EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

2-00051

Owner: claimant matches taxlot data

Priority date: claimed 3/15/1969, evidence from ditch rider pointing to 1960 for irrigation of this land from the canal

POD: Idaho Power Canal as per agreement with Totorica (previous owner)

Source: Snake River as per diversion from Idaho Power Canal

POU: 1974 aerial photography supports irrigation of claimed acres, evidence from ditch rider indicates irrigation of Totorica Place (described in other documents (deeds, etc) as the land of this water right and 2-00052)

Use: irrigation as per ditch rider statement, aerial photography, etc

Season: recommended as per Idaho Power agreement 4/10/1952 for 3/15-10/31

Quantity: recommended as claimed. .7 cfs + 1.1 cfs (for 2-52) are less than allowable diversion as per Idaho Power Agreement, capacity to divert at Idaho Power Canal, less than 0.02 cfs/acre

Assigned to:
John Anchustegui

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Carl Hite Phone 834-2650
Post office address Bruneau, ID 83604

2. Source of water supply Snake River which is a tributary of Columbia River

3. Location of point of diversion is NW 1/4 of SW 1/4 of Section 34 Township 5S
Range 4E B.M. Owyhee County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 20 for Irrigation purposes from 3/15 to 11/15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 20 cfs cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Existing Diversion Through Grand
View Mutual Canal & Ditches

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir
capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial
use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ % of _____ % of Section _____ Township _____
Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____

(5) If water is to be used for other purposes describe: _____

1. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

Total number of acres to be irrigated 57

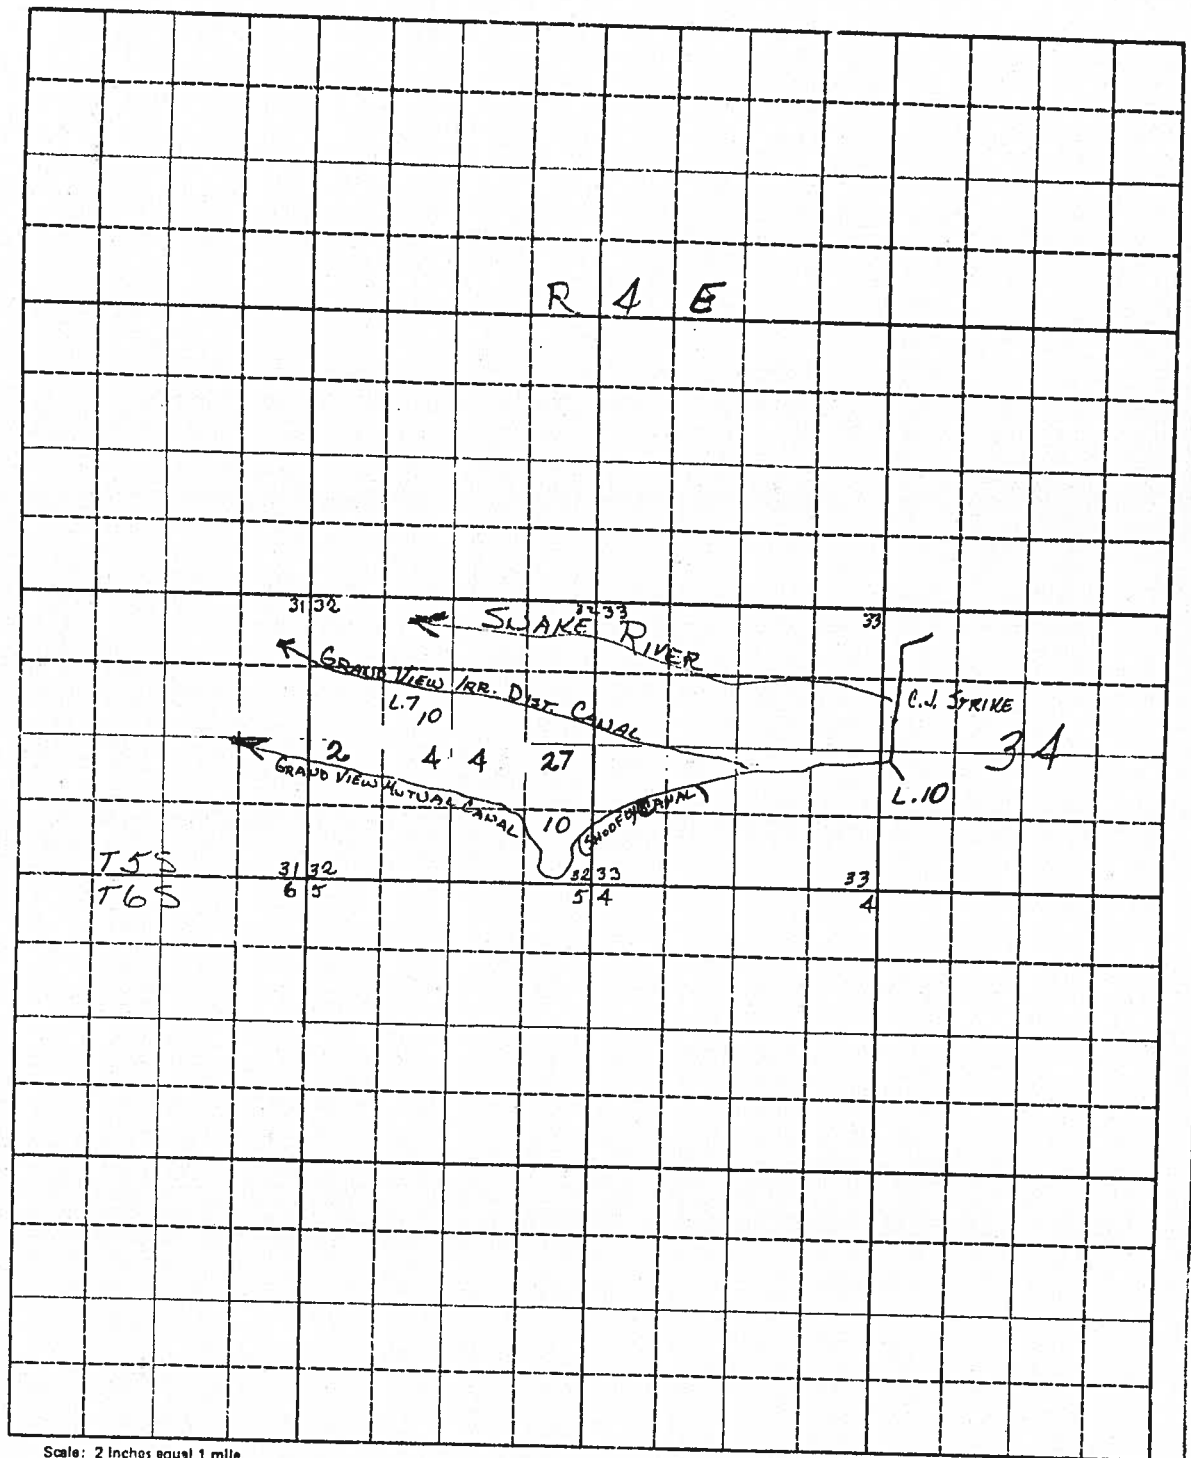

c. Describe any other water rights used for the same purposes as described above.

Other Lands 02-0051, 02-0052, 02-2088

9. a. Who owns the property at the point of diversion Idaho Power Co.
 b. Who owns the land to be irrigated or place of use Applicant
 c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing Existing Agreement with Idaho Power Co. & Canal Company

10. Remarks Maximum Diversion Rate Will Not Exceed 1.86 CFS When Combined With
Earlier Rights.

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

LAPSE NOTICE

RE: PERMIT NO. 02-07398

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated November 30, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

SUBJECT: Review and Analysis

The dates of priority for the beneficial use rights were slightly advanced because the contract with Idaho Power in 1952 restricted delivery of water until March 15th. Therefore, beneficial use of water in the year stated both on the claim and in the predecessor's statement could have been no earlier than March 15th. Correspondingly, the ending day for the period of use was advanced to October 31 in agreement with the Idaho Power agreement.

The predecessor's statement also referred to a draw that cuts through this piece of property. The first irrigation from the canal was apparently on the land south of this draw. The land south of the draw totals 27 irrigated acres. It was this land that was recommended with the 1954 priority date. The land north of the ditch totals 50 irrigated acres. Although the claimant had filed 02-0052 in lieu of license 02-2088, I found it necessary and advantageous to the claimant to recommend a water right based on the license in part. My analysis of the first right would have otherwise placed the additional land and water under a 1969 priority which apparently was not true. The claimant had gained the use of an earlier right with the benefit of the license. Therefore, 25 acres of the 50 acres north of the ditch were recommended under 02-2088. The remainder of the claimant's irrigated acreage was recommended under 02-0051.

The total quantity recommended for each of the three claims varies slightly from either the claimed amount of the licensed amount. This is partly the result of the analysis of the irrigated acreage and the duty connected with that land. Each of the rights was recommended for more than .02 cfs per acre in light of a conveyance loss. This conveyance loss was not calculated specifically for these

MICROFILMED

AUG 10 1994

2 (Files 02-0051, 02-0052, 02-2088)

rights because the water for these rights is only part of a larger delivery of at least 97 cfs. The amounts recommended for the claimant's water rights exceeds the normal duty of .02 cfs per acre by only about 17%. A rough calculation of the conveyance loss for the mutual canal shows a percentage loss in excess of this amount. The rights of the claimant were not recommended with a greater conveyance loss incorporated because the claims as originally filed were for only 1.8 cfs and the Mutual Canal Co. assesses the claimant for this amount. In addition the contract with Idaho Power signed in 1952 is for no more water than this.

All refers to lands in Sec 32, Twp. 55, R 3
 When we first looked at the Totorica
 place in the summer of 1975 it was being
 irrigated both by open flow and sprinkler
 From a diversion point thru the bank of the
 Grand View Mutual Canal in the NE $\frac{1}{4}$ - SW $\frac{1}{4}$
 there was a ditch in which the water flowed
 along the canal west thru a part of the NE $\frac{1}{4}$ of SW
 and extended into the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$.

It also flowed east along the canal thru a
 part of the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ and the SW $\frac{1}{4}$ of SE
 and possibly into the SE $\frac{1}{4}$ of SE $\frac{1}{4}$.

The land was corrugated North by a little east
 from the ditch and the water flowed north by ear
 to a draw and down the draw in an easterly
 direction and wasted into the Grand View Canal
 in the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$.

Another diversion point in the NW $\frac{1}{4}$ of SE
 led the water thru the bank and into an under
 ground pipe and took it south east to a pump
 which I believe to be located in lot 8 in the
 SW $\frac{1}{4}$ of the NW $\frac{1}{4}$. From the pump a main
 line extended East by a little south a distance
 approximately 3100 ft thru what I think is
 lot 8 of the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ and the SE $\frac{1}{4}$ of NW
 and ended in the NW $\frac{1}{4}$ of SE $\frac{1}{4}$. From the
 main line, hand lines with sprinklers irrigated the
 whole lot.

land south of the main line to the draw and
water way referred to before.

1. What date did you start irrigating
from the canal? Started irrigating 1954.
The full length as indicated by A.S. C.S. Map 1980.

2. When was the pump put in?
Pump installed and land irrigated in 1969

3. Had you irrigated north of the draw
before the pump was in?
No.

4. How and where did the water right
go from 1.6 sec. ft (80 in) to 90 inches

5. Started irrigating from pump in the
year. Totoricas paid bills for underground pipe.

SUBJECT: CLAIMANT'S WATER ASSESSMENTS

Carl Hite was in the office today to discuss his water rights in relation to the quantity of water he pays for to the Grand View Mutual Canal Company for conveyance. The 1952 Idaho Power contract signed by Hite's predecessor was for 80 miners inches (MI). Hite delivered documents, copies are in 02-0051, revealing the delivery and origin of an additional 10 MI. The 10 MI was acquired with the 10 acres of land purchased from D. O. and Thelma Bybee. The land is along the west line of Hite's property. The recommendation of these rights is consistent with the canal company charges and the power company agreement.

Minutes of a regular meeting of the Board of Directors Grand View Mutual Canal Company held Monday, August 1, 1983 at 8:00 o'clock P. M.

The meeting was called to order by Cecil Meyers the President of the Board who presided at the meeting, Kay Garsja the Sec'y of the Board was present and acted as Sec'y, upon roll call the following were found to be present,

Directors

Ditch Rider
Secretary

Cecil Meyers
Bruce Gilbert
Frank Noble
Kay Garsja

Motion made, seconded, to approve minutes of previous meeting.

Carl Hite had talked to the Sec'y previous to the meeting, he wanted the Board to put into the minutes that he was entitled to 90 inches of water from the Mutual Canal. At the meeting motion was made and approved the minutes so read.
A bill will be sent to George Hipwell for the remainder of the 100 shares of water on the Burghardt land, the balance being 20 shares.

The sec'y will contact Mr. Ringert again on the agreement between the canal co. and John Whitted.

The following bills were presented for payment upon motion made, seconded, were ordered paid.

<u>NO</u>	<u>NAME</u>	<u>WHAT FOR</u>	<u>AMOUNT</u>
415	Aquaness Chemical	supplies	6,097.24
416	Bestway Automotive	repairs	38.12

SOIL CONSERVATION SERVICE P.O. Box 167, Grand View, ID 83624

Carl Hite
Star Rt. B Box 187 A
Bruneau, ID 83604

June 29, 1983

Dear Mr. Hite:

A check was made on your request for justification for a water right of 2 miners inches per acre on your farm.

The soils on the ranch are Aysees and Turbyfill Sandy Loams. Because of the floater rocks, crop production is pretty well limited to pasture and hay.

Pasture has a net water requirement of 26 acre inches based on a growing season from March 15 to October 15 for a total of 198 days.

Based on a seasonal water requirement, 2 miners inches per day would give you an irrigation efficiency of 13%. If we take the peak months of July and August, pasture needs are 6.78 and 5.60 acre inches respectively. Two miners inches per acre flow would then give an irrigation efficiency of 23% in July and 18% in August with the balance of the year considerably less efficient if water were run continuously at this rate. While 20% is not a good efficiency it is certainly within the range we have observed when making surface irrigation efficiency trials on these type soils.

If you were to convert back to surface irrigation on this place 2 miners inches per acre flow in July and August would probably be needed for peak pasture or hay production.

Sincerely,

Gene Crisman
District Conservationist

Re: 02-0051

Dear Mr. Hite:

The following individuals may be able to help you in your search of the priority date for the water diverted through the pipeline. You'll see I had Mrs. Cullen's current residence wrong.

Ken Burton, Box 224, Melba, ID 495-2627
From '25 to '49, ran cattle from Grand View to Juniper Mountain.

Bill Love, Box 28, Grand View, ID 834-2361
Lived in Grand View since 1950.

Bob Harris, Box 127, Grand View, ID 834-2307
Moved to Grand View in 1920; '50 - '55, director of Grand View
Irrigation District, irrigated from District & Mutual canals.

Flossie Cullen, Rt. B., Box 202, Grand View, ID

I hope these will be of some use.

FROM: D. Shaff

DATED: 4/14/82

SUBJECT:

After again reading the 1952 Idaho Power Contract at paragraph 10B I found the calculation of the diversion rate for these rights was incorrect. The contract provides that the ~~qualified~~^{quantified} amount will be measured at the outlet works from the canal rather than at the head of the Mutual canal. The ~~qualified~~^{quantified} amount does not include the canal loss. As such these rights should have the same 21% canal loss factored into the calculation of the right. This was not done in the previous review.
