

MEMORANDUM

DATE: December 12, 2005

TO: Water Right File 02-2345

FROM: Shelley W. Keen *SWK*

RE: Place of Use

Last week I met with Terry Ketterling and Jack Post of the South Elmore Irrigation Company to discuss the place of use for Permit 02-2345. IDWR issued the permit to South Elmore in 1965 for the irrigation of 320 acres in the E½ of Section 22, T5N, R6E, B.M. Because South Elmore has several other water rights that have changed over time, it was difficult for IDWR field examiners and reviewers in the 1980s and 1990s to discern just how the beneficial use under this permit was established, or even if South Elmore had established any beneficial use at all in connection with this permit. Mr. Ketterling, Mr. Post, and I met to determine once-and-for-all if IDWR should issue a license in connection with Permit 02-2345.

In 1996 a water right transfer changed the authorized places of use for Rights 02-2269 and 02-2367 to include the permitted place of use for Permit 02-2345. In the Snake River Basin Adjudication (SRBA), IDWR recommended that the places of use for Rights 02-2269 and 02-2367 mostly match the changes authorized by the transfer, except that small exclusions were made in some areas so that the acres could be moved to land in the SW¼ of Section 15, T5N, R6E, and the NW¼ of Section 22, T5N, R6E, which aerial photography showed had been irrigated with water diverted by South Elmore prior to the commencement of the SRBA in 1987. The changes to Rights 02-2269 and 02-2367 resulting from the transfer and the SRBA recommendations made it appear, at first glance, that there were no additional lands on which Permit 02-2345 should be licensed.

During our meeting, however, Mr. Ketterling and Mr. Post noted that some fields in the SW¼ of Section 22, T5N, R6E, and the N½S½ of Section 16, T5N, R6E, appeared to have been irrigated by 1987, but were not covered by a water right. They stated that they hoped those fields could be covered by a water right. I explained that irrigation of those fields could not be attributed to Permit 02-2345 because proof of beneficial use for Permit 02-2345 had been submitted in January of 1976 and the fields in the SW¼ of Section 22 and the N½S½ of Section 16 did not appear irrigated in the 1975 aerial photography. We also noticed, however, that the land in the SW¼ of Section 15 and the NW¼ of Section 22 was irrigated in 1975.

Based on our review of the 1975 and 1987 aerial imagery, Mr. Ketterling, Mr. Post, and I thought that if the SRBA recommendations for Rights 02-2269 and 02-2367 could be adjusted to cover the lands in the SW¼ of Section 22 and the N½S½ of Section 16 that were irrigated by 1987 apparently without a water right, Permit 02-2345 could be licensed on the land in the SW¼ of Section 15 and the NW¼ of Section 22 that was irrigated by 1975. I checked to see if there had once been water rights on the land in the SW¼ of Section 22 and the N½S½ of Section 16 that had been transferred away in the past. Concluding that there had not been, I agreed to suggest this option to the Adjudication Bureau reviewer and the licensing reviewer.

Conversation with Steve Hannula, ERO Resources.

Per my preliminary recommendation for 2-2367 which excluded 160 acres on SE $\frac{1}{4}$ Sec 24, and subsequently affects the amended claim for 2-2269 — accomplished transfer which claimed to move 17.6 acres from SE Sec 24 to other lands, Steve asked for modification. He requests that NENE and SENE Sec 16 SS 6E be modified from 40 acres per QQ to 31.2 acres per QQ to make up for 17.6. Recommendation modified.

Steve couldn't find Sheri's letter for 2-7263; I faxed claim and letter to him at 373-7985.

Steve advised that South Elmore I.C. is no longer interested in pursuing a digital boundary at this time. I advised that 2-2367 is problematic. The 160 acres

RE: South Elmore Irrigation Company

Dear Cynthia:

Enclosed is an Amended Notice of Claim to A Water Right for 02-2269 and 02-2367 in the name of South Elmore Irrigation Company. The purpose of these amended claims is to define the place of use to include lands that have been irrigated with SEIC water since before 1987 but were not correctly identified with the existing water rights. These amended claims do not add more irrigated acres or claim more water than the licenses allow. The distribution of the irrigated lands is shown on the enclosed map.

The goal of these amended claims is to settle up any remaining issues surrounding the 2002 rental of water from high-lift pumpers from the Snake River to the Water Supply Bank (Memorandum of Agreement (MOA) No. 1425-02-MA-10-3460). Specifically, this letter addresses questions of eligibility regarding the Squaw Creek Farms LLC portion.

Also, an Affidavit from the former president of the SEIC is included to state that SEIC and Snake River water was used to historically irrigate the lands belonging to Squaw Creek Farms LLC.

If you have any questions, please call.

AFFIDAVIT OF JOHN WISSEL,

former President of South Elmore Irrigation Company

I, John Wissel, was president of South Elmore Irrigation Company (SEIC) from the late-1970s to the mid-1980s. As president, I was familiar with the daily operations and use of water by the irrigation company during that time period. The following is my statement regarding water delivery to the land suitable for growing crops in the SW Section 15 and all of the land in the west half of Section 22 T3S, R6E.

These lands were irrigated by South Elmore Irrigation Company water. The water delivered was tail water from the SEIC pumping system. This tail water was generally available for crops in most years. There were some years when water ran short or acres were shifted around so a full allotment of SEIC water was not or could not be delivered.

SEIC water is the only source of water available to these lands. Crops grown on these lands were irrigated by SEIC water or not at all.

The information contained in this statement is true to the best of my knowledge.

Dear Mr. Wissel:

During the review of the Adjudication claims (listed above) by Sherl Chapman for the South Elmore County Irrigation Company, an error was noted in the initial payment of fees.

Initial payment of fees should be at least 20% of total payment due with four additional payments due each of the next four consecutive years with a 10% interest charged on the principle and interest balance due. The total acreage indicated in your seven licenses is 9,077, which indicates a balance of \$9,077 in acreage fees and \$350 in claims fees due in the SRBA totaling \$9,427. However, the South Elmore Irrigation Company paid \$70 in the Snake River 2 Adjudication, which is credited towards the SRBA fees for a balance due of \$9,357. Therefore, your initial payment in the SRBA should have been $\$9,357 \times (.20) = \$1,871.40$. As you have submitted \$1,813.80, you must submit at least an additional \$57.60.

Please submit these additional fees by January 6, 1990. If you have any questions or concerns please do not hesitate to contact me.

RE: Transfer Review

After reviewing this transfer, it was found that the SRBA claims did not match the licenses. The water rights involve South Elmore Irrigation Co. service area and use Snake River water as their source. Rather than hold up this transfer pending SRBA review, only the acres specific to this transfer were reviewed and verified so that processing could proceed.

The 100 acres in sections 14 & 23 that the water is being transferred from are currently in CRP and will not be brought back into production. 17 acres are listed for transfer from the N1/2NW, where 71 acres have been claimed and 67 acres have been licensed. This mis-match is N/A since the 17 to be transferred from this tract is less than the both the claimed and licensed acres. The tracts where the other 83 acres are being transferred from in sec 23 were claimed as licensed. CFSA in Mountain Home provided proof of previous irrigation of the 100 acres prior to CRP enrollment. The 100 acres in section 15, where the water is being transferred to, have not been claimed or licensed with Snake River water rights.

Based on the above information, this transfer should proceed in processing.
