

03/15/2006

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 2-2033

NAME AND ADDRESS: INDIAN COVE IRRIGATION DIST
27186 JOE BLACK RD
HAMMETT ID 83627

SOURCE: SNAKE RIVER

TRIBUTARY: COLUMBIA RIVER

QUANTITY: 25.500 CFS

The quantity of water under this right for stockwater use shall not exceed 13,000 gallons per day.

PRIORITY DATE: 11/14/1919

POINT OF DIVERSION:

T06S R08E S6 NWNW Lot 4 Within OWYHEE County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION	3/15 11/15	25.500 CFS
STOCKWATER	1/01 12/31	0.020 CFS

PLACE OF USE:

1149 ACRES TOTAL

Place of use is within the service area of Indian Cove Irrigation District.

The rights listed below are limited to the irrigation of a combined total of 1,149 acres in a single irrigation season. Combined Right Nos.: 2-83, 2-2033.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

12/16/81

TO: 02-2050

FROM: D. SHAFF

SUBJ: FORFEITURE

THIS LICENSE WAS UNDER THE OLD INDIAN COVE HIGHLINE CANAL WHICH IS NO LONGER USED. AS OF THIS DATE NO CLAIM HAS BEEN FILED FOR THIS RIGHT, AND NO RECORD OF A TRANSFER HAS BEEN FOUND.

INDIAN COVE IRRIGATION DISTRICT FILED A B/U RIGHT CLAIM FOR THE BALANCE OF THE LAND & WATER NOT COVERED BY 02-2033. THE WATER FOR 02-2050 MAY HAVE BEEN TRANSFERRED PRIOR TO 1969, BUT BECAUSE OF 02-0083, NO MENTION HAS BEEN MADE OF IT. THE WATER RIGHT REPRESENTED BY THIS LICENSE HAS BEEN APPARENTLY FORFEITED (SEE INDIAN COVE DQ-1974) THROUGH MORE THAN FIVE YEARS OF NON-USE. THE PROPOSED FINDING TO THE DISTRICT COURT SHOULD REFLECT SUCH A CONCLUSION.

SEE FILES 51-07154 AND 51-12809 FOR PERMISSIBLE PLACE OF USE

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: **A02-02033**

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Irrigation purposes from 3/15 to 11/15 amount 25.5 or 6375

For Stock water purposes from 1/1 to 12/31 amount .02 or 14

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 25.5 (cfs) and/or (b) 6375 (acre feet)

8. Total consumptive use claimed is 4022 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) Stockwater for 1,000 head of cattle, 50 head of horses

10. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4

REPORT OF ENGINEER

POOR ORIGINAL

Permit No. 14152

This proof is for Beneficial UseIn Water District No. 591. Name of applicant: Indian Cove Irrigation District2. Source of water supply: Snake River3. Location of point of diversion: at the S.W. Cor. of Lot 4 of Section 6T. 6 S. R. 8 E.B.M. County of Owyhee4. Describe works as they exist, giving dimensions and capacities of same Pumping station

1. piped with 2 14" Cameron 3-10" through centrifugal direct connected pumps & Westinghouse motor 575 rated HP 4 1/2 Motor of 150 H.P. Phase 125 H.V. transformer, 3 mile power line and all necessary equipment 2 pipe line of total length 2000 ft 36" wad steel 640 ft 24" steel flume 3/4 about 14 miles of ditches

5. Water is used for: Irrigation6. State whether or not water has been turned into works of diversion: yes

List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): NE 1/4, SE 1/4, SW 1/4, Sec. 34, T. 5 S., R. 7 E.; NW 1/4, SW 1/4, Sec. 6, T. 6 S., R. 8 E.; NW 1/4, SW 1/4, Sec. 7, T. 6 S., R. 8 E.; SW 1/4, SE 1/4, Sec. 1, SW 1/4, NW 1/4 & SE 1/4 & SW 1/4, & SE 1/4, Sec. 2; all Sec. 3; NE 1/4, NE 1/4, Sec. 10; NE 1/4, NW 1/4, NE 1/4, NE 1/4, Sec. 11; All Sec. 12; NE 1/4, NW 1/4, NE 1/4, Sec. 15, T. 6 S., R. 7 E., B.M.

Area under cultivation to date about 1275 acres

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Columbia

Remarks: Since this system consists of about 2000 acres of which approximately 500 are served by a lift of 50 ft. the remainder by the high level of local elevation above the river

(Signed)

Examiner

State of Idaho License and Certificate of Water Right

Water License No. 14452
Water District No. _____

Amount 25.0 Second Feet
Priority Nov. 13, 1918

THIS IS TO CERTIFY that ADRIAN COVE IRRIGATION DISTRICT of Hammett, Idaho made application for a permit to appropriate the public waters of the State of Idaho, dated November 14, 1918, that Permit No. 14452 was issued under said application, that Certificate of Completion of work, with a carrying capacity of 72 second feet, was issued thereunder on January 4, 1923, showing that said works were completed on the 28th day of November, 1921, and that on the 29th day of November, 1924.

ADRIAN COVE IRRIGATION DISTRICT

of Hammett, State of Idaho, made proof to the satisfaction of the Commissioner of Reclamation of Idaho, of the right to use the waters of Snake River, a tributary of Galena River, for the purpose of irrigation, and a certificate was issued under Permits No. 14452 of the Department of Reclamation, and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 17 of Licenses, at page 4235, on the 19th day of January, 1925.

The right hereby confirmed dates from November 14, 1918.

The Point of Diversion is located in the Southwest corner of Lot 4, Range 16, T. 4 S., R. 8 E., E. 1/4, Section 36.

That the amount of water to which such right is entitled and hereby confirmed, for the purpose aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 25 cubic feet per second.

Description and location of use:

Indian Cove Irrigation District
Segert Johnson
HC 33 Box 35
Hammett, ID 83627

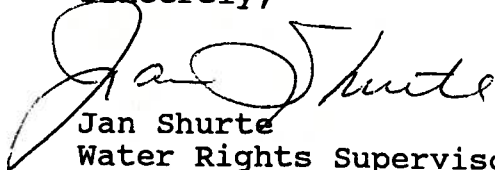

Dear Mr. Johnson:

Enclosed are two copies each of the irrigation district's Notices of Claim to a Water Right as referenced above. One copy is for your signature and one copy is for you to keep for the district's records.

These claims were completed based on Sherl Chapman's drafts which were completed during the Owyhee County claims filing in 1989. We have been unable to locate any original signed claims, however, the fees for these claims were paid timely and once the signed claims are returned, our records will be complete.

If you have any questions concerning the content of these claims, please feel free to contact me.

Sincerely,

Jan Shurte
Water Rights Supervisor

08/01/1989

DEAR SHERL:

ENCLOSED ARE CLAIMS NUMBERED A02-00083 AND A02-02033.

A02-00083 LISTS 1149 ACRES OF IRRIGATED LANDS AND A DIVERSION RATE OF 8.07 CFS BASED ON BENEFICIAL USE. THIS DEPARTMENT HAS ON RECORD A NOTICE OF CLAIM DATED 11/19/1981 (COPY ENCLOSED) LISTING 1,495.15 ACRES AS BEING IRRIGATED WITH A TOTAL DIVERSION RATE OF 19.35 CFS CLAIMED. A SUBSEQUENT REVIEW BY THIS DEPARTMENT ON 08/23/1984 FOUND 1028 ACRES IRRIGATED AS OF 1974, USING ORTHOPHOTOQUAD MAPS.

A FIELD EXAM OF THE IRRIGATION SYSTEM ON 04/21/1983 FOUND THE TOTAL DIVERSION CAPACITY AT 32.77 CFS.

DEPARTMENT STAFF HAD EARLIER DETERMINED THAT A DIVERSION RATE OF 0.03 CFS WAS NECESSARY TO DELIVER SUFFICIENT WATER TO THE LANDS WITHIN THE DISTRICT. THUS 1028 ACRES TIMES 0.03 CFS/ACRE = 30.84 CFS

LICENSE 02-02033 WAS ISSUED FOR 25.5 CFS, LEAVING 5.34 CFS AS BEING RECOMMENDED FOR THE 11/19/1981 CLAIM (02-00083). 25.5 CFS PLUS 5.34 CFS = 30.84 CFS.

PROBLEM: IF THE 1028 ACRES THAT WAS FOUND TO BE IRRIGATED IN 1974 HAVE BEEN EXPANDED TO THE PRESENT 1149 ACRES AS CLAIMED IN THE RETURNED SNAKE RIVER BASIN ADJUDICATION CLAIM- A02-00083, THEN IT WOULD BE ADVISABLE FOR THE DISTRICT TO SUBMIT AN APPLICATION FOR PERMIT FOR THE EXPANDED ACREAGE (121 ACRES) IN ADDITION TO A02-00083 FOR 5.34 CFS. IF THE TOTAL CAPACITY OF THE DISTRICTS DIVERSION SYSTEM NOW EXCEEDS 32.77 CFS, THE ADDITIONAL AMOUNT COULD ALSO BE MADE IN THE APPLICATION FOR PERMIT.

A02-02033 ALSO LISTS 1149 ACRES AS BEING IRRIGATED AND IS BASED ON A LICENSE ISSUED BY THE STATE RECLAMATION ENGINEER ON 01/19/1945. THE REPORT OF THE ENGINEER ON 11/01/1924 LISTED APPROXIMATELY 1275 ACRES UNDER CULTIVATION, HOWEVER THE ORTHOPHOTOQUAD MAP SHOWED 1028 ACRES UNDER CULTIVATION IN 1974.

MICROFILMED

AUG 10 1994

PROBLEM: IT IS PROBABLE THAT THERE HAS BEEN AN EXPANSION OF ACTUAL ACRES IRRIGATED BETWEEN 1974 AND THE PRESENT TIME OF APPROXIMATELY 121 ACRES. AGAIN, IT WOULD BE ADVISABLE TO FILE FOR THIS EXPANSION IN A APPLICATION FOR PERMIT.

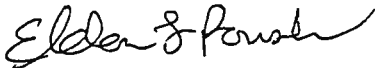

ONE APPLICATION FOR PERMIT WOULD SUFFICE TO COVER THE ADDITIONAL 121 ACRES OF IRRIGATION AND THE ADDITIONAL DIVERSION RATE NEEDED TO PROPERLY IRRIGATE 1149 ACRES.

IT APPEARS THAT THE ONLY LIMITING FACTOR WILL BE THE CAPACITY OF THE PUMPS AND AVAILABILITY OF WATER FOR APPROPRIATION.

ENCLOSED ARE BLANK NOTICE OF CLAIMS AND A APPLICATION FOR PERMIT FOR YOUR USE IF YOU DECIDE TO REFILE. IF YOU DO NOT WISH TO REFILE, RETURN THE CLAIMS WITH A LETTER SO STATING.

IF YOU HAVE ANY QUESTIONS OR NEED CLARIFICATION, FEEL FREE TO CONTACT THIS AGENT.

SINCERELY,

ELDON L. ROUSH
SENIOR WATER RESOURCE AGENT

Re: Review Analysis

Date: 8/22/84

In the past the Department has reviewed the soil and climatic conditions in the Indian Cove area for licensing water rights for West Indian Cove Irrigation Co. (West Indian Cove). As late as 1975 the staff of the Department determined a diversion requirement of .03 cfs per acre was necessary to deliver sufficient water to the lands of West Indian Cove via a gravity system of canals and ditches. With the same conditions existing for Indian Cove Irrigation District (District), a total diversion requirement of .03 cfs per acre would be appropriate for the lands in the District also.

The lands irrigated by the District have diminished from the time the District was organized. Originally the District canal extended eastwardly across to the lands of what is now West Indian Cove, which has its separate delivery system. The District may contain 1,495 acres within its boundary, but the 1974 orthophotoquads show only 1,028 acres irrigated. The history provided by the District with its claim supporting the expansion of its diversion capacity would seem adequate to recommend the priority date claimed for 02-0083.

Recommending the water right for 02-2033 presents very little problem due to the supporting basis of the license. The number of irrigated acres is reduced to 1,028 as cited above. The diversion rate and priority date are the same as those appearing on the license.

The water right recommended for 02-0083 acknowledges only an expansion of the diversion rate and not an enlargement of the irrigated area. At (1,028 acres X .03 cfs/acre) - 25.5 cfs, the amount recommended for 02-0083 is 5.34 cfs. Part of discrepancy in place of use is the private use of 02-2402 on lands that ~~were~~ ^{may have been} ~~once irrigated by~~ District water. This land in the NESE Sec. 2 and N1/2SW Sec. 1 are in part or whole irrigated by this private diversion from the Snake River. Any remaining irrigated land in the tracts has been recommended as the District's water rights.

License and Certificate of Water Right

Water License No. 14452
Water District No.

Amount 25.5 second feet
Priority Nov. 14, 1919

THIS IS TO CERTIFY that INDIAN COVE IRRIGATION DISTRICT
of Hammett, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated November 14, 1919; that Permit No. 14452
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
72 second feet, was issued thereunder on January 4, 1923, showing that said works
were completed on the 28th day of November, 1921; and that on the 29th
day of November, 1924,

INDIAN COVE IRRIGATION DISTRICT

of Hammett, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Snake River
, a tributary of Columbia River, for the purpose of irrigation and
domestic use, under Use Permit No. 14452 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7
of Licenses, at page 4238, on the 19th day of January, 1945;

The right hereby confirmed dates from November 14, 1919;

The Point of Diversion is located in the Southwest corner of Lot 4
in the 14 14 Sec. 6, Tp. 6 S., R. 6 E., B. M. Gwyhee County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 25.3
cubic feet per second.

Description and location of use:

(SEAL)

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

MEMORANDUM

Mr. Mark A. Ealy
State Reclamation Engineer

Subject Indian Gove Pumping Plants

File Records - Nos. 14452 and 19457

In compliance with your request, I left Boise on September 19th in company with Mr. J. W. Bouten for the Indian Gove Project on Snake River for the purpose of measuring the discharge of the various pumps on the project. The results are as follows:

Measurement No. 1 - High line ditch, with one pump in operation, old pump, 65 foot lift, 30" pipe line, discharge 11.89 c.f.s.

Measurement No. 2 - One pump in operation, Pumps Pump, 10" - 100 H. P. motor, 65 foot lift, in same pipe line as above, with old pump shut off, discharge 6.55 c.f.s.

Measurement No. 3 - High line ditch same as above, old pump and new pump pumping into same pipe line, 2 pumps in operation, discharge 17.40 c.f.s.

Measurement No. 4 - Low line ditch, 50 foot lift, one pump in operation, discharge 15.21 c.f.s.

Measurement No. 5 - Private pump - Green, Frank Wilson, located approximately two miles down from head of ditch pumping from High line canal, Pumps Pump 10" - 100 H. P. motor, 50 foot lift, discharge 2.35 c.f.s.

Measurement No. 6 - Private pump - Green, Mr. Miller, located about 3/4 mile from head of ditch, pumping out of High line canal, lift 35', 6" Pumps Pump 5 H. P. motor, 5' weir, discharge 1.18 c.f.s.

[Signature]
Superintendent of Water Distribution.

Re: Tender of payment of fees for
License on Permit No. 14452-
Indian Cove Irrigation District

Dear Sir:

We have your letter of January 10, 1945, whereby it appears that on or about March 21, 1925, proof of beneficial use, under Permit # 14452, was submitted by Indian Cove Irrigation District and approved by the then Commissioner of Reclamation. However, the fee of the Department of Reclamation, amounting to the sum of \$92.00 was not paid and, consequently, license has never been issued.

It now appears that the Irrigation District has tendered to you the sum of \$92.00 in payment of said fee and you ask the following specific questions: (1) Can the Department of Reclamation accept the \$92.00 and issue license, waiving interest? (2) If the interest cannot be waived, has the Department of Reclamation authority to adjust the interest payment to an amount that seems reasonable, or must the statutory interest rate apply?

Please be advised that Section 26-1904, Idaho Code Annotated, as amended by Chapter 187, Session Laws of 1933, defines legal rate of interest as follows:

"When there is no express contract in writing fixing a different rate of interest, interest is allowed at the rate of six cents on the hundred by the year on:

1. -----
2. Money after the same becomes due.
3. -----

By the provisions of said section, interest would ordinarily accrue on the amount due the State from the Irrigation District at the rate of 7% from the 21st day of March, 1925, to the 13th day of March, 1933, and at 6% from the 13th day of March, 1933, to date.

14452

-2-

In my opinion, the Government would have no legal right to waive interest on such an account under ordinary circumstances. However, because of the great lapse of time since this money became due, and apparently there has been no real effort to collect the same or interest thereon, the right to collect interest has probably been barred under the equitable rule of laches.

"Laches may operate to defeat the right to recover interest. Where interest is claimed as damages and not by reason of any contract therefore, it will not be allowed if the delay in the payment of the principal debt is the result of the neglect of the creditor to demand and enforce such payment". 33 C.J. 190

In the case of the United States vs. John D. Sanborn, 34 L.Ed.112, the Supreme Court of the United States had under consideration a claim of the United States against Sanborn, which apparently was about 15 years old, and there had never been any demand for interest on the account, the Court said:

"But we are of the opinion that the court below erred in allowing interest for any time prior to the institution of this action. More than ten years elapsed after the payment to Sanborn before his right to retain the money was questioned by suit or otherwise. When the facts disclosed by the evidence were first discovered by the officers of the government whose duty it was to institute legal proceedings against the defendant, does not appear. It is entirely consistent with the record that the long delay which occurred is without excuse. In Redfield v. Italyfera Iron Co., 110 U.S. 174 (28:109), the question was whether the plaintiff was entitled, under the circumstances of that case, to recover interest, the action being against a collector to recover damages for an illegal exaction of custom dues. The court, after observing that interest is recoverable as of right, when reserved expressly in the contract, or when implied by the nature of the promise, said, 'But where interest is recoverable not as a part of the contract, but by way of damages, if the plaintiff has been guilty of laches in unreasonably delaying the prosecution of his claim, it may be properly withheld.' We think that the same rule should be applied against the government when in a case like this present one it has long delayed an ascertainment of its rights, without showing some reason or excuse for the delay, especially when it does not appear that the defendant has earned interest upon the money improperly received by him."

14452

POOR ORIGINAL

-3-

Applying the doctrine of laches to this transaction, I am of the opinion that your Department should accept the \$92.00 and issue a license without demanding interest, and this, of course, disposes of your second interrogatory also.

Yours very truly,

FRANK LANGLEY
Attorney General

Re: Order of payment of fees for
license on Permit No. 14452.
Indian Cove Irrigation District

Dear Sir:

On November 14, 1923, Permit No. 14452 was issued to Indian Cove Irrigation District to appropriate public waters of the Snake River for the irrigation of 2021.50 acres of land through an existing pumping plant and distribution system.

Proof of completion of works was made on November 12, 1924, and certificate issued.

Beneficial use proof was made on November 13, 1924, and the field examination shows 2500 acres had been irrigated.

After some correspondence concerning pending legislation, the following letter was written to the attorneys for the irrigation district.

March 21, 1925

Re: Permit No. 14452-Indian Cove Irrigation District

Messrs. Oppenheim & Langport,
Attorneys at Law,
Idaho Building,
Boise, Idaho

Attention: Mr. M. V. Oppenheim

Gentlemen:

Referring to the proof of beneficial use of water under the above numbered permit would state that, upon receipt of fees in the sum of \$22.00, license will be issued in accordance with the provisions of Senate Bill No. 53, Session Laws of 1923.

Very truly yours,

E. C. SHEDDEN
Commissioner of Reclamation
By

Chief Clerk

14452

Mr. Frank Langley
 Attorney General
 January 10, 1948
 Page 2

Today the Millman Cove Irrigation District tenders their check for \$50.00

Opinions are requested on:

1. Can the Department of Reclamation accept the \$50.00 and issue license, waiving interest?
2. If the interest cannot be waived, has the Department of Reclamation authority to adjust the interest payment to an amount that seems reasonable, or must the statutory interest rate apply?

Very truly yours,

MARK E. KILP
 State Reclamation Engineer

RECEIVED

lying within said district are residents therein, save and except these certain tracts of land belonging to the State of Idaho and The First Security Bank of Idaho, Boise Branch; further, that he knows the postoffice address of each of said owners and that the notices attached hereto and made a part of this affidavit were directed to each of said owners at his true and correct post office address.

Nornton T. Hitt.

Subscribed and sworn to before me this 13th day of August, 1936;

A. P. Anderson
Notary Public for Idaho.
Residing at Lib. Home, Ida

The Board thereupon proceeded to a consideration of each tract of land within the district and the benefit that it could receive from said refunding bond issue.

No protests or objections being made thereto the following resolution was offered, seconded and passed unanimously by the Board.

RESOLUTION

Be it resolved by the Board of Directors of the Indian Cove Irrigation District that the Board hereby determines that the benefits which will accrue to each and every acre of irrigable land from the issuance of refunding bonds in the aggregate amount of \$19,000.00, recently authorized by resolution of this Board, is the same, and the said benefit is hereby fixed at \$18.90 per acre.

The Board hereby adopts the following list and apportionment of benefits under said bond issue.

INDIAN GOV. IRRIGATION DISTRICT

LOCATION

The Indian Gov. Irrigation District is located in Owyhee County, Idaho, on the South side of Snake River. It is five miles from the town of Hammett which is on the Oregon Short Line railroad and connected by a very fair road with a bridge over Snake River that was constructed by the state in 1928.

PRESENT AREA.

The ¹⁹²⁰ present bond issue is spread over 2913 acres, but it is contemplated that under the settlement with the bondholders that the district will be cut down to approximately 1700 acres.

HISTORY.

The district was initially organized in the year 1912 and was reduced in 1919 to its present limits. In 1920 the present issue of bonds, amounting to \$150,000.00 was issued.

PRESENT FINANCIAL STATUS OF DISTRICT.

Assets as of January 7, 1930

| | |
|--------------|------------------|
| Cash on hand | \$ 40.00 |
| Equipment | 2250.00 |

| Repair pumps and motor | 400.00 | |
| Officers salaries | 590.00 | |
| Pump operator | 606.45 | |
| Misc. Expense | 200.00 | |
| | <u>\$8825.00</u> | <u>\$8825.00</u> |

During the year 1929, 1103 acres paid water assessments in advance at the assessed rate of \$8.00 an acre. This payment was made in the spring before the water was turned on and it is now estimated that the same payments will be made in the spring of 1930.

During the year 1929 several changes were made in the pumping and distributing systems because of excess costs resulting from the old 100 foot ditch by reason of seepage and excessive power requirements for this lift. The following schedule shows the 1928 operation of the 50 and 100 foot ditches.

Cost of pumping water for irrigation and the amount of water delivered at the head of each canal of the Indian Cove Irrigation District for the year 1928. Operation each season was 140 days.

1928

| | Horse power demand | Acre feet pumped per acre | Acres raw land under this ditch | Acres irrigated & in crop | Power cost per irri. A. H. P. | Transport. loss in ditches. |
|---------------|--------------------|---------------------------|---------------------------------|---------------------------|-------------------------------|-----------------------------|
| 100 ft. lift. | \$299.64 | 8.40 | 4578 AF
955 | 545 | \$22.50 per H. P.
\$12.50 | 42% |
| 50 ft. lift | \$186.60 | 8.10 | 5184
640 | 640
66-? | \$6.15
3936
10748 | 30% |
| | | | 9762 | | | |

In the fall of 1928 it was decided to abandon the 100 foot ditch and construct a new 60 foot ditch. This was done and by so doing there were 500 acres eliminated from the possible irrigable acres in the district. We then have the following result for the season of 1929.

Cost of pumping water for irrigation and the amount of water delivered at the head of each canal of the Indian Cove Irrigation District for the year 1929. Operation this season was 140 days.

1929

| | Horse power demand | Acre feet pumped per acre | Acres raw land under this ditch | Acres irrigated & in crop | Power cost per irri- A. H. P. | Trans. loss in ditches |

MICROFILMED

WATER RIGHT

Permit No. 7651. Issued by the State of Idaho, December 21, 1911;
recorded in Book 24, Water Rights, page 7651, allowing the district
60 second feet.

PUMPING EQUIPMENT

High Lift.

The present equipment was originally built on this lift of 102 feet, including friction in the discharge pipe, entry head, velocity head etc. The 100 foot lift has been abandoned and in turn a new 60 foot ditch has been installed, the equipment having been remodelled on the basis of this lift.

High Line Unit 1.

This unit consists of a 14" volute type, double suction Cameron centrifugal pump, designed for a capacity of 5,200 GPM., against a total head of 104 feet operating at 1175 RPM., guaranteed efficiency 75%, serial number 53,647, direct connected to a 200 H. P. Type C. S., 60 cycle, three phase, 2200 volt Westinghouse electric motor, full load speed 1160, RPM., serial No. 2,566,385. The motor of this unit is in good operative condition and is rendering satisfactory service. The pump is of modern design and construction and is in good condition. The original rated capacity of this pump was 5,200 GPM., and an efficiency of 75% was guaranteed by the manufacturers. Under a test made in May, 1927 it delivered 4,780 GPM., equal to 531 Miner's inches with an input of 145 K. W. of electric energy to the motor which assuming a motor efficiency of 90%, would show an efficiency of approximately 70% for the pump.

High Line Unit 2.

This unit consists of a 10" split spiral case Type "B" Krogh single suction pump, direct connected to a 150 H.P. 60 cycle, three phase, 2200 volt General Electric motor, full load speed 1165 RPM., serial No. 547,287. The last test made on this pump was in 1920 and shows an efficiency of 71%. In 1929 this pump was overhauled and probably would show an efficiency of about 62% or approximately 200 Miner's inches per minute.

Low Lift.

The original equipment on this lift was constructed for a total lift of 56ft. Since that time the new 36 foot ditch has been constructed and no tests have been taken to show the exact amount of water delivered. However we are submitting the specifications and lift tests made when the units were operating on the 50 foot ditch.

Low Line Unit 1.

This unit consists of a 14" volute type, double suction Cameron centrifugal pump, designed for a capacity of 5500 GPM., against a total head of 56 feet, at 1120 RPM., serial number 53,645, direct connected to a 125 H.P. Type H. P. 60 cycle three phase, 2200 volt Westinghouse motor, full load speed 1120 RPM., serial No. 938,177. The motor is in good condition and has rendered satisfactory service. The pump is of modern design and construction and is in good operative condition. Under a test made by the Idaho Power Company in June, 1921, this pump delivered 5441 GPM., equal to 605 Miner's inches with a motor input of 90 K.W. which would show an efficiency of practically 68%. This pump has been recently equipped with a new impeller, shaft and shaft sleeves and should be put to about its usual efficiency.

Low Lift Unit 2.

This unit consists of a 10" solid spiral case, Type "B" Form E. Krogh Pump, directed to a 75 H. P., 60 cycle, three phase, 2200 volt type C.C. L. Westinghouse motor, full load speed 650 RPM., serial No. 58,974. The motor

is in good operative condition and has been rendering satisfactory service. According to a test made by the Idaho Power Company in April, 1928, it shows an efficiency of 68%. We have every reason to believe that it is in practically the same condition now. There are spare motors on hand at the plant as follows:

1-6-1-5-1200, 2200 volt, 1200 RPM., 1-125 H.P. Westinghouse motor, type "H.F." 1120 RPM., serial 938,977.

TRANSFORMERS

The present transformer system consists of three 125 K. V. A. 44000-2200 volt transformer for the total capacity of 325 K.V.A. which are entirely sufficient to operate the two pumping units necessary to water the present district and we are also advised will handle an additional unit when the district is completely developed.

You will note from the above computations that considerable saving was made by installing the new 50 foot ditch and abandoning the original 100 foot ditch. By so doing there was about 500 acres out of the irrigatable acres of the district of which 180 acres were cultivated in crop and the balance was of very little value being entirely too rough and the soil very sandy.

In the fall of 1929 a new 36 foot ditch was constructed, eliminating the present 50 foot canal and it is estimated that this will reduce the power charges for the coming year approximately \$1000.00.

The power bill for 1928 was \$10,518.70, the same for 1929, with a 60 foot lift in operation and the 100 foot ditch abandoned was \$7554.35. The amount of water pumped was nearly the same and the amount delivered per acre was more, but with a saving of \$2964.40 in power charges. You will note that there is approximately 2500 acres now under the two canals of which 961 acres are actually irrigated and in crop. It is estimated that 750 additional acres of raw land can be irrigated feasibly from the present system.

It is also estimated that of the 750 acres of raw land, 240 additional acres can be irrigated without additional pumps or power or operations and if this amount of land was in cultivation and paying assessments the per-acre cost would be reduced to about \$6.50 per acre.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 14452

This project is for **Beneficial Use**

In Water District No. 59

1. Name of applicant: **Indian Cove Irrigation District**
2. Source of water supply: **Snake River**
3. Location of point of diversion: Is at the **S.W. Cor. of Lot 4** of Section **6**
T. **6 S.** R. **8 E. S. 2 E.** County of **Owyhee**
4. Describe works as they exist, giving dimensions and capacities of same: *Pumping station equipped with 2-14" Cameron 3-10" Knight Centrifugal direct connected pumps, 4 Westinghouse motor 575 rated H.P. & 1 E.C. Motor of 150 H.P. Plus 125 K.V. transformer, 3 mile power line and all necessary equipment. 2 pipe lines of total length 2000 ft. 36" wood stave 600 ft. 26" steel flume & about 14 miles of ditches*
5. Water is used for: **Irrigation**
6. State whether or not water has been turned into works of diversion: *yes*

List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation.)

NE 1/4, SW 1/4 Sec. 34, T. 5 S., R. 7 E.; NW 1/4, SW 1/4, Sec. 6, T. 6 S., R. 8 E.; NE 1/4, SW 1/4, Sec. 7, T. 6 S., R. 8 E.; SW 1/4, NE 1/4 Sec. 1, SW 1/4, NE 1/4 & NW 1/4 & SW 1/4, Sec. 2; all Sec. 3; NE 1/4, NE 1/4, Sec. 10; NE 1/4, NW 1/4, NE 1/4, NE 1/4, Sec. 11; All Sec. 12; NE 1/4, NW 1/4, NE 1/4, Sec. 13, T. 6 S., R. 7 E., S. 2 E.

Area under cultivation to date about 1275 acres

(Submit map on attached plat, showing location and details of above description.)

What large stream would the water here appropriated finally reach? *Columbia*

Remarks: *Var. d. of this system covered about 2800 acres of which approximately 10% are served by a lift of 50 ft. and the remainder by the high line of 100 ft. elevation above the river*

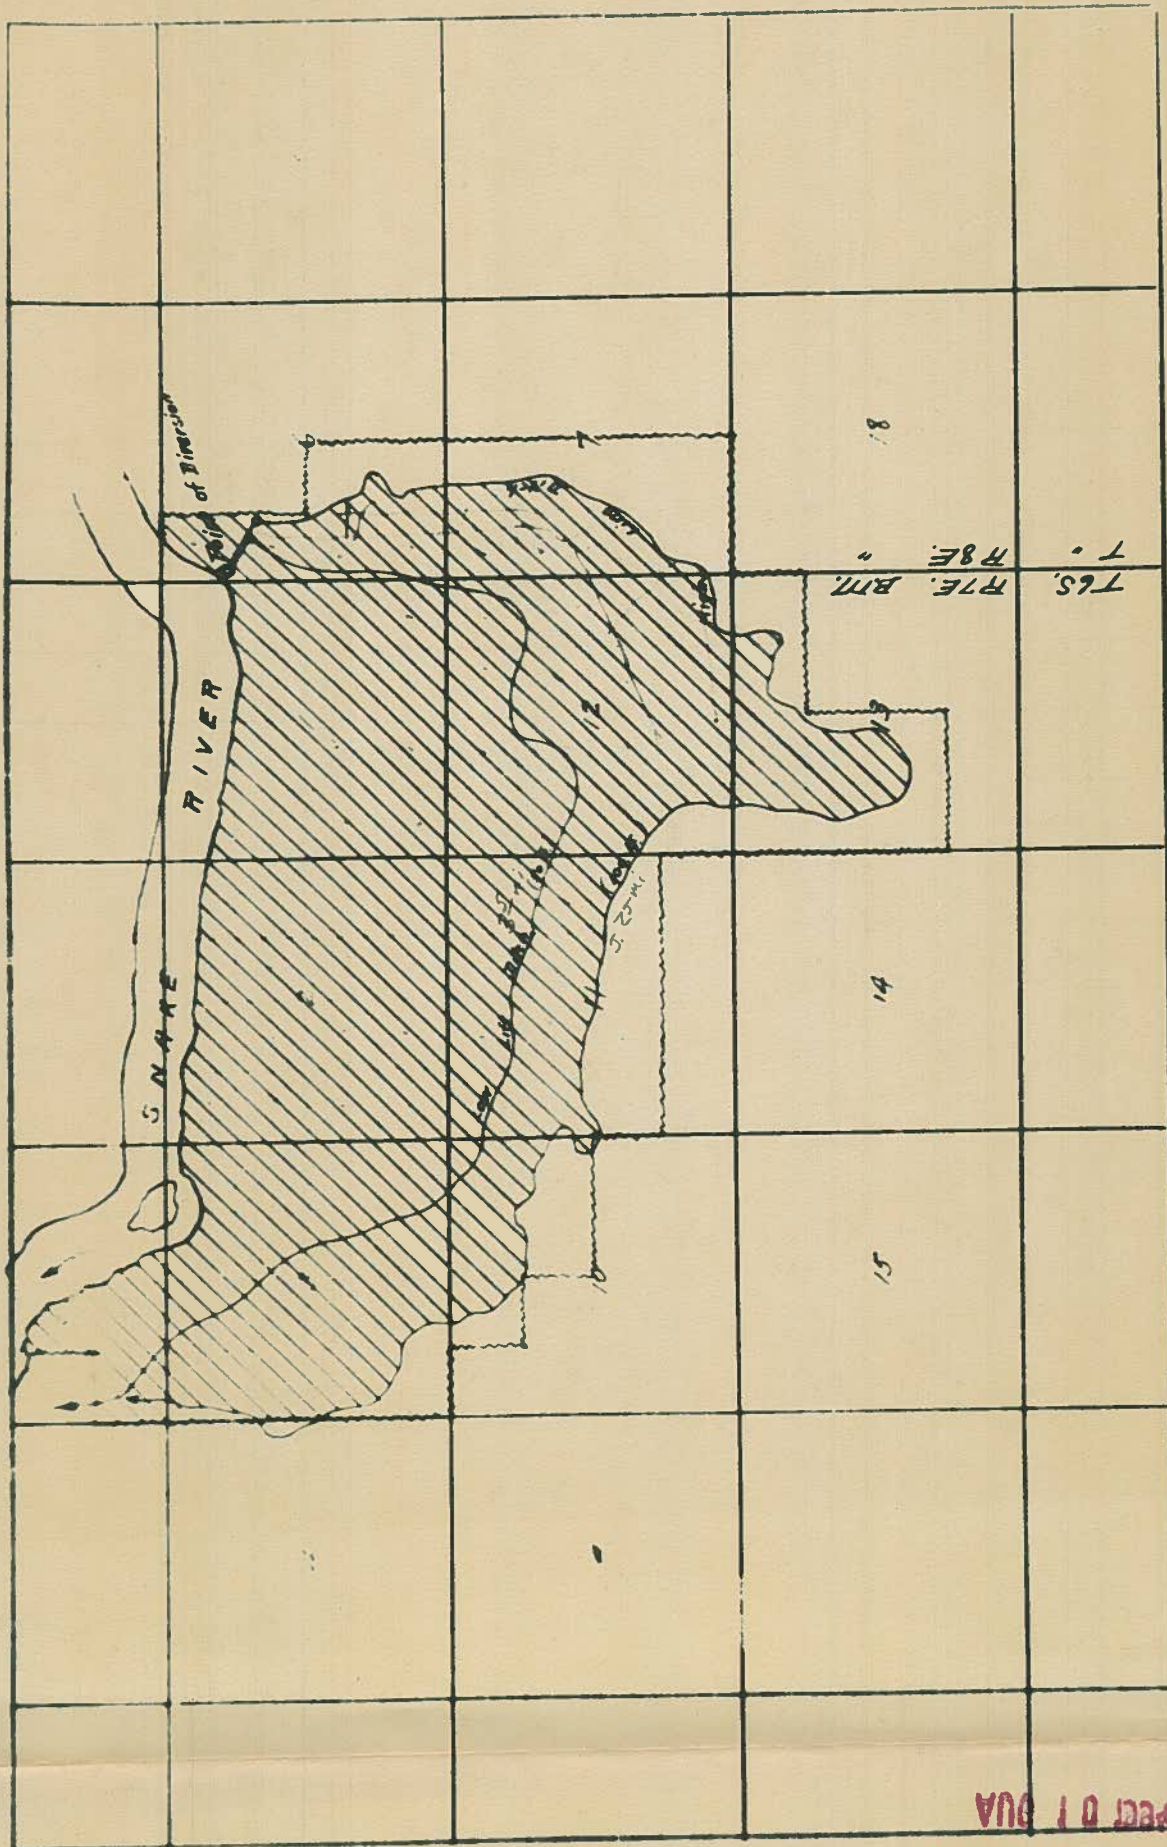

This examination was made on the *1st* day of *Nov.* 19*24*

DEPARTMENT OF RECLAMATION

I. O. 27-#12

MINUTES OF SPECIAL MEETING OF THE BOARD OF DIRECTORS OF THE INDIAN
COVE IRRIGATION DISTRICT, HELD AT THE OFFICE OF SAID BOARD AT THE
SCHOOLHOUSE ON LXX
SECTION 2, TOWNSHIP 31N (6) SOUTH, RANGE 7E EAST,
BOISE MERIDIAN, Owyhee County, Idaho, ON THE 6th DAY OF APRIL,
1920.

---:---

The following resolution was presented by director Lee
Pancoast:

WHEREAS, The board of directors of the Indian Cove Irrigation
District were by virtue of an election held on January 10, 1920,
authorized to issue negotiable coupon bonds of the said district
to the amount of \$150,000, said bonds or the proceeds thereof to
be used for the purpose of acquiring, completing and improving
the irrigation system now in use within the boundaries of said dis-
trict, and

WHEREAS, The said board of directors in compliance with sec-
tion 4362 of the Compiled Statutes of Idaho have examined each
tract and legal subdivision of land in said district for the pur-
pose of ascertaining the benefits which will accrue to each tract
and legal subdivision by the purchase, completion, and improvement
of the system of irrigation works in use within said district and
have determined upon an apportionment of the cost of said purchase,
completion and improvement of said system of irrigation works to
each acre of land within the district,

NOW, THEREFORE, Be It Resolved by the said board of directors
of the Indian Cove Irrigation District:

1. That all land within said district be classified as fol-
lows, to wit: Class 1: Lands now growing alfalfa or which may be
reasonably leveled and sown to alfalfa, grain or other grasses;
Class 2; Land with excessive slope or other natural defects which
cannot be made fit for alfalfa, grain or other grasses except at
an unreasonable cost, but which can be with a reasonable amount

of labor and expense made good pasture or orchard lands; Class 3: Lands which cannot be reasonably leveled under present high cost of labor, but when leveled would make good alfalfa or grain land; Class 4: Lands permanently high and nonirrigable.

2. That the benefits which will accrue to each tract or legal subdivision should be apportioned to each acre of land according to the classification in which it is: Class 1: \$60.1181; Class 2: \$30.059; Class 3: \$6.0118; Class 4, nothing.

3. That the following list of lands contains the name of the owner, complete description of each legal subdivision of land in said district, the class to which each tract and subdivision belong, the apportionment and distribution of the cost of the said irrigation works by amount and rate per acre and the same is hereby declared to be the findings and determination of the said board as to the benefits which will accrue to each tract and legal subdivision of land within said district from the acquirement, completion and improvement of said irrigation works and the apportionment of the cost of the said irrigation works in proportion to such benefits, to wit:
