4128 ACRES TOTAL

Upon notice of the Director, the department must be notified in writing if a change occurs in the location of irrigated land, prior to diverting the water and must be provided a map showing the location of acres to be irrigated within 40 acre tracts.

A second crop cannot be grown and/or harvested from the new lands during the same growing season that a crop has been grown on the old land. "Crop", in this case, also includes irrigated pasture.

The rights listed below are limited to the irrigation of a combined total of 800 acres in a single irrigation season within the 4,128 land base. Combined Right Nos.: 2-2260, 2-7019B, 2-7019D, 2-7022B, 2-7023B, and 2-7102B.

Once water is diverted on new lands, water cannot be used on the previously irrigated lands during the remainder of the irrigation season.

This right is limited to the irrigation of 300 acres within the place of use described above in a single irrigation season.

If the 4,128 acres are split into multiple ownerships, the water right shall be appurtenant to the 300 acres listed in the last Notice submitted to the Department, if such is provided from prior notice of the Director, unless otherwise provided for in the instrument of conveyance.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

~~The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.~~

The following rights are also diverted through point of diversion described above: 2-7019B, 2-7019D, 2-7022B, 2-7023B, 2-7102B, 2-2260

THIS RIGHT WHEN COMBINED WITH ALL OTHER RIGHTS SHALL PROVIDE NO MORE THAN .02 CFS PER ACRE NOR MORE THAN 4.5 AFA PER ACRE FOR THE LANDS ABOVE.

4128 ACRES TOTAL

The rights listed below are limited to the irrigation of a combined total of 800 acres in a single irrigation season within the 4,128 land base. Combined Right Nos.: 2-2260, 2-7019B, 2-7019D, 2-7022B, 2-7023B, and 2-7102B.

This right is limited to the irrigation of 300 acres within the place of use described above in a single irrigation season.

After specific notification by the Department upon notice of the Director, the department shall must be inform notified in writing if a change will occurs in the location of irrigated land, prior to diverting the water and shall must be provided a map showing the location of acres to be irrigated within 40 acre tracts.

A second crop cannot be grown and/or harvested from the new lands during the same growing season that a crop has been grown on the old land. "Crop", in this case, also includes irrigated pasture.

~~The rights listed below are limited to the irrigation of a combined total of 800 acres in a single irrigation season within the 4,128 land base. Combined Right Nos.: 2-2260, 2-7019B, 2-7019D, 2-7022B, 2-7023B, and 2-7102B.~~

Once water is diverted on new lands, water cannot be used on the previously irrigated lands during the remainder of the irrigation season.

~~This right is limited to the irrigation of 300 acres within the place of use described above in a single irrigation season.~~

Comment [DLH3]: This remark should be the first remark in this section as it establishes that this is a permissible place of use situation.

Comment [d4]: IDWR will attempt to produce a document in this way for the SF5.

Formatted: Indent: Left: 1.15"

Comment [d5]: IDWR, other than the notice prepositional phrase, wants the language of the transfer.

Comment [d6]: IDWR wants to keep the transfer condition making unambiguous to a successor the water cannot rotate in an irrigation season.

Comment [DLH7]: The two remarks regarding number of irrigated acres each season were moved to be the first two remarks in the POU section as they establish that this is a permissible place of use situation.

Comment [DLH8]: The remark regarding use of water on previously irrigated lands during an irrigation season seems to conflict and be redundant with the with the "300 acres" and "second crop" remarks in this section and has been deleted. The "second crop" remark appears to be redundant with the remark limiting irrigation to 300 acres in an irrigation season and also has been deleted.

Comment [d9R8]: IDWR wants the language from the transfer making unambiguous only one set of 300 acres is irrigated in any one season.

If the 4,128 acres are split into multiple ownerships, the water right shall be appurtenant to the 300 acres listed in the last ~~Notice~~ notice submitted to the Department, ~~if such Notice has been submitted to the Department is provided from prior notice of the Director~~, unless otherwise provided for in the instrument of conveyance.

Formatted: Indent: Left: 1.15"

Comment [d10]: IDWR wants the language of the transfer to avoid IDWR at some point in the future caught in arbitrating water rights for property conveyed without specifying the appurtenant water rights.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

After specific notification by the Department, the right holder shall install a suitable measuring device to record the total volume diverted or shall enter into an agreement with the Department to determine the amount volume of water diverted from power records and shall annually report the information volume diverted to the Department.

Comment [d11]: IDWR wants to emphasize the issue is volume not rate.

Formatted: Indent: Left: 1.17"

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

Failure to comply with the conditions ~~of this transfer~~ is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

~~The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.~~

The following rights are also diverted through point of diversion described above: 2-7019B, 2-7019D, 2-7022B, 2-7023B, 2-7102B, 2-2260

THIS RIGHT WHEN COMBINED WITH ALL OTHER RIGHTS SHALL PROVIDE NO MORE THAN .02 CFS PER ACRE NOR MORE THAN 4.5 AFA PER ACRE FOR THE LANDS ABOVE.

4128 ACRES TOTAL

The rights listed below are limited to the irrigation of a combined total of 800 acres in a single irrigation season within the 4,128 land base. Combined Right Nos.: 2-2260, 2-7019B, 2-7019D, 2-7022B, 2-7023B, and 2-7102B.

This right is limited to the irrigation of 300 acres within the place of use described above in a single irrigation season.

~~After specific notification by the Department upon notice of the Director, the department shall must be informed in writing if a change occurs in the location of irrigated land, prior to diverting the water and shall must be provided a map showing the location of acres to be irrigated within 40 acre tracts.~~

~~A second crop cannot be grown and/or harvested from the new lands during the same growing season that a crop has been grown on the old land. "Crop", in this case, also includes irrigated pasture.~~

~~The rights listed below are limited to the irrigation of a combined total of 800 acres in a single irrigation season within the 4,128 land base. Combined Right Nos.: 2-2260, 2-7019B, 2-7019D, 2-7022B, 2-7023B, and 2-7102B.~~

~~Once water is diverted on new lands, water cannot be used on the previously irrigated lands during the remainder of the irrigation season.~~

~~This right is limited to the irrigation of 300 acres within the place of use described above in a single irrigation season.~~

Comment [DLH2]: This remark should be the first remark in this section as it establishes that this is a permissible place of use situation.

Formatted: Indent: Left: 1.15"

Comment [DLH3]: The two remarks regarding number of irrigated acres each season were moved to be the first two remarks in the POU section as they establish that this is a permissible place of use situation.

Comment [DLH4]: The remark regarding use of water on previously irrigated lands during an irrigation season seems to conflict and be redundant with the with the "300 acres" and "second crop" remarks in this section and has been deleted. The "second crop" remark appears to be redundant with the remark limiting irrigation to 300 acres in an irrigation season and also has been deleted.
