OBJECTION

RECEIVED

MAR 18 1993

Department of Water Resources
Adjudication Bureau

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. The water right number you are objecting to must be indicated above in the blank space following "Case No." To object to more than one water right, you must file a separate objection form for each. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

mailing on Objector's behalf

Box 1. I object to the BLM owning this water.

Box 2. The source should be the point where there is actual water.

Box 3. This quantity is already reserved by Idaho Water Law for Livestock.

Box 4. These priority dates should be verified by documents which originated at the time of the priority date claim and the document should refer to the particular water source on which the claim is filed.

Box 5. The point of diversion should be the point where the water is actually diverted from the natural stream, creek, or spring. The point of diversion should be legally accurate.

Box 7. The BLM or Forest do not own livestock which they claim the water for.

Box 8. The period of year should be the same as the period of year that the livestock use the water.

Box 9. The legal discription errors.

Box 11. The wording is not proper in relation to the use.

Box 12. The Government should not be allowed to claim and own Idaho water and resell it.

Box 14. I object to dual, duplicate, triple or claims with excessive livestock numbers such as 2 claims on 40 acres of bog swamp for 3620 cattle.

Honorable Daniel C. Hurlbutt
District Court
Snake River Basin Adjudication
Twin Falls, Idaho 83303-2707

Dear Honorable Judge Hurlbutt;

After doing some research into the U.S. Forest and BLM Stockwater filings, we have a lot of concerns which we feel need to be checked into much further for accuracy on their part.

Some of our concerns are as follows;

We question if the Department of Interior-BLM and or the Department of Agriculture-Forest Service followed all of the details and requirements of Idaho Water Law Rules and Regulations.

Did these two Agencies provide documentation and proof of their beneficial use in establishing the priority date, their claim to stock numbers, their accuracy of legal descriptions, their points of diversion, place of use, and period of use.

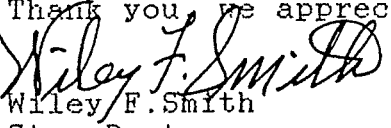

The Government has objected to most of the basin private filings and filed on water with an unusual method. Filing on dry ground where no water exists. They have multiple filings where only one or two springs exist. They call a water trough which is on the end of Thousands of feet of buried pipeline, the point of diversion as well as the place of use. We question their creditability and competence in relation to the Adjudication of Basin 34 Water.

In Township 10N, Range 22 E, we have researched and based on our familiarity on the ground, believe the Government-BLM filings to be in excess of 90% errors on various claims. Some are entirely false.

We therefore feel that there is a strong possibility of excessive errors on their other claims through out Basin 34 and request to court to investigate and hold up the Government filings until on ground inspection, documentation and proof of use is submitted to the court and is verified by Idaho Department of Water Resources.

The Government should not be allowed any special privileges that the water users of Basin 34 were not. We feel that the Federal Government Agencies should all pay the proper appropriated Water Master of Basin 34 Assessments each and every year the same as private water users are required to pay.

Thank you, we appreciate your consideration.
