

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A43-10109
Date Received: 4/20/1989
Receipt No: 5006913
Received By: ADR

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: COLLEEN L. BARNES
Address: NAF ROUTE 208-678-4119
MALTA, ID 83342
AND/OR
Name: DIXIE GILBERT
Address: 1909 POPLAR 509-946-4860
RICHLAND, WA 99352

2. Date of Priority: JAN 10, 1918

3. Source: SPRINGS Trib. to: SINKS

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
16S	26E	17	SE	SW	SE	R	CASSIA
		20	NW	NE	NE		CASSIA
		21	SE	NE	SE	R	CASSIA
			SW	NW	SW		CASSIA
			NW	SE	SW		CASSIA

5. Description of diverting works:
DITCHES FROM SPRINGS TO RESEVOIRS & PUMPS & DITCHES

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	04/01	11/01	1.200		
IRRIGATION STORAGE	01/01	12/31			10.00
IRRIGATION FROM STORAGE	04/01	11/01			10.00
STOCKWATER	01/01	12/31	0.040		

7. Total Quantity Appropriated is:
1.200 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 542.5 Acre Feet Per Annum.

Dear Sir-

I talked with you this morning about documents as to the date of the first water use on ~~our~~ property. and asked for an extension as I have been ill the past 2 mo's. You did grant me some extra time - but thought it best to put it in writing.. I will get this information as soon as possible..

Thank you
Respt

RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date"**.

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

RE: Snake River Basin Adjudication (SRBA)
Notices of Claim #A43-10109, A43-10110 & A43-10111
Ownership Change & Address Change

Dear Mrs. Barnes:

Thank you for sending me the ownership change form for Notice of Claim #A43-10350. I appreciate your speedy response, especially since it was during the holiday rush. When you called me on December 18, 1997, and we talked about the ownership change form and what was needed, you told me your deceased husband, Richard, had taken care of the water.

I learned only two days ago the ownership change form was unnecessary. I'm returning the ownership change form with your enclosures so you can destroy it. You already own that property; you and your co-claimant, Dixie Gilbert, filed claim #A43-10109 on it April 20, 1989.

I have enclosed for your water right file Adjudication Profile Reports of each of the water rights on which you are the co-claimant. Please note your address is out of date. Before I can change that address to your current one on Hansen Drive, I need you to sign the bottom of this letter and return the letter to me by January 16, 1998.

The numbers I have highlighted are your claim numbers. Please refer to those in any communication you might have with our department.

Mrs. Barnes, now that you are the person responsible for your water rights, I thought you might like to learn some background of the Snake River Basin Adjudication and gain a better understanding of the terms you will be hearing about on the radio and TV and reading about in your newspaper. With those goals in mind, I've also enclosed some literature for you to read.

Please remember--you may call us any time toll-free at 1/800-451-4129 if you have questions. The nearest IDWR office to

Colleen Barnes
January 8, 1998
Page 2

A43-10110
A43-10111

you is located in Twin Falls at 1/208-736-3033. Any staff member in Twin Falls can also answer your questions.

As we report water right claims to the SRBA Court in the future, you will be receiving mail from IDWR concerning your water right claims. Please give me a call if we can help you understand anything the Department sends you.

We need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water rights can be sent only to the address on your water rights or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary before returning this letter. Please return the letter by January 15, 1998. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

Sincerely,

Sally Sherman

A43-10109

RECOMMENDATION NOTES

From: Vikie Hancock

1/7/00

Regarding: Claim number A 43-10109

In analyzing the above claim based on beneficial use, the following are notes regarding priority, place of use and diversion amounts.

The priority date of 1918 as it relates to the place of use is evidenced by -

- ♦ Deed found in Cassia County Courthouse, Gustavison to William and Max Barnes, for a portion of the claimed property (in section 20) with all water rights, dated 1908. A prior deed was found for this property, Thompson to Gustavison in 1902. No early deeds were found in Barnes name for the remainder of the property, but see notes on research in file.
- ♦ Location of land licensed in 1918 is beyond land that would have been more easily developed and irrigated, indicating that the bottom land was irrigated prior to 1918.
- ♦ Statements included in the licensing file - by witness H.C. Barnes that the property had been irrigated for 15 years; by witness A.C. Newell that the property had been irrigated for 10 years; by permit holder William Barnes that the property had been irrigated for 15 years. All statements dated 1918.
- ♦ Diversion capacity, as noted below, existed for the irrigation of at least 75 acres at one inch per acre. Current practices of irrigation, locally and on this property, use much less than 1 inch per acre to achieve increased pasture yields in the meadowlands. Sprinkler irrigation is still used in the NESE Section 20, but the pump and system installed in Section 17 is no longer in use - a reduced number of acres are again being flooded, instead.
- ♦ Based upon information known at this time, I am inclined to recommend the number of acres found irrigated in 1987 as consistent with that irrigated in 1918.

The priority date as it relates to diversion rate and storage capacity is evidenced by -

- ♦ Diversion capacity noted in 1918 licensing field exam as 1.5 cfs. Claimed diversion rate of 1.2 cfs is supported by my 1999 measurement.
- ♦ Licensing field exam found two reservoirs in the N½ SW¼ Sec 21 with a capacity of 2 ac ft each. Construction noted in Affidavit of Holder

included ditches but not reservoirs, indicating the reservoirs already existed in 1918.

- ◆ There would have been no reason to mention the reservoir located in the SWSE Section 17 in the licensing field exam, so we do not know if this 3 ac ft of storage capacity did, or did not, exist at that time. Assuming the field examiner was correct in his estimation of the storage capacity of the two reservoirs then in Section 21, there was a possible storage capacity of approximately 7 ac ft in 1918. There is now only one reservoir located in the NWSW Section 21 with a capacity of 4.8 ac ft. Current storage capacity is calculated at 7.8 acre ft.

Notes: Claimant nor representative present

Field Exam of "Upper" pond & spring system 5/20/99
 "Upper" pond is to east of dwelling. It is fed by several springs which rise in the pasture to the north of Strevell Rd & to the east of the pond. The primary Spring flows into a small, well-defined creek which then flows northwesterly toward the pond. 2 more distinct springs can be seen contributing to the creek before it flows between a man-made embankment. At the embankment, all inflow to the creek has been captured. Only one diversion for irrigation occurs before the embankment and on this date, it was plugged by a canvas dam & dirt.
 Past the embankment 3 diversion points were seen which convey water to the pastureland to the north. The creek then flows into the pond. West of the pond there is a pump which reportedly sends the water from the pond to sprinkler lines. The wheel line located in the plowed ground to the east of the dwelling was not yet in operation.

NOTE - CAMERA DATE BACK INCORRECTLY SAID 5-21-99

Field Exam Notes

Claim No: A43-10109

Field Exam Date: 5-20-99
Page 2 of 2

Agent: Vikie Hancock

On the date of the field exam, water from One Mile Creek was flowing into the "upper" pond and a corresponding amount was being let out through a culvert in the west bank. This ran into the One Mile Creek channel which extends northward through the Barnes' property.

Measurement was taken east of the upper pond, at an embankment that may be the remnants of the reservoir noted in the licensing field exam for 43-02227. All water from the two large and various small springs in the pastures to the east had entered the channel at that point.

FIELD EXAM NOTES AND PHOTO LOG

Claim Nos: A43-10109

5/27/99

Name or Area of Concern: Colleen Barnes (Lower Pond)Page 1 of 1

1999

Date	Roll	Pic #	Description

		2	Planted to grain (it appears to be)
		3	CORNER SW NE SE Section 20
		4	Pond looking NW
		5	Culvert outflow from NE side of pond
		6	Pumpsite - no pump or motor
		7	Pumpsite looking toward pond embankment
		8	Culvert diversion to west side of pond
		9	
		10	Pan East to North from Ridge West of Pond
		11	
		12	Inflow to Pond

Notes: GPS Taken NEAR where creek enters pond from Southeast.

Water flowing in creek channel into pond. No spring found - perhaps covered by water in one mile creek. Site of Pump indicated on claim is now non-functioning. No pump or motor, but buried mainline seen going North into pasture. Pasture has a lot of sagebrush growing in it. Ditches convey water from pond to Northeast and north west. Northwest ditch follows contour of hump, very overgrown & not efficient conveyance. Possibly they have yet to clean ditch this year. Northeast ditch well maintained and moving water out into this side of pasture. Several checks & smaller ditches evident. There is recent work to improve roads, fences, etc. GIS Aerial photo layout circa 1987 shows 100% pasture land fairly consistent to what I found.

Field Exam Notes

Claim No: A43-10109

Field Exam Date: 5-27-99
page 2 of 2

Agent: Vikie Hancock

Measurement was taken of the east outflow of the pond, which was diverting water to fields at that time. The outflow channel to the west side of the pond had standing water in it for approximately 20 feet but no flow due to debris in the channel. Cattle were in the vicinity.

USGS quadrangle map DD81 indicates that the east ditch out of this pond is actually One Mile Creek, and the creek flows thru the pond. One Mile Creek is not listed as a source for this right, however, the spring that is a source for this right flows into One Mile Creek upstream of the pond. On the date of this exam, the spring was inundated by the water of the creek, and no measurement was possible. Unless a measurement of the actual spring flow is done at a later date, it can only be assumed that a portion of the water measured and available for irrigation was being provided by the claimed spring source.

RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

RE: Snake River Basin Adjudication (SRBA)
Notices of Claim #A43-10109, A43-10110 & A43-10111
Ownership Change & Address Change

Dear Mrs. Barnes:

Thank you for sending me the ownership change form for Notice of Claim #A43-10350. I appreciate your speedy response, especially since it was during the holiday rush. When you called me on December 18, 1997, and we talked about the ownership change form and what was needed, you told me your deceased husband, Richard, had taken care of the water.

I learned only two days ago the ownership change form was unnecessary. I'm returning the ownership change form with your enclosures so you can destroy it. You already own that property; you and your co-claimant, Dixie Gilbert, filed claim #A43-10109 on it April 20, 1989.

I have enclosed for your water right file Adjudication Profile Reports of each of the water rights on which you are the co-claimant. Please note your address is out of date. Before I can change that address to your current one on Hansen Drive, I need you to sign the bottom of this letter and return the letter to me by January 16, 1998.

The numbers I have highlighted are your claim numbers. Please refer to those in any communication you might have with our department.

Mrs. Barnes, now that you are the person responsible for your water rights, I thought you might like to learn some background of the Snake River Basin Adjudication and gain a better understanding of the terms you will be hearing about on the radio and TV and reading about in your newspaper. With those goals in mind, I've also enclosed some literature for you to read.

Please remember--you may call us any time toll-free at 1/800-451-4129 if you have questions. The nearest IDWR office to

A43-10111

you is located in Twin Falls at 1/208-736-3033. Any staff member in Twin Falls can also answer your questions.

As we report water right claims to the SRBA Court in the future, you will be receiving mail from IDWR concerning your water right claims. Please give me a call if we can help you understand anything the Department sends you.

We need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water rights can be sent only to the address on your water rights or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary before returning this letter. Please return the letter by January 15, 1998. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

Sincerely,

Sally Sherman

RECOMMENDATION NOTES

From: Vikie Hancock

1/7/00

Regarding: Claim number A 43-10109

In analyzing the above claim based on beneficial use, the following are notes regarding priority, place of use and diversion amounts.

The priority date of 1918 as it relates to the place of use is evidenced by -

- ♦ Deed found in Cassia County Courthouse, Gustavison to William and Max Barnes, for a portion of the claimed property (in section 20) with all water rights, dated 1908. A prior deed was found for this property, Thompson to Gustavison in 1902. No early deeds were found in Barnes name for the remainder of the property, but see notes on research in file.
- ♦ Location of land licensed in 1918 is beyond land that would have been more easily developed and irrigated, indicating that the bottom land was irrigated prior to 1918.
- ♦ Statements included in the licensing file - by witness H.C. Barnes that the property had been irrigated for 15 years; by witness A.C. Newell that the property had been irrigated for 10 years; by permit holder William Barnes that the property had been irrigated for 15 years. All statements dated 1918.
- ♦ Diversion capacity, as noted below, existed for the irrigation of at least 75 acres at one inch per acre. Current practices of irrigation, locally and on this property, use much less than 1 inch per acre to achieve increased pasture yields in the meadowlands. Sprinkler irrigation is still used in the NESE Section 20, but the pump and system installed in Section 17 is no longer in use - a reduced number of acres are again being flooded, instead.
- ♦ Based upon information known at this time, I am inclined to recommend the number of acres found irrigated in 1987 as consistent with that irrigated in 1918.

The priority date as it relates to diversion rate and storage capacity is evidenced by -

- ♦ Diversion capacity noted in 1918 licensing field exam as 1.5 cfs. Claimed diversion rate of 1.2 cfs is supported by my 1999 measurement.
- ♦ Licensing field exam found two reservoirs in the N½ SW¼ Sec 21 with a capacity of 2 ac ft each. Construction noted in Affidavit of Holder

included ditches but not reservoirs, indicating the reservoirs already existed in 1918.

- ◆ There would have been no reason to mention the reservoir located in the SWSE Section 17 in the licensing field exam, so we do not know if this 3 ac ft of storage capacity did, or did not, exist at that time. Assuming the field examiner was correct in his estimation of the storage capacity of the two reservoirs then in Section 21, there was a possible storage capacity of approximately 7 ac ft in 1918. There is now only one reservoir located in the NWSW Section 21 with a capacity of 4.8 ac ft. Current storage capacity is calculated at 7.8 acre ft.

Research for Priority - Beneficial Use

Notes: Claimant nor representative present.

Field Exam of "Upper" pond & spring system 5/20/99. "Upper" pond is to east of dwelling. It is fed by several springs which rise in the pasture to the north of Strevell Rd & to the east of the pond. The primary Spring flows into a small, well-defined creek which then flows northwesterly toward the pond. 2 more distinct springs can be seen contributing to the creek before it flows between a man-made embankment. At the embankment, all inflow to the creek has been captured. Only one diversion for irrigation occurs before the embankment, and on this date, it was plugged by a canvas dam & dirt. Past the embankment 3 diversion points were seen which convey water to the pastureland to the north. The creek then flows into the pond. West of the pond there is a pump which reportedly sends the water from the pond to sprinkler lines. The wheel line located in the plowed ground to the east of the dwelling was not yet in operation.

NOTE - CAMERA DATE BACK INCORRECTLY SAID 5-21-99

Field Exam Notes

Claim No: A43-10109

Field Exam Date: 5-20-99
Page 2 of 2

Agent: Vikie Hancock

On the date of the field exam, water from One Mile Creek was flowing into the "upper" pond and a corresponding amount was being let out through a culvert in the west bank. This ran into the One Mile Creek channel which extends northward through the Barnes' property.

Measurement was taken east of the upper pond, at an embankment that may be the remnants of the reservoir noted in the licensing field exam for 43-02227. All water from the two large and various small springs in the pastures to the east had entered the channel at that point.

		2	Planted to grain (it appears to be)
		3	CORNER SW NE SE Section 20
		4	Pond looking NW
		5	Culvert outflow from NE side of pond
		6	Pumpsite - no pump or motor
		7	Pumpsite looking toward pond embankment
		8	Culvert diversion to West side of pond
		9	
		10	Pan East to North from Ridge West of Pond
		11	
		12	Inflow to Pond

Notes: GPS Taken NEAR where creek enters pond from Southeast.

Water flowing in creek channel into pond. No spring found - perhaps covered by water in one mile creek. Site of Pump indicated on claim is now non-functioning. No pump or motor, but buried mainline seen going North into pasture. Pasture has a lot of sage brush growing in it. Ditches convey water from pond to Northeast and North West. Northwest ditch follows contour of hump, very overgrown & not efficient conveyance. Possibly they have yet to clean ditch this year.

Northeast ditch well maintained and moving water out into this side of pasture. Several checks & smaller ditches evident. There is recent work to improve roads, fences, etc.

GIS Aerial photo layout circa 1987 shows 100 pasture land fairly consistent to what I found.

Field Exam Notes

Claim No: A43-10109

Field Exam Date: 5-27-99
page 2 of 2

Agent: Vikie Hancock

Measurement was taken of the east outflow of the pond, which was diverting water to fields at that time. The outflow channel to the west side of the pond had standing water in it for approximately 20 feet but no flow due to debris in the channel. Cattle were in the vicinity.

USGS quadrangle map DD81 indicates that the east ditch out of this pond is actually One Mile Creek, and the creek flows thru the pond. One Mile Creek is not listed as a source for this right, however, the spring that is a source for this right flows into One Mile Creek upstream of the pond. On the date of this exam, the spring was inundated by the water of the creek, and no measurement was possible. Unless a measurement of the actual spring flow is done at a later date, it can only be assumed that a portion of the water measured and available for irrigation was being provided by the claimed spring source.

Regarding:

A43-10109

Customer:

Coleen Barnes

From: Vikie Hancock

[illegible]

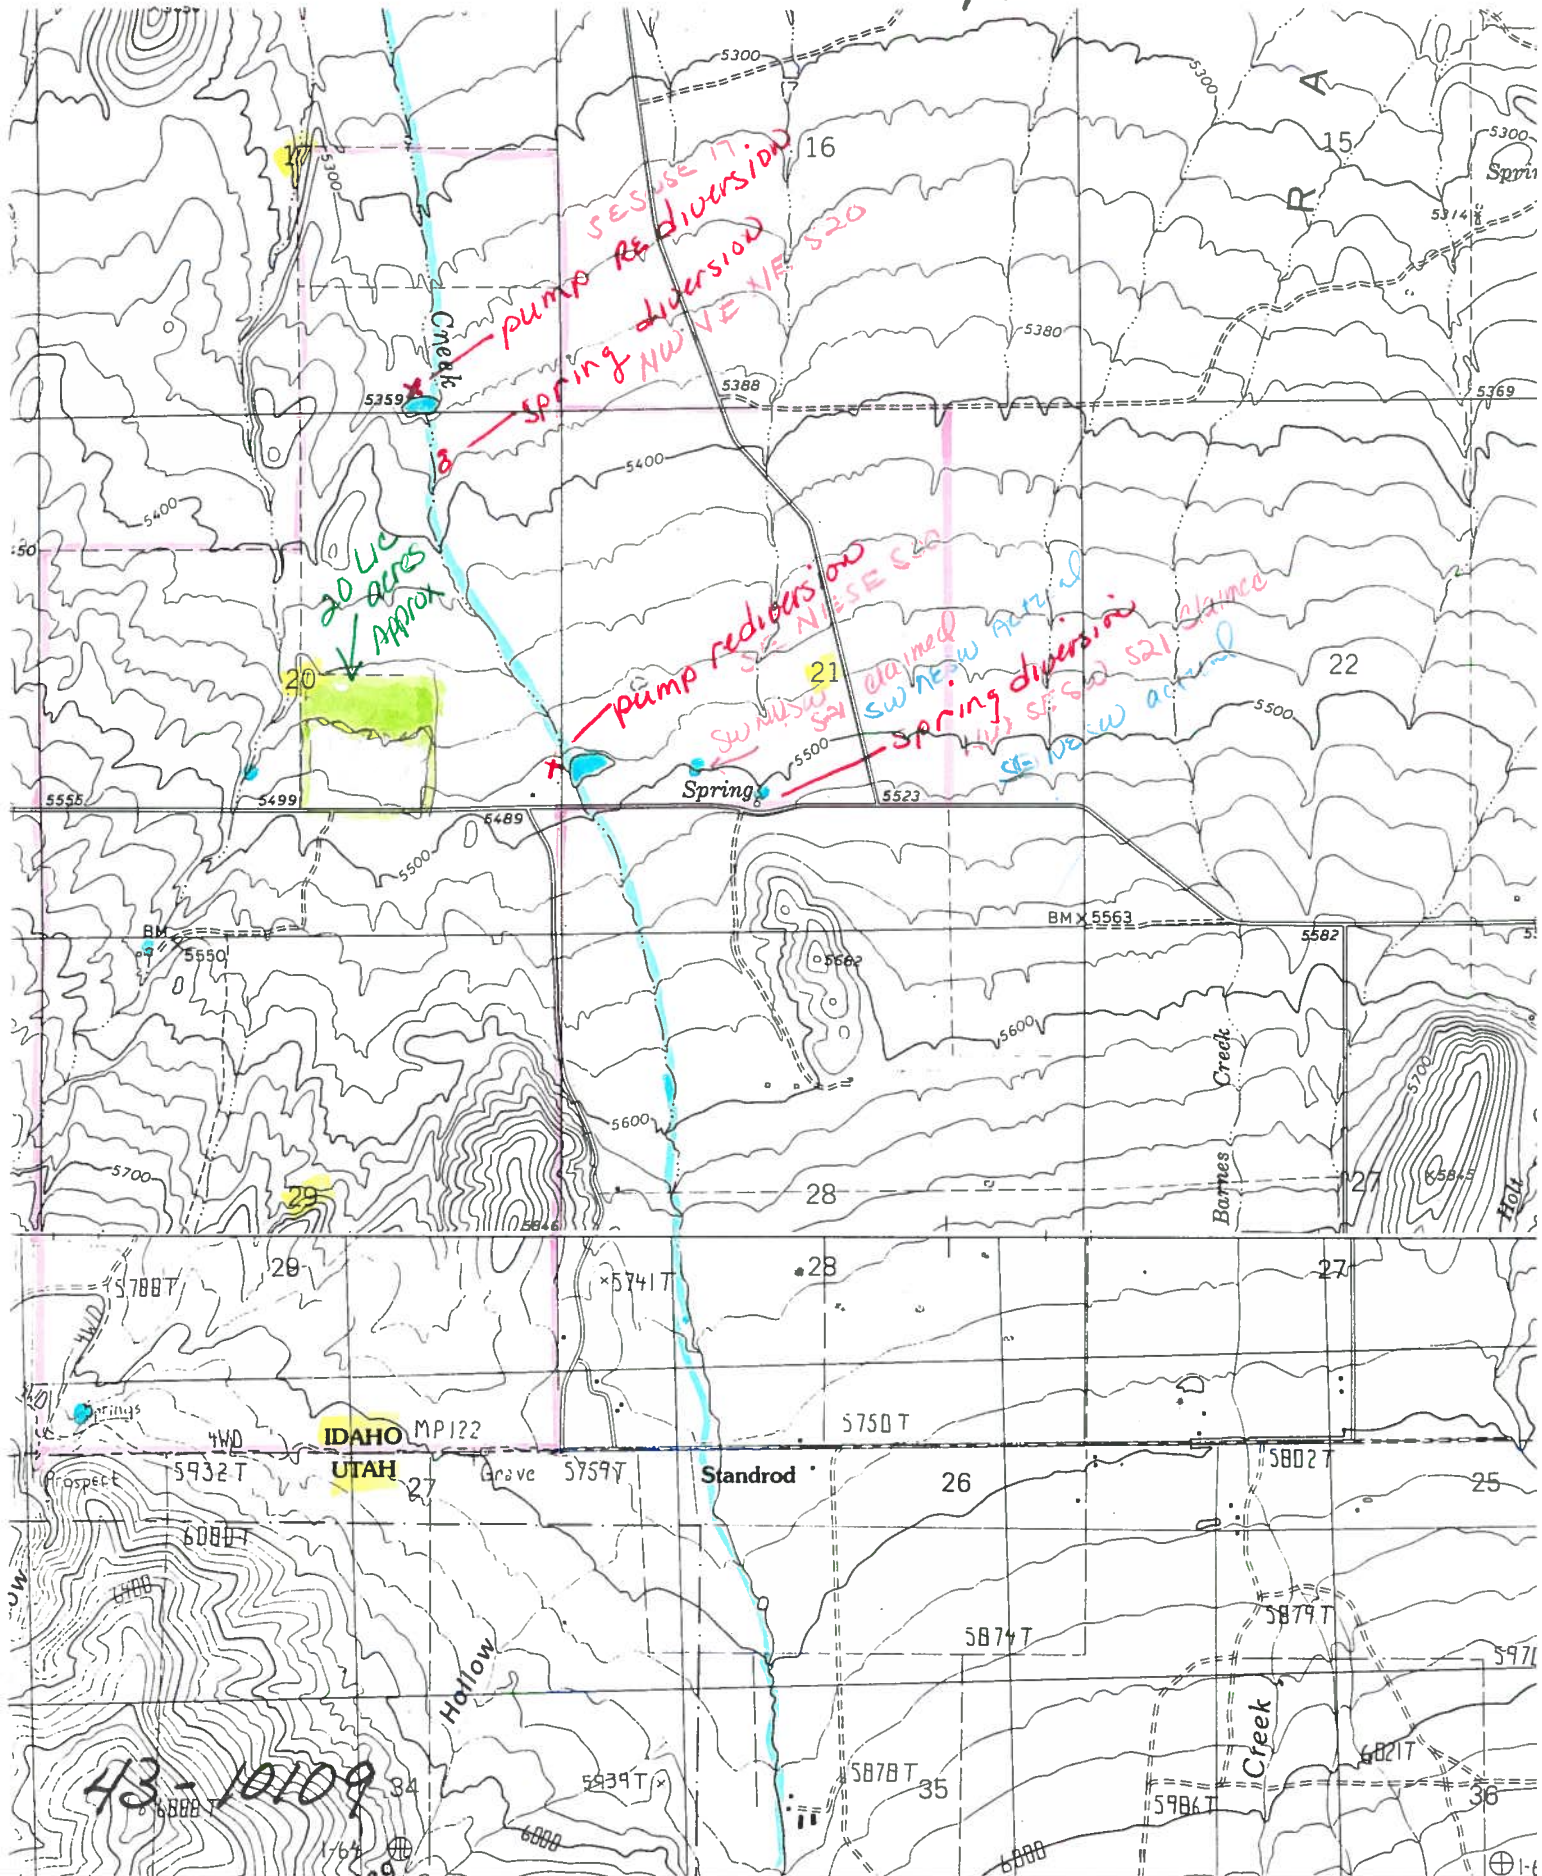

Per our phone conversation of 5-17-94,
I called Mrs Barnes to see if it
would be OK for me to do a field exam
at 10:30 Thursday. She had thought I
would be there today & had had her
brother go up to the ranch at 10:30 today.
She wasn't sure he would be able to
drive over to the ranch Thursday
but she gave me permission to examine
the irrigation works if no one was
there to meet me at 10:30 Thursday.
Apologies were expressed all around.

6-3-99

Bryce Tracy - Colleen's brother does
interesting 645-2584 Malta.

may be able to meet later in year
to show me Spring in NE NE & C20

State of Idaho License and Certificate of Water Right

Water License No. 13410

Water District No. 8-B

Amount 0.4

Priority Jan. 10, 1918

THIS IS TO CERTIFY that

William J. Barnes
of Standroo, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated January 3, 1918; that Permit No. 13410 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 0.6 second feet, was issued thereunder on July 5, 1918, showing that said works were completed on the 13th day of June, 1918; and that on the 15th day of August, 1918,

William J. Barnes

of Standroo, State of Idaho, made proof to the satisfaction of the Commissioner of Reclamation, of a right to the use of the waters of an unnamed spring, a tributary of the Standroo River, for the purpose of irrigation and domestic uses under Use Permit No. 13410 of the Commissioner of Reclamation. That said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State of Idaho and entered of record in Volume 5 of Licenses, at page 2476, on the 9th day of October, 1919.

The right hereby confirmed dates from January 10, 1918;

The Point of Diversion is located in the NE 1/4 S7 1/4 Sec. 21, Tp. 16 S., R. 26 E., B. M.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 0.4 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
16 S.	26 E.	20	NE 1/4 SE 1/4	40	20
Total acreage irrigated - - - - -					20

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, at Boise, Idaho, this 9th day of October, 1919.

Commissioner of Reclamation
Cons. Gen. of Reclamation, Standroo

(SEAL)

REPORT OF ENGINEER

In Water District No. 2

Number of acres irrigated 13410

Name of water supply 13410 - *unmanned*

Date of examination Sept. 19, 1919

1. Describe works as they exist, giving dimensions and capacities of same:

Two reservoirs - Capacity - 2 acre-ft each.
outlet pipe - 10 x 12 in. sq. - 12 ft. long.
Pipe - 2 ft. diam. - 1 ft. deep. Capacity 1.5 acre-ft.
Springs in reservoirs.

5. State whether or not water has been turned into works of diversion: *Yes*

6. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

13410 - 100.00, 10.00, 26.00, 26.00.
20,

7. Submit map on enclosed plat, showing location and details of above description.

8. How many parties conduct water in this system? *Wm J. Barnes*

9. Give names and amount of each right:

10. What large stream would the water here appropriated finally reach? *None*

11. Describe the various tributaries en route from point of diversion to the principal drainage stream

None

Remarks

This examination was made on the 19 day of Sept 1919

OFFICE OF STATE ENGINEER PROOF OF COMPLETION OF WORKS

AFFIDAVIT OF HOLDER

STATE OF IDAHO,

County of Cassia } ss.

Wm. J. Barnes

First: That he is the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 13410, and that his postoffice address is Standards State of Idaho

Second: That the name of the stream from which said water is to be diverted is a Spring N 1/2 Sec 21 Twp 16 S R 24 E 13th

Third: That the point of diversion of said water is at the Spring

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by August 8th, 1918

Fifth: That the use for which said water is intended is for agricultural purposes

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: ditcher 12 inches at bottom 24 inches at top about one mile

II. Dimensions of work:

(a) Height of dam — feet, length of dam at top — feet, length of dam at bottom — feet. Material used in construction —

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir — acre feet.

(c) Size of headgate: Width — feet, height — feet.

(d) Conduit — width at bottom — feet, width at water line — feet, depth of water — feet; diameter of pipe — inches;

(State whether ditch, flume or pipe)

average grade per mile is 10 feet. Length of conduit is — miles.

Seventh: That said works are capable of conducting to the place of intended use 16 miles second feet of water.

Eighth: That water appropriated under said permit is available for 16 acres of land described as follows: Clay soil now in alfalfa and grain

It lays in the N 1/2 & W 1/4 of the A E 1/4 of Sec 22

Ninth: Remarks: That

Wm. J. Barnes (Sign here)

Subscribed and sworn to before me this 13th day of June 1918

PERMIT NO 13410

Proof of Application of Water to Beneficial Use

DEPOSITION OF HOLDER

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. ⁴¹ William J. Barnes, 42, Standard, Idaho. Farmer, Standard, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 13410. January 3rd, 1918. Same Date.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Spring. NE4SW4, Sec. 21; T. 16 S., R. 26 E., B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Ditch 18 wide, 12 ins deep, about 90 rods long.
6. of 1 su foot.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. Land in NW4SW4, Sec. 20; Twp. 16 S., R. 26 E., B. M.
16 acres.

Cultivated.

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. One in. per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

1918-10109

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Has been used on this land for the last 15 years:

Thru ditches over the cultivated land.

All there was about 1/2 foot full.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans.

(Sign) William J. Barnes.

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Almo,

Garfield State of Idaho, on this 15th day of AUGUST

A. D. 1918.

W. H. Gamm.

943-10109

Permit No. 13410.

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. H. C. Barnes, 38, Bridge, stock raising and farming.
Bridge, Idaho.

Ques. 2. Are you acquainted with W. J. Barnes, the holder of Permit No. 13410? How long have you known him and where does he reside?

Ans. Yes, 50 yrs., Standred, Idaho.

Ques. 3. Have you read or heard read said Permit No. 13410 and are you familiar with its provisions and conditions?

Ans. Yes, Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Spring: NW4SE4, Sec. 21, Twp. 16 S., R. 26 E., S. 1 N.
Ditch 18 ins wide, 12 ins deep, 90 rods long;

Ques. 5. How many second-feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1 second foot; Ditch half full.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. NW4SE4, 16 acres;
Cultivated.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sage brush.
One inch per acre.

13410

A4B-10109

Ques. 9 Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 10 State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. He has used this water on this land every year for the last 15 years, over the cultivated lands.

(Sign) H. C. Barnes.

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Almo, County of Cassia, State of Idaho, on this 18th day of August, A. VERIFICATION REQUIRED DUE TO REMARKS?

Y

FIELD

EXAMINER

Y() N()

CLAIM REMARKS:

THE RESERVOIRS STORE WATER FROM THE SPRINGS TO BE DIVERTED BY PUMPS TO SPRINKLERS. THE CATTLE WATER FROM THE DITCHES & RES. THE RESERVOIRS ARE LOCATED IN THE SMSE S. 17 AND THE NMSW S. 21, T16S, R26E. THE REDIV. POINTS ARE THE LOCATIONS OF THE PUMPS. THIS CLAIM INCLUDES LIC. 43-2227 AS WELL AS OTHER LANDS WHICH HAVE BEEN HISTORICALLY USED ON THIS RANCH. THE PRIORITY IS BASED ON THAT OF THE LIC. 43-2227 BUT THE WATER FOR THE RANCH WAS PROBABLY USED THERE BEFORE THAT DATE BUT THE EXACT DATE IS UNKNOWN.

DIRECTIONS TO PROPERTY / NOTES:

A. AJ CLAIM: # A43-10109 PRIORITY DATE: 01-10-1918 STAGE: J

B. WR RECORD: NO WATER RIGHT RECORD TO MATCH THIS AJ CLAIM

C. CAN THE PRIORITY DATE CLAIMED BE CONFIRMED BY A DECREE OR LICENSE?

D. HAS THERE BEEN A LATER COURT DECREE OF THE WATER RIGHT(S) FROM THIS WATER SOURCE?

E. IS THERE ANY INDICATION THAT THERE HAS BEEN A FIVE YEAR PERIOD OF CONTINUOUS NONUSE?
(IF YES, DESCRIBE BELOW)

F. IF THIS CLAIM IS BASED ON A PERMIT, WHERE IS THE PERMIT IN THE LICENSING PROCESS?

PROOF OF BENEFICIAL USE SUBMITTED

FIELD EXAM COMPLETED

FIELD EXAM SENT TO STATE OFFICE

LICENSE ISSUED

* IF THE PERMIT WILL NOT BE LICENSED PRIOR TO THE DIRECTOR'S REPORT,
USE CONDITION CODE A01 AND RECOMMEND AS PERMITTED.G. IF THIS CLAIM IS BASED ON BENEFICIAL USE, IS ADDITIONAL EVIDENCE
OF THE PRIORITY DATE REQUIRED?* FOR CLAIMS BASED ON BENEFICIAL USE, DESCRIBE THE EVIDENCE OF PRIORITY SUBMITTED,
INCLUDING THE ANALYSIS OF THE EVIDENCE.

H. IS THE STAGE OF THE CLAIM CODED CORRECTLY?

A43-10350	STOCKWATER	WARD, ROSCOE B	FROM 01-01 TO 12-31	0.090 CFS	

D. ARE OTHER WATER RIGHTS USED FOR THE SAME PURPOSE?

Y() N()

* IF YES, COMPLETE OVERLAP REVIEW:

OTHER RIGHTS LISTED IN CLAIM: NONE

E. IS THE CLAIMED POU THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N()

* IF NO, AND IF THE CHANGE IS VERIFIED AS AN ACCOMPLISHED CHANGE IN POU, DESCRIBE THE INJURY ANALYSIS PERFORMED AND ENTER FLAG "C" WITH THE APPROPRIATE EXPLANATORY CODE.

F. CAN THE CLAIMED POU BE VERIFIED USING THE WATER RIGHT FILE AND AVAILABLE AERIAL PHOTOS?

N/A() Y() N()

G. SHOULD THE CLAIMED POU BE VERIFIED BY FIELD EXAM?

Y() N()

H. IS THERE ANY INDICATION THAT THERE HAS BEEN A FIVE YEAR PERIOD OF CONTINUOUS NONUSE OF THIS RIGHT, OR ANY PORTION OF THIS RIGHT?

Y() N()

A. ALL CLAIMED USES:

PURPOSE OF USE	PERIOD OF USE (MONTH/DAY)	DIV. RATE FOR EACH USE	DIV. VOL. FOR EACH USE
A43-10109 IRRIGATION	FROM 04-01 TO 11-01	1.200 CFS	
A43-10109 IRRIGATION STORAGE	FROM 01-01 TO 12-31		10.00 AF/A
A43-10109 IRRIGATION FROM STORAGE	FROM 04-01 TO 11-01		
A43-10109 STOCKWATER	FROM 01-01 TO 12-31	0.040 CFS	10.00 AF/A
TOTAL DIVERSION RATE/VOLUME		1.200 CFS	

B. WR RECORDED USES:

PURPOSE OF USE	PERIOD OF USE (MONTH/DAY)	DIV. RATE FOR EACH USE	DIV. VOL. FOR EACH USE
----------------	---------------------------	------------------------	------------------------

C. DOES THE CLAIMED PURPOSE OF USE CORRECTLY DESCRIBE THE WATER USE?

Y() N()

D. IS THE CLAIMED PURPOSE OF USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N()

* IF NO, AND IF THE ACTUAL WATER USE IS VERIFIED AS AN ACCOMPLISHED CHANGE IN PURPOSE OF USE, DESCRIBE THE INJURY ANALYSIS PERFORMED AND ENTER FLAG "C" WITH THE APPROPRIATE EXPLANATORY CODE.

E. SHOULD THE CLAIMED PURPOSE OF USE BE VERIFIED BY FIELD EXAM?

Y() N()

F. DOES THE CLAIMED PERIOD OF USE CONFORM TO IDWR STANDARDS?

Y() N()

G. SHOULD THE PERIOD OF USE BE RECOMMENDED TO IDWR STANDARDS?

Y() N()

* IF THE RECOMMENDED PERIOD OF USE IS DIFFERENT THAN IDWR STANDARDS, EXPLAIN IN NOTES BELOW.

H. IS THE CLAIMED DIVERSION RATE FOR EACH USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N()

* IF NO, DESCRIBE IN NOTES BELOW HOW THE RECOMMENDED DIVERSION RATE FOR EACH USE WAS DETERMINED.

I. SHOULD THE CLAIMED DIVERSION RATE FOR EACH USE BE VERIFIED BY FIELD EXAM?

N/A() Y() N()

J. IS THE CLAIMED DIVERSION VOLUME FOR EACH USE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N()

* IF NO, DESCRIBE IN NOTES BELOW HOW THE RECOMMENDED DIVERSION VOLUME FOR EACH USE WAS DETERMINED.

K. SHOULD THE CLAIMED DIVERSION VOLUME FOR EACH USE BE VERIFIED BY FIELD EXAM?

N/A() Y() N()

NOTES:

AJ CLAIM TOTAL DIVERSION RATE: 1.200 CFS
 WR ROOT RIGHT TOTAL DIVERSION RATE: CFS

A. IS THE CLAIMED TOTAL DIVERSION RATE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE? N/A() Y() N()

B. CAN THE CLAIMED TOTAL DIVERSION RATE BE VERIFIED USING THE WATER RIGHT FILE? N/A() Y() N()

* ALL CLAIMS BASED ON BENEFICIAL USE (INCLUDING POSTED NOTICES AND STATUTORY CLAIMS) REQUIRE A FLOW MEASUREMENT.

C. IS THERE ANY INDICATION THAT THERE HAS BEEN A FIVE YEAR PERIOD OF CONTINUOUS NONUSE OF THIS RIGHT, OR ANY PORTION OF THE DIVERSION RATE? Y() N()

* IF AN AMOUNT SMALLER THAN THE ORIGINAL DIVERSION RATE IS CLAIMED AND A FIELD EXAM IS NOT REQUIRED, EXPLAIN IN NOTES.

D. SHOULD THE CLAIMED DIVERSION RATE BE VERIFIED BY FIELD EXAM? Y() N()

E. FLOW MEASUREMENT

MEASUREMENT METHOD _____, SEE ATTACHED CALCULATIONS.

F. RATE/VOLUME CALCULATIONS: (IRRIGATION)

1a. IRRIGATION RATE
 ACRES _____ x 0.02 CFS/ACRE = _____ CFS
 (Taken from pou review)

1b. CALCULATIONS

IS A DIVERSION RATE PER ACRE GREATER THAN 0.02 CFS/ACRE CLAIMED? Y() N()
 IF YES, IS AN ADDITIONAL WATER USE FORM FILED AND ATTACHED? Y() N()

2. IRRIGATION DIVERSION VOLUME

CLAIMED DIVERSION VOLUME = _____ AF/A

ACRES _____ x DIVERSION VOL. AF/A FOR AREA _____ =

TOTAL DIVERSION VOLUME _____ AF/A

3. IRRIGATION CONSUMPTIVE USE

CLAIMED CONSUMPTIVE USE = 542.5 AF/A

ACRES _____ x CONSUMPTIVE VOL. AF/A FOR AREA _____ =

TOTAL CONSUMPTIVE USE _____ AF/A

4. CALCULATIONS FOR USES OTHER THAN IRRIGATION: SEE BELOW () OR SEE ATTACHMENT ()
