AGREEMENT FOR WITHDRAWAL OF NOTICE OF CLAIM TO A WATER RIGHT

WALTER H. YARBROUGH (Yarbrough) and GRANDVIEW IRRIGATION DISTRICT (the District) agree as follows:

Yarbrough owns land within the boundaries of the District, for which land the District has adequate water rights and has an irrigation system adequate for delivery of water to Yarbrough at his established point of delivery in the District's system. In about 1948 Yarbrough's predecessor acquired a supplemental water right for irrigation of Yarbrough's lands, or some portions thereof, under License No. 20485/02-2069 issued by the Idaho Department of Water Resources. The District has filed a Notice of Claim to a Water Right in the action now pending in the Fourth Judicial District of the State of Idaho, in and for the County of Ada, In the Matter of the General Determination of Rights to the Use of Waters of the Snake River from the Base of Milner Dam to the Oregon Border, which Notice of Claim is based on said License No. 20485/02-2069.

Yarbrough and the District agree that said water right is owned by Yarbrough and not by the District. Therefore, the District agrees to withdraw its Notice of Claim to said water right. Yarbrough agrees that the District's withdrawal of said Notice of Claim to a Water Right does not constitute grounds for Yarbrough to have his lands excluded from the District and does not constitute a transfer of water rights held by the District for irrigation of Yarbrough's land.

This Agreement binds the parties hereto and their respective heirs, personal representatives, successors and assigns.

RE: 02-2069

Dear Members of the Board:

This letter is to inform you the water right referenced above has also been claimed recently by Walt and Lucy Yarbrough. In 1981 the District claimed this water right along with some others for use on the District lands. In a letter from this office dated March 1, 1984, you were advised of the conditions surrounding the Yarbroughs' claim.

A relinquishment form is enclosed for your use to withdraw the Claim to Water Right you filed on this water right now claimed by the Yarbroughs. After receipt in this office of the relinquishment form with an officer's signature notarized or testament of the secretary, the original and duplicate copy of the claim will be returned to your office. A refund request for \$10 will be initiated when the relinquishment is received here, if you take this action.

Regards,

DONALD V. SHAFF

Dear Senator Yarbrough:

About three years ago you and I discussed in Grand View the issue of who should claim the water right for your pump that lifts water to the high ground along the river. The Grand View Irrigation District has claimed the water right (02-2069) after I conferred with them about the adjudication and their possible water rights.

Under the circumstances I think this was an ill advised course. You are responsible exclusively for the pump and the delivery of water to this land. To recognize this situation I think the Proposed Finding for the court should show you as the holder of this water right.

If you concur please sign the enclosed form having your signature notarized and return the claim to this office with the \$10 filing fee. I have also enclosed a copy of a letter to Bill Ringert, the District's attorney, advising him of this matter. Call me if you have questions.

SUBJECT: Conversation with Walter Yarbrough

This water right earlier claimed by Grand View Irrigation District had a point of diversion originally in Lot 5, Sec. 6, T 5S, R 3E. Senator Yarbrough now owns this land to which this water right was appurtenant. The district has not claimed the original point of diversion but Senator Yarbrough still operates a pump that is used on this ground. He stated in Grand View that the water is used on a piece of high ground that may have been disannexed from the district. He does not object to the district claiming the right as long as the second point of diversion in Lot 5 is shown and recommended as a part of the water right.

The existence of this pump should be verified, and if it exists, the point of diversion should be included in our recommendation.

Dear Senator Yarbrough:

Per your request my staff has researched the water rights for the portion of Lot 5, Sec. 6, Twp. 5 S., Rge. 5 E., B.M. described in your letter dated February 23, 1981. They have found that the land is covered by three water rights. License No. 02-2069 (copy enclosed) established a water supply from the Snake River through a pump located on the property. License No. 02-2034 and Decreed Right No. 51-0001 provide water to the property via Grandview Irrigation District.

As you may be aware, this department has recently been authorized by the Fourth Judicial District Court to prepare a Proposed Finding of all Snake River water rights from Milner Dam downstream to where the Snake leaves the state near Homedale. This adjudication was initiated by a petition from a number of water users who desire the water rights to be decreed to enable delivery of increasing scarce water supplies within this reach of the Snake River.

As an owner of land adjoining the Snake River you will receive a formal summons to this court action in April, 1981. The summons will require that you claim any existing water rights, so you will need to submit a Notice of Claim to a Water Right based on License No. 02-2069 if the system is still in use. In addition, representatives of the Grandview Irrigation District will need to file claims on the District's water rights to enable the rights to be included in the Proposed Finding of water rights which is the department's findings for the District Court.

The information that you will receive along with the summons will explain the adjudication procedure and the steps that you will need to take at that time. If you have questions, please feel free to contact me.

C. STEPHEN ALLRED

BUILDING MAIL

Dear Steve:

You remember some time ago I discussed with you the possibility of looking up the water right on a certain piece of property which I purchased. The following is the legal description of that property, and I would appreciate it if you would look this over and inform me as to the status of the water right and if there is anything I should do to secure or firm up the water right on this piece of property:

Lot Five (5) of Section Six (6), Township Five (5) South of Range Three (3) East of the Boise Meridian, except that portion described as Tax No. Seven (7); and the Northeast Quarter of the Southwest Quarter (NE 1/4 SW 1/4), the East 25 feet of the Southeast Quarter of the Southwest Quarter (SE 1/4 SW 1/4) of Section Thirty-six (36), Township Four (4) South, Range Two (2) East of the Boise Meridian.

Also, would you please advise me if land under the Grand View Irrigation District would require any additional filings to secure the old water rights which have existed there for many years.

Thanking you in advance for this information, I remain

Very truly yours,
