Subject: Ownership Change and Split

Dear Jan,

Enclosed on behalf of Michael Cohen and Cynthia Mueller is a Notice of Change in Water Right Ownership. Michael and Cynthia have purchased from Mellin Properties Limited Partnership a 2-acre portion of water right 63-7194 (which may now be identified by number 63-32093) as documented by the enclosed Grant Deed. I will send you a shapefile of the 2-acre portion via email. We request that this right be split so that their portion will become decreed in their name.

We are also submitting applications to lease this portion of the water right to the water supply bank and to rent it back for use on their property.

Please let me know if you have any questions or need additional information.

Sincerely,

Scott N. King, P.E.

I. FINDINGS OF FACT

A notice of claim was filed for water right 63-07194 by Ralph Mellin. Subsequent to the filing of the claim, the right was split into water rights 63-32093 and 63-32094. Water right 63-32093 was then split into rights 63-32396, 63-32397, 63-32398, 63-32399, 63-32400, and 63-32401. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of water rights 63-32396, 63-32397, 63-32398, 63-32399, 63-32400, and 63-32401.

On June 14, 2007, Mellin Properties Limited Partnership filed an objection to the *Director's Report* for water right 63-32396. Water right 63-32396 was split into water rights 63-32653, 63-32654, 63-32655, and 63-32656. Water right 63-32653 was split into water rights 63-32676 and 32677. Water right 63-32676 was split into water rights 63-32893 and 63-32894. On March 6, 2008, Mellin Properties Limited Partnership filed a *Notice of Withdrawal of Objection* in subcase 63-32893.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water rights 63-32094, 63-32397, 63-32398, 63-32399, 63-32400, 63-

32401, 63-32654, 63-32655, 63-32656, 63-32677, 63-32893, and 63-32894 be decreed with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*. IT IS FURTHER RECOMMENDED that the SRBA District Court enter a final order **disallowing** water right numbers 63-32396, 63-32653, and 63-32676.

Shapefiles**

August 31, 2006

Since Scott King did not include a project map depicting the Cynthia Mueller/Michael Cohen acquired portion of 63-32093, I requested an electronic version of the shapefile. Since all of the shapefiles for the other 4 splits were a paper version attached to their appropriate *Notice of Change in Water Right Ownership* form, I used Scott King's 63-32398 Mueller/Cohen electronic shape as the beginning basis on which to then create the 63-32397, 63-32401, then 63-32400 shapefiles.

Re: Original Notice of Claim to a Water Right No. 63-7194
Renumbered Notice of Claim to a Water Right No. 63-32398

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section

Hi Kimberly,

I think Lori told me you are working on the 63-7194 claim. We sent in ownership change forms for Lynn and Cohen/Mueller a couple weeks ago. Can you please update me on their status? We have water bank applications pending, as per Noreen's message below.

Thank you,

RE: Mitigation Permits – Update to Recommendations Needed

*on mellin 63-7192
63-0144C(x2)*

Date: July 21, 2005

.....

As I previously discussed with you, we recently approved some permits that will be mitigated through rights that have been recommended in the SRBA. I tried to update the "Mellin" right and just messed up the data base so decided that I should not touch rights that are in the recommendation stage of SRBA.

You need to have your staff go into the recommendations and change portions of the irrigation use to mitigation (mitigation is now a use in the drop down boxes in workflow) as shown on the attached permit approvals. I have attached copies of the permits and the instructions that I have been using to update water right records when the mitigation right is not involved in the SRBA. If you want to see how the right is suppose to look after updating you can go into Claim 37-21114 for an example (Kelly Christensen just completed). There was one thing in Kelly's update that is missing and that is that he did not include a comment that identifies which permit is being mitigated (which will be very helpful in the future if someone is looking at that right). You could also reference 72-106J in water right side – I did that one last September and have attached a water right report for your convenience.

If you have questions regarding this, please let me know and I'll try to help you out as best as I can.

Permit to Appropriate Water

NO. 63-32052

7. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as authorized by the following water rights for the purposes and amounts specified below.

Right No.	Use Changed to Mitigation	Mitigation Rate	Mitigation Volume	Mitigation Acres
63-7194	Irrigation	0.05 cfs	12.6 af	2.8

The land that will no longer be irrigated under this right is located within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, S21, Twp. 01N, Rge. 01W.

Prior to the diversion and use of water under this right, the right holder shall demonstrate ownership of the mitigation right to the Department pursuant to Idaho Code Section 42-248. When the ownership change is complete, the official record for the mitigation water right will be changed to show that diversion and use of water is not authorized because the right, or portion thereof, is being dedicated to mitigation purposes. If the specified mitigation right, or portion thereof, is sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this right shall be reduced by the same proportion as the reduction to the mitigation right.

8. Water for the initial filling of the ponds under this right shall be provided through the rental of 16.8 acre feet of water from the State Water Supply Bank or from some other source of water authorized by the Department.
9. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
10. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
11. Place of use under this right is also known as Tuscany Subdivision.
12. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

Note:

there is a shape for mitigation under WR #63-32124 which we plan to delete once you have completed your update - Please let me know.
