoing conditions precedent have not been met by February 1, 2003, Buyer may terminate this Agreement by providing Seller notice thereof, with a copy thereof to the Escrow Agent. If Buyer gives Seller notice of termination, the Escrow Agent shall return any funds, including the Earnest Money, together with any documents delivered into escrow by Buyer, to Buyer, and shall return any documents delivered into escrow by Seller to Seller.
8. Buyer's Waiver of Transfer Approval. Seller and Buyer expressly agree that Buyer shall have the right to waive condition precedent 6(b) above and close the Water Right purchase, to the extent that the Department's Transfer Approval reduces the rate or annual volume authorized to be diverted at Buyer's point of diversion and place of use, and Buyer, in Buyer's sole discretion, deems the diversion rate and/or volume actually authorized by the Transfer Approval to be sufficient for Buyer's intended use. If Buyer so waives condition precedent 6(b), Buyer shall remain obligated to pay the Purchase Price for the Water Right, except that the Purchase Price shall remain subject to adjustment as provided in paragraph 1(c) above.
9. Closing. Closing shall occur within ten (10) days of the date of Buyer's written notice to Seller and the Escrow Agent that the Department has granted the Transfer Approval. Upon receipt by the Escrow Agent of Buyer's notice of the Transfer Approval, and of all funds and documents required by this Agreement to be delivered into escrow, the Escrow Agent shall:
 - a. Deliver the Purchase Price, less any permitted adjustments and Seller's share of the escrow fees and costs to Seller;
 - b. Record the Water Right General Warranty Deed and Assignment and any Release of Lien or other such recordable instrument in the real property records of Gem County, Idaho; and
 - c. Deliver the recorded instruments and the Notice of Change of Ownership to Buyer.

10. Representations and Warranties.

a. By Seller:

- i. The Water Right is the sole and primary water right beneficially used to irrigate the lands described in Recital 2 above, and there are no other water rights used upon or appurtenant to such lands;
- ii. Seller agrees that the lands described in Recital 2 above will no longer be irrigated following the Transfer Approval and Closing, unless Seller develops or transfers a new water right to such lands for irrigation;
- iii. There are no contracts, actions, claims or proceedings pending that affect the Water Right;
- iv. Except as otherwise set forth in Recital 2 herein, which exception shall be removed prior to Closing, Seller is the current owner of the Water Right and has not conveyed the Water Right to any other person or entity;
- v. There are no liens, encumbrances, covenants, conditions or restrictions affecting the Water Right other than those that have previously been disclosed in writing to Buyer by Seller;
- vi. Seller is not in default with respect to any of its obligations or liabilities pertaining to the Water Right;
- vii. Seller has not engaged or dealt with any broker or finder in connection with the sale of the Water Right;
- viii. Seller has the legal power, right and authority to enter into this Agreement and to perform Seller's obligations hereunder; and
- ix. The Water Right has been placed to continued beneficial use on the real property described in Recital 2 above, and Seller has no knowledge of any continuous five-year period of nonuse of the Water Right.

b. By Buyer.

- i. Buyer has the legal power, right and authority to enter into this Agreement and to perform Buyer's obligations hereunder; and
- ii. Buyer has not engaged any broker or finder in connection with the purchase of the Water Right.

11. Remedies on Default. If Seller breaches this Agreement, in addition to all other remedies available to Buyer at law or in equity, Buyer shall be entitled to specific performance. If Buyer breaches this Agreement, Seller's sole remedy shall be Seller's retention of the Earnest Money and the withdrawal of the Transfer Application or Transfer Approval as the case may be.

12. General Provisions.

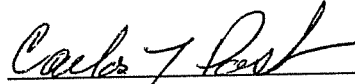

- a. This Agreement contains the entire agreement between the parties related to the purchase and sale of the Water Right, and all prior or contemporaneous agreements, understandings, representations and statements, oral or written, are merged herein.
- b. No modification, amendment discharge or change of this Agreement shall be valid unless the same is in writing and signed by both parties.
- c. If either party commences litigation for the judicial interpretation, enforcement or rescission of this Agreement, the prevailing party shall be entitled to its reasonable attorney fees and costs.

- d. Time is of the essence to this Agreement.
- e. All obligations referred to herein to be performed at a time or times after Closing, and all representations and warranties contained herein shall survive the Closing and delivery of Seller's Water Right General Warranty Deed and Assignment.
- f. This Agreement shall be binding upon, inure to the benefit of, and be enforceable by the parties hereto and their respective heirs, representatives, successors and assigns.
- g. All notices to be given to the parties or the Escrow Agent shall be in writing, delivered in hand, or by U.S. Mail, postage pre-paid directed to such parties address as contained herein unless such party shall have directed in writing that notice be sent to a different address.
- h. This Agreement may be executed in counterparts.

May 10, 2001

Steve Lester
Water Rights Supervisor
Idaho Department of Water Resources
2735 Airport Way
Boise, ID 83705

Subject: Application for Transfer of Water Right 63-9179A (Claim 63-9179C)

Dear Steve:

On behalf of my client, Tucker M. Johnson, Scanlan Engineering is pleased to submit the enclosed application for transfer of water right 63-9179.

The transfer proposes changing the point of diversion and place of use for a 40-acre portion of water right 63-9179. Johnson has entered into a contract to purchase the 40-acre water right from Carl and Laura Post. The 40-acre water right includes 34 acres located in the NWSE of Section 36 and 6 acres located in the NENE of Section 36. Mr. Johnson proposes to utilize the water right on 40 acres within a 60-acre parcel of land located approximately 3 miles north of Eagle.

A previous transfer of a 10-acre portion of water right 63-9179 was approved in 1999 (transfer 5285). As part of that transfer, you verified irrigation of 215.4 acres, as compared to 303 licensed acres. Included in the verified acres were 13 acres in the NENE of Section 36 and 34 acres in the NWSE of Section 36. As part of my analysis in preparation of the proposed transfer, I obtained FSA aerial photography (2001 color and 1992 black and white) for these lands from Mr. and Mrs. Post. My review of the photos suggests that the irrigated area in the NENE of Section 36 might be closer to 15 acres, rather than the 13 acres previously verified. Copies of the photos are provided in the transfer application.

The land to which water right 63-9179 is appurtenant was apparently subdivided into nine parcels a couple years ago. Maps of the 9 parcels are enclosed with the transfer application. Mr. and Mrs. Post apparently own Parcel 1 (NWSE Section 36) and Parcel 7B (8 acres within NENE Section 36). Their son, Garrett Post, owns Parcel 7A (5 acres within the NENE and NWNE Section 36). Legal descriptions for these three parcels are attached to the transfer application. My calculations indicate that there are approximately 4.5 irrigated acres within Parcel 7B and 3.1 irrigated acres within Parcel 7A. We propose to transfer water rights from the entire 4.5 irrigated acres in Parcel B and from 1.5 acres of in Parcel 7A. My calculations of irrigated area in Parcels 7A and 7B are provided as an attachment to the transfer application.

Mr. and Mrs. Post have indicated that their son will cooperate in the sale of a 1.5-acre portion of the water right that is appurtenant to his land (Parcel 7A). I anticipate that their attorney will provide documentation authorizing the sale of his portion of the water right. That documentation will be forwarded to your office as soon as possible, along with recent tax notices for Parcels 1, 7A, and 7B.

A check for the \$250.00 filing fee is enclosed. Please contact me if you have any questions or need additional documentation.
