The couple wanted to discuss the rights held by Beckett. We discussed them, the delivery system, and the water use from Green Creek in general. They are considering purchasing the property.

Nature of Contact office visit

Substance of Communication they may be interested in buying Beckett's place out by Elba and were doing some research. Have them copies of AJ and WR proofs, and did some queries on the Green Canyon Creek to see who else was claiming it. Then it turned out KKC is very familiar with the area so he was able to talk to them specifically about the ditch system and property. We also gave them an O/C form in case they buy the place and a claim form and instructions in case they decide to file on the storage reservoir on the property...

SUBJECT: FILING LATE CLAIMS

He missed filing during first round and second round claims taking. He elected to file three claims, A4300211, 00212, AND 11134. We discussed uses and requirements for water rights in his trying to decide what uses to claim. He elected to file on the decreed rights and one beneficial use right from a spring. We discussed another spring west of the claimed right but he decided to not file at this time. We also discussed irrigated ground east of the decreed ground but that use was not claimed. This may need a claim later as it sounds like there may be a beneficial use on that ground. I forgot to verify his wishes for this ground after lengthy discussions on general water right and adjudication issues and the filing of the other three uses.

Did not find any indication of irrigation or spring development. Mr. Mitten indicated that he did not know about any irrigation as described by this Claim that Ray Beckett file.

Mr. Mitten wishes to protect the stock water use of a spring within the same general area of this claim. I am therefore recommending this right for an instream Stockwater use at the spring location shown to me by Mr. Mitten.
