MEMORANDUM

To: Jeff Peppersack
From: Scott King - *SK*
Date: December 8, 2003

Subject: 2-2345

The above referenced right is an old permit that has not yet been licensed. I have reviewed the rights claimed by South Elmore Irrigation Company and have prepared recommendations for the director's report. These other rights include 2-2210, 2-2269, 2-2367, 2-7255, 2-7263, and 2-7317. This memo briefly outlines my findings for 2-2345, and makes a plea to complete processing of this permit.

The permitted place of use included 320 acres in the E1/2 of Section 22, T05S R06E. This same place of use is included in licenses 2-2269 & 2-2367 and these licenses completely cover the developed place of use. The company has since submitted amended claims for 2-2269 & 2-2367 shifting some of the acres in Section 22 to other lands, and my recommendations address this change as an accomplished transfer. These licenses remain claimed in full.

The licensing examiner in a 1984 exam for 2-2345 found 160 acres in the W1/2 of E1/2 of Section 22. The SRBA claim included only the 160 acres found during the licensing exam. Per a 1985 memo to file, it appears the company disagreed with our findings and requested that we hold licensing as they were going to submit additional information. Nothing additional was submitted in a timely manner. The only additional information that I see is a 1995 affidavit from Terry Ketterling stating that the actual developed place of use for this permit included the SW1/4 Section 14, and SE1/4 Section 10, T5S, R6E. This location does not match the location submitted in the proof of beneficial use. In addition, these other lands are licensed in 2-2269.

Proof of beneficial use was due 1/21/1976. If you require additional aerial photos for investigation into this matter, the following are identified:

- August 1974 black & white orthophotograph located in adjudication and used for the 'little' Snake River adjudication
- U2 color infrared imagery from 1975, 1977, and 1980 located upstairs near the GIS area.

In my review, it appears that there was no additional development by permit 2-2345 over the existing rights, although the permit may offer a little earlier priority date for the same lands developed in 2-2367. The company has been given ample opportunity to offer additional information. Please resume processing of this permit.

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 02-2345 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 3.2 cfs Source: Snake River

The maximum quantity diverted shall not exceed 300.0 acre feet
per year.

Point(s) of diversion: Gov. Lot 2(NE $\frac{1}{4}$ SW $\frac{1}{4}$), Sec. 28, Twp. 5S, Rge. 7E,
Elmore County

Beneficial Use: Irrigation of 160 acres within the W $\frac{1}{2}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 22,
Twp. 5S, Rge. 6E

Priority date established: January 15, 1965

Conditions (if any): This right when combined with Right Nos. 02-2210,
02-2367, 02-7255 and 02-7263 shall not exceed 131.14 cfs.

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

RE: Place of Use

Last week I met with Terry Ketterling and Jack Post of the South Elmore Irrigation Company to discuss the place of use for Permit 02-2345. IDWR issued the permit to South Elmore in 1965 for the irrigation of 320 acres in the E½ of Section 22, T5N, R6E, B.M. Because South Elmore has several other water rights that have changed over time, it was difficult for IDWR field examiners and reviewers in the 1980s and 1990s to discern just how the beneficial use under this permit was established, or even if South Elmore had established any beneficial use at all in connection with this permit. Mr. Ketterling, Mr. Post, and I met to determine once-and-for-all if IDWR should issue at license in connection with Permit 02-2345.

In 1996 a water right transfer changed the authorized places of use for Rights 02-2269 and 02-2367 to include the permitted place of use for Permit 02-2345. In the Snake River Basin Adjudication (SRBA), IDWR recommended that the places of use for Rights 02-2269 and 02-2367 mostly match the changes authorized by the transfer, except that small exclusions were made in some areas so that the acres could be moved to land in the SW¼ of Section 15, T5N, R6E, and the NW¼ of Section 22, T5N, R6E, which aerial photography showed had been irrigated with water diverted by South Elmore prior to the commencement of the SRBA in 1987. The changes to Rights 02-2269 and 02-2367 resulting from the transfer and the SRBA recommendations made it appear, at first glance, that there were no additional lands on which Permit 02-2345 should be licensed.

During our meeting, however, Mr. Ketterling and Mr. Post noted that some fields in the SW¼ of Section 22, T5N, R6E, and the N½S½ of Section 16, T5N, R6E, appeared to have been irrigated by 1987, but were not covered by a water right. They stated that they hoped those fields could be covered by a water right. I explained that irrigation of those fields could not be attributed to Permit 02-2345 because proof of beneficial use for Permit 02-2345 had been submitted in January of 1976 and the fields in the SW¼ of Section 22 and the N½S½ of Section 16 did not appear irrigated in the 1975 aerial photography. We also noticed, however, that the land in the SW¼ of Section 15 and the NW¼ of Section 22 was irrigated in 1975.

Based on our review of the 1975 and 1987 aerial imagery, Mr. Ketterling, Mr. Post, and I thought that if the SRBA recommendations for Rights 02-2269 and 02-2367 could be adjusted to cover the lands in the SW¼ of Section 22 and the N½S½ of Section 16 that were irrigated by 1987 apparently without a water right, Permit 02-2345 could be licensed on the land in the SW¼ of Section 15 and the NW¼ of Section 22 that was irrigated by 1975. I checked to see if there had once been water rights on the land in the SW¼ of Section 22 and the N½S½ of Section 16 that had been transferred away in the past. Concluding that there had not been, I agreed to suggest this option to the Adjudication Bureau reviewer and the licensing reviewer.

RE: Place of Use

Last week I met with Terry Ketterling and Jack Post of the South Elmore Irrigation Company to discuss the place of use for Permit 02-2345. IDWR issued the permit to South Elmore in 1965 for the irrigation of 320 acres in the E½ of Section 22, T5N, R6E, B.M. Because South Elmore has several other water rights that have changed over time, it was difficult for IDWR field examiners and reviewers in the 1980s and 1990s to discern just how the beneficial use under this permit was established, or even if South Elmore had established any beneficial use at all in connection with this permit. Mr. Ketterling, Mr. Post, and I met to determine once-and-for-all if IDWR should issue at license in connection with Permit 02-2345.

In 1996 a water right transfer changed the authorized places of use for Rights 02-2269 and 02-2367 to include the permitted place of use for Permit 02-2345. In the Snake River Basin Adjudication (SRBA), IDWR recommended that the places of use for Rights 02-2269 and 02-2367 mostly match the changes authorized by the transfer, except that small exclusions were made in some areas so that the acres could be moved to land in the SW¼ of Section 15, T5N, R6E, and the NW¼ of Section 22, T5N, R6E, which aerial photography showed had been irrigated with water diverted by South Elmore prior to the commencement of the SRBA in 1987. The changes to Rights 02-2269 and 02-2367 resulting from the transfer and the SRBA recommendations made it appear, at first glance, that there were no additional lands on which Permit 02-2345 should be licensed.

During our meeting, however, Mr. Ketterling and Mr. Post noted that some fields in the SW¼ of Section 22, T5N, R6E, and the N½S½ of Section 16, T5N, R6E, appeared to have been irrigated by 1987, but were not covered by a water right. They stated that they hoped those fields could be covered by a water right. I explained that irrigation of those fields could not be attributed to Permit 02-2345 because proof of beneficial use for Permit 02-2345 had been submitted in January of 1976 and the fields in the SW¼ of Section 22 and the N½S½ of Section 16 did not appear irrigated in the 1975 aerial photography. We also noticed, however, that the land in the SW¼ of Section 15 and the NW¼ of Section 22 was irrigated in 1975.

Based on our review of the 1975 and 1987 aerial imagery, Mr. Ketterling, Mr. Post, and I thought that if the SRBA recommendations for Rights 02-2269 and 02-2367 could be adjusted to cover the lands in the SW¼ of Section 22 and the N½S½ of Section 16 that were irrigated by 1987 apparently without a water right, Permit 02-2345 could be licensed on the land in the SW¼ of Section 15 and the NW¼ of Section 22 that was irrigated by 1975. I checked to see if there had once been water rights on the land in the SW¼ of Section 22 and the N½S½ of Section 16 that had been transferred away in the past. Concluding that there had not been, I agreed to suggest this option to the Adjudication Bureau reviewer and the licensing reviewer.

MEMORANDUM

To: Jeff Peppersack
From: Scott King - *SK*
Date: December 8, 2003

Subject: 2-2345

The above referenced right is an old permit that has not yet been licensed. I have reviewed the rights claimed by South Elmore Irrigation Company and have prepared recommendations for the director's report. These other rights include 2-2210, 2-2269, 2-2367, 2-7255, 2-7263, and 2-7317. This memo briefly outlines my findings for 2-2345, and makes a plea to complete processing of this permit.

The permitted place of use included 320 acres in the E1/2 of Section 22, T05S R06E. This same place of use is included in licenses 2-2269 & 2-2367 and these licenses completely cover the developed place of use. The company has since submitted amended claims for 2-2269 & 2-2367 shifting some of the acres in Section 22 to other lands, and my recommendations address this change as an accomplished transfer. These licenses remain claimed in full.

The licensing examiner in a 1984 exam for 2-2345 found 160 acres in the W1/2 of E1/2 of Section 22. The SRBA claim included only the 160 acres found during the licensing exam. Per a 1985 memo to file, it appears the company disagreed with our findings and requested that we hold licensing as they were going to submit additional information. Nothing additional was submitted in a timely manner. The only additional information that I see is a 1995 affidavit from Terry Ketterling stating that the actual developed place of use for this permit included the SW1/4 Section 14, and SE1/4 Section 10, T5S, R6E. This location does not match the location submitted in the proof of beneficial use. In addition, these other lands are licensed in 2-2269.

Proof of beneficial use was due 1/21/1976. If you require additional aerial photos for investigation into this matter, the following are identified:

- August 1974 black & white orthophotograph located in adjudication and used for the 'little' Snake River adjudication
- U2 color infrared imagery from 1975, 1977, and 1980 located upstairs near the GIS area.

In my review, it appears that there was no additional development by permit 2-2345 over the existing rights, although the permit may offer a little earlier priority date for the same lands developed in 2-2367. The company has been given ample opportunity to offer additional information. Please resume processing of this permit.

AFFIDAVIT

I, Terry Ketterling, President, South Elmore Irrigation Company, do hereby affirm that the water and facilities developed under authorization of permit #02-02345 has been utilized on 160 acres in the SE/4, Section 10, and 160 acres in the SW/4, Section 14, T5S, R7E, since approximately 1966 in a more or less continuous manner since that time. The original permitted land was not irrigated under this permit since it already had a full water supply under an existing water right and there was no need to duplicate the irrigation of this property. Unfortunately, the permit was not amended to reflect the actual place of use prior to the proof of beneficial use examination. South Elmore Irrigation Company respectfully requests that the permit be licensed in accordance with the above described place of use.

Dear Ms. Walker:

I am writing to you as the attorney for South Elmore Irrigation Co. regarding the above permits. I received a letter from you to South Elmore Irrigation Co. dated May 31, 1985. The letter notifies us that we have fifteen days within which to forward the amendments to you. Pursuant to our telephone conversation on June 11, 1985, it is my understanding that the Department will allow us until the end of the month within which to provide you with this information.

If that is not correct, please let me know at once.

Sincerely yours,

A02-07317--Elmore County.

Dear Mr. Wissel:

During the review of the Adjudication claims (listed above) by Sherl Chapman for the South Elmore County Irrigation Company, an error was noted in the initial payment of fees.

Initial payment of fees should be at least 20% of total payment due with four additional payments due each of the next four consecutive years with a 10% interest charged on the principle and interest balance due. The total acreage indicated in your seven licenses is 9,077, which indicates a balance of \$9,077 in acreage fees and \$350 in claims fees due in the SRBA totaling \$9,427. However, the South Elmore Irrigation Company paid \$70 in the Snake River 2 Adjudication, which is credited towards the SRBA fees for a balance due of \$9,357. Therefore, your initial payment in the SRBA should have been $\$9,357 \times (.20) = \$1,871.40$. As you have submitted \$1,813.80, you must submit at least an additional \$57.60.

Please submit these additional fees by January 6, 1990. If you have any questions or concerns please do not hesitate to contact me.

Regards,

Bruce A. Schuld
