Don Brandt attached claims have a total
of 94.82 CFS less permits 02-2363 & 02-7363 of
4.66 CFS equal 90.16 CFS claimed in 1983. On lic
02-2194 shows a total diversion rate of
88.07 CFS, no indication in S.O file on how
measurement was arrived at or method of
calculations appears to be excessive.

Skyl Chapman did a measurement of sparkling
meters on the system & arrived at 67.28 CFS.
Brandt agency sent a letter to this office showing
measurement taken by John Hower - 68.36 CFS
measurement made in 1983. This is the figure
it'll used until a better figure is arrived at.
90% of the measurement made on this system
are from sparkling meter out of the canal or
by counting the sprinkler heads.

SUBJECT: CHANGE OF OWNERSHIP

Charles DeGroot came into my office today to perform a change of ownership. He is the process of purchasing all the lands in the NE ¼ of S20, so I told him that it would be best to hold off the change of ownership until this land is purchased so we don't have to split the water rights. Please note each of these rights are currently owned by Mr. Teigs, a change of ownership will come in first of July.
