CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

RE: Claim No. 63-4949

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

DAVID R. SHAW
Western Region Supervisor

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Use of this right is combined with water from Canyon County Water Company Ltd.

This right is a split from former right 63-4949.

The right holder shall accomplish the change authorized by Transfer 72072 within one year of the date of the approval.

Prior to diversion of water under Transfer 72072, the right holder shall provide documentation to the department that water from Canyon County Water Co. Ltd. has been legally removed from the place of use described above.

Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

To Whom It May Concern:

In approximately 1951 or 1952, I drilled a well for The Church of Jesus Christ of Latter Day Saints at the meetinghouse that was under construction at that time on Canyon Street in Nampa. To construct the well, I hired a drill rig and two-man crew from Hosac Drilling. We constructed a 6-inch diameter well to a depth of 90 feet and equipped the well with a centrifugal pump for domestic and irrigation purposes.

AFFIDAVIT THANE J. RIDER and ROBERT J. NORMAN

THANE J. RIDER and ROBERT J. NORMAN, being first duly sworn, depose and say:

1. Corporation of the Presiding Bishop of The Church of Jesus Christ of Latter-Day Saints, a Utah corporation sole (CPB) owns a parcel of property in Nampa, Idaho, located at a street address of 121 Canyon St., Nampa, Idaho 83651, which it refers to as the Canyon 35 building. CPB has a Physical Facilities department that manages its buildings. The office that supervises and takes care of the Canyon 35 building is the Caldwell-Nampa Facilities Management Group. From 1990 to present, the mechanic with responsibility for the Canyon 35 building and surrounding property, including the 3.0 acres irrigated from the well that is the subject of this affidavit, was Thane J. Rider, and from 2002 to the present it has been Robert J. Norman was also a mechanic in this FM Group.

2. Robert J. Norman, 1712 Emerald Ave Caldwell ID 83605, began employment with the Caldwell-Nampa Facilities Management Group in Caldwell, Idaho in April, 1992, and is generally familiar with the operation of the Canyon 35 property from that time to now.

3. Thane J. Rider, 15753 Yoder Avenue, Caldwell ID 83607, began his employment with the Caldwell-Nampa Facilities Management Group in Caldwell, Idaho in 1983, and was supervisor of maintenance and operation at the Canyon 35 building from 1990 to the present.

4. CPB had a well located at the Canyon 35 building, identified as No. a63-04949 in Nampa, Idaho with a point of diversion located in SE 1/4 SW 1/4 NE 1/4, Section 21, Township 3 North, Range 2 West, Canyon County, State of Idaho, which was permitted for a total consumptive use of ten and one-half acre feet per annum for irrigation of 3.0 acres as per the Notice of Claim filed December 26, 1989 with the Idaho Department of Water Resources.

5. The well was the only source of water for irrigating the 3.0 acres of the site. It was in use from the initial establishment of the water right until October 1995 to irrigate 3.0 acres. There was no water from Nampa and Meridian Irrigation District available at the site because there were no ditches or pipelines installed from any facilities of the District that would deliver such water.

6. This well was used for both culinary and irrigation purposes after it was originally established based on Claim No. 63-04949 that was submitted January 19, 1983. Sometime prior to the filing of the Notice of Claim in the general adjudication, however, the culinary use was discontinued and the irrigation use continued irrigating approximately three acres as shown by the claim on file in the general adjudication referred to above.

7. In September 1995, there was a fire at the Canyon 35 building, which destroyed a considerable amount of the property. Prior to the fire the water right was used each year from 1991 to 1995 with which affiants are familiar to irrigate the 3.0 acres at Building 35.

8. After the fire, it was determined that a new meetinghouse would be built on the site. Those portions of the meetinghouse that could not be repaired were torn down and removed and as part of the construction process, the 63-4949 well was capped in about November of 1995. After the new building was completed, it was connected to the culinary water system of the City of Nampa and a pressurized irrigation system provided by the City was used.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-19309 & A63-32099

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled, **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by March 27, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents
