RE: Snake River Basin Adjudication
Case No. 39576 and Subcase Nos. 36-13320 & 57-02203A

Dear Mr. Shaff:

In response to your letter of March 24, 1994, please modify your records to reflect that Terry T. Uhling and Gray Young are co-counsel of record in the above referenced matter. Mr. Uhling and Mr. Young are in-house counsel for J. R. Simplot Company, and, therefore, would be apprised of all matters relating to the claims of Simplot and its related company subsidiaries and affiliates as a matter of course. The attached Exhibit A does represent all water rights we are aware of at this time to which the Notice applies.

For your information, I have also enclosed a copy of a letter and attached Notice of Withdrawal from Diana Delaney, Chief Deputy Clerk of the Snake River Basin Adjudication Clerk's Office, which indicates that Bruce Belzer never was recorded as being counsel for J. R. Simplot Company.

If you have any questions, feel free to call me at 389-7201.

RE: Appearance of J. R. Simplot in Subcase Nos. 36-13320 and 57-02203A

Dear Mr. Young and Mr. Uhling:

Enclosed I am returning your *Notice of Withdrawal of Counsel* which was received by the court on April 5, 1994, and which stated that Bruce L. Belzer was withdrawing as counsel for J. R. Simplot Company in the above-referenced subcases.

After a search of the files for the above subcase, I am unable to locate any appearance by Bruce L. Belzer. However, on January 28, 1994, a *Notice and Entry of Appearance* was filed on behalf of J. R. Simplot in these subcases. That notice listed Gray Young and Terry Uhling as counsel for J. R. Simplot.

Sincerely,

Diana R. Delaney

Dear Bruce:

RE: Grandview Farm 3, Water Right 02-0015

This letter is in response to your letter of February 11, 1983 regarding the Grandview Farm 3.

I see there should probably be two claims filed to cover the water rights for Farm 3. The first is the water right already assigned the number 02-0015. The filing fee for this right would be \$45.

I have to retract my statement in the September 17, 1982 letter with respect to developing a water right on the public domain. This agency recommends a water right developed on the public domain adjacent to private lands in the name of the water right claimant owning the private lands. I would suggest Simplot Industries claim the post-1968 water right for 360 acres. This would include the 30 acres of BLM ground. As to the amount of water for this second water right, we may be splitting hairs. The filing fee for 5.61 cfs is \$145, the same as 6.0 cfs. The filing fee for 6.03 cfs is \$165. The later amount is the figure set out on the land list attachment to my September 17, 1982 letter. You can see the difference between 6.0 and 6.03 is minor in relation to the total diversion rate. However, if Simplot Industries believes it has and does, in fact, divert 13.04 cfs or more, it would probably want to ignore this minor difference and claim 6.03 for the post-1968 diversion.

Thank you for your cooperation and attention to this matter.

RE: Grandview Farm 3, Water Right 02-0015
Grandview -- Rawlings Place

Dear Don:

This letter is in response to your September 17, 1982, letter regarding Farm 3 and your October 15, 1982, letter regarding the Rawlings place. Please accept my apologies for the delay.

02-2166
As regards Farm 3, the time span has muddled my understanding somewhat, so I want to set forth my understanding before sending in the application. I agree with your analysis that 661 acres are under irrigation. Of this, apparently 30 acres are BLM ground. Assuming a maximum legal diversion/acre, the total diversion we are entitled to, excluding the 30 acres BLM, should be 12.62 cfs. We are presently licensed in the amount of 7.01 cfs. Therefore, our claim should be in the amount of 5.61 cfs. Does your computation confirm these figures? If so, what is our necessary filing fee?

As regards the Rawlings place, you were correct in your assumption that I would have to look elsewhere. I'll be in touch as soon as I've come up with an answer. In the meantime, thanks for your continuing assistance.

Sincerely,

Dear Mr. Belzer:

RE: Farm 3, Water Right No. 02-0015

I have reviewed the aerial photo you provided with your letter of August 26, 1982, and compared it to our materials. I can find no appreciable difference.

A copy of our map with a smaller scale is enclosed. The underlined numbers are the total number of acres in a given 40-acre tract. The red lines delineate the non-irrigated lands. The blue lines set out the non-Simplot lands irrigated in the Farm 3 operation. Also enclosed is a land list table that may prove helpful in analyzing the rights in composite.

The first hurdle to clear would be the total number of available land within the tracts in the Farm 3 operation including roads. Assuming the land surveys are correct, there are 13 40-acre tracts plus 3 government lots of 44 acres each in Section 18 for a total of 652 acres. Adding the 30 acres of BLM ground irrigated in the operation brings the available acreage to 682. This figure is within reasonable accuracy of the 681 acres described in your letter. You can see by comparing your photo and the enclosed map the same non-irrigated areas are depicted. Without regard for land ownership, 661 acres are apparently irrigated by the Farm 3 operation.

By studying the land list table, I think you can see how the water rights tie into one another and fit together as a whole. The table may not be as straightforward as I presume, so please accept any apology that is due and give me a call to explain my methods.

The BLM ground has been included in the land list. The corporation could claim the water right for this ground, but if a water right is appurtenant to the Public Domain not under a permit/lease arrangement, the claimed water

right will be recommended in the name of the agency. As you know a water right cannot be developed in trespass.

A blank claim form has been enclosed. You have a couple of options in filing the claim now: lands claimed for place of use, amount of water and priority date. You may not want to claim a place of use for the BLM ground. The diversion capacity of the system may not be as great as 13.04 cfs. If you claim more than 6 cfs on the post-1968 claim, the fee is \$165. A measurement of the system by this agency's staff will need to verify any claimed diversions. A past recorded measurement by a professional engineer could substitute for this requirement. I'll let you supply the date of priority.

Thank you for your cooperation and patience. Let me know if I can help you complete this task.

Dear Mr. Shaff:

Reference is made to your letter to Ron Graves of this department of June 3, 1982, as well as my phone conversation with you of July 22, 1982.

It is my understanding that a 1968 field examination disclosed 7.01 cfs being used for 594 acres. A later examination by your Department revealed an additional 33 acres under irrigation. A check with our people in the field confirmed that we had increased pumping capacity and acreage in 1969. However, our records show a total of 681.40 acres under irrigation on Grandview farm 3. I have enclosed an aerial of Township 6 South, Range 5 East, Section 18. According to this aerial it appears as if all of SW 1/4 SW 1/4 is under irrigation, as opposed to the 12 acres indicated on the Notice of Claim you provided us with. This would still total only approximately 655 acres instead of 681. Can you check this aerial against your records to determine if the remaining acres are in Section 18?

I would appreciate any information you may be able to come up with in regard to this. If I may be of any assistance, please call. Thank you.

Re: Farm 3, 02-2166

Dear Mr. Graves:

A review of the water rights for this unit of Simplot farms has begun, and it has been found not all of the land has been claimed. The enclosed claim forms would take care of this requirement.

If you will note on 02-0015, the remark indicates there was a water right permit for this land. Apparently water was used on this land in 1964. The permit was cancelled in 1969 after the predecessor/permit holder failed to pay the fees for the license. A field examination in March, 1968, for this permit 30089/02-2165 and 30090/02-2166 found a diversion rate of 7.01 cfs. Right 02-2166 was licensed for 5.7 cfs.

A 1974 aerial photograph shows more land was irrigated than the 594 acres in 1968. Presumably more water has also been diverted. The second unnumbered claim would take care of this water and the additional 33 acres. The present diversion rate may not be a full miners inch per acre for the 333 as the two claims now show. You may wish to change the claim(s).

Without any changes, the filing fees for these claims are \$210, 02-0015 (\$65) and 02- , (\$145). If you have questions about this matter, please contact me.
