RE: AMENDMENT TO A43-10152

Dear Gene

Enclosed is the amended claim form for your review. The following items are where I made changes.

1. Item 2.: Date of priority. I entered the date shown on the profile report and as we discussed yesterday.
2. Item 5.: Description of diverting works. I updated this entry to reflect the two wells.
3. Item 6.: Water use. I added domestic use at 0.02 cfs (as an in-home use rate) for year round use.
4. Item 7.: Total quantity. I increased the total quantity by the domestic rate as I felt that the combined uses were best represented in that manner. (It was previously at 0.04 cfs)
5. Item 10.: Place of use. I added domestic use to that item.
6. Item 13.: I deleted reference to A43-10153 (the domestic claim).
7. Item 14.: Remarks. I included a short explanation of the reason for the amendment.

If the amended claim is satisfactory, please sign the claim, have it notarized, and return it to this office. Please note that there is a 'copy' included for your records. If you have any questions or wish to change something relating to this claim please give me a call.

There is no fee involved for this amendment.

Sincerely

Kelly K Christensen

RE: Evidence of Priority

RESPONSE DEADLINE

FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

NOTES: Priority date supported by a land patent granted in 1911 and notes made on a proff report by Gene Ward indicating that the well was drilled in 1913 and used for the claimed purposes (as amended 3-28-00). The date appears to be acceptable. Gene stated that the home was built when the patent was granted and he understood that all was completed by 1913. A second well was drilled in the 1940s to split the household use off the existing system. Use did not change with the addition of the second well.

OTHER (DESCRIBE IN NOTES BELOW)

NOTES: I found 2 wells, one used primarily for irr & Stock use (54' deep) and a 2nd well (NE of home) shallower and used in the home and occasionally a sprinkler use on part of the lawn. The household well was drilled in the 40s to replace the house water system from the 54' well. I am recognizing 2 P/Ds under 1 priority date for all claimed uses See also pg 2 See Attached field notes dated 3-27-00

need Amendment to add Dom use
2nd well.

Per discussion: Orig well 54' deep
was used for irr and dom use. in 1940
a shallow 18' well was dug for lawn irr
it is not used in the home.

The "system" is 2 wells for household use,
irr of lawn & pasture, and stock water.
Wells are not tied together but are used
in conjunction to accomplish all needed
uses.

The current uses were perfected under
the original well. Therefore I do not
see a need for a second water right
for the 2nd P/D. I recognize that well
as an accomplished transfer adding a
second P/D
