RE: Snake River Basin Adjudication (SRBA)
Notice of Claim #A43-00387
Identification Number Change

Dear Mr. Ward:

The Identification Number of your Notice of Claim to a Water Right has been changed from A43-00387 to A43-10823. The change in numbers has been done to better reflect the fact that your Notice of Claim combined Decreed rights 43-00373, 43-00374, 43-00387, 43-00388, 43-00389 and 43-00390. This change does not affect your claim in any other way.

Enclosed is a computer-generated copy of your claim with the new Identification Number. Refer to this Identification Number in any future inquiries or correspondence.

Please do not hesitate to contact this office, if you have any questions.

Sincerely,

Jeanie Robertson
Records Clerk

Identify water right(s) for which extension is requested

State reason(s) why an extension of time is requested:

This attorney waited to examine the claims until the Dept. set up its office in Cassia County. I have attempted to stop in to work on claims, but have been unable to find a free assistant. I have also attempted to schedule an appointment for help but now discover that there is no free time available. I have set up all day meeting at the Department's Twin Falls office on June 20, 1989 to review the above claims.

Claimant requests an extension to June 27, 1989.

PLEASE REVIEW THE ATTACHED SUPPORTING DOCUMENTS. THIS REQUEST IS NOT FOR A REFUND OF MONEY BUT TO CREDIT THEIR A/R AND REDUCE THE BALANCE DUE. WHEN THAT ISSUE IS RESOLVED THEY HAVE SOME CORRECTIONS TO MAKE ON THE P/U. SEE MAP #2 FOR THE CHANGES. THIS WOULD ADD AMENDMENT FEES OF \$120.00. THE FINAL TOTAL THAT WOULD BE DUE WITH THE OVERPAYMENT CREDIT AND AMENDMENT FEES WOULD BE \$417.00 WITH INTEREST DUE ON THE \$297.73 AT THE TIME OF PAYMENT.

PLEASE LET ME KNOW IF YOU NEED FURTHER INFORMATION AND/OR THE RESULTS OF YOUR REVIEW. AS SOON AS THE OVERPAYMENT ISSUE IS SETTLED I NEED TO MAKE THE REQUESTED AMENDMENTS FOR ALMO WATER COMPANY AND SEND THE CLAIMS TO BE SIGNED, NOTARIZED AND RETURNED TO THE FILE. THE FINAL PAYOFF WOULD BE MADE AT THIS TIME ALSO.

THANK YOU.

Department of Water Resources

ON FEB. 6, 1990 DOUG WARD, PRESIDENT OF ALMO WATER COMPANY, CAME TO ME TO REQUEST A REFUND CREDIT TO REDUCE THE AMOUNT OF FEES SHOWN ON AR/NO. S000042. I RAN THE PLACE OF USE $\frac{1}{4}$ - $\frac{1}{4}$ COMPARISON REPORT TO FIND WHAT OTHER CLAIMS OVERLAPPED ACRES AND MAPPED THOSE OUT ON A MAP. SEE MAP #1 ATTACHMENT. IT APPEARS THERE HAS BEEN DUAL FEES COLLECTED ON THE FOLLOWING ACRES:

PLEASE REVIEW THE ATTACHED SUPPORTING DOCUMENTS. THIS REQUEST IS NOT FOR A REFUND OF MONEY BUT TO CREDIT THEIR A/R AND REDUCE THE BALANCE DUE. WHEN THAT ISSUE IS RESOLVED THEY HAVE SOME CORRECTIONS TO MAKE ON THE P/U. SEE MAP #2 FOR THE CHANGES. THIS WOULD ADD AMENDMENT FEES OF \$120.00. THE FINAL TOTAL THAT WOULD BE DUE WITH THE OVERPAYMENT CREDIT AND AMENDMENT FEES WOULD BE \$417.00 WITH INTEREST DUE ON THE \$297.73 AT THE TIME OF PAYMENT.

PLEASE LET ME KNOW IF YOU NEED FURTHER INFORMATION AND/OR THE RESULTS OF YOUR REVIEW. AS SOON AS THE OVERPAYMENT ISSUE IS SETTLED I NEED TO MAKE THE REQUESTED AMENDMENTS FOR ALMO WATER COMPANY AND SEND THE CLAIMS TO BE SIGNED, NOTARIZED AND RETURNED TO THE FILE. THE FINAL PAYOFF WOULD BE MADE AT THIS TIME ALSO.

THANK YOU.

Almo Creek Delivery

Cordell Sheridan

Cordell Sheridan called as secretary of Almo Water Company regarding water delivery on Almo Creek. His specific question was if I had any information on the amount of water that was supposed to be delivered to North Almo for Jones according to the lawsuit. I looked through my AWC file and made sure that he was talking about the Almo Water Co -vs- Ivan Darrington lawsuit that concerned both the Stines Creek users and also addressed an issue of forfeiture regarding the exchange of North Almo water on property once owned by Louis Eames and now owned by Gary Jones.

Cordell said that he had a document that was titled the "Answer" but that it didn't have any specific delivery amounts on it. I described the Decree and the Decision and the Supreme Court Decision that upheld the decree that were in my files. He didn't think that he had any of those. At his request I sent him a copy of the Decree and Decision. I did not send him a copy of the Supreme Court Decision as it upheld the District Court Decree.

District 43D has hired a new Watermaster named Dave Ogren who is from out of town and wanted some information about how much water he was supposed to deliver to all the rights on Almo Creek. Cordell said there was some frustration because there didn't seem to be any real documents stating how much water was supposed to be delivered to all the rights. I told him that when the SRBA decree was issued there would be more concrete information about how much water, for what priority date and to whom on Almo Creek.

Cordell then asked me about the right that I did not allow Almo Water Company (in my recommendation for combined right 43-10823) as I determined that it was a duplicate right (re: right 43-373 duplicate of 43-390 as decreed in the 1928 Jobe Adams Decree). He said that they were still thinking there must be some reason why the Judge had it in the Jobe Adams and that they were trying to find something to prove they had that right. I explained that the Recommendations were to the SRBA Court, the Objection Period was up and that they needed to get a Motion to File a Late Objection to the Court if they wanted to object because if they didn't it would get decreed as I recommended it. He said they were working on that.

RE: Snake River Basin Adjudication (SRBA)
Claim 43-10823 - Almo Water Company

Dear Doug,

In response to the meeting that we held here on June 19th 2001, I have reviewed the basis for my recommendation of quantity for the above claim. This quantity represents the amount of 1879 priority water that will be decreed to Almo Water Company in the SRBA.

The two rights identified as the Almo Water Company/Johnston right 43-390 and the Belnap right 43-373 are acknowledged to be for the same place of use. Therefore, I remain confident that they represent duplicate rights and that only one of them, 43-390 for 1.9 cfs, should be included as a part of the above claim.

Because the places of use identified in the Jobe Adams decree for 43-374 in the name of Almo Water Company/Cahoon and 43-387 in the name of Cahoon are not exactly the same, I have reconsidered my original recommendation. The tracts included in the two old decrees overlap, and between the two of them a combined total of 200 acres are identified. Out of those 200 acres, however, there are a number of acres that lie above the extent of development using flood irrigation practices circa 1879. Using GIS software to calculate the acres from aerial photos and USGS topographical maps, I found that 138 of the 200 acres could have been irrigated.

In addition, another 39 acres of what is now owned by Curtis Durfee and what was presumably part of the Cahoon homestead, were included in the permit for license 43-2232 in 1918 and are included in my recommendation for the SRBA claim based upon that license. (See GIS maps enclosed). Note that the licensing permit also overlapped decreed lands to the north and south of the afore-mentioned 39 acres, which further confuses the actual intent of the claimants in 1928.

Using the accepted standard of 1 inch per acre, the two old decrees together would represent a total of 2.76 cfs. ($138 \times .02 \text{ cfs} = 2.76 \text{ cfs}$.) This would increase the quantity allowed under claim 43-10823 with a priority date of 1879 to 8.66 cfs, or 433 inches. Since both H. R. Cahoon Sr. and H.R. Cahoon Jr. deeded their water rights to Almo Water Company in 1907, there should be

no question that water rights developed in 1879 in the name of H.R. Cahoon are the property of Almo Water Company.

I believe that this amount, added to the 4 cfs recommended for claim 43-386 with a priority date of 1878, is still less than what you stated has been the diversion practice of the Almo Water Company for the past years. I understand that there may be some changes in the way the water master delivers the water based upon senior priority subsequent to this change. I can only tell you that I believe that this more accurately represents the historical development of the water rights held by the company.

A copy of the revised recommendation is enclosed. Please contact me if you have any questions about this or your other rights. Also, please advise me if you have retained legal council so that I may correspond with them appropriately.

Sincerely,

Vikie Hancock

Almo Water Company Claim 43-10823

Contact:

Candice McHugh, Dep AG

Background:

In meeting with the Almo Water Company during Notice of Error, they expressed that they did not agree with my conclusion that Jobe Adams decreed rights 43-374 and 43-387 were duplicate rights. Both of these rights are included in right 43-10823, which was filed as a combination of six rights based upon Jobe Adams decrees all with a priority date of 1879. They asserted that, because H.R. Cahoon as well as H.R. Cahoon Jr had deeded their water rights to AWC in 1907, there was no question that all decreed rights in the name of H.R. Cahoon should belong to Almo Water Company. I went over my findings and the basis of my conclusions with them (see note to file dated 10-20-00).

Subsequent to this meeting with Almo Water Company, I contacted Candice McHugh, Deputy Attorney General, and asked her to review the information I had found on the rights and give me her opinion of the status of the two decrees from a legal perspective.

Candice agreed that it was possible that there was a mistake made by the prior judge in including both water rights in question in the 1928 decree, but she also concluded that it would be difficult for IDWR to prevail in the assertion that they were duplicate rights when the place of use of each was not identical, but overlapping. Therefore, both rights should be included in my recommendation for 43-10823.

There remains a question of diversion rate, however, as decrees 43-374 & 43-387 identify a combined total of 200 acres and 4 cfs of water, but there are not 200 irrigable acres within the decreed tracts due to a large hill on the east side of the Cahoon homestead. There is also a question caused by License 43-2232 which also overlaps 60 of those same acres and covers 40 additional acres left out of the decrees but located in the middle of the property - the SWNW Sec 22.

Acres able to be irrigated using 1987 NAPP aerial photos and identified in decrees 43-374 & 43-387 with priority date 1879 = 138 acres (NWNW, NENW, SENW, NESW, NWSE Section 22 T15S, R24E). An additional 39 acres in the SWNW is identified in 1918 priority License 43-2233 making a total of 177 acres irrigated and represented as Cahoon rights in 1928.

138 X .02 = 2.76 cfs

177 X .02 = 3.54 cfs

Almo Water Company Claims

Contact:

Cordell Sheridan
Jim Sheridan
Brent Jones
Doug Ward, President
Ted Tracy
Bud Ward, Watermaster

The above persons representing Almo Water Company came to the office this date to discuss my preliminary recommendations for right numbers 43-386, 43-2232A, 43-4228A, 43-10797 & 43-10823.

They expressed concern that I had determined that two of the 1879 priority rights, 43-373 and 43-374, were duplicate rights and thus not included in their * claims. This reduced by 3.8 cfs the amount of water available to them with a 1879 priority date. They will attempt to find evidence that one or both of these rights should be included in their claims and that they have a priority date of 1879.

We also discussed the reason for my disallowal of beneficial use claim 43-4228A because they had never submitted proof of beneficial use. I explained that they needed to provide me with the years that the additional lands were first irrigated and I that affidavits from current or previous owners would be acceptable if enough details were provided to substantiate the date. I also told them that I was skeptical that more water was diverted onto these lands as all the water was supposedly licensed in 1918. Watermaster Bud Ward said that more than 3030 inches of water was available in Almo Creek at times.

We also discussed the Bruce Durfee claim to Stines Creek and the 1970 AWC vs Ivan Darrington decree as it affected Stines creek and the North Fork Almo and Edwards Creek rights.

** 43-373 & 43-374 were claimed as a portion of combined right 43-10823.*

Regarding: 43-386, 43-10797, 43-10823
Claims based upon decreed rights
Almo Water Company

The above claims are based upon rights decreed to Almo Water Company in the 1928 Jobe Adams Decree. The rights awarded to Almo Water Company in the Jobe Adams are based, with some modifications, upon rights decreed to the Company in the 1893 Lee Kirk v Bartholomew decree.

Both decrees state that 1 inch per acre is the duty of water in the decree. The Lee Kirk, in fact, states in the findings that 1 inch per acre has been awarded to the claimants in the decree.

The 1893 Lee Kirk awards a combined total of 1610 inches of water to claimants that subsequently pool their water and form Almo Water Company. The 1928 Jobe Adams Decree awards 1505 inches of water to Almo Water Company, breaking the awards out into rights which still bear the names identified with them in the Lee Kirk and preserving the individual associated priority dates.

Comparing the individual rights from both decrees, it is noted that some diversion rate awards are decreased and some are increased. We can only assume that the succeeding decree makes corrections to more accurately reflect irrigation use in 1928. There are obvious errors in both the Lee Kirk and Jobe Adams decrees, but by using the assumed superceding numbers, 1505 acres are included under the decreed place of use for Almo Water Company.

The above referenced claims are combined rites grouped by priority date. They have been investigated and corrections have been made for duplications of rights and other errors. See individual claim files for documentation. The places of use of the above rights have been calculated using the 1 inch per acre specified in the Jobe Adams decree and will limit each right within the PPU of the water company. There are also combined limits with the decreed rights and overlapping licensed right 43-2232A.

Almo Water Company

Dear Doug,

I have resolved several issues regarding the Almo Water Company Claims and wanted to give you a brief summary of how things stand now, and inform you of some additional information that the company needs to provide.

I have found discrepancies in some of the rights that were decreed to Almo Water Company in the 1928 Jobe Adams Decree. The first concerns right 43-391 identified as the Thomas King right. I believe that the legal description of the place of use in the decree is incorrect, as one of the forty-acre tracts listed is NENW Section 20, which is up on the Breusch Ranch and out of the Almo Water Company delivery system. After reviewing other documents, I believe this is a typographical error and that the actual place of use for this right was always within the company and rightly decreed to the company.

In the same area, however, is right 43-396 for 1.5 cfs which is identified in the decree as the George Graham right. The majority of the place of use of this right is also above the Almo Water Company delivery system and most is part of the Bruesch Ranch and being irrigated from Graham Creek. From a review of historical documents, I believe that only the portion of this right that represents water from Almo Creek, or 0.23 cfs, should have been decreed to Almo Water Company.

I found two instances that I believe represent duplicate rights. The first is the H.R. Cahoon rights, 43-374 and 43-387 that we discussed before. I agree with members of the Almo Water Company that there is only one right with a priority date of 1879 for the Cahoon property now owned by Curt Durfee, and that it is correctly decreed to Almo Water Company. Baring additional information, my decision is that 43-374 is not a valid water right and should not be recommended to either claimant.

The other duplicate right is represented by 43-373 and 43-390 and identified as the Belnap and Johnston rights. It is obvious that these are decreed to the same place of use, and that Belnap was a successor in interest to Johnson. There was also court testimony in 1964 that water represented by

the Belnap decree had never been delivered up to that time. The Johnston right (43-390) is a valid 1879 right for 1.9 cfs. The Belnap right (43-373) is not a valid water right. If Almo Water Company began delivering water according to the duplicate Belnap right after 1964, then a right for 1.8 cfs based upon beneficial use may exist with a 1964 or later priority date. Let me know if you wish to file on that.

One of the issues that took some time to investigate was the licensed right 43-2232A and how it relates to the various rights decreed to Almo Water Company in the 1928 Jobe Adams Decree. Because the licensed right was being permitted and developed at the same time that the Jobe Adams Decree was being initiated, it was unclear as to what acreage it was intended to include. It obviously included some of the lands decreed in 1893 and deeded to the company in 1907, but not all of them, and also included what appeared to be newly developed lands. It was also not clear whether the licensed diversion amount of 49.7 cfs included, or was in addition to, the previously decreed diversion amount. The license was issued in 1923, and when the Decree was final in 1928, the licensed and decreed rights were overlapping. By counting the overlapping acres only once, it gave me a fairly good idea of the maximum number of acres possibly being irrigated at the time of the 1928 decree, which was around 3580 acres. Some ambiguity results from the fact that the decree listed entire 40-acre tracts, even though a portion of the tract was uphill from the conveyance ditch. There also needs to be some clarification regarding acres that were originally licensed and decreed to Almo Water Company that lie outside of the current boundary of the water company.

In the 1989 SRBA claims, Almo Water Company listed 4402 irrigated acres. This brings me to the area of additional information that the company needs to provide. If indeed there are a total of 4402 acres now irrigated within the area administered by the company, acres were put under irrigation after 1928 that are not covered by either the decrees or the license. Up until May 1971, it was still legal in Idaho to develop rights to surface water without going through the permit process. As you know, in 1985 Jack Erickson represented the company in filing claim 43-4228 based on beneficial use for an additional 1120 acres and 20.8 cfs, claiming a priority date of 1918. At the time that this type of claim was filed, the Department required no proof of irrigation or diversion amount or of the claimed priority date. They became just a recorded claim needing further investigation.

By doing some simple math it appears that the claim for 1120 acres will be reduced somewhat, but to recommend any of the acres not licensed or decreed I need proof of when those acres were developed. It is most likely that it was done over a progression of time and may correspond to a ditch being added or lengthened or someone putting in sprinkler irrigation. The priority date of development of the additional acres is obviously sometime after 1928 because of the data mentioned previously, and it may take some investigating for you to come up with a date or progression of dates.

If I calculate one inch per acre for the 3580 approximate acres irrigated in 1928, it is 72 cfs. From everything I've seen and heard about Almo Creek, this is probably the maximum available from the creek. It is likely that the acres listed in the 1985 beneficial use claim represent an expansion of acres without an increase in diversion amount, as it seems apparent that all the available water was needed and used for the acres irrigated in 1928 by Almo Water Company and others, and only an increase in efficiency allowed for an expansion of acreage.

I have notes here at the office explaining how I came to the conclusions outlined above and would be glad to go over any and all of them with you. Knowing that you are busy, I've taken the liberty of sending copies of this letter to each board member to make the communication more efficient. I've been in contact with Mark Larson at the state office and he is working on modifying some of the information you noted on the large-scale map that he created, ie: adding Dennis Erickson's acreage to the company boundary and extending the boundary north to encompass more land around Brent Jones'. Mark should be contacting you about that and sending you an updated map.

I know you all hate doing any work that isn't from the back of a good horse. If you need any copies of the documents I have here, or information about what you need to prove when additional acres were developed, let me know. If you disagree about my conclusions regarding the decrees mentioned above, contact me any time and we can discuss it.

Regarding: Decreed Rights 43-374 and 43-387
1928 Jobe Adams Decree

Analysis of rights decreed in the Jobe Adams Decree as 43-00374 to Henry R. Cahoon and 43-00387 to Almo Water Company in the name of H. R. Cahoon. Almo Water Company claimed both rights as part of SRBA claim 43-10823. Curtis Durfee, who owns the place of use and is successor in interest to H.R. Cahoon, claimed 43-00374 in his own name as SRBA 43-11199.

Findings:

- All water decreed to Almo Water Company in the 1928 Jobe Adams Decree is identified separately by the name of the person that portion was decreed to in the 1893 Lee Kirk v Bartholomew decree. Any use of water developed after the 1893 decree is assumed to be included in the application for permit for license 43-2232 with priority date 1918.
- All water decreed in the Almo Creek section of the 1928 decree that is not decreed to Almo Water Company lists a source name other than Main Almo Creek, such as South Almo, North Almo or Edwards Creek. The names South Almo and Main Almo are interchangeable in local usage.
- Each of the two rights listed above has the same diversion amount and 1879 priority date. The listed places of use for the two rights are different, however they overlap in the E $\frac{1}{2}$ NW $\frac{1}{4}$ Section 22, where approximately half the tract is unusable side hill. It would be unlikely that two individuals would have perfected two separate rights to water there, and only one right in the name of H. R. Cahoon is appurtenant to the N $\frac{1}{2}$ NW Section 22 in the 1893 Lee Kirk v Bartholomew decree.
- Only one person named H. R. Cahoon appears in 1899, 1893 and 1903 documents relating to water or to Almo Water Company. But in 1906 H. R. Cahoon, Jr. appears along with his father in the Articles of Incorporation. He is listed as owning 4 shares while his father owns 11 $\frac{2}{8}$ shares. In 1907 both H.R Cahoon Sr and Jr sign the warranty deed conveying their water rights to Almo Water Company

43-10823

- The 1893 Lee Kirk decree awarded to H. R. Cahoon 160 inches of Almo Creek for 160 acres which included the side hill.
- The Jobe Adams awarded Henry R. Cahoon 100 inches of water from South Almo Creek on the same 160 acres identified in the Lee Kirk, and awarded AWC, for the H.R. Cahoon right, 100 inches from Main Almo Creek on 120 acres (80 overlapping as stated previously). The total for the Cahoon rights in the Jobe Adams is 200 inches (4 cfs) on a combined total of 200 acres. All lie within the boundaries of Almo Water Company today.
- Claimant Curtis Durfee contends that the acreage described in the Jobe Adams is in error and that one of the H.R. Cahoon rights should be appurtenant to the W½NW Section 22. Because there are numerous errors in the Jobe Adams decree it is difficult to determine if one has occurred, but it is documented that irrigation was occurring on the W½NW in August 1923 when the licensing field exam for license 43-2232 was done, and irrigation continues to this day.

In regard to the question of the proper owner of the rights, it is clear that if 374 and 387 are not duplicates, but represent two separate rights held by H.R. Cahoon Sr. or possibly H. R. Cahoon Sr. and H.R. Cahoon Jr., they are both appurtenant to land within the boundaries of Almo Water Company and both in the name of person's who signed a deed conveying their water rights to Almo Water Company in 1907.

Research into the basis for the Almo Water Company portion of the Jobe Adams decree, which is the Lee Kirk v Bartholomew decree, shows that 32.2 cfs of water is included in the various 1893 decreed rights which are subsequently deeded to Almo Water Company. In 1928 those same rights add up to 30.1 cfs. The two water rights with diminished diversion rates are the King right that went from 180 inches on 80 acres to a more reasonable 100 inches on 80 acres, and the H.R. Cahoon right that went from 160 inches to 100 inches. It is possible that this diminished diversion rate for Cahoon reflects the acknowledgement that it was only possible to irrigate around 100 acres of the 160 acre decreed place of use.

It is not known what property H.R. Cahoon Jr. farmed for which he owned 4 shares in Almo Water Company, and if these shares are represented in the Lee Kirk decree in a predecessor's name such as Heath or Paden who do not show up as signers of the warranty deed, but whose rights are included in Almo Water Company.

It is not known if it was intended that there be two rights included in the Jobe Adams with the same priority date on adjacent and overlapping lands in the name of H. R. Cahoon, or if this was a mistake. It is clear

that, because these lands are all in the name of a person enjoined in the Lee Kirk decree, and in part are the same lands enjoined in the Lee Kirk decree, that if a separate right had been developed in 1879 it would have appeared in the Lee Kirk decree.

It is my conclusion, therefore, that there is only one valid 1879 right in the name of H. R. Cahoon. Baring any information that between the 1907 deed and the 1928 decree Cahoon withdrew his water right from Almo Water Company, the right is correctly decreed to Almo Water Company. Irrespective of the fact that decreed right 43-00374 may more accurately describe the historical place of use, it does not represent a valid right and should not be recommended to any claimant in the SRBA. Any additional use of water from Almo Creek developed on the Cahoon lands post 1893 would be included in the Company's application for permit, and in fact, Cahoon land is included in the place of use for license 43-2232.

Regarding: Decreed Rights 43-00373 and 43-00390
1928 Jobe Adams Decree

Rights decreed in the Jobe Adams Decree as 43-00373 to Belnap and 43-00390 to Almo Water Company in the name of Johnston are duplicate rights. Evidence found:

- 1.) Similarity of elements of rights listed in decree.
- 2.) Belnap is a successor in interest to Johnston on property identified in decree.
- 3.) Testimony of Almo Water Company shareholders in 1964 agreement stating that water represented by 43-00373 was not recognized as valid and never delivered by watermaster.

Rights 43-00373 and 43-00390 are both claimed in the Adjudication by Almo Water Company with priority date of 1879.

- 1.) Water represented by 43-00373 began to be delivered as shares in Almo Water Company in 1964 as part of agreement between AWC and Matthews.
- 2.) Johnston deeded rights to 1879 water on his property to Almo Water Company for shares in the company in 1907.

At the time of agreement and conveyance of water represented by 43-00373 from Matthews to Almo Water Company, 43-00373 was not a valid decreed right, as it admittedly was a duplicate of 43-00390.

- 1.) The delivery of water represented by decreed right 43-00373 can only be claimed by Almo Water Company as a beneficial use right with a 1964 priority date.
- 2.) Decreed right 43-00390 can be legitimately claimed only by Almo Water Company, per the 1907 deed from Johnston.

Per Candice - AN agreement to convey a water right that is invalid does not validate the right. It only allowed AWC to include in it's system water that existed in 1964.

RE:
HARMASH WATER RIGHTS FOR
THE "CASTLE ROCK RANCH" IN
ALMO.

WALK-IN 06-17-1997 DURING MY AGENT DAY AT 11:15; CW. TOLD HIM THAT I KNEW OF CONFLICTS BETWEEN THIS PROPERTY OWNER AND OTHERS IN THE AREA OVER WATER RIGHTS.

I DESCRIBED OUR LATE MANAGER'S STATEMENTS TO ME ABOUT NEVER GETTING THE SITUATION UNRAVELED. I SAID THAT I HAD NO FIRST-HAND KNOWLEDGE OF THE PARTICULARS.

I ASKED IF HE COULD STOP BY THE OFFICE TOMMORROW AND I WOULD HAVE SOME PAPERWORK FOR HIM.

MY REVIEW DID TURN UP SEVERAL COMPETING CLAIMS AS I HAD DESCRIBED TO HISAW. IN ADDITION, HIS PROSPECTUS HAD MISSED AN IRRIGATION RIGHT IN THE RECITAL. I ALSO NOTED SEVERAL GNERALIZATIONS REGARDING WATER USE IN THE TEXT AS TO NUMEROUS ADDITIONAL SPRINGS THAT COULD BE DEVELOPED ON THE PROPERTY.

THE TEXT ALSO STATES THAT ALMO WATER COMPANY SHARE (9.5) EQUALS 26 HOURS A WEEK OF "ALL THE WATER YOU WANT, PLUS THE RANCH CAN TAKE ALL THE WATER IT NEEDS FROM STYNE CREEK."

I PREPARED COPIES OF AJ PROFILES FOR EACH CLAIM FILED BY ROBERT HARMASH AND DID A WRQ11 REPORT FOR EACH CLAIM AS WELL TO SHOW THE FILINGS BY ALMO WATER COMPANY AND THE COMBINING OF RIGHTS IN ANOTHER FOFMART. I COPIED THE WATER RIGHT LISTING FROM THE PROSPECTUS AND NOTED THE MISSING WATER RIGHT ELELMENTS ON THE SHEET FOR HIS USE.

I NOTED THE MENTION OF THE "CULINARY" SPRING FLOWING 42 GPM TO SHOW THAT DOM/STK USAGE IS LIMITED TO 13,000 GPD.

I CAME IN EARLY 06-18-97, WEDNESDAY, TO FINISH UP MY RESEARCH AND TO MARK UP EXHIBITS. I CALLED HISAW'S VOICE MAIL AT HIS OFFICE AND LEFT A MSG REGARDING MY FINDINGS AND ASKING HIM TO CALL ME INSTEAD OF COMING BY TO PICK UP THE RESEARCH. DURING A BREAK FROM COMPUTER WORK I CALLED HIS OFFICE AGAIN AT 10:20 AND SPOKE WITH HIS SECRETARY WHO SAID SHE WOULD PAGE HIM AND GIVE HIM THE MSG.

HE CALLED ME AT 4:45 TO ASK WHAT I HAD FOR HIM. I DESCRIBED THE CONFLICTS, COMBINED RIGHTS AND COMPETING CLAIMS PLUS THE MISSED IRRIGATION RIGHT.

HE ASKED IF OTHER THAN WHAT I HAD JUST DESCRIBED TO HIM WERE THERE ANY OTHER "BOOGERMANS THAT JUMPED OUT AT ME DURING MY REVIEW". I SUGGESTED THAT HE CALL AHEAD TO BE SURE I WAS IN THE OFFICE AND STOP IN TO GO OVER THE RESEARCH WITH ME.

ALL EXHIBITS PROVIDED TO HISAW HAVE BEEN COPIED/HIGHLIGHTED AND MARKED JUST AS THEY WERE FOR HIM. THEY HAVE BEEN PUT INTO THE HARMSH CLAIM FILES FOR REFERENCE. I WILL PUT A COPY OF THIS ENTRY INOT THE ALMO WATER COMPANY CLIAM FILES FOR A CROSS-REFERENCE.
