Dear Sir,

IN Response To your letter of
SEPT. 26, 2012 Regarding Claim 917410.

I agree with your surface area
findings of .1 A or 4356 SF. The pond
depth is approx. 3 FT. This would
hold only 13,068 CF. or 97,748 Gal.
The flow of the spring is adequate
to fill the pond in 52 days or 7
times a year 684,240 Gal. or
just over 2 AFY.

I realize that 30 head of cattle
don't require that much water
but this gives us some measure
of fire protection also.
Respectfully

Ralph Banderob
