RE: Evidence of Priority

RESPONSE DEADLINE

FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.

RECOMMENDATION NOTES

From: Vikie Hancock

8/24/00

Regarding: Claim 43-10545

This claim is based upon beneficial use, however a 1900 Posted Notice was used as proof of priority. There is a discrepancy between the PLS location of the springs filed upon under the posted notice statute, and the PLS location of the springs listed in the adjudication claim. The place of use of the claim (10 acres) is included in the place of use of the posted notice (160 acres). There are no maps submitted by the claimant showing the specific place of use or point of diversion in the file.

The PLS location of the springs identified as "Clark Springs" in the posted notice used as proof of priority by claimants Floyd and Sylvia Knight, roughly match a pond or seep indicated on USGS 7.5' quadrangle map *Jim Sage Canyon* in the NESWSW Section 29. There are no springs, or other such features, indicated on the map at the location in NWSESE Section 30 that is listed as point of diversion on claim 43-10545.

IDWR records do not show any water rights or water right claims associated with a point of diversion matching that of "Clark Springs". It appears from aerial photos that the springs, pond or seep is located on property owned by Knights, and that a conduit conveys water south, toward land owned by Knights.

In a phone conversation with Lyle Woodbury, current lessee of the property, I learned that there is irrigation from the springs that correspond with the location of "Clark Springs", and that the water runs year-round. There is also water that springs up in the Almo Creek channel at the north end of Knights property. He was unsure of the exact location, as it is difficult to find them when water is in the Almo Creek channel.

There is nothing in the file to indicate that Mr. Knight recognized the discrepancy in location of the springs, but he does state that the posted notice was included in an Abstract of Title to his property. Since the posted notice does indicate that beneficial use of "Clark Springs" began in 1900, and since 1987 NAPP aerial photography shows conveyance from that same area, I believe that there exists a beneficial use right to the waters from springs in the NESWSW Section 29 for stockwater and for irrigation of 10 acres within the place of use indicated.

Claimant did not submit proof of beneficial use of springs located in SESE section 30. As these springs reportedly lie within the Almo Creek Channel,

claimant's right to Almo Creek would seem to give them a right to use of these springs.
