RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

MICROFILMED

MAR 14 1993

One Mill Idaho. April 7/1890.

This is to certify, that Thomas B. Jones, George B. Jones and Horace H. Thompson, agreed to have a water dispute settled by arbitration and the decision was as follows.

That Thomas B. Jones, George B. Jones, and Horace H. Thompson, shall each have an equal one third interest, in all waste, seepage and surplus water running down the One Mill Creek to the dam, situated near the Idaho and Utah line; with the exception of the waste water running down a swale which H. Thompson formerly used and that the said water may be carried through the ditch constructed by the three said parties.

Also that H. Thompson has a right to carry any individual water through the said ditch.

And it is decided that the three said parties, shall put in all necessary flumes, that the water may be equally divided.

Arbitrators:— A. C. Lee
R. S. Barnes
Geo. T. McMillan

MAR 27 1992

Department of Water Resources
Southern Region Office

THE UNITED STATES OF AMERICA,

To all to whom these presents shall come, Greeting:

Homestead Certificate No. 397

Application 1238

OF THE LAND OFFICE at

Hayley, Idaho

~~Whereas~~ There has been deposited in the GENERAL LAND OFFICE of the United States a CERTIFICATE OF THE REGISTER

to the Act of Congress approved 20th May, 1862, "To secure Homesteads to Actual Settlers on the Public Domain," and the acts supplemental thereto, the claim of

Thomas D. Jones, whereby it appears that, pursuant

to the Act of Congress approved 20th May, 1862, "To secure Homesteads to Actual Settlers on the Public Domain," and the acts supplemental thereto, the claim of

South half of the South West quarter of Section twenty-one and the East half

of the North West quarter of Section twenty-eight in Township sixteen South of Range

Twenty-six East of Bone Meridian in Idaho containing one hundred and sixty

acres

has been established and duly consummated, in conformity to law, for the

purpose of securing to the said settler the right of pre-emption of the said land

and the right to acquire the same by purchase of the United States at the price of

the tract of Land above described: To have and to hold the said tract of Land, with the appurtenances

thereof, unto the said *Thomas D. Jones* and to his heirs and assigns forever; subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in

connection with such water rights, as may be recognized and acknowledged by the local customs, laws, and decisions of courts, and also subject to the right of the proprietor of

a vein or lode to extract and remove his ore therefrom, should the same be found to penetrate or intersect the premises hereby granted, as provided by law. And there is

reserved from the lands hereby granted, a right of way thereon for ditches or canals constructed by the authority of the United States.

Witness my hand and the seal of the GENERAL LAND OFFICE to be hereunto affixed.

GIVEN under my hand, at the CITY OF WASHINGTON, the *thirtieth* day of *August*, in the year of our Lord one thousand eight

hundred and *ninety two*, and of the Independence of the United States the one hundred and *seventeenth*.

BY THE PRESIDENT: *Benjamin Harrison*

By *E. Maynard Smith*, Secretary.

Jones (Social Security NO. 518-42-6388) Having lived in the Naf, Standrod, and Malta, Area for over 65 years do hereby Testify to having Witnessed the use of a small flow of water Diverted from the main One-Mile Channel in the SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Sec. 28 T.16 S. R.26 E.

As my home was within a half mile of said location and was near the path where I went to pick up the family mail for a number of years, I do remember this very well since the year of 1936. And I have personally irrigated with the water from said location since the year of 1940 and many other years Including the past eight or more years.

The said flow of water was used on the E $\frac{1}{2}$ of NW $\frac{1}{4}$ of SEC.28 T.16 S. R.26 E. and the S $\frac{1}{2}$ of SW $\frac{1}{4}$ of SEC. 21 T.16 S. R.26 E.

Also the use of Stock-water from the main One-Mile Channel that goes through the SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of SEC. 21 T.16 S. R.26 E.

Glenn L. Jones

RECOMMENDATION NOTES

From: Vikie Hancock

1/13/00

Regarding: Claim number A43-10127

This claim, based upon Beneficial Use, includes two sources that are co-mingled to flood irrigate 50 acres of pasture, located at a pre-1900 homestead.

One source is a spring that is located just south of the claimant's property line and diverted just inside his property line. Mr. Jones' claim that he can divert approximately 0.3 cfs from the spring was verified by two different measurements.

The other source is One Mile Creek, which arises in Utah and flows into Idaho. Mr. Jones also has two diversions from One Mile Creek in Utah; this claim covers one diversion in Idaho, only. Claimant's statement that he has the last diversion on One mile Creek was verified by an IDWR data base search. A license to the water of One Mile Creek, 43-02220 for 2.5 cfs in sections 5 and 6, T16S, R26E, was not claimed in the adjudication and assumed to be abandoned. Measurement of the water available at his point of diversion from One Mile Creek verifies Mr. Jones' claim to 0.8 cfs from this source.

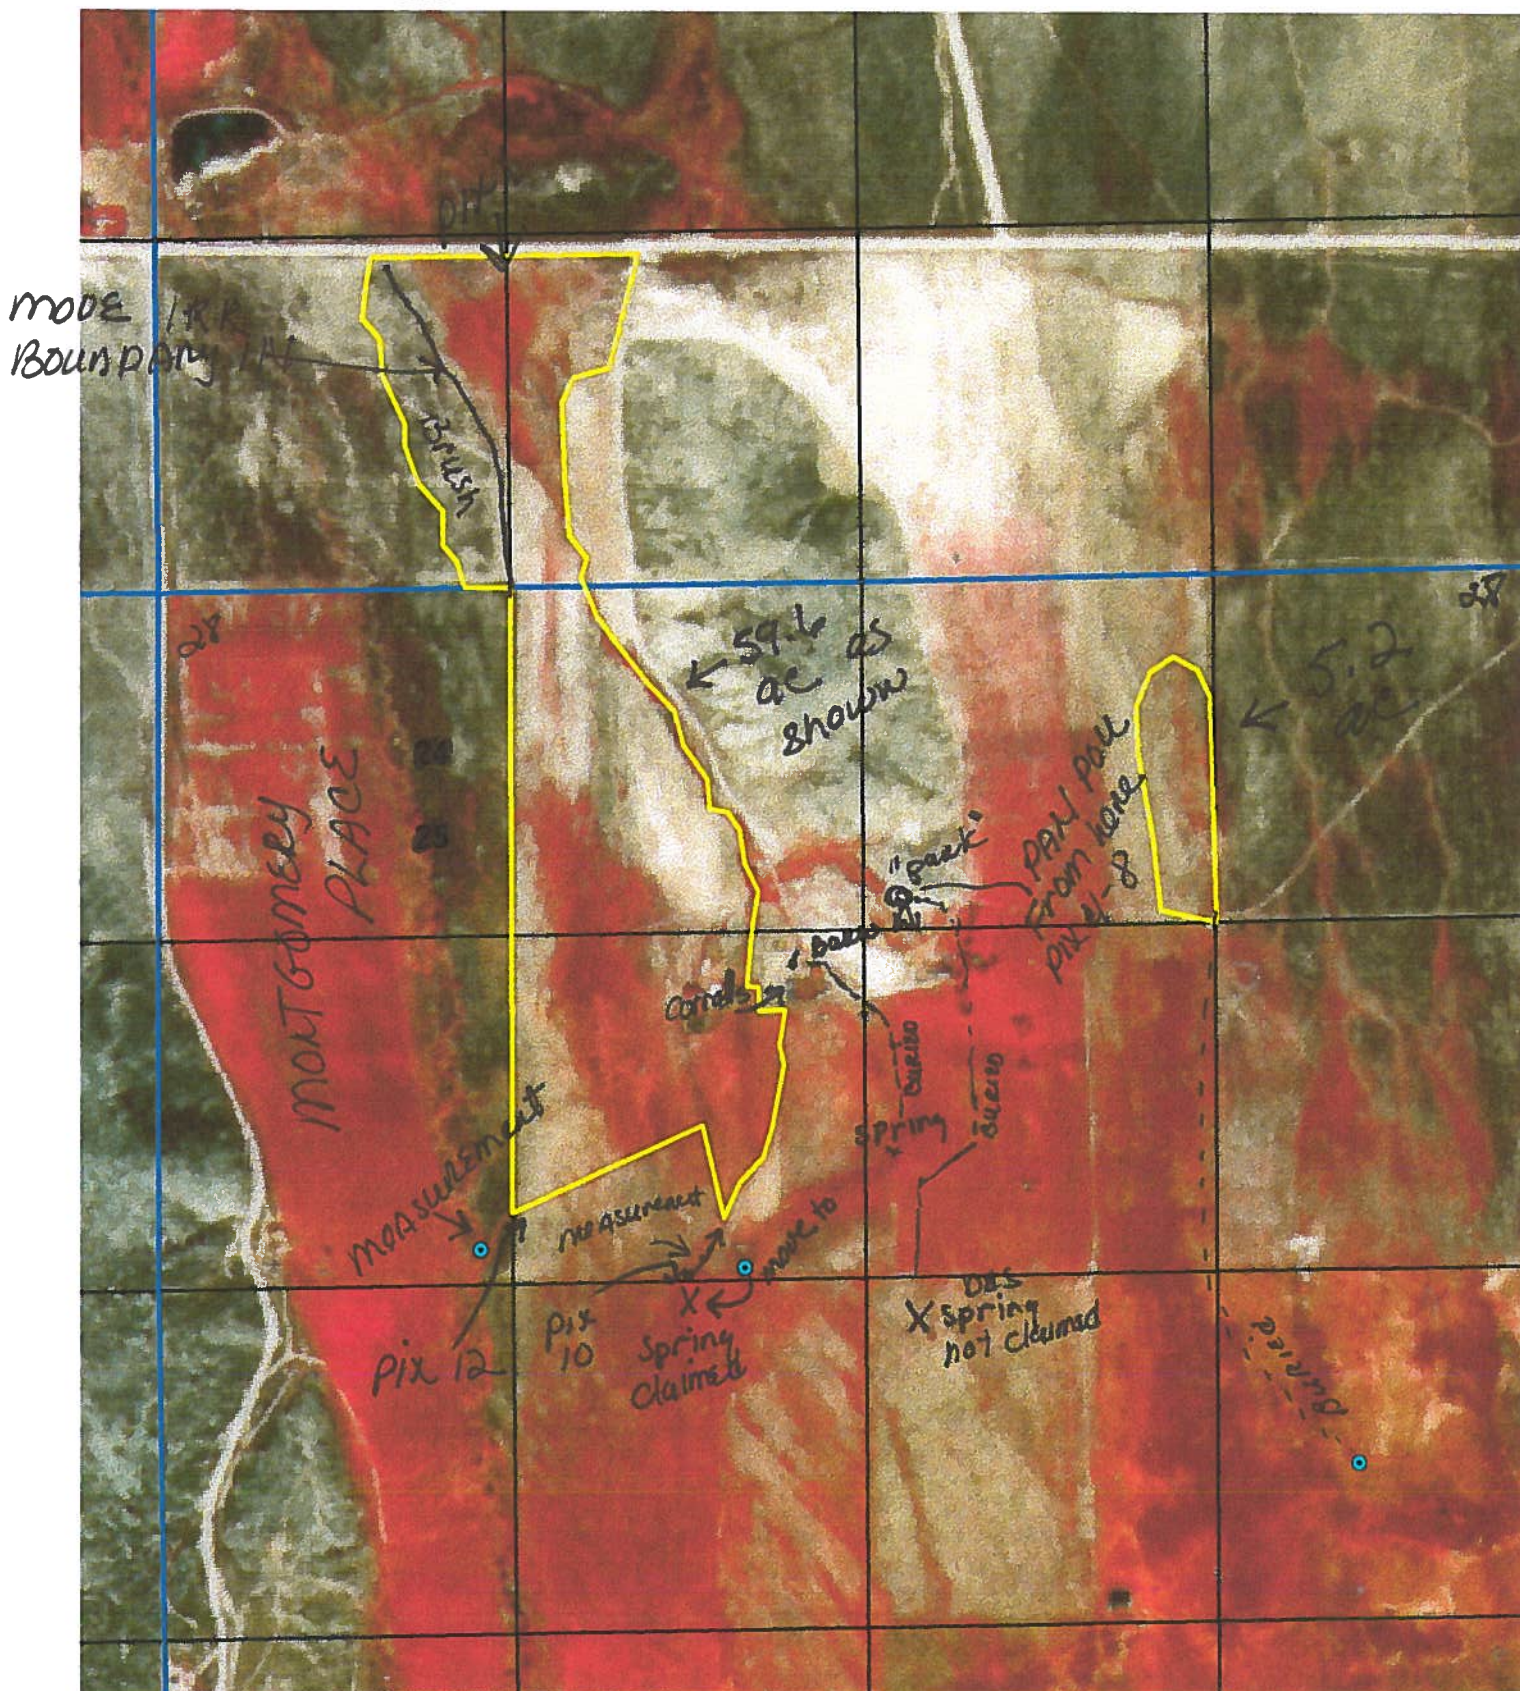

The priority date of 1885 was not substantiated, however a priority date of 1890 was corroborated by a water users agreement. The evidence mentions only the diversion of water from One Mile Creek, but it seems likely that a spring that existed due north of the corrals would also have been used on the homestead. There is no other claim on this spring in our database.

The place of use is pastureland, irrigated by flooding. It is also probable that water from One Mile Creek diverted in Utah irrigates this same place of use, as water is moved around by laterals and re-used. The property owned by Mr. Jones is in pasture and grazed by cattle. He reported that two springs used for stockwater on this property were not claimed in the adjudication. One is located in the SWNE Section 28 and piped to the barn and corral located in the NESESW Sec 28. The other spring is located in the NWNWSE Section 28 and piped to a pond atop the southern tip of the knoll behind the house. The pond's location is in the SENWNE Sec 28. Mr. Jones did not mention any other developed springs at the time of the field exam. I explained the Department's policy on stockwater claims to him.

A reservoir located in the SESE Section 28 has been constructed since 1987, and was reported to Dam Safety personnel. The source of water for this reservoir was determined to be in Utah.

(S) A43-10127,

CLAIM NO(S): A43-10127, A43-10129

		13	Pan to north
		14	Mr. Jones's Truck & Dog

Audio tape # 2 GPS TAG A0002883 on fence by spring

Notes: Mr. Jones met me at the place, and first showed me a pond he created at the top of a knob with water piped from a spring in the valley. This is a stockwater pond. He also fenced off the southern end of it & has planted some trees for a "park". He expressed interest in filing an AT claim on this for stockwater. There is an additional spring in the valley that he pipes to the barn he may want to file a stock claim on, also.

We then looked at the claimed spring used for irrigation in the SE NW Section 28. He wanted to do a bucket & stopwatch measurement, which we did (he assisted with). I also took a current meter measurement with the swooper. There is a horseshoe-shaped area ~~where~~ that several springs empty out of to form a small creek here. See photo

A43-10127

2 of 2

Glen Jones

The diversion from One mile creek had been washed out recently but the conveyance ditches were still in evidence. He stated that he could divert all of one-mile creek. We measured One mile creek using the orange peel method to determine what was available to Mr Jones at this point. He said it was running pretty high right now. Mr Jones also diverts water from One mile creek in Utah and says he has filed water rights for that in Utah. There are several users of One mile creek in Utah and also his neighbor to the West in Idaho. He says all the other points of diversion are in Utah and that this is the last right on the creek. He says that water from One mile rarely reaches the Barnes Reservoir across the Strevell Rd to the Worth & that they have no water rights to it (none are claimed).

GIS files were collected at both the spring and One mile points of diversion. Tag is on new fencepost at spring. No permanent structure was available at the One mile diversion.

Measurement of Spring
SE NW Sec 38 16S 26E

43-10127

Claimant requested a bucket & stopwatch measurement of the spring, which he assisted in. It was performed at a point where claimant has inserted a 6" PVC pipe into the stream.

The entire flow enters the pipe ~~and~~ which extend thru a small earthen dam and then the water free flows from the downstream end of the pipe.
(see drawing)

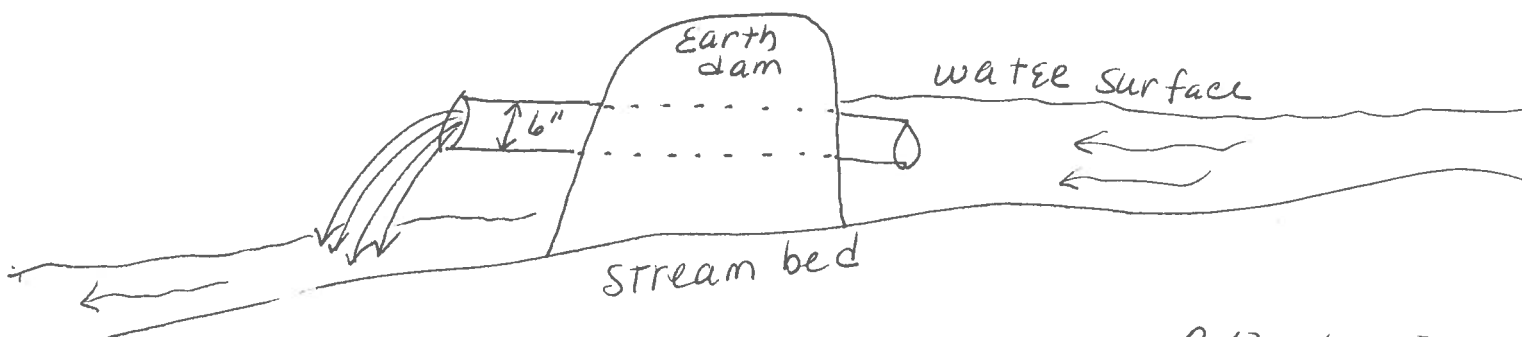

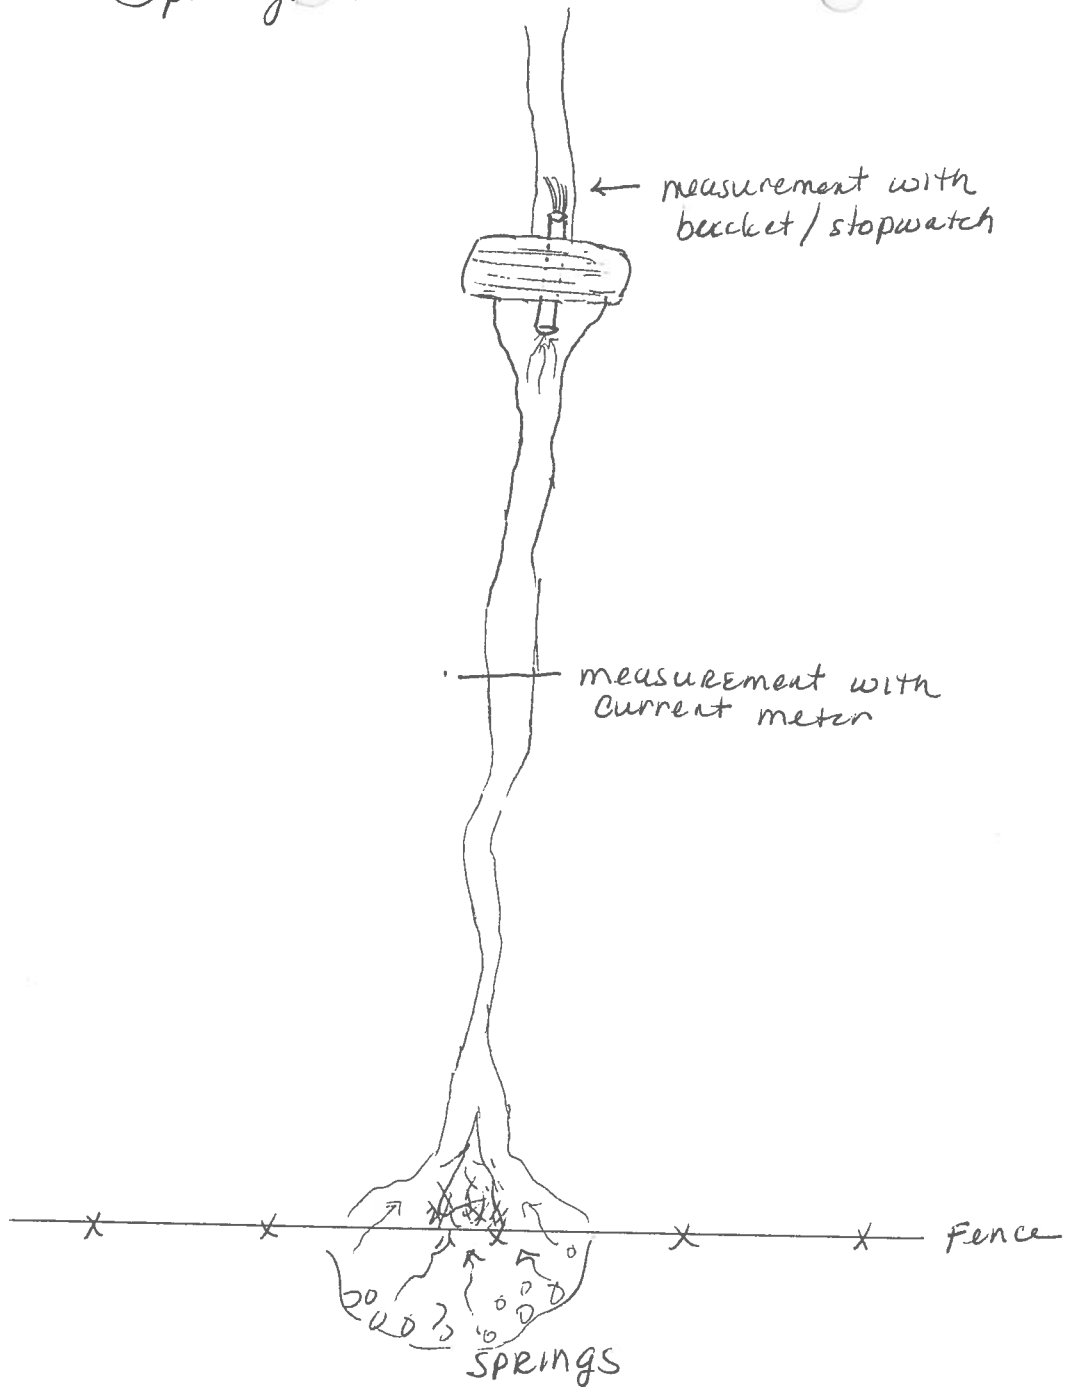

Time in Seconds to fill 5 Gal Bucket

Measurement #1	1.97	} AVE 2.03 sec
#2	2.17	
#3	1.79	
#4	2.20	

$$\frac{60 \times 5}{2.03} = 147.78 / 448.8 = 0.329 \text{ cfs}$$

Mr Tracy was informed that the accuracy of this method of measurement was suspect with such short fill times.

Spring Measurement 5/20/99

Glen Jones A43-10127

Measurement of One mile Creek at point of diversion. Note that diversion works had recently been washed out but that conveyance ditches were evident. One mile creek was measured to determine available water at point of diversion.

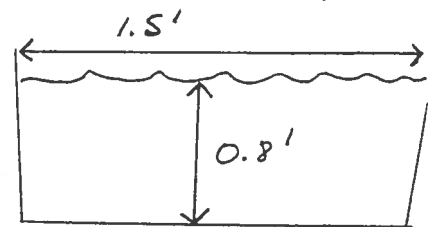

Float timed for a distance of 50' which was the longest stretch of relatively straight channel in the vicinity. Banks were grassy and several trials were rejected because the float hung up on bank. Three times were collected.

N/A(☒) Y(☐) N(☐)

* IF NO, DESCRIBE IN NOTES BELOW HOW THE RECOMMENDED DIVERSION VOLUME FOR EACH USE WAS DETERMINED.

K. SHOULD THE CLAIMED DIVERSION VOLUME FOR EACH USE BE VERIFIED BY FIELD EXAM?

N/A(☒) Y(☐) N(☐)

NOTES:

Recommend current 100% diversion & use
Standard. Purpose & use & div rate as claimed

AJ CLAIM TOTAL DIVERSION RATE: 0.800 CFS

WR ROOT RIGHT TOTAL DIVERSION RATE: CFS

A. IS THE CLAIMED TOTAL DIVERSION RATE THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A ☒ Y () N ()

B. CAN THE CLAIMED TOTAL DIVERSION RATE BE VERIFIED USING THE WATER RIGHT FILE?

N/A ☒ Y () N ()

* ALL CLAIMS BASED ON BENEFICIAL USE (INCLUDING POSTED NOTICES AND STATUTORY CLAIMS) REQUIRE A FLOW MEASUREMENT.

C. IS THERE ANY INDICATION THAT THERE HAS BEEN A FIVE YEAR PERIOD OF CONTINUOUS NONUSE OF THIS RIGHT, OR ANY PORTION OF THE DIVERSION RATE?

Y () N ☒

* IF AN AMOUNT SMALLER THAN THE ORIGINAL DIVERSION RATE IS CLAIMED AND A FIELD EXAM IS NOT REQUIRED, EXPLAIN IN NOTES.

D. SHOULD THE CLAIMED DIVERSION RATE BE VERIFIED BY FIELD EXAM?

Y () N ☒

E. FLOW MEASUREMENT

MEASUREMENT METHOD See attached, SEE ATTACHED CALCULATIONS.

F. RATE/VOLUME CALCULATIONS: (IRRIGATION)

1a. IRRIGATION RATE
ACRES 50 x 0.02 CFS/ACRE = 1 CFS
(Taken from pou review)

1b. CALCULATIONS

IS A DIVERSION RATE PER ACRE GREATER THAN 0.02 CFS/ACRE CLAIMED? Y () N ☒
IF YES, IS AN ADDITIONAL WATER USE FORM FILED AND ATTACHED? Y () N ()

2. IRRIGATION DIVERSION VOLUME

CLAIMED DIVERSION VOLUME = AF/A

ACRES 50 x DIVERSION VOL. AF/A FOR AREA 50 =

TOTAL DIVERSION VOLUME 1 AF/A

3. IRRIGATION CONSUMPTIVE USE

CLAIMED CONSUMPTIVE USE = 125.0 AF/A

ACRES 50 x CONSUMPTIVE VOL. AF/A FOR AREA 50 =

TOTAL CONSUMPTIVE USE 125.0 AF/A

4. CALCULATIONS FOR USES OTHER THAN IRRIGATION: SEE BELOW () OR SEE ATTACHMENT ()

claimed 0.8 cfs

NOTES:

Measurement of both Spring discharge and
One mile creek indicate that, for at least a
portion of the year, there is adequate water
available to ~~support~~ the claim for 0.80 cfs
judicial

RECOMMENDATIONS: CHECK HERE IF RECOMMENDED AS CLAIMED ()

PURPOSE OF USE	REC. PERIOD		REC. DIV		REC. DIV		REC. CONS. USE
	FROM	TO	RATE CFS	EXAMINER	VOL. AF/A	EXAMINER
