3. Purchase Price. The Purchase Price for the relevant portion of Water Right #63-7194 identified above (.05 cfs / 13.5 afa / 3.0 acres) shall be _____ dollars (\$ _____), payable upon Closing in current, certified funds. The Parties acknowledge that the Purchase Price may be deposited directly with an escrow agent or a qualified Section 1031 Exchange Intermediary.

4. Closing.

a. Closing Date. Within thirty days (30) from the execution of this Agreement, the Parties shall conclude and finalize the purchase and sale of the Purchased Right ("Closing"). The Closing shall take place at the office of Barker Rosholt & Simpson LLP, located at 205 North 10th St., Boise, Idaho, or at such other escrow agent designated by Buyer in writing ("Closing Agent") on a date mutually convenient for Buyer and Seller. Buyer and Seller shall work expeditiously to conclude the Closing.

b. Documents to be Delivered at Closing. Buyer and Seller shall execute (with acknowledgement, if needed) and deposit into escrow with Closing Agent all instruments, documents and the Purchase Price (\$ _____ in current, certified funds) necessary to complete the purchase and sale in accordance with this Agreement, or reasonably requested by the Closing Agent. The documents that Seller shall deliver to Buyer at Closing shall include, but not be limited to: (i) a Water Right Grant Deed in the form of the specimen attached to this Agreement as Exhibit B; (ii) a Notice of Change of Ownership confirming Buyer's ownership of the Purchased Right and the assignment of the appropriate portion of the Snake River Basin Adjudication Claim for the Purchased Right, and (iii) any other documents reasonably requested to confirm the conveyance of the Purchased Right.

c. Actions of Closing Agent. The Closing Agent shall close the transaction as soon as it has received all instruments, documents and monies necessary to complete the purchase and sale of the Purchased Right in accordance with this Agreement. Upon Closing, the Closing Agent shall record the Water Right Grant Deed, disburse the funds owing to Seller, and provide all instruments and documents to the Party entitled thereto.

d. Fees and Costs of Closing. The cost of the Closing Agent's Closing fees and recording relating to the transaction contemplated herein shall be equally divided between Seller and Buyer. All other expenses not specifically referenced in this Agreement and incurred by Seller or Buyer with respect to this transaction shall be borne and paid exclusively by the Party incurring the same, without reimbursement.

e. Section 1031 Exchange. Seller and Buyer acknowledge that either Party may wish to structure this transaction as a tax deferred exchange of like-kind property within the meaning of Section 1031 of the Internal Revenue Code of 1986, as amended. Each Party agrees to reasonably cooperate with the other Party to effect such an exchange; provided, however, that (i) the cooperating Party shall not be required to acquire or take title to any exchange property, (ii) the cooperating Party shall not be required to incur any cost, expense or liability whatsoever in connection with the exchange, including, without

limitation, any obligation for the payment of any escrow, title, brokerage or other costs incurred with respect to the exchange, (iii) no substitution of the effectuating Party shall release said Party from any of its obligations, warranties or representations set forth in this Agreement, or from liability for any prior or subsequent default under this Agreement by the effectuating Party, its successors or assigns, which obligations shall continue as the obligations of a principal and not of a surety or guarantor, (iv) the effectuating Party shall be responsible for preparing all additional agreements, documents and escrow instructions (collectively, the "**Exchange Documents**") required by the exchange, at its sole cost and expense, and (v) the effectuating Party shall be responsible for making all determinations as to the legal sufficiency, tax considerations and other considerations relating to the proposed exchange, the Exchange Documents and the transactions contemplated thereby, and the cooperating Party shall in no event be responsible for, or in any way be deemed to warrant or represent any tax or other consequences of the exchange transaction arising by reason of the cooperating Party's performance of the acts required hereby.

5. Transfer And/Or Placement of Purchased Right in State Water Supply Bank.

a. Application to IDWR. It is understood and agreed, by and between the Parties, that following Closing Buyer may file an application for transfer with IDWR, or place the Purchased Right in the State Water Supply Bank. The application for transfer may entail a change to the place of use, nature of use, time of use, and point and means of diversion as Buyer determines; in the alternative, it may entail an application for a new water right permit in which the retirement or other approved use of the Purchased Right will be used for mitigation, or a similar purpose. Alternatively, Buyer may place the Purchased Right in the State Water Supply Bank.

b. Cooperation with Transfer / Water Bank Efforts. At Buyer's request, Seller shall cooperate with Buyer in Buyer's pursuit of any transfer application or placement of the Purchased Right in the State Water Supply Bank, and shall provide Buyer with any information that Seller has concerning the Water Right that Buyer may reasonably request in pursuit of either the transfer or use of the Water Bank. All matters pertaining to said transfer or placement of the Purchased Right in the Water Bank, including preparation of any application and all costs associated with those proceedings, shall be the responsibility of Buyer. Buyer shall reimburse Seller for any attorney or consultant fees Seller incurs as a result of responding to such requests; however, Seller shall be entitled to receive such reimbursement only if Seller provides written demand for it within thirty (30) days after such expenses are billed to Seller from such attorney or consultant. Buyer shall pay such fees within thirty (30) days after receiving a timely demand.

6. Protection of Purchased Right / 2005 Irrigation Season and Thereafter. Seller is authorized to continue to use the Purchased Right on the Water Right's authorized place of use for irrigation purposes during the 2005 irrigation season or any time thereafter until the Closing occurs.

Buyer's Initials: ED AD
Seller's Initials: DM

7. Seller's Representations and Warranties. Seller hereby represents and warrants to Buyer, as of the effective date of this Agreement and again as of the Closing for the Purchased Right, as follows:

- a. Authority. Seller owns the Purchased Right in fee simple. Seller has the full legal right, power and authority to enter into and perform this Agreement.
- b. Good Title. Seller has good and marketable title to the Purchased Right, and Seller shall remove, or cause to be removed, all liens, claims, or encumbrances, whether of record or not, upon or affecting the Purchased Right on or before closing.
- c. Appurtenance. The Purchased Right is appurtenant to and has been beneficially used as the sole water source to irrigate the authorized place of use on Seller's property.
- d. Not Forfeited. To the best of Seller's knowledge, the Purchased Right has not been forfeited or abandoned in whole or in part, has been placed to continual beneficial use on the Seller's property, and has never been subject to a continuous five-year period of non-use except as such non-use may have occurred while the Purchased Right was in an appropriate water bank, claimed in the Snake River Basin Adjudication, or the appurtenant place of use was enrolled in a government annual grain base or long-term crop land set-aside program, or such non-use may have occurred by reason of any other applicable defense set forth in Idaho Code § 42-223 that protected the Purchased Right from forfeiture.
- e. Snake River Basin Adjudication Status. The Seller filed a water right claim for the Purchased Right in the Snake River Basin Adjudication (SRBA), but makes no representations or warranties regarding the outcome of that proceeding as it might affect the Purchased Right. A review of IDWR's electronic records presently reveals that IDWR will recommend to the SRBA District Court that the Water Right should be decreed as claimed by Seller. *See* Exhibit C. IDWR's formal recommendation of the Water Right, however, may change when it is ultimately forwarded to the Court.
- f. Broker. Seller has not engaged or dealt with any broker or finder in connection with the sale of the Purchased Right.
- g. No Other Warranty. Seller makes no other guarantees or warranties as to the Purchased Right, its yield upon transfer, or its transferability. Seller further disclaims any warranty as to the Purchased Right's availability in times of shortage, including any curtailment that may be ordered by IDWR to satisfy other senior ground or surface water rights.

8. Buyer's Representations and Warranties. Buyer hereby represents and warrants to Seller that Buyer has the legal power, right and authority to enter into this Agreement and to perform Buyer's obligations hereunder and has not engaged any broker or finder in connection with the purchase of the Purchased Right.

Buyer's Initials: W AD
Seller's Initials: BR

9. Termination / Remedies

- a. IDWR's Failure to Approve Transfer. Buyer assumes all risk associated with IDWR's failure to approve Buyer's transfer application and/or application to place the Purchased Right in the Water Bank.
- b. Buyer's Termination for Default. Buyer may terminate this Agreement for material default by Seller. In the event of such default, Buyer shall provide a written demand to Seller and provide Seller with thirty (30) days to cure. If Seller fails to cure, Buyer may terminate this Agreement upon written notice to Seller.
- c. Buyer's Remedy on Default. If Seller breaches this Agreement, Buyer's remedy for Seller's default shall be limited to: 1) _____ the total Purchase Price which equals _____.
- d. Seller's Termination for Default. Seller may terminate this Agreement for material default by Buyer. In the event of such default, Seller shall provide a written demand to Buyer and provide Buyer with thirty (30) days to cure.
- e. Seller's Remedy on Default. If Buyer breaches this Agreement, Seller's remedy for Buyer's default shall be limited to: 1) _____ of the total Purchase Price which equals _____).

10. Attorneys' Fees. In any suit, action or appeal therefrom, to enforce this Agreement or any term or provision hereof, or to interpret this Agreement, the prevailing Party shall be entitled to recover all its costs reasonably incurred therein (and on appeal), including reasonable attorneys' fees.

11. Notices. Any notice under this Agreement shall be in writing and be delivered in person, by U.S. Mail, by private courier, or by facsimile. Notice shall be provided to the following:

August 31, 2006

Since Scott King did not include a project map depicting the Cynthia Mueller/Michael Cohen acquired portion of 63-32093, I requested an electronic version of the shapefile. Since all of the shapefiles for the other 4 splits were a paper version attached to their appropriate *Notice of Change in Water Right Ownership* form, I used Scott King's 63-32398 Mueller/Cohen electronic shape as the beginning basis on which to then create the 63-32397, 63-32401, then 63-32400 shapefiles.

Re: Original Notice of Claim to a Water Right No. 63-7194
Renumbered Notice of Claim to a Water Right No. 63-32399

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section

RE: Mitigation Permits – Update to Recommendations Needed

*on mellin 63-7192
63-0144C(x2)*

Date: July 21, 2005

.....

As I previously discussed with you, we recently approved some permits that will be mitigated through rights that have been recommended in the SRBA. I tried to update the "Mellin" right and just messed up the data base so decided that I should not touch rights that are in the recommendation stage of SRBA.

You need to have your staff go into the recommendations and change portions of the irrigation use to mitigation (mitigation is now a use in the drop down boxes in workflow) as shown on the attached permit approvals. I have attached copies of the permits and the instructions that I have been using to update water right records when the mitigation right is not involved in the SRBA. If you want to see how the right is suppose to look after updating you can go into Claim 37-21114 for an example (Kelly Christensen just completed). There was one thing in Kelly's update that is missing and that is that he did not include a comment that identifies which permit is being mitigated (which will be very helpful in the future if someone is looking at that right). You could also reference 72-106J in water right side – I did that one last September and have attached a water right report for your convenience.

If you have questions regarding this, please let me know and I'll try to help you out as best as I can.

Permit to Appropriate Water

NO. 63-32052

7. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as authorized by the following water rights for the purposes and amounts specified below.

Right No.	Use Changed to Mitigation	Mitigation Rate	Mitigation Volume	Mitigation Acres
63-7194	Irrigation	0.05 cfs	12.6 af	2.8

The land that will no longer be irrigated under this right is located within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, S21, Twp. 01N, Rge. 01W.

Prior to the diversion and use of water under this right, the right holder shall demonstrate ownership of the mitigation right to the Department pursuant to Idaho Code Section 42-248. When the ownership change is complete, the official record for the mitigation water right will be changed to show that diversion and use of water is not authorized because the right, or portion thereof, is being dedicated to mitigation purposes. If the specified mitigation right, or portion thereof, is sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this right shall be reduced by the same proportion as the reduction to the mitigation right.

8. Water for the initial filling of the ponds under this right shall be provided through the rental of 16.8 acre feet of water from the State Water Supply Bank or from some other source of water authorized by the Department.

11. Place of use under this right is also known as Tuscany Subdivision.
12. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

Note:
