RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

No evidence of priority has been provided on this claim. Resent a letter requesting evidence of priority on 2/16/01

B43-POD.SHP

NOS. DESCRIPTION

2/20/01 I called Andie Nye, and he stated that he hasn't irrigated the two acres. He only has a domestic well. So, I'm not recommending the irrigation portion of this right at this time CB

I'm not sure of the actual location of this land. If an objection is filed on this claim, I'll have to make an actual field visit to determine the location and beneficial use.

RE: evidence of priority

DATE: 2/20/01

NAME OF PARTY: Andre Nye

On this day, I spoke with Andre by telephone in regards to the irrigation portion of his claim. He informed me that he has a domestic well. He hasn't irrigated the 2 acres his dad deeded to him. They have a lawn and garden spot. So, he isn't able to provide us with any proof of priority for the irrigation portion of this right. I told Andre that I would then recommend the irrigation portion for disallowal and recommend the domestic portion.

- Sally sent a change of address form to Andre Nye.

Robertson, Jean

From: Bird, Cindy
Sent: Thursday, December 23, 1999 3:57 PM
To: Robertson, Jean
Subject: Basin 43 help

Mr. Nye left a message with me yesterday in response to Scott's letter requesting system information. When I research Mr Nye's claim (A43-10067) I discovered that they have only claimed 0.06 cfs for irrigation. For this irrigation diversion rate we don't need him to fill-out the form.

Our previous discussions with Doug resulted in checking the barcode to determine the location of the file and then connecting the claimant with the agent to discuss their concerns. Since the file resides in your office I will refer him to you to provide any additional information you may need to recommend his claim.

The priority date on this claim is 1880. According to the well drillers database he had a well drilled in 1991. Has he been irrigating the 2 acres since 1880?

Have a happy holiday.
Cindy

REF: Claim A43-10067

Subject: Evidence of Priority

Dear Claimants:

In the process of reviewing your claim and preparing a recommendation for the court. I discovered there is not enough information to recommend the irrigation portion of your claim. In December of 1991 you received a letter from Allen Merritt requesting evidence of priority. For your conveyance I have enclosed a copy of the original letter from Allen. Without this additional information we will not be able to recommend the irrigation portion of your claim.

Your immediate attention to this matter is needed. We must receive this information by March 1, 2001. Otherwise, only the domestic and stockwater will be recommended. The irrigation portion of this claim will be recommended for disallowal. If you have any additional questions please contact me at 1-800-451-4129 extension 5450.

Sincerely,

Cindy E. Bird

Re: Snake River Basin Adjudication (SRBA)
Notice of Claim to a Water Right #43-10067
Change of Address

*Record Modified. NEAR prepared.
2-3-2-01*

Dear Water Right Holder:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your water right or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary **and list any other water rights you may have** before returning this letter by March 1, 2001. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

Sally

RE: Information about historical water diversion flow rate

Dear Wateruser:

This past December IDWR sent a letter to you requesting your assistance in providing information about flow rates from certain diversions (copy attached). These letters are being sent to claimants with identified rights that have not previously been confirmed (measured) either through the licensing process or by decree. IDWR desires to make the most accurate recommendation to the SRBA Court and this requires your participation and cooperation, pursuant Idaho Code §42-1410.

One advantage of providing good, verifiable information to us is that the flow rate that we recommend will be the full measure of your water right as developed. Another benefit is that disputes over the recommendation are minimized. Lastly, documentation for flow rate will likely be dated and may support evidence of priority determination.

In the absence of good information about historical diversion flow rates IDWR may conclude any of three less desirable alternatives:

- 1) Recommend disallowal of right.
- 2) Recommend a flow rate limited to a licensed rate, if a licensed diversion is part of the system, but with additional diversion volume if the use and diversion capacity is documented to have occurred before 1963.
- 3) Recommend the right as an expansion in a critical ground water area, §42-1416B I.C., which limits the flow rate AND volume to the licensed quantity. This provision also sets the priority at 6/30/1985, regardless of development date between 1963 and 1985.

Thank you for your attention to this matter and we look forward to your quick response and documentation relating to this request. Water Resource Agents from the department may be contacting you in the near future should field work be required to finalize recommendations. Inquiries related to this diversion rate information request should be made to Scott King or Cindy Bird at (208) 327-7900. Inquiries about other aspects of your claim should be made to the Southern Region Office (208) 736-3033.

Sincerely,

Scott King
