NOTE: The fees for these rights were computed by Don Shaff subtracting the fees previously paid in the Snake & Adjudication. The fees previously paid for each right were: 02-00029 - \$1,212, 02-00203 - \$10, 02-02034 - \$10, 51-02250E - \$10, & 51-02250F - \$10, for a total of \$1,252. The fee now due in the SRBA is \$6,863 for the no. of acres plus \$50 per claim - 250 = 2,113. If you subtract the previously paid fees - 1,252 = \$5,861 left to pay - this receipt covers this.

MEMO

TO: 02-2034
FROM: Don Shaff 
DATED: 10-18-84
SUBJ: Review analysis

This claimed water right wasn't^{el} originally diverted via a pump downstream from the present C.J. Strike Dam. With the events connected with the construction of the dam, this water right was moved upstream to the reservoir pool at C.J. Strike Dam. The diversion of the water can now be commingled early in the irrigation season with water in the reservoir pool from the Bruneau River. The district also claimed a water right decreed in an earlier Bruneau River lawsuit that is now represented by 02-0203. This water right, 02-2034, has been conditioned to limit the diversion when these two water rights are combined to 150 cfs. The diversion could be greater provided 02-0029 can be exercised.

The place of use is reduced from that claimed. This situation is described in 02-0203.

WICHORIGNED

April 3, 1981

Kay Garsja, Secretary
Grand View Irrigation District
P.O. Box 9
Grand View, Idaho 83624

Dear Kay:

Pouring through the records has turned up several water rights for the District to claim in the adjudication. The claims, totaling 190.41 cfs or 9520.5 miner's inches for 6863 claims acres, are enclosed with the accompanying land list.

I'm certain the directors will want to review the claims before submitting them. If any of the directors have questions, we will be back down to your office on April 15, 15 or 16 to meet with the other two companies. (We call you soon to let you know which day.) I'm sure we can squeeze all three companies into one day.

The claims identified by the 02-prefix are Snake River rights. Those with a 51-prefix are the old Bruneau River rights moved down to the dam. Evidently, the Bruneau permit was for 240 cfs, but it was developed into a license of only 134.71 cfs for irrigation. The old Grand View Extension Irrigation Company held 7.0 cfs of that for irrigation and another 27.0 cfs for power generation. The District now, I believe, could claim 127.71 cfs of the total license for irrigation.

If the directors should decide the claims look satisfactory, the claims could be returned to us after you or one of the directors signs them having the signature notarized and submitting the \$50.00 filing fee, \$10.00 per claim.

Thank you for your help. See you in the near future.

Sincerely,

DONALD V. SHAFF

Dear Bill,

I am forwarding copies of the claims Grand View Irrigation District has filed for the Snake River Adjudication. Although a land list is attached to each claim, the land lists are identical.

On April 15, the description of the lands for Snake River Irrigation District and the Grand View Mutual Canal Company were presented to the respective directors for their use in filing claims. The directors of Snake River Irrigation District agreed to file claims on two or three water licenses that are appurtenant to lands within the district. They chose to delay claiming any beneficial use rights until further research of their rights is accomplished. The Mutual also wishes to delay filing their claims for the same reason. At first glance, I would surmise the Mutual has two water rights. The first would be for about 50 cfs with a 1947 priority date; the second for about 25 cfs dating from 1952.

When your calendar comes up on these companies, I will be happy to send you the land lists for the Mutual and Snake River. I will keep you advised of any work we do with your clients in the interim.

Sincerely,

DONALD V. SHAFF
